

# LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Union Elementary School District

CDS Code: 43697080000000

School Year: 2024-25

LEA contact information:

Sarah Jellin

Associate Superintendent, Learning & Innovation

jellins@unionsd.org

408-377-8010

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

## Budget Overview for the 2024-25 School Year

This chart shows the total general purpose revenue Union Elementary School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Union Elementary School District is \$73,611,611, of which \$61,854,812.00 is Local Control Funding Formula (LCFF), \$8,036,864.00 is other state funds, \$1,878,314.00 is local funds, and \$1,841,621.00 is federal funds. Of the \$61,854,812.00 in LCFF Funds, \$2,456,836.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Union Elementary School District plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Union Elementary School District plans to spend \$86386967 for the 2024-25 school year. Of that amount, \$6,991,578.00 is tied to actions/services in the LCAP and \$79,395,389 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

\$86,386,967.00 for the 2024-25 school year. Of that amount, \$6,991,578.00 is tied to actions/services in the LCAP and \$79,395,389.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General operational costs such as salaries and benefits for all staff serving all students, supplies, professional services, utilities (Gas, Electricity, Water, and Disposal Services), equipment purchases, transportation costs, and routine repairs and maintenance costs of facilities.

## Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Union Elementary School District is projecting it will receive \$2,456,836.00 based on the enrollment of foster youth, English learner, and low-income students. Union Elementary School District must describe how it intends to increase or improve services for high needs students in the LCAP. Union Elementary School District plans to spend \$2,691,521.00 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Union Elementary School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Union Elementary School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Union Elementary School District's LCAP budgeted \$3,189,074.00 for planned actions to increase or improve services for high needs students. Union Elementary School District actually spent \$3,161,586.00 for actions to increase or improve services for high needs students in 2023-24.

The difference between the budgeted and actual expenditures of \$27,488 had the following impact on Union Elementary School District's ability to increase or improve services for high needs students:

We ended up spending \$27,488 less than we had planned. This was mainly due to lower staffing costs because of open positions or fewer substitutes needed. We also spent less on parent education, but we were able to offer more classes for our English Learner Families. There was also less interest in Rosetta Stone from families. Despite the difference in our planned expenditures, we were still able to carry out all of our planned actions.

Action 2.2 Professional Development - Estimated actual is \$17,441 less than budgeted.

Action 2.4 Instructional Capacity Building - Estimated actual is \$84,922 less than budgeted.

Action 3.3 Behavior Support - Estimated actual is \$49,174 less than budgeted.

## Goals and Actions

### Goal

Goal #	Description
1	Provide the appropriate conditions to support teaching and learning for all students by: recruiting, hiring and retaining a diverse group of highly qualified staff who are skilled in closing the achievement gap and in creating an enriched, social-emotionally responsive and academically rigorous future ready learning environment for all students; maintaining facilities in good repair; and ensuring access to instructional materials and technology. (State Priority 1, 6)

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Reviewing our goal and metrics Union School District had overall success in Goal 1. Over the last few years, Union School District has changed our perception of survey providers. We were pleased to see the survey results from the staff, which show that the work we have been doing to increase transparency and communication with staff members has been successful. One of the challenges we have faced over this three-year LCAP was finding the right survey for our district to be able to give us a way to get community and staff input in a way that was easy for the survey takers as well as providing information that would be valuable to the district with useful analysis.

Reviewing our actions this year we had full implementation of our new Social Studies/History curriculum, and completed a K-8 Science pilot and adoption with the start of the new curriculum set for the start of the 2024-25 school year. Our student senate has been such a great addition to our school district. We were able to have two surveys this year with students to get their feedback on the brunch and lunch offerings, we were also able to train our food services staff on preparing more scratch cooking and offering new choices to students such as freshly baked bread, hummus plates, fresh tacos, and more. In our recent conversations with our student senators, they have noticed the difference and were very happy that their voices were able to make positive changes in the district. The student senate also gave a lot of feedback on the cleanliness of bathrooms. Through that, we updated our action to include a specific focus on bathroom cleanliness; our Manager of Maintenance and Operations has created a new protocol and process to create continuity in expectations for cleanliness district-wide.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 1.1 Funding was only spent this year for the Santa Clara County Teacher Recruitment Fair, which resulted in actual costs lower than planned.

Action 1.2. This year money was spent for teacher and staff recognition events and opportunities throughout the year, this was not something that was budgeted through LCFF but funds were moved and the costs ended up coming out of LCFF and that is why there is a cost when it was originally budgeted at 0.00.

Action 1.4. With the growth of TK classrooms in our districts we spent more money on flexible furniture for our new TK classrooms this year.

Action 1.5: Technology over budgeted the costs for the device refresh. Devices were refreshed according to the plan but did not cost as much as anticipated.

Action 1.6: Due to inflation, the cost of supplies for cleaning and maintaining facilities has increased, and more money was spent on supplies.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Overall, the actions aligned with Goal 1 were effective. We successfully met all of our actions. It is important to highlight a few actions: one was amended from previous years, and one was added. Action 1.6 Maintain facilities had an additional component added last year with a focus on the bathrooms at the school site. This amendment was added based on feedback from our student senators across the district. During our in-person visits with our Student Senators in February and March, we asked if they saw improvement in the bathrooms, which they did. They also stated that they believe some of the issues with the bathrooms being messy now fall on the students and that will be addressed by each site through Positive Behavior Interventions and Support and their targeted lesson plans for that area. Union School District's Manager of Maintenance and Operations also created a more detailed outline of bathroom cleaning expectations this year, and all custodial staff were trained and had a checklist to complete each time they cleaned the bathrooms, throughout the day. Another new and very effective action was action 1.8, student lunch feedback. We have heard from our student senators and educational partners about the lunch choices and the provision of healthier options. This year, we have begun semi scratch cooking to provide more fresh food; we are providing more vegetarian options and students are provided additional food options each day. Students in grades 3rd-8th take a survey two times a year to provide feedback on the breakfast and lunch options, and that feedback is shared with our food vendor and cafeteria staff.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

For the 2024-25 LCAP, our Goal 1 will not change, and there will be some amendments and additions to our actions. We will remove action 1.4 around flexible furniture. We feel that this action does need to be in the LCAP, and furniture gets updated or added as needed. We will be amending action 1.3 as we have completed our Social Studies/History and Science Pilots and will be updating this action to look at new English Language Arts Curriculum in the 2026-27 school year. We will also be amending action 1.7 to have a clearer description and include more opportunities for student feedback. There will be an additional two new actions. One action will focus on attendance and our increased efforts to reach out to families as well as providing on-going training to staff around ways to support student attendance. We will also be adding an action around lunchtime supervision to ensure that staff are provided training not only by the site, but from the district a minimum of two times per year in order to build consistency of process and procedure across sites.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
2	Raise the achievement of all students, while closing achievement gaps in identified student groups, including English language learner, low-income, foster youth and students with disabilities, through rigorous differentiated instruction that is based on state standards, culturally responsive and develops students' Collaboration, Communication, Creativity, and Critical Thinking skills. (Priority 2,4,7)

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Union School District was successful in carrying out Goal 2. Through diligent efforts and collaborative work from all stakeholders, we have achieved in advancing educational excellence and equity within our schools. We set measurable targets to gauge our progress in improving student achievement and outcomes across various domains, including academic performance. Utilizing data analytics and assessment tools, we continuously monitored student progress, identified areas for improvement, and adjusted instructional strategies accordingly. This data-informed approach allowed us to provide targeted interventions and support to students who needed additional assistance. We remain committed to continuous improvement and innovation in education. Moving forward, we will build upon our successes, address any remaining challenges, and strive to ensure that all students have equitable access to high-quality education and opportunities for success.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

While our CAASPP data shows that we still have work do with our significant subgroups, overall we are proud of the strides we've made in accomplishing our Goal 2 actions. Our biggest challenges in meeting our actions in this goal are twofold: though improving, teachers have had less interest to attend paid/optional after school professional development sessions as they once were prior to the pandemic. With this in mind, there were four actions in this goal where our budgeted expenditures did not meet our actual expenditures.

Action 2.1: The expenditures were higher in school based interventions. We started our intervention programs earlier this year, which increased the cost of staffing from what was originally budgeted.

Action 2.2: Professional Development, was far less than we had budgeted. While we have three dedicated PD-Professional Development days throughout the school year, we do not have any other contracted times to offer PD-Professional Development to teachers. Because of this we offer optional, but paid, PD-Professional Development after school or during the school day, by hiring subs to release teachers to attend. Sometimes we end up with fewer subs than needed so teachers aren't able to attend the offered trainings. For the paid/optional trainings, we were hopeful more people would attend than actually did. For these reasons, we did not spend all of the money we set aside for this action.

For Action 2.4 there was a discrepancy in expenditures because we were able to partially fund a Teacher on Special Assignment using an alternative, one time funding source. We have aligned our New Teacher Project (mentor program for first and second year teachers) with our LCAP Action 2.4.

Action 2.5 This year, we had more new teachers than anticipated, thereby costing more than we had previously thought.

Action 2.6 describes our goal to continually increase our Science Technology Engineering Arts and Math (STEAM) offerings and experiences for all students. This year, we rolled out three new "STEAM kits" for each grade level and plan on adding an additional three next school year as well. Our STEAM labs are continually inventoried and are well stocked. This being said, we overestimated the cost of materials for the labs, and the kits didn't end up costing as much as we anticipated.

#### An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

We are very proud of the work that has been done for action 2.1. Starting school-based interventions at all school sites has been a goal of the Union School District. Starting in the 2022-23 school year we were able to have reading interventions at all of the elementary school sites, both using a consistent program and tracking data. During the 2023-24 school year based on data of our learners we saw the need to include phonics instruction in the intervention process for some of our learners. We were also able to implement math interventions at the elementary and pilot a math intervention program at the middle school level. Our data shows that when we look at the percent of students in the elementary sites that are in interventions, we are within the 5-10% of students in Tier 2. Our school sites look at data in nine week cycles to determine when students need to move up or out of interventions and which students need to have access to those interventions. The breakdown of students in reading interventions by school site is as follows: Alta Vista 5%, Carlton 6%, Guadalupe 7%, Lietz 12%, Noddin 6%, and Oster 4%. We know that Lietz is above the 10% threshold and we are working with the site on identifying need and classroom interventions to support student learning.

Union School District has continued to show progress in supporting teachers by providing professional development and coaching for our instructional staff (both certificated classroom teachers and classified intervention staff) who teach our English Learners.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As our LCAP Educational Partners team reflected on our current plan and reviewed survey data and stakeholder input, we are going to make the following changes to Goal 2:

- Amend Action 2.1 to solely address elementary interventions in ELA-English Language Arts, math and ELD-English Language Development
- Add a new action to solely address new Middle School interventions in ELA-English Language Arts, math and ELD-English Language Development that we plan to implement beginning next school year
- Amend Action 2.4 to more specifically address how our English Learner Teacher on Special Assignment who will assist teachers in teaching and supporting their English Learner students and to use data informed decisions when lesson planning
- Amend Action 2.6 to indicate that we will continue purchasing materials for our STEAM labs and kits while also layering in additional Project Lead the Way classes at both of our middle schools
- Add a new action to indicate our plans to further our instruction around Digital Citizenship and Safety while working with teachers and administrators to determine how to best balance students' use of technology while emphasizing the 4 Cs (communication, collaboration, creativity, and critical thinking) when they are using technology

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
3	Educate the whole child by providing integrated social-emotional, behavioral and mental health support systems to ensure that all students develop self-regulation skills, social responsibility, and respect for themselves and their school, community, and the world. (Priority 5,6)

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Suspension Rates	DataQuest - Spring 2020:  All Students: 0.5% English Learners: 0.4% Socioeconomically Disadvantaged: 1.7% Students with Disabilities: 1.5% African American: 0.0% Hispanic: 1.6% White: 0.2%	DataQuest-Spring 2021  All Students: 0.0% English Learners: 0.0% Socioeconomically Disadvantaged: 0.0% Students with Disabilities: 0.0% African American: 0.0% Hispanic: 0.0% White: 0.0%	DataQuest Spring-2022  All Students: 0.8% English Learners: 1.1% Socioeconomically Disadvantaged: 3.7% Students with Disabilities: 2.8% African American: 1.6% Hispanic: 2.3% White: 1.0%	DataQuest Spring-2023  All Students: 0.6% English Learners: 0.6% Socioeconomically Disadvantaged: 1.7% Students with Disabilities: 1.2% African American: 6.0% Hispanic: 0.9% White: 0.7%	Maintain <= 3% suspension rate for all subgroups and an overall rate <= 2% for All Students.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall there were not any substantive differences in planned actions and the actual implementation of these actions. This goal is an important to our district as it supports students, not just in academics but supporting the whole student. We have done a lot work this year getting all sites on board and trained with PBIS-Positive Behavior Interventions and Support. This was definitely a success as we have four schools in year two implementation and four schools in the initial planning stages. PBIS will provide the consistency of expected behaviors across all the schools. Another success is our student senate. We launched this in the 2022-23 school year, and it has grown since then. We have added another whole group meeting this year with a total of four group meetings and have held individual meetings with all teams. Gathering student voice is crucial as the students are the ones experiencing everything first hand. Being able to show them where we have amended or added actions due to their feedback has let them see how important their voices are. One of the challenges this year was with staffing. We have been unable to fill all of our Behavior Interventionist positions which are crucial to our students that need Tier 3 supports. This an area that we are continuing to focus on as we look at ways to recruit more people interested in behavior support positions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 3.1: All social-emotional learning curricula had been purchased in previous years for school sites. Due to some school sites adding or changing their SEL curriculum from Second Step to Kimochis there were increase costs covered by the district.

Action 3.3: A behavior Interventionist position was briefly vacant during the school year; a replacement has not been found which is resulting in lower actual cost than budgeted.

Action 3.3: We did not have as many teachers as anticipated sign up for after school professional development. We were able to offer quite a few during our professional development days which offset the costs of having substitute teachers.

Action3.4: While this action is a retired action and the school sites were covering the costs of recess activities, there was a school site where we had to cover some of the costs of recess supports. This was an action with 0.00 planned budget and the district ended up spending under 1,179.00 of a school sites costs.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Union School District has continued to make growth in Goal 3. One of our initial actions for the 2021-22 school year was the implementation of a Social Emotional Learning-SEL curriculum at all school sites. This action has been achieved, and all school sites are in either year 2 or year 3 of the SEL curriculum they have chosen to implement. After COVID, we saw an increase in the percent of students that qualified as Chronically absent. We have targeted outreach to families that are getting close to that mark throughout the year by providing letters and setting up conferences with Site Administration. We also offered a parent night with the Director of Student Services and the Truancy District Attorney. As we look at our attendance for this year, we are seeing a decrease in our chronically absent students, and the outreach and targeted support for those students is showing improvement. We also saw a decrease in our suspension rates from 2022 to 2023 from data via Dataquest. Our work with MTSS-Multi Tiered Systems of Support and making sure that Tier 1 structures are in place for supporting students is showing positive results and helping to create consistency across the district.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As our Educational Partners team reflected on our current plan and reviewed survey data and stakeholder input, we are going to make the following changes to Goal 3:

Amend Action 3.3 to have a broader scope for Positive Behavior Intervention and Support (PBIS) across the district.

Remove 3.5 around creating a student senate. This group has been created and meeting for two years; we will continue moving forward with this stakeholder group.

Add Action 3.5 This action is around ensuring we incorporate student voices beyond our student senate.

Add Action 3.4 Professional Development for Behavioral Techniques. This action supports teachers with preventative behavioral techniques and de-escalation strategies.

Add Action 3.6 around increasing student's sense of belonging on campus and in their community. When talking with our student senate groups, they have expressed the desire to have many opportunities and ways for students to connect with one another. Our California Healthy Kids Survey shows that students need support and options available to them. We will increase student checks in middle school through Panorama, which will provide in-the-moment data to the sites and add an action to increase student engagement in the community through activities that support the school and the surrounding community.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were not substantive differences in planned actions and the actual implementation of actions. We had great success by adding Language Line for translation services. In over a year, we doubled the amount of calls that were made. This is key in ensuring we are connecting with multi-lingual families and sharing how students are doing, as well as providing the connection if there are any student concerns. We have been able to provide more parent education classes, especially with the addition of the Adult English Learner classes. We continue to work to make sure communication is transparent and that we are sharing with families and the community on a regular basis so that they understand the programming in the district. Our community liaison does an amazing job connecting with families and ensuring that they are connecting them to resources they need.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 4.1: The costs that we had anticipated for the parent education did not come in as high as we had expected. We did add more classes this year but costs came in lower than anticipated.

Action 4.2: The use of Language Line has doubled in usage from the 2022-23 school year to this school year. Therefore, the cost has has an increase over the planned expenditure amount.

Action 4.3: The small difference of 1,120.00 was due to not purchasing as many Rosetta Stone Licenses as anticipated. The need for licenses was lower than we anticipated.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Union School District has continued to make efforts to improve our communication and connection with families. Language Line was introduced in the 2022-23 school year as a way to increase communication with our families that speak another language besides English. Our goal by the end of this LCAP cycle was to have 100 calls a year made. We currently have tripled the amount of calls, which means a higher connection rate with our families who speak another language besides English. We have provided multiple opportunities for parents to engage in and learn what schools are doing to support their students and provide opportunities for parents to learn. This year, parents were able to participate in learning about the dangers of drugs and tobacco through Tobacco Use and Prevention Education-TUPE, participate in learning how to help keep students safe in a digital environment, learn about the Social Emotional Learning Programs, Spanish Social, and the importance of Attendance. This year, we are very excited to be offering two Adult English classes for beginners and those more intermediate/advanced, and we look forward to continuing this in years to come.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Moving forward to the 2024-25 LCAP we will be removing the action around Rosetta Stone as it is underutilized. We will be adding a goal around our District Wellness Coordinator who helps to organize outreach opportunities for our families and plans district wide events to help show families the resources that are available in our community.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
5	Address the underlying systemic conditions leading to the significantly disproportionate identification of Hispanic students for special education assessment under Specific Learning Disability (SLD). (Priority 8)

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

We are pleased to report that we made significant progress on all of our Comprehensive Coordinated Early Intervening Services (CCEIS) Plan actions which make up Goal 5 of our LCAP. Aside from filing required quarterly progress reports to the California Department of Education (CDE) regarding our actions to address the underlying systemic conditions leading to the significantly disproportionate identification of Hispanic students for special education assessment under Specific Learning Disability, we also had an onsite visit from our California Department of Education (CDE) CCEIS consultant who afterward shared a number of accolades and positive feedback with us regarding our implementation of the plan. One addition that we made this year to our practice was the ongoing monitoring of student achievement data for those that are specified as part of our Target Population in our CCEIS plan, with a data tracking sheet that we

developed, to ensure that this subgroup continues to make progress and to intervene if/when their progress stalls. This has been a very successful addition to our practice and we will continue this system moving forward.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For Goal 5.11, we did complete this LCAP action and purchased phonics curriculum not only for Kindergarten teachers, but for 1st and 2nd grade teachers as well. We were able to supplement the purchase of this curriculum with other one time and grant funds thereby not exhausting the entire amount that was originally allocated.

The remainder of the allocation for Goal 5.12 (CCEIS/MTSS Teacher on Special Assignment) will be spent on the TOSA salary by the end of the school year.

Goal 5.13 is allocated to registering teachers for a 20 hour self paced course in Guided Language Acquisition Design (GLAD) and paying them their hourly rate to participate in the course. Since this is an optional training (taken outside of teachers professional workday) we did not have as many teachers register as we had allocated for or anticipated, and therefore did not use the total funds set aside.

For Goal 5.14, we had allocated enough for two teacher leaders per school site for the English Learner Committee, but were only able to find one teacher per site for this paid after school opportunity.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

We have not yet met our Target Rate of at or below 3% of identifying Hispanic students for Specific Learning Disabilities, so we have not met our ultimate goal. However, CDE identified us as a district eligible for an "abbreviated" CCEIS Plan #4 in which we are allowed to continue implementing our identified actions from Plan #3 for two years (instead of writing a new plan every year.) This includes continuing professional development in the areas of English Language Development (ELD), Tier I instruction, differentiation, inclusion and engagement; maintaining English Learner teacher leaders at sites and partially funding a Teacher on Special Assignment (TOSA) who will monitor progress of our CCEIS Target Population students and support teachers who have this target subgroup of students in their classes by identifying and modeling early intervening best teaching practices and via professional coaching.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Our 2021-24 LCAP included goals from our first three CCEIS Plans. Now that those plans have expired and we are currently working within our two-year, CDE-approved CCEIS Plan #4. We will sunset the actions from our first three plans and only include actions from our current

plan. These include: Maintaining English Learner Teacher Leaders at each school site, partially funding a CCEIS Teacher on Special Assignment and continuing to provide professional development for teachers in the areas of ELD, Tier I instruction, differentiation, inclusion and engagement. Our progress for this goal and related actions will be monitored by the California Department of Education via progress reports that we are required to submit quarterly.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education  
November 2023

# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Union Elementary School District	Sarah Jellin Associate Superintendent, Learning & Innovation	jellins@unionsd.org 408-377-8010

## Plan Summary [2024-25]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The Union School District is a high-performing TK-8 state-funded public district located in Silicon Valley, serving students in San Jose, unincorporated southwest Santa Clara County, and some areas bordering the town of Los Gatos. The district encompasses seven square miles of single-family and multiple-unit homes. Our mission is to enrich the community through learning. We are dedicated to children: to involve the community, to anticipate challenges, to take advantage of opportunities, and to guarantee vital skills for all our children to pursue lifelong learning and become productive citizens.

We have eight schools: six TK-5th grade elementary schools and two 6th-8th grade middle schools. Our schools serve 5482 students, 41% of whom are Asian, 16% Hispanic, 31% White, and the remaining 12% in other categories. Our enrollment has remained relatively stable over the last three years.

Each of our schools is a California Gold Ribbon School, recognized for the outstanding educational programs and practices in our district. In addition, our schools continue to be identified for their excellence. Seven of our schools, Alta Vista, Carlton, Guadalupe, Noddin, and Oster, were honored in the 2022-23 school year as California Distinguished Schools, and Union Middle and Dartmouth Middle were recognized as California Distinguished Schools in the 2023-24 school year.

Our Union School District family is made up of 246 teachers with 286.79 teachers. We also have 214.92 classified staff and 35.00 management and confidential who together support average class sizes of 12:1 in TK, 24:1 in K-3 and 29.5:1 in grades 4-8.

Union School District offers a range of educational programs to meet the needs of all students. The district provides exceptional education opportunities, including award-winning Middle School band programs, Project Lead The Way (PLTW) STEM courses, integrated Science, Technology, Engineering, Art, and Math (STEAM) elementary programs in our state-of-the-art the-maker spaces, and our excellent Special

Education services. We believe in the importance of providing a whole child learning experience focused on building a foundation of excellence for our community.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Union School District continually monitors our successes and areas for growth through data provided on the California State Dashboard and with locally collected data. We are proud that in the areas of English Language Arts and Mathematics, as a district, we remain at the highest level indicator, blue. We are also proud that our suspension rate has decreased, and we are now at the green indicator. In addition, we have continued to meet Standard Met for all local indicator metrics, including Basics: Teachers, instructional materials, facilities; Implementation of Academic Standards; Parent and Family Engagement; Local Climate Survey, and Access to a Broad Course of Study.

Utilizing the dashboard, we do have areas needing improvement. Four of our school sites were at the lowest performance- level red for chronic absenteeism within different student groups: Carlton (Low Socio Economic), Noddin (Hispanic and Low Socio Economic), Lietz (English Learners, Hispanic, and Students with Disabilities), Dartmouth Middle School (Students with Disabilities) and Union Middle School (White and Low Socio Economic) and overall as a District our Students with Disabilities and students experiencing homelessness. To address this, we will implement a positive attendance campaign and targeted attendance interventions by coordinating various resources provided by staff, including our community liaison, counselors, district wellness coordinator, Extended Care, district nurses, site staff, and our student services director. Attendance will be monitored through an attendance compliance system.

Another area of focus was specific to Dartmouth Middle School, whose students were in the lowest red indicator on the Dashboard within the following areas: English Language Arts (English Language Learners and Students with Disabilities) and Mathematics (Hispanic and Low Socio-Economic). To address this, we are building continuity across our middle school sites to ensure interventions for English Language Arts and Mathematics are available to students within these targeted subgroups. Support for implementing and monitoring these interventions will be provided through a Teacher on Special Assignment.

Overall, our suspension rates are green, but within that, our African American student population is red. To address this area of need, we will continue implementing Positive Behavior Supports and Interventions (PBIS) while continuing our equity work with all staff to identify biases in their practices and ensure that we are providing all students with opportunities for restorative practices before moving to suspension.

## Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not Applicable

# Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

## ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Not Applicable

## ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not Applicable

## ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not Applicable

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
LCAP Educational Partners Committee	Attendees at these meetings included community members, classified staff, certificated staff, certificated management, classified management, UDEA representation, and CSEA representation. The meetings were held to review the LCAP and the process the district takes to gather feedback and update goals and actions. These meetings took place on November 6, 2023, February 26, 2024, April 1, 2024.
Student Senate	Attendees at these meetings include 4th and 5th graders from the six elementary sites and 6th, 7th and 8th graders from the two middle schools. All student senator meetings took place on Zoom on September 22, 2023, November 9, 2023, and February 2, 2024. Individual Site Student Senate meetings took place at Alta Vista on January 26, 2024, Carlton on February 29, 2024, Leitz on March 1, 2024, Dartmouth Middle School on March 5, 2024, Noddin on March 6, 2024, Oster on March 8, 2024, Union Middle School March 11, 2024, Guadalupe on March 14, 2024. The whole group meetings were to discuss how students were collecting feedback at their sites for areas of improvement and the steps used to identify how to address them. The individual site meetings were to review the LCAP, receive feedback on the goals and actions, and to discuss what changes were made in the last LCAP due to their feedback.
Community and Staff Feedback	A survey was sent to all staff and community members. Within this survey was a specific section related to the LCAP and the 8 state priorities. That data was shared with our administrators and LCAP

Educational Partner(s)	Process for Engagement
	Educational Partners Committee who reviewed current Goals and Actions and provided feedback on amendments, deletions, and new actions. The survey went out at the end of February 2024 and was available for two weeks.
Site Administrators	All sites shared information about what the LCAP is including the process for updating and sharing the progress on metrics and actions for the new template and adoption process. Meetings were held for the community and staff at either a Principal Coffee or Home and School Club meeting during the months of February and March of 2024.
SELPA	SELPA consultation on 5/16/24. The LCAP draft was shared and then feedback was given on actions in goals.

#### A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Our district has worked throughout the year to gather Educational Partner feedback in preparation for writing our new three-year LCAP. Three key groups have met and provided input in a variety of ways. This includes our Educational Partners LCAP Committee, which comprises certificated and classified staff, community members, parents from our Hispanic subgroup, and parents representing both the elementary and middle school levels. Input was also gathered from our District English Learner Advisory Committee (DELAC) and our Student Senate (made up of 4 students from each school site). This feedback was provided through in-person meetings, meetings over Zoom, and through staff and parent/student surveys. We used all of the input and survey data to guide our activities and discussions during our LCAP Educational Partner meetings, which eventually led us to prioritize the actions that we deleted, amended, or added to our LCAP. Overall the following changes were made based on our Educational Partner Feedback:

Based on LCAP committee feedback:

A new action on chronic absenteeism was created to include a positive attendance campaign, the coordination of resources, including the addition of Extended Care, and a way to track and monitor progress

A new action was created for the implementation of middle school interventions with an emphasis on targeted subgroups

A new action was created around lunchtime supervision

A new action was created around digital citizenship, safety, and the balance of technology with other instructional methods

The STEAM action was amended to include increased Makerspace usage, the number of kits supplied, and that materials will be maintained and noting that middle schools will implement new Project Lead The Way units

Action 2.4 was amended with more emphasis on differentiation for all students with a focus on English Learners and opportunities for enrichment

An action was created to provide professional development to prevent and deescalate disruptive behavior

An action was created to increase student belonging by connecting with the community through various projects

Based on LCAP committee and Student Senate feedback:

The action on elective offerings was amended to incorporate student's voice

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	Provide the appropriate conditions to support teaching and learning for all students by: recruiting, hiring and retaining a diverse group of highly qualified staff who are skilled in closing the achievement gap and in creating an enriched, social-emotionally responsive and academically rigorous future-ready learning environment for all students; maintaining facilities in good repair; and ensuring access to instructional materials and technology.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Union School District developed this goal because it is important for our district to create an educational environment where all students can thrive, it is essential to provide conditions that support diverse and high-quality teaching and learning experiences. This involves several key strategies: recruiting, hiring, and retaining a diverse group of highly qualified staff; maintaining facilities in good repair; and ensuring access to instructional materials and technology. A diverse teaching staff brings a variety of perspectives, cultural backgrounds, and experiences, which can enrich the learning environment. This diversity helps in addressing the varied needs of students from different backgrounds and ensures that all students feel represented and understood in their school community. Highly qualified staff are skilled in implementing strategies to close the achievement gap. They use evidence-based practices to support students who may be struggling and to challenge those who are excelling. Their expertise is crucial in creating an equitable learning environment where all students have the opportunity to succeed. Well-maintained facilities are essential for the safety and well-being of students and staff. Safe, clean, and functional environments reduce the risk of accidents and health issues, creating a conducive learning atmosphere. Providing access to up-to-date instructional materials ensures that all students have the necessary resources to learn effectively. This includes textbooks, digital resources, and other learning aids that support diverse learning styles and needs. Ensuring that students have access to the latest educational technology and materials prepares them for the demands of the future. It helps in developing critical thinking, problem-solving skills, and digital literacy, which are essential for success in the 21st century.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	Teacher Assignments and Credentials	2023-24 100% of teachers are highly qualified and properly assigned.			2026-27 100% of teachers are highly qualified and properly assigned.	
1.2	Staff Perception Survey	2023-24 Favorable response rates: Relevance of professional development opportunities - 66% Positive working environment - 66% Positive tone that leaders set - 72%			2026-27 Staff will rate the above perception survey questions at 75% or higher:  Relevance of professional development opportunities - 75% Positive working environment - 75% Positive tone that leaders set - 75%	
1.3	Technology Access	2023-24 100% of students and staff are assigned 1:1 mobile devices that are refreshed as they become eligible for replacement.			2026-27 100% of students and staff are assigned 1:1 mobile devices that are refreshed as they become eligible for replacement.	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.4	Every student in the school district has sufficient access to the standards-aligned instructional materials	2023-24 100% of students have access to their own copies of standards-aligned instructional materials for use at school and at home.			2026-27 100% of students have access to their own copies of standards-aligned instructional materials for use at school and at home.	
1.5	School facilities are maintained in good repair	2023-24 100% of sites passing the Williams Compliance review (i.e., the facilities are in good repair - as measured by the FIT tool).			2026-27 100% of sites passing the Williams Compliance review (i.e., the facilities are in good repair - as measured by the FIT tool).	
1.6	New Teacher Induction	2023-24 100% of new teachers in their first and second year of teaching will have participated in a new teacher induction program.			2026-27 100% of new teachers in their first and second year of teaching will participate in a new teacher induction program.	
1.7	School Attendance Rates	2023-24 District Average Daily Attendance Rate is 96.65%			2026-27 District Average Daily Attendance Rate will be 97.5% or higher	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.8	Chronic absenteeism rates	2023-24 Percentage of students who are chronically absent: All students: 10.1% Students with Disabilities (SWD): 19.6% Homeless students: 45.2% English Learners: 14.1% Low Income: 27.2% Hispanic: 22.2% White: 11.2%			2026-27 Percentage of students who are chronically absent: All students: < 10% Students with Disabilities (SWD): < 15% Homeless students: < 25% English Learners: < 10% Low Income: < 15% Hispanic: < 15% White: < 10%	
1.9	Extent to which pupils have access to and are enrolled in: a broad course of study	2023-24 59% of middle school students enrolled in a Visual and Performing Arts Course			2026-27 65% of middle school students enrolled in a Visual and Performing Arts Course	
1.10	Extent to which pupils have access to and are enrolled in: programs and services developed and provided to individuals with exceptional needs	2023-24 65% of students with disabilities in general education classes 80% or more of the time			2026-27 Target is >62% students with disabilities in general education classes 80% or more of the time	
1.11	Extent to which pupils have access to and are enrolled in: programs	2023-24 100% of teachers received three site			2026-27 100% of teachers will received four

	and services developed and provided to unduplicated pupils	presentations with intervention strategies and core teaching practices with a focus on English Learners.			site presentations with intervention strategies and core teaching practices with a focus on English Learners	

## Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable.

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Staff Recruitment and Retention	Actively recruit high-quality staff in a variety of ways, including participation in recruitment fairs, the utilization of equitable screening tools, and upgrading our onboarding process for all new employees. We will annually recognize staff contributions and staff dedication to supporting all students.	\$46,952.00	No

Action #	Title	Description	Total Funds	Contributing
<b>1.2</b>	New Teacher Support	Provide teacher support for 1st and 2nd year teachers to assist teachers in clearing their credentials through a new teacher induction program.	\$24,435.00	No
<b>1.3</b>	Curriculum and Instructional Materials Access	Students will have access to core curricular materials. English Language Arts/English Language Development curriculum will be piloted in 2026-27.		No
<b>1.4</b>	Student and Staff Devices	Refresh student and staff devices as they become eligible for replacement.	\$1,258,000.00	No
<b>1.5</b>	Maintain Facilities	Maintain school facilities paying special attention to school bathrooms.	\$2,400,000.00	No
<b>1.6</b>	Access to a variety of elective courses	Provide a variety of elective offerings for middle school students, taking into account student feedback on courses they are interested in participating in.	\$0.00	No
<b>1.7</b>	Health and Nutrition Committee	Create a health and nutrition committee to monitor our free lunch program and collect student survey data on lunch menus.	\$0.00	No
<b>1.8</b>	Increase Student Attendance	Implement a positive attendance campaign and targeted attendance interventions through the coordination of various resources provided by staff, including: our community liaison, counselors, student wellness coordinator, Extended Care, district nurses, site staff, and our student services director. Attendance will be monitored through an attendance compliance system. This action will target student groups who are designated as chronically absent as indicated on the California State Dashboard in red: Hispanic and White, Low-Income students, English Learners, and Students with Disabilities, and Homeless.	\$88,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.9	Lunchtime Supervision	Recruit parent volunteers and noon duty staff to increase student supervision. Protocols will be developed and professional development will be provided for volunteers and Noon Duty Staff at least twice per year.	\$3,382.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	Raise the achievement of all students, while closing achievement gaps in identified student groups, including English Learners, Long Term English Learners, low-income, foster youth and students with disabilities, through rigorous differentiated instruction that is based on state standards, is culturally responsive and develops students' Collaboration, Communication, Creativity, and Critical Thinking skills.	Broad Goal

State Priorities addressed by this goal.

- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Union School District developed this goal because raising the achievement of all students while closing achievement gaps in identified student groups—including English Learners, Long Term English Learners, low-income students, foster youth, and students with disabilities—remains a focus districtwide to improve achievement for all learners. Each aspect of this goal contributes significantly to creating an inclusive, equitable, and high-performing educational environment. Targeting specific student groups such as English Learners, Long Term English Learners, low-income students, foster youth, and students with disabilities ensures that those who often face the most significant educational barriers receive the necessary support. By prioritizing these groups, we aim to create a more equitable educational landscape where every student has the opportunity to succeed. Ensuring that instruction is based on state standards guarantees that the curriculum is rigorous, relevant, and consistent. This alignment helps maintain high expectations and accountability, which are crucial for academic excellence. When students see their cultures and experiences reflected in the curriculum, they are more likely to engage and participate actively in their learning. This connection can lead to better academic outcomes and a more positive school experience. This goal is vital for fostering an educational environment that promotes success for all students, regardless of their background or circumstances.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Performance of Redesignated Fluent English Proficient students meeting or exceeding standard on the English Language Arts Smarter Balanced Summative Assessment	2022-2023 87% of Redesignated Fluent English Proficient students Meeting or Exceeding Standard on the Smarter Balanced Summative Assessments for English Language Arts/Literacy			2025-26 90% of Redesignated Fluent English Proficient students Meeting or Exceeding Standard on the Smarter Balanced Summative Assessments for English Language Arts/Literacy

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Elementary School Interventions	Our elementary schools will be implementing site-based intervention programs in English Language Arts, Mathematics, and English Language Development, which are aligned with the Multi-Tiered Systems of Support (MTSS) process. To ensure that all students receive the necessary support, a Teacher on Special Assignment (ToSA) will monitor the progress of the students and recommend interventions three times a year. We firmly believe that our students who are Foster Youth, English Learners, Low Income, and Students with Disabilities will benefit greatly from these additional intervention programs. Our data shows that our English Learners and Low Income students are not performing at the same level as other students. This action is to ensure they are getting the extra support needed for their academic growth.	\$667,756.00	Yes
2.2	Middle School Interventions	Implement school site-based intervention programs in English Language Arts, Mathematics, and English Language Development (with a special focus on Long Term English Learners) in our middle schools that align with the Multi-Tiered Systems of Support (MTSS) process. With support from a Teacher on Special Assignment (ToSA), school staff will monitor the progress and make recommendations for students needing interventions three times a year. This action will target student groups who are designated as falling in the red indicator on the California State Dashboard: Students with disabilities and English learners (English Language Arts) and Hispanic and Low Income students (Math).	\$181,472.00	Yes
2.3	Professional Development	Provide professional development during district professional development days and after school, targeting small group differentiated instruction with an emphasis on English Language Arts, Mathematics, and the integration of English Language Development strategies. This will increase the achievement of all students, with a focus on unduplicated students and	\$10,000.00	No

Action #	Title	Description	Total Funds	Contributing
		Students with Disabilities, as our data shows that these subgroups are underperforming compared to everyone else.		
<b>2.4</b>	English Learner Support	Provide a Teacher on Special Assignment (ToSA) to coach instructional staff on providing strategies that support English Learners, including Long Term English Learners, while using data to improve instructional practice in all content areas. Our academic achievement data indicates a need to increase the use of research-based strategies to increase the achievement of all students, including unduplicated students.	\$127,479.00	No
<b>2.5</b>	Differentiated Core Instruction (Tier 1)	Using data to guide instructional practices, instructional staff will provide differentiated instruction in all content areas to increase learning opportunities for all students. The focus area for the 2024-25 school year will be on students who are below grade level in grades 4th through 8th in reading. This will include supporting our English Learners, Long Term English Learners, and those who need more enrichment opportunities. By providing professional development, coaching and modeling by Teachers on Special Assignment (ToSA) and through the review of student data at staff meetings, instructional staff will have a cadre of strategies to utilize. This will support our English Learners, Foster Youth, Low Income, and Students with Disabilities.	\$207,171.00	Yes
<b>2.6</b>	Science, Technology, Engineering, Arts and Mathematics	Increase Science, Technology, Engineering, Arts, and Mathematics (STEAM) access and opportunities for all students utilizing district-provided STEAM Kits and Makerspace resources. Additional STEAM kits will be created, and MakerSpace inventory will be maintained. In the middle schools, new Project Lead the Way (PLTW) units will be implemented.	\$31,000.00	No
<b>2.7</b>	Content Area Committees	Create various committees to support the integration of content area curriculum, provide feedback on curriculum, receive updated training, and lead instructional staff by providing strategies at school sites.	\$25,424.00	No

Action #	Title	Description	Total Funds	Contributing
2.8	Digital Citizenship, Safety and Balance of Technology Use	Digital citizenship and safety lessons will be taught throughout the year for students to learn how their digital footprint affects their lives. To provide a balance between technology usage and other instructional methods, instructional staff will continue to receive professional development to increase the use of communication, collaboration, creativity and critical thinking when utilizing technology.	\$8,000.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	Educate the whole child by providing integrated social-emotional, behavioral and mental health support systems to ensure that all students develop self-regulation skills, social responsibility, and respect for themselves and their school, community, and the world.	Broad Goal

State Priorities addressed by this goal.
Priority 5: Pupil Engagement (Engagement) Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.
Union School District developed this goal because educating the whole child by providing integrated social-emotional, behavioral, and mental health support systems is crucial to ensure that all students develop self-regulation skills, social responsibility, and respect for themselves, their school, their community, and the world. Educating the whole child recognizes that academic success alone is not sufficient for a well-rounded education. Students must also develop social-emotional and behavioral skills to navigate life's challenges effectively. This approach prepares students to be well-adjusted, responsible, and empathetic individuals. Providing integrated support systems ensures that students receive consistent and comprehensive care. By addressing social-emotional, behavioral, and mental health needs holistically, schools can create a supportive environment that promotes overall well-being and academic success. Providing behavioral and mental health support helps identify and address issues before they escalate. Early intervention can prevent more severe problems and support students in developing healthy coping mechanisms. Choosing this goal reflects a commitment to the comprehensive development of each student. By focusing on the whole child, integrating social-emotional, behavioral, and mental health support systems, we ensure that students are not only academically successful but also emotionally resilient, socially responsible, and respectful individuals.

## Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Social Emotional Learning	Sites will continue to implement a Social Emotional Learning (SEL) curriculum in all classrooms to increase the wellbeing of students.	\$20,000.00	No
3.2	Mental Health and Counseling Support	Schools will provide access to mental health and counseling support services. All sites will have a student self-referral process. Caseload numbers and stakeholder data show that there is an increased need for these services. By providing additional mental health support for students at the school level, we believe that our Foster Youth, English Learners, and Low-Income students will principally benefit from the additional access and that we will see an overall decrease in student mental health referrals.	\$1,181,254.00	Yes
3.3	Behavior Support	Through the Multi tiered Systems of Support (MTSS) model, Positive Behavior Intervention and Supports (PBIS) has been identified as a tiered approach to support behavioral needs. PBIS provides consistency of language and interventions across all schools. The district will provide resources and professional development to support PBIS implementation, including the use of a behavioral data tracking system. Our data shows that our unduplicated students are being suspended at a higher rate, and by providing positive behavior support we will see a decrease in behaviors. This action will also provide resources to address the our African American student group that is red on the California Dashboard.	\$291,733.00	Yes
3.4	Professional Development	Provide professional development for staff on preventative behavioral support techniques and de-escalation strategies during professional development days and after school.	\$84,944.00	No
3.5	Incorporating Student Voice	To continue incorporating student voice, we will provide opportunities for feedback through student senate, student councils, student suggestions boxes, student focus groups and various surveys such as: elective	\$500.00	No

Action #	Title	Description	Total Funds	Contributing
		offerings, nutrition, and middle school quick checks. We will also administer the California Healthy Kids Survey annually.		
<b>3.6</b>	Increase students sense of belonging on campus and in their community	Students will be given more opportunities to engage in activities that support their school and community, with the goal of increasing their sense of belonging.	\$0.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
4	Enhance parent engagement and improve communication among home, school and district stakeholders.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

Union School District choose this goal of enhancing parent engagement and improving communication among home, school, and district stakeholders because effective collaboration and communication are critical for student success and community building. Research consistently shows that parent involvement is linked to higher student achievement, better attendance, and improved behavior. When parents are engaged, they can support their children's learning and reinforce the educational objectives set by the school. Engaging parents strengthens the home-school connection, creating a more cohesive and supportive learning environment. This partnership helps to ensure that students receive consistent messages about the importance of education and are supported in their learning both at home and at school. Clear and open communication between home, school, and district stakeholders fosters transparency and builds trust. Parents and caregivers are more likely to support school initiatives and policies when they feel informed and involved in decision-making processes. By enhancing parent engagement and improving communication, we create a supportive and collaborative environment that promotes student achievement, builds trust, and fosters a sense of community. This goal ensures that all stakeholders are informed, involved, and working together towards the common objective of providing the best possible education for every student.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	English Language Learner Parent Participation Rates	2023-24 DELAC attendance average of 15 per meeting			2026-27 DELAC attendance average of 25 per meeting	
4.2	Translation Service Usage	2023-24 300 calls			2026-27 450 calls	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.3	Percent of parents of students with a disability that indicated full participation in the IEP process	2023-24 99.86%			2026-27 100% of parents indicate that they have fully participated in the IEP Process	
4.4	Parent Survey	2023-24  The District engages Parents 55%  The District is transparent with parents about decision making 54%  The District effectively communicates with parents/guardians 72%			2026-27  The District engages Parents 60%  The District is transparent with parents about decision making 60%  The District effectively communicates with parents/guardians 75%	

## Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable.

## Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Parent Education	Engage parents/caregivers that speak languages other than English, as well as our English Only community, through parent outreach programs, classes, district/school committees, events and by providing volunteer opportunities.	\$56,394.00	No
4.2	Communication	Provide translation services to increase parent communication and the involvement of English Learner parents in school activities.	\$14,000.00	No
4.3	Community Liaison	Provide a bilingual community liaison to connect our multilingual learner community, and those students struggling with academics, behavior, or attendance, with school and community-based resources. Our data shows that our English Learners, Long Term English Learners, Low Income, and Foster Youth have lower proficiency rates in academics, higher behavior incidences, and higher rates of absenteeism. With this action, we will target the identified groups through targeted outreach.	\$45,092.00	Yes
4.4	District Wellness Coordinator	To connect our families with community resources such as for food, clothing, housing and access to health care, our district wellness	\$29,043.00	Yes

Action #	Title	Description	Total Funds	Contributing
		coordinator will organize district-wide community wellness events and provide a food and resource center. Our data shows that our English Learners, Low Income, Homeless and Foster Youth have lower proficiency rates in academics, higher behavior incidences, and higher rates of absenteeism. With this action, we will target the identified groups through targeted outreach.		

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
5	Address the underlying systemic conditions leading to the significantly disproportionate identification of Hispanic students for special education assessment under Specific Learning Disability (SLD).	Broad Goal

State Priorities addressed by this goal.
Priority 1: Basic (Conditions of Learning) Priority 4: Pupil Achievement (Pupil Outcomes) Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.
Union School District choose this goal because it is vital for addressing the systemic conditions that lead to the disproportionate identification of Hispanic students for special education under SLD. This goal fosters trust, transparency, and collaboration, enabling schools to understand and mitigate biases in the assessment process. It empowers parents, incorporates culturally responsive practices, and promotes an inclusive educational environment, ensuring fair and accurate identification and support for all students.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Indicator 10: Disproportionate Representation by Disability	2022-23 Hispanic Students in the area of SLD target rate is 4.97%			2026-27 Hispanic Students in the area of SLD target rate is =< 3%	
5.2	CCEIS Quarterly Progress Reports	2023-24: Quarterly CCEIS Progress Reports Completed and submitted. 100% 4/4			2026-27 Quarterly CCEIS Progress Reports Completed and submitted. 100% 4/4

## Actions

Action #	Title	Description	Total Funds	Contributing
5.1	English Learner Committee	Add an additional 6 meetings to our District English Learner Committee to extend our work through the 2024-25 school year to support teachers in their implementation of the ELD standards into their classrooms, paying special attention to the needs of our Long Term English Learners.	\$23,379.00	No
5.2	Partially fund a CCEIS/MTSS TOSA for the 2024-25 School Year	Provide Teacher on Special Assignment (TOSA) support to effectively implement the variety of activities described in our Comprehensive Coordinated Early Intervening Services (CCEIS) plan as well as assistance in monitoring the effectiveness of these activities. The CCEIS/MTSS TOSA will monitor progress of our Target Population students and will support their teachers as needed through coaching, modeling lessons, and assistance with targeted lesson planning.	\$91,021.00	No

Action #	Title	Description	Total Funds	Contributing
<b>5.3</b>	Continued Professional Development and follow up coaching to support current LCAP, CCEIS and District Initiatives	Continued professional development and follow up coaching support from EL and Literacy TOSAs in the areas of current LCAP, CCEIS and District Initiatives: Inclusion (such as Social Thinking courses) Behavior and Self regulation (such as Zones of Regulation), EL strategies (such as GLAD and PD offered by the Santa Clara County Office of Education), Engagement, early literacy skills, Cooperative Learning (such as Kagan Cooperative Learning) and Differentiation (such as Universal Design for Learning)	\$75,147.00	No

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2024-25]

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant
\$2,456,836.00	\$0.00

## Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
4.342%	0.000%	\$0.00	4.342%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.8	<p><b>Action:</b> Increase Student Attendance</p> <p><b>Need:</b> Based off red indicators for Chronic absenteeism</p> <p><b>Scope:</b></p>	Using an attendance campaign and targeted intervention system to address the needs of chronically absent, particularly unduplicated students,Students with Disabilites and homeless students is a comprehensive approach. This will allow the district to have an early identification system with tailored interventions, enhanced communication, proactive strategies, collaborative efforts, and continuous improvement. By leveraging technology and data, schools can	Chronic absenteeism rates for unduplicated and Dashboard Red student groups

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	better understand and respond to the complex challenges students with chronic absenteeism face by improving their attendance and educational outcomes.	
<b>2.1</b>	<p><b>Action:</b> Elementary School Interventions</p> <p><b>Need:</b> USD's reading and math scores show that our English Learners, Low Income and Hispanic students are not performing at the same rate as other students.</p> <p><b>Scope:</b> Schoolwide</p>	This action will provide intervention supports at all elementary sites in ELA, Math and ELD to support students that are behind in their grade level standards, and provide them resources to increase their academics.	SBAC and K-2 Literably results for unduplicated student groups
<b>2.2</b>	<p><b>Action:</b> Middle School Interventions</p> <p><b>Need:</b> USD's reading and math scores show that our English Learners, including Long Term English Learners, Low-Income Students, and Hispanic students are not performing at the same rate as other students. Our dashboard data shows that in ELA Dartmouth Middle School, our English learners and Students with Disabilities are in the lowest performance area (red), and in Math at Dartmouth, our Hispanic and Low-Income students are in the lowest performance area (red).</p> <p><b>Scope:</b> Schoolwide</p>	Implementing targeted interventions in English Language Arts (ELA) and math for middle school students can significantly support students with disabilities, low-income students, English learners, and Hispanic students. These groups often face unique challenges that can impede their academic progress. sing formative assessments to regularly check students' understanding and progress allows for timely and targeted interventions. Leveraging data to create personalized learning paths helps address the unique needs of each student, ensuring they receive the support necessary to succeed in ELA and math.	SBAC results for unduplicated and Dashboard Red student groups

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.5	<p><b>Action:</b> Differentiated Core Instruction (Tier 1)</p> <p><b>Need:</b> Students that fall into the unduplicated category are not performing at the same levels as their peers.</p> <p><b>Scope:</b> LEA-wide</p>	By providing professional development, coaching and modeling by Teachers on Special Assignment (ToSA) and through the review of student data at staff meetings, instructional staff will have a cadre of strategies to utilize. This will support our Learners, Long Term English Learners, Foster Youth, Low Income, and Students with Disabilities.	SBAC results for unduplicated student groups
3.2	<p><b>Action:</b> Mental Health and Counseling Support</p> <p><b>Need:</b> Our data shows that our unduplicated students are being suspended at a higher rate, and by providing mental health support, we will see a decrease in suspensions. Our CHKS data shows that over 20% of our students are rating themselves as feeling frequent sadness, and by having mental health support, we will be able to address these needs.</p> <p><b>Scope:</b> LEA-wide</p>	By providing additional mental health support for students at the school level, we believe that our Foster Youth, English Learners, and Low-Income students will principally benefit from the additional access and that we will see an overall decrease in student mental health referrals.	Suspension rates for unduplicated student groups and possibly CHKS data for unduplicated student groups in the future
3.3	<p><b>Action:</b> Behavior Support</p> <p><b>Need:</b> Our data shows that our unduplicated students are being suspended at a higher rate, and by</p>	By providing consistent expectations across all school sites, and providing staff with the language to use to positively support students this will allow students to understand the expectations in a positively reinforced environment. We will also provide professional development that engages	Suspension rates for unduplicated and Dashboard Red student groups and possibly CHKS data for unduplicated and Dashboard Red student groups in the future

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>providing positive behavior support, we will see a decrease in behaviors.</p> <p><b>Scope:</b> LEA-wide</p>	<p>staff in understanding how students respond and to help them become more culturally responsive.</p>	
<b>4.3</b>	<p><b>Action:</b> Community Liaison</p> <p><b>Need:</b> To support our unduplicated students in academics, social emotional health it is important to have a staff member for outreach to help navigate school and any other needs or support that they need. Our data shows that your low income and English Learners are not performing at the same levels of other students, have a higher suspension and chronic absenteeism rates.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Provides a dedicated staff member to work directly with families. A community liaison often shares cultural and linguistic backgrounds with the students and families they serve. This common ground fosters trust and helps the liaison understand and address the unique challenges faced by these families. By understanding cultural nuances and customs, the liaison can help create an inclusive environment where families feel welcomed and valued, which is essential for meaningful engagement. A community liaison can connect low-income families with resources such as free or reduced-cost school supplies, food programs, transportation assistance, and after-school programs. This support can alleviate some of the external pressures that hinder students' academic performance. For English Learners, the liaison can help access language support programs, tutoring services, and ESL resources, ensuring students receive the help they need to succeed academically.</p>	<p>Chronic absenteeism and suspension rates for unduplicated students, Parent survey results</p>
<b>4.4</b>	<p><b>Action:</b> District Wellness Coordinator</p> <p><b>Need:</b> To ensure that our unduplicated students are connected to resources.</p>	<p>A district wellness coordinator is essential for supporting unduplicated students, which include low-income students, English Learners, foster youth, and other vulnerable populations. A wellness coordinator integrates various services—health, nutrition, mental health, and social services—creating a comprehensive support system for students. By working with community</p>	<p>Translation Services, Parent Survey, and we will monitor participation in the health and wellness events, which are primarily focused on providing resources for our SED students.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<b>Scope:</b> LEA-wide	organizations, healthcare providers, and social services, the coordinator can connect students and families with external resources, ensuring they receive the support they need. Identifying at-risk students early and providing targeted interventions can prevent issues from escalating, promoting better long-term outcomes.	

### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
-------------------	--------------------	---	------------------------------------

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable

### **Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Not Applicable

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

- **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## Requirements and Instructions

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA’s LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA’s annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

### Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

**Comprehensive Support and Improvement**

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

*Schools Identified*

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

*Support for Identified Schools*

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

*Monitoring and Evaluating Effectiveness*

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**

**Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

# Requirements

**School districts and COEs:** *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);

- **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## Instructions

### Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

### Complete the table as follows:

#### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

#### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

# Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

## Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

### Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

### Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

#### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

#### State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

#### An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### **Maintenance of Progress Goal**

#### Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

#### Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

#### State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

#### An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

#### Metric #

- Enter the metric number.

#### Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

#### Baseline

- Enter the baseline when completing the LCAP for 2024–25.

- Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
- Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
- Indicate the school year to which the baseline data applies.
- The baseline data must remain unchanged throughout the three-year LCAP.
  - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
  - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

#### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

#### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

#### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2026–27</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

**Actions:**  
Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

## Title

- Provide a short title for the action. This title will also appear in the action tables.

## Description

- Provide a brief description of the action.
  - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
  - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

## Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

## Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and

- Professional development for teachers.
- If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.
- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

### Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

**Total Projected LCFF Supplemental and/or Concentration Grants**

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

## Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.  
  
See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

- **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic

Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

#### **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
