

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Johnstonville Elementary School District  
CDS Code: 18641136010748  
School Year: 2024-25  
LEA contact information:  
Scott Smith, Ph.D.  
Superintendent/Principal  
ssmith@johnstonville.org  
530-257-2471

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2024-25 School Year

#### Projected Revenue by Fund Source

This chart shows the total general purpose revenue Johnstonville Elementary School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Johnstonville Elementary School District is \$2,888,940, of which \$2,373,701 is Local Control Funding Formula (LCFF), \$326,057 is other state funds, \$138,407 is local funds, and \$50,775 is federal funds. Of the \$2,373,701 in LCFF Funds, \$248,726 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Johnstonville Elementary School District plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Johnstonville Elementary School District plans to spend \$3,050,584 for the 2024-25 school year. Of that amount, \$276,835 is tied to actions/services in the LCAP and \$2,773,749 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Expenditures not included in the Local Control and Accountability Plan include additional staff salaries and benefits (\$2,250,111), books and supplies (\$245,862) services such as electricity, phones, garbage removal, and facility maintenance/repairs (\$500,500), and contributions to support the cafeteria and special education programs as well as perform facilities maintenance (\$698,330).

## Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Johnstonville Elementary School District is projecting it will receive \$248,726 based on the enrollment of foster youth, English learner, and low-income students. Johnstonville Elementary School District must describe how it intends to increase or improve services for high needs students in the LCAP. Johnstonville Elementary School District plans to spend \$248,726 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Johnstonville Elementary School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Johnstonville Elementary School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Johnstonville Elementary School District's LCAP budgeted \$212,513 for planned actions to increase or improve services for high needs students. Johnstonville Elementary School District actually spent \$206,706 for actions to increase or improve services for high needs students in 2023-24.

The difference between the budgeted and actual expenditures of \$5,807 had the following impact on Johnstonville Elementary School District's ability to increase or improve services for high needs students:

The difference between the budgeted and actual expenditures is estimated to be approximately one percent (1%) in year-to-year expenditures. The projected impact on Johnstonville Elementary School District's ability to increase or improve services for high-needs students is estimated to be negligible.

## 2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

## Goals and Actions

### Goal

Goal #	Description
1	Maintain and build upon all students access to a broad course of studies taught by fully credentialed teachers who have received professional development in the implementation and utilization of the state standards. The actions below will also maintain the expectation that students will receive these services in facilities that are safe and properly maintained. (Local priorities 1, 2, and 7)

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023-24
Priority 1a: Local Indicator: Percentage of properly credentialed teachers. Quarterly Williams report	1a. 100% of teachers and staff possess requisite credentials and are appropriately assigned.	1a. 89% of teachers and staff possess requisite credentials and are appropriately assigned.	1a. 100% of teachers and staff possess requisite credentials and are appropriately assigned.	1a. 100% of teachers and staff possess requisite credentials and are appropriately assigned.	1a. 100% of teachers and staff possess requisite credentials and are appropriately assigned.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions and services, with the exception of Action 1.2 and Action 1.9, were implemented and proved effective in enhancing or improving student services. Action 1.2 allocated funds to assist new teachers in obtaining clear credentials. While the district successfully employed newly credentialled teachers, none were eligible for an induction program during the 2023-24 school year. This was primarily due to the specific requirements and timing constraints associated with the induction program. Nonetheless, we are optimistic that several teachers will qualify for the induction program in the 2024-25 school year, allowing us to provide the necessary support and professional development to ensure their success and longevity in their teaching careers. We are working with our educational partners to streamline the induction process for our credentialled teachers and provide additional support mechanisms to help those teachers who are earning their certification.

Johnstonville strove to maintain single-grade classes from first through fifth grade via Action 1.9. However, due to a shortage of qualified candidates, we had to establish two combination classes: one for third/fourth grades and another for fourth/fifth grades. The shortage of qualified teachers is a challenge faced by many districts and is often exacerbated by regional and national teacher shortages. To address the challenges posed by these combination classes, funds were used to hire an additional instructional aide to support student learning. This aide played a critical role in providing targeted assistance to students, ensuring that despite the combination class structure, each student received the attention and support needed to thrive academically. The instructional aide also helped manage classroom dynamics and provided support to the teachers, allowing for more effective instructional delivery. Additionally, we have implemented periodic training sessions for the instructional aides to enhance their effectiveness and integration into the classroom setting. We are also exploring partnerships with online colleges and universities to create a pipeline of qualified teacher candidates to mitigate future shortages.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For Action 1.5, the district originally budgeted \$38,785 to be contributed from the Supplementary Funds to help pay for the Media/Library Technician job position. In the 2023-2024 school year, the district actually contributed \$45,510. This was an increase of 17%. The increase was due to the employee needing to work additional time to cover for absent employees.

For Action 1.7, the district originally budgeted \$20,204 to be contributed from the Supplementary funds to help pay for staff to keep the facilities in good repair. In the 2023-2024 school year, the district actually contributed \$24,162. This was an increase of 20%. The increase was due to the need to hire extra help while the regular employee was on leave.

For Action 1.9, the district originally budgeted \$76,269 to be contributed from the Supplementary funds to help pay for enough teachers to maintain straight grade levels in Transitional Kindergarten thought 6th grade. In the 2023-2024 school year, the district actually contributed

\$67,456. This was a decrease of 12%. The decrease was due to staffing changes after the budget was approved. New staff members were on different step and column placement for salary.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Throughout the year, Instructional Aides and our Media/Library Technician have delivered critical intervention and learning opportunities to our general education, unduplicated, and special education students. Actions 1.5 and 1.10 have enabled us to employ these essential classified personnel. However, assessing Metrics 4a1 and 4a2 has been challenging due to significant changes in the California Dashboard metrics and scales over the past several years. These alterations have rendered the baseline data from three years ago and the projected three-year outcomes unreliable.

The NWEA and Istation data reveal that the percentage of K-5 students requiring additional Tier 2 and 3 support in English Language Arts and Mathematics has remained consistent with baseline results from the 2020-21 school year and last year (2022-23). In contrast, the percentage of 6th-8th grade students needing additional Tier 2 and 3 support has significantly increased since the 2020-21 baseline. Nonetheless, 6th-8th grade students have shown improvement in English Language Arts compared to last year (2022-23).  
Overall Effectiveness Rating: Somewhat Effective

Action 1.9, aimed at establishing small class sizes, encountered obstacles due to a shortage of qualified teacher candidates, resulting in the necessity for two combination classes during the 2023-24 school year. Despite this, smaller class sizes have facilitated greater teacher-student interaction, stronger connections, and personalized learning. They have also enabled teachers to closely monitor student progress and intervene promptly with socio-economically disadvantaged students, English Learners, and Foster Youth. Research, such as Zyrngier's meta-analysis (2014), underscores the lasting positive impact of smaller class sizes, particularly for "linguistically, culturally, and economically disenfranchised communities." Overall Effectiveness Rating: Somewhat Effective

In conclusion, while some actions have demonstrated effectiveness, particularly in maintaining stable support levels for K-5 students and improving English Language Arts performance for 6th-8th graders, other actions have been less effective, notably due to the increased need for support among 6th-8th grade students. Moving forward, Johnstonville Elementary School District will need to reassess and possibly revise actions that have not proven effective over the three-year period, beginning with the development of the 2024-25 LCAP, to ensure that all strategies align more closely with our goals and desired outcomes.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Johnstonville Elementary School District believes that the current goal, reinforced by rigorous metrics and a thorough reanalysis of desired outcomes, will move the district forward to the benefit of our students. School staff have analyzed and reevaluated the previous LCAP's

goals, metrics, desired outcomes, and actions. This process involved a detailed analysis of student performance data, feedback from teachers, parents, and students, and a review of the latest educational research and best practices. As a result, Johnstonville Elementary School District staff were able to develop a better understanding of the areas requiring attention and the strategies that potentially yield the greatest impact.

Actions have been strategically streamlined to concentrate on the activities that have contributed to the success of Johnstonville's students and offer better transparency to stakeholders. This streamlining process included several key steps. First, Johnstonville Elementary School District staff conducted a review of all existing programs and initiatives, assessing their effectiveness and alignment with our goals of every student becoming Engaged, Empathetic, Empowered, and Educated. Programs that showed positive outcomes were prioritized, while those with limited impact were either restructured or eliminated. This allowed staff to focus resources on those activities that had the highest potential to positively help students. Second, actions that were not utilizing LCFF funds were eliminated from the LCAP to allow for better transparency to stakeholders on how LCFF funds were being utilized.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
2	All students will demonstrate growth toward meeting or exceeding standards in English Language Arts, Math, and English language proficiency. (State priorities 4 and 8)

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Priority 4a1: State Indicator/Academic Indicator: SBAC ELA performance  California Dashboard 5x5 English Language Arts Placement Report  Color Rating Level Scale (lowest to highest) - 1) Red 2) Orange 3) Yellow 4) Green 5) Blue	4a1. 2019 California Dashboard All Students: Green Socioeconomically Disadvantaged: Yellow White: Blue	4a1. The 2021 ELA California Dashboard was not released due to various instructional and testing issues related to Covid-19. However, some hand calculations were possible for all students who took the SBAC.  2021 California Dashboard All Students: Green	4a1. The 2022 California Dashboard: ELA transitioned away from the previously utilized color scheme (Red, Orange, Yellow, Green, or Blue) and into a new system of status levels (Very Low, Low, Medium, High, or Very High). The new status levels are not related to, or correlated to, the previously utilized color scheme. As a result, there is no accurate way to measure the desired outcome for 2023-24 using the current system for status levels.	4a1. ## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal #2's actions were implemented with fidelity. As a result, there was a reduction in K-8th grade students needing additional (Tier 2 and Tier 3) support in ELA, based on the NWEA MAP and Istation data. Most actions and services were executed precisely as planned and were effective. Throughout the implementation process, we encountered several challenges, including the hiring of staff after the school year started, personnel reassignments, and an increase in unpaid leaves. Despite these obstacles, our team demonstrated resilience and adaptability, ensuring the planned actions were delivered effectively.

Our efforts led to considerable successes, most notably the reduction in the number of K-8th grade students needing additional support in ELA. This achievement underscores the effectiveness of our planned actions and our commitment to meeting our overarching goals.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For Action 2.1, the district originally budgeted \$4,275.50 to be contributed from the Supplementary funds to help pay for the implementation of a Response to Instruction and Intervention Program. In the 2023-2024 school year, the district actually contributed \$0. This was an decrease of 100%. The decrease was due to the fact that funding was not needed to implement the program.

For Action 2.2, the district originally budgeted \$7,000 to be contributed from the Supplementary funds to pay for a Universal Academic Screener program. In the 2023-2024 school year, the district actually contributed \$5,535 which was the cost of the MAPS academic testing program. This was an decrease of 21%. The decrease was due to the fact that MAPS was not as expensive as was expected.

For Action 2.3, the district originally budgeted \$28,222 for Title I, Part A funds to be contributed to help pay for an Instructional Aide to support academically struggling student.. In the 2023-2024 school year, the district actually spent \$25,668.39 in Title I, Part A funds for an Instructional Aide. This was a decrease of 32%. The increase was due to the fact that there were staffing changes after the budget was approved. The new employee hired was on a different step and column

For Action 2.4, the district originally budgeted \$52,660 for an After School Intervention and Support Program. In the 2023-2024 school year, the district actually spent \$61,945. This was an increase of 18%. The increase was due to the fact that there the After School program needed addition staff.

For Action 2.8, the district originally budgeted \$5,000 to be contributed from the Supplementary funds to help pay for the implementation of a Literacy Program. In the 2023-2024 school year, the district actually contributed \$0. This was an decrease of 100%. The decrease was due to the fact that the Lassen County Office of Education provided training for teachers in a program entitled Really Good Reading which cost the district nothing.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Evaluating Metrics 4a1 and 4a2 remains problematic due to changes in the California Dashboard metrics and scales over the past three years, making the baseline and projected outcomes unreliable. The inconsistency in the metrics has posed challenges in accurately measuring progress and setting realistic goals. Johnstonville Elementary School District hopes that the California Dashboard will remain consistent for the next three years to better enable us to track student progress more effectively and make informed decisions about instructional strategies and resource allocation. Overall Effectiveness Rating: Somewhat Effective.

Examining Metrics 8a and 8b presents mixed results regarding the effectiveness of these actions. While K-5 students' need for additional Tier 2 and 3 support has remained stable, the need for support among 6th-8th grade students has increased significantly from the 2020-21 baseline. This increase highlights a growing demand for targeted interventions and resources to address the academic and behavioral challenges faced by our middle school students. To address this, we are implementing additional supports, including the dedication of certificated teachers driving interventions in small group instruction in the early primary grade levels, with a special emphasis on English Language Arts and an expansion of socio-emotional counseling services. Overall Effectiveness Rating: Somewhat Effective.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Johnstonville Elementary School District believes the current goal, reinforced by rigorous metrics and a thorough reanalysis of desired outcomes, will move the district forward to the benefit of our students. School staff have analyzed and reevaluated the previous LCAP's goals, metrics, desired outcomes, and actions. This process involved a detailed analysis of student performance data, feedback from teachers, parents, and students, and a review of the latest educational research and best practices. As a result, Johnstonville Elementary School District staff were able to develop a better understanding of the areas requiring attention and the strategies that potentially yield the greatest impact.

Actions have been strategically streamlined to concentrate on the activities that have contributed to the success of Johnstonville's students and offer better transparency to stakeholders. This streamlining process included several key steps. First, Johnstonville Elementary School District staff conducted a review of all existing programs and initiatives, assessing their effectiveness and alignment with our goal of every student becoming Engaged, Empathetic, Empowered, and Educated. Programs that showed positive outcomes were prioritized, while those with limited impact were either restructured or eliminated. This allowed staff to focus resources on those activities that had the highest potential to positively help students. Second, actions that were not utilizing LCFF funds were eliminated from the LCAP to allow for better transparency to stakeholders on how LCFF funds were being utilized.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
3	Johnstonville School will provide a safe and effective learning environment for every student by engaging parents, students, and staff. (Local priorities 3, 5, and 6)

### Measuring and Reporting Results

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Johnstonville successfully implemented all contributing actions with fidelity and consistency throughout the school year. Our strategic planning and dedicated efforts ensured that each action was carried out as intended, without any major disruptions. The strong collaboration

among staff and effective resource management played crucial roles in this smooth implementation process. As a result, we were able to achieve many of our objectives without encountering significant challenges.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were not material differences in the action for Goal 3.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Johnstonville Elementary School District has implemented actions aimed at improving the school's climate for all students. The socio-emotional counseling (Action 3.1) saw an increase in the number of students being seen by the school's Family/Marriage Therapist. In addition, there were an overwhelming number of requests that created delays for individuals in seeing the counselor. This was unexpected and Johnstonville School's next LCAP will attempt to expand counseling services as a result. During the 2023-24 school year, approximately eighty-five percent (85%) of the students the counselor met with were identified as unduplicated. Overall Effectiveness Rating: Effective

During the past year, Johnstonville Elementary School District implemented actions (Actions 3.2 and 3.3) aimed at improving chronic absenteeism and attendance rates. The introduction of a comprehensive attendance monitoring system, along with attendance incentives, recognitions, and Saturday Academic make-up days has proven to be effective. As a result of these efforts, chronic absenteeism improved with students attending school more regularly. Additionally, the overall attendance rate improved by almost a full percent (0.83%), demonstrating the success of these actions in promoting regular school attendance and enhancing the overall school climate. Rating: Effective

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Johnstonville Elementary School District believes the current goal, reinforced by rigorous metrics and a thorough reanalysis of desired outcomes, will move the district forward to the benefit of our students. School staff have analyzed and reevaluated the previous LCAP's goals, metrics, desired outcomes, and actions. This process involved a detailed analysis of student performance data, feedback from teachers, parents, and students, and a review of the latest educational research and best practices. As a result, Johnstonville Elementary School District staff were able to develop a better understanding of the areas requiring attention and the strategies that potentially yield the greatest impact.

Actions have been strategically streamlined to concentrate on the activities that have contributed to the success of Johnstonsville's students and offer better transparency to stakeholders. This streamlining process included several key steps. First, Johnstonsville Elementary School District staff conducted a review of all existing programs and initiatives, assessing their effectiveness and alignment with our goal of every student becoming Engaged, Empathetic, Empowered, and Educated. Programs that showed positive outcomes were prioritized, while those with limited impact were either restructured or eliminated. This allowed staff to focus resources on those activities that had the highest potential to positively help students. Second, actions that were not utilizing LCFF funds were eliminated from the LCAP to allow for better transparency to stakeholders on how LCFF funds were being utilized.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

## Goals and Actions

### Goal(s)

## Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP. An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. "Effectiveness" means the degree to which the actions were successful in producing the desired result and "ineffectiveness" means that the actions did not produce any significant or desired result.

- In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
- When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education  
November 2023

## Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Johnstonville Elementary School District	Scott Smith, Ph.D. Superintendent/Principal	ssmith@johnstonville.org 530-257-2471

## Plan Summary [2024-25]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Johnstonville Elementary School District's vision states that "ALL Grizzlies are ENGAGED, EMPATHETIC, EMPOWERED, and EDUCATED." We are a single school district and the smallest geographically-bound school district in Lassen County. Over half of our students transfer into the district from surrounding communities. Our small bedroom community has little industry or retail center and the majority of our families are employed at either High Desert State Prison or in the town of Susanville. Our small school atmosphere allows us to develop a community of learners with a dedicated team of educators who believe in the potential of every student. In addition, Johnstonville Elementary School is a single school within the Johnstonville Elementary School District and does not receive equity multiplier funds.

We are a Transitional kindergarten through 8th-grade school and our small school setting helps families feel a strong connection with the school at large. In partnership with our parents and our community members, we are ensuring that all of our students are competent in the basic skill areas and that all of our students are demonstrating continuous improvement toward educational excellence. Our goal is to help all students reach their highest potential as productive, responsible citizens while attending our school. Our staff has become highly trained in content areas and cooperative learning. We take pride in using a common language, common expectations, and in student academic achievement.

At Johnstonville, we are a family of teachers and learners with a student body of one hundred and eighty-eight (188) students and ten (10) full-time educators. We serve the following student populations: ninety-nine (99) socioeconomically disadvantaged students, twenty-five (25) special education students, two (2) foster youth, six (6) homeless students, and six (6) English learners, as of February 27, 2024.

We have a part-time bilingual instructional aide to support our English learners. In addition, we have a full-time special education teacher and a part-time special education aide. Though a small school district, Johnstonville Elementary has made it a priority to provide students access to a part-time socio-emotional counselor. Our counselor meets with students three days per week. Johnstonville School provides instructional aides in Kindergarten through sixth-grade classes during intervention time and other identified priority times. Johnstonville School provides needed services to all students and takes special care to address the needs of special populations such as the Homeless and Foster Youth. Johnstonville also offers an after-school program that is available to all TK-6th-grade students, but prioritizes unduplicated student participation. The program runs until 5:00 pm every school day and is split-funded through both the Expanded Learning Opportunities Program (ELOP) and the Local Control Funding Formula (LCFF). This split-funding model allows for additional resources to be placed with the after-school program to the benefit of the participating students.

Staff turnover has been a significant challenge for our Johnstonville Elementary School District over the past few years. Each year, the departure of experienced teachers and staff members creates gaps in our instructional continuity and disrupts the strong relationships that our students rely on for support and guidance. It takes time for new staff to acclimate to our school's culture and understand the unique needs of our student body, which can affect the overall learning environment. Additionally, the constant cycle of recruiting, hiring, and training new personnel strains our resources and diverts attention from our primary focus: delivering high-quality education. Stability in staffing is crucial for fostering a consistent, nurturing, and effective learning environment.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Johnstonville Elementary School District staff has analyzed and reflected upon the annual data provided by the California School Dashboard and our local data to develop a sense of student progress and evaluate our academic rigor. It must be noted that the small nature of Johnstonville's student enrollment can cause large swings in the data from year to year. In addition, the state requires a minimum of ten (10) students within an identified sub-population for the group's performance to be published. As a result, the small enrollment in the school severely limits the number of sub-population groups within the school community. Analysis of the provided English Language Arts (ELA) and Math performance data reveals academic gaps both overall and among specific student groups, indicating a need for targeted interventions. While these indicators are in line, or better than other schools in the county, we know we can do better and help our students who struggle academically. Here's a breakdown:

ELA Performance Data Analysis:

- Overall student groups are performing 29.3 points below standard.
- Socio-Economically Disadvantaged (SED) students are performing even lower, at 53.5 points below standard, indicating an equity gap.

- White students are performing 32.2 points below standard, which is slightly below the overall average.

**Math Performance Data Analysis:**

- Overall student groups are performing 48 points below standard, suggesting a more pronounced issue in Math compared to ELA.
- SED students have a more serious gap in Math, at 72.8 points below standard, highlighting an even larger equity issue in Math performance.
- White students are performing 43.7 points below standard in Math, again above the overall average but significantly below the standard.

**Suspension Rate:**

White students have had an increase in the number of suspensions and are identified as being within the Red category on the California Dashboard.

**Reflections: Technical Assistance**

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

**Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Johnstonville Elementary School District does not have any schools that are eligible for comprehensive support and improvement. As such, this section of the LCAP is not applicable.

**Support for Identified Schools**

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Johnstonville Elementary School District does not have any schools that are eligible for comprehensive support and improvement. As such, this section of the LCAP is not applicable.

**Monitoring and Evaluating Effectiveness**

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Johnstonville Elementary School District does not have any schools that are eligible for comprehensive support and improvement. As such, this section of the LCAP is not applicable.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parent/Community members	Input meetings: February 21st ~ via Zoom, February 28th ~ in person, March 20th ~ via Zoom Informal meetings Parent surveys Staff calls
California School Employee Association	Input meetings: April 9th, April 23rd
Johnstonville Teachers Association	Input meetings: April 9th, April 23rd
SELPA administration	May 9th
Lassen County Foster Youth Services	In-person meeting: April 9th
Johnstonville Student Council	In-person meeting: May 13th
English Learner Parent Advisory Committee	This is not applicable since Johnstonville does not have such a committee due to the low number of EL students.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

## Stakeholder Input

Johnstonville Elementary School District conducted two virtual stakeholder round tables and one in-person meeting in the evenings to elicit input for the refinement of the District's LCAP. In addition, stakeholders frequently gave input during informal meetings with district staff. The qualitative data that was collected during these meetings, along with comments from staff and parent surveys indicate stakeholders desire some revisions of the following items for LCAP planning:

## Parents/Community Members:

- Maintain the After School Program closing at 5:00 pm.

- Maintain Saturday Academy and summer enrichment programs as partial days instead of full-day experiences
- An increase of the school counseling services, if possible

**Staff:**

- Continued implementation and refinement of the MTSS program
- Professional development for classified staff on how to conduct interventions
- The implementation of a social-emotional program with its accompanying professional development

**Foster Youth Services:**

- Continued collaboration and information sharing regarding foster youth

**Student Council:**

- Increase the number of potential activities during recess
- Increased playground equipment

**Overarching Themes:**

Stakeholder input indicates a desire to continue the Expanded Learning Opportunity Program (ELOP) as currently implemented. In addition, there is a continued strong desire to refine Johnstonville's Multi-tiered System of Supports (MTSS) program. Key aspects of MTSS include a systematic and cohesive Tier 1 (foundational) program, providing responsive services to students based on their academic, behavioral, and socioemotional needs, implementing systems that enhance the culture and climate of classrooms and the school overall, and monitoring the effectiveness of actions to determine what is working and what needs to be changed. Johnstonville will continue the process of developing a robust Tier 1 instruction and support system followed by the strengthening of the Tier 2 (small group) and Tier 3 (individualized) supports.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	<p>All students shall have access to fully credentialed teachers, instructional materials aligned with state standards, and safe, functional school facilities. We will further ensure that all students have access to a broad course of study that utilizes the state standards to help them succeed in their future endeavors. (Local priorities 1, 2, and 7)</p> <p>Implementing the actions listed below will support our goal of ensuring that all students have access to fully credentialed teachers, aligned instructional materials, and safe, functional school facilities. Small class sizes allow for personalized attention and improved classroom management, leading to better academic outcomes. Additional academic skill development programs target individual needs and provide enrichment opportunities, ensuring all students can meet state standards. Instructional assistants offer supplemental support, enhancing the learning environment and allowing teachers to focus on delivering high-quality instruction aligned with state standards, thereby supporting a broad course of study that prepares students for future success.</p>	Maintenance of Progress Goal

### State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

An analysis of input from stakeholders has not identified any concerns or needs within priorities 1, 2, or 7. The data provided by the baseline metrics below reflect the maintenance of this goal and ongoing data monitoring helps identify any potential gaps created by a lack of progress. The actions have been selected based on input from stakeholders and their proven effectiveness in maintaining the positive outcomes of this goal.

## Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable.

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Small class size	District administration will continue to make every effort to maintain straight grade levels in the Transitional Kindergarten through the fifth-grade program to help unduplicated students access smaller class sizes and increase the teacher-to-student ratio. The total costs for certificated staff for Transitional Kindergarten through fifth grade for the 2024-2025 school year will be \$690,156. Of that amount, \$75,156 will come from Supplementary Funds, \$362,582 will come from Education Protection Account Funds (EPA), and the remaining \$252,427 from the General Fund.	\$75,156.00	Yes
1.2	Additional academic skill development ~ Media/Library Technician	District administration will continue to maintain a media/library technician position to help students access books, computers, and tutorial support in the library. The total cost for this position will be \$48,497 for the 2024-2025 school year. Of this amount, \$38,549 will come from the Supplemental Funds and \$9,948 will come from the General Fund.	\$38,549.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.3	Instructional Assistant	District administration will provide an instructional assistant to help unduplicated students access the programs, services, and academic materials that meet their unique needs, conditions, and circumstances. A special focus will be on the early primary grade levels to prevent the establishment of an academic gap. For the 2024-2025 school year, the Supplemental Funds will be the only source of funding for this position.	\$25,988.00	Yes
1.4	Facilities in good repair	District administration will provide materials and personnel to improve facilities that require repair or upgrading. The total cost for this position is \$96,686 for the 2024-2025 school year. Of this amount, \$20,200 will come from the Supplemental Funds and the remaining \$76,486 will come from the General Funds.	\$20,200.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	Improve the academic achievement in English Language Arts and mathematics for all students particularly those who struggle academically. (State priorities 4 and 8)	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)

Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Analysis of student performance data as measured by the Smarter Balanced Assessment Consortium (SBAC) English Language Arts and Math assessments have shown the All Students category is Orange in both ELA and Math, as demonstrated on the California Dashboard. Further analysis of the SBAC data shows there is a minimal academic gap between Johnstonville's two identified subgroups. Both the White and Socio-economically Disadvantaged groups are at the Orange level in both ELA and Math. This is probably due to the strong crossover of students within both the White and Socio-economically Disadvantaged sub-populations. Input from stakeholders through various surveys and input sessions has indicated a desire to increase the number of students, both as a whole and as subgroups, performing at, or above, grade level standards in both English Language Arts and math. The identified metrics specifically examine these areas of concern and utilize a method to analyze both student scores and growth to provide a holistic view of student performance. The identified actions will help support and improve learning for all students, with a special emphasis on unduplicated students, and will measure progress toward our goal using the metrics below.

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Response to Instruction and Intervention Development	District administration and staff will develop and implement a Response to Instruction and Intervention (RTI <sup>2</sup> ) program with a special emphasis for socio-economically disadvantaged students, foster youth, students who qualify under McKinney Vento, and English learners who struggle academically in order to help them meet, or exceed, grade level standards.	\$4,500.00	Yes
2.2	Literacy Program	The district administration will continue to emphasize and bolster Johnstonville's literacy program to increase the percentage of students who read daily, enabling them to meet or exceed grade-level ELA standards. Special emphasis will be placed on developing a reward system that encourages personal reading.	\$1,000.00	Yes
2.3	Title I ~ Response to Instruction and Intervention Support ~ Personnel	District administration will provide additional academic support in the early primary grade levels with an emphasis on supporting unduplicated students who struggle academically in order to help them meet, or exceed, grade-level standards. To fund this, the district will use Title I, Part A funds, for a total of \$28,109 for the 2024-2025 school year.	\$28,109.00	Yes
2.4	In-school interventions and supports	Instructional staff will implement an intervention program during the school day targeting students who struggle academically to help them meet, or exceed, grade-level standards. The two instructional staff members who will participate in this program have classes that leave earlier in the school day and will dedicate the remainder of their work day with classes that	\$30,191.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>continue later in the day than their own. A special emphasis will be placed on the development and implementation of interventions and supports for unduplicated students in the early primary grade levels. To fund this, 1 hour of each 6.5 hour teaching day is 15.38% of a teacher's salary. This will be funded from the Supplemental Funds for the 2024-2025 school year.</p>		
2.5	After School Interventions and Supports	<p>District administration will implement an after-school intervention and support program to help students who struggle academically in order to help them meet, or exceed, grade-level standards. A special emphasis will be placed on the recruitment of unduplicated students.</p>	\$11,642.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	Johnstonville School will foster a safe and engaging school environment that promotes active student and parent participation. (Local priorities 3, 5, and 6)	Maintenance of Progress Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Johnstonville School strives to create an environment that is both academically rigorous and welcoming to students, families, and stakeholders. Analysis of schoolwide pulse surveys indicates approximately fifty-eight percent (58%) of 3rd-8th grade students feel connected with a school staff member at least most of the time and sixty-eight percent (68%) of 3rd-8th grade students feel safe on campus. In addition, a slim majority of responding parents (fifty-four percent, 54%) have indicated they feel included in the school's decision-making process. The suspension rate is within the Orange category overall, and within the Red category for the White subpopulation on the California Dashboard and is an area of concern. The expulsion rate remains at zero percent (0%) and the attendance rate is 94.62%. According to the California Dashboard, the Chronic Absenteeism rate is Yellow for the All Student group and the Socio-economically Disadvantaged subgroup. In addition, both White and Hispanic subgroups are within the Orange rating for Chronic Absenteeism. While the attendance and chronic absenteeism rates have been improving, there is still additional work that needs to be done. The identified actions will help support student connectedness and safety for all students, with a special emphasis on socio-economically disadvantaged, homeless, foster youth, and EL students, and we will measure progress toward our goal using the metrics below.

Johnstonville intends to maintain the progress made on this goal through a continuation and expansion of the actions that brought some success during the last LCAP. The initiative to expand the hours of our mental health counselor and their ability to provide socio-emotional supports, particularly for socio-economically disadvantaged students, foster youth, and English learners, will significantly enhance school connectedness and mental health, fostering a safe and engaging environment. By developing attendance incentives and partnering with county agencies to address chronic absenteeism, the district aims to reduce absenteeism, especially among unduplicated students, ensuring consistent student participation. In addition, the collaboration with the Johnstonville School Community Association (JSCA) volunteers to offer fun days and field trips as attendance incentives further promotes active student involvement. Finally, the continued implementation a life skills course for sixth to eighth graders, in partnership with Lassen County agencies, equips students with essential skills, enhancing their engagement and fostering a supportive school community.

### Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable.

## Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Social-emotional Counseling	The District will contract with a mental health counselor to provide behavioral and socio-emotional supports to all students, with a special focus on socio-economically disadvantaged students, foster youth, students who qualify under McKinney Vento, and English learners, to help strengthen school connectedness and mental health.	\$34,000.00	Yes
3.2	Chronic Absenteeism	District administration will develop and offer attendance incentives to students in order to reduce chronic absenteeism. A special emphasis will be placed on reducing chronic absenteeism of unduplicated students.	\$2,000.00	Yes
3.3	Chronic Absenteeism~ Community Partnerships	District administration will partner with Lassen County agencies to offer assistance to families who struggle with student chronic absenteeism in order to increase student attendance. Additionally, the District will partner with the Johnstonville School Community Association (JSCA) volunteers to offer students attendance incentives, including fun days at school and field trips, to increase student attendance.	\$5,500.00	Yes
3.4	Youth Services ~ Life Skills	District administration will partner with Lassen County agencies to implement a life skills course for all of the sixth-eighth-grade students.		Yes

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2024-25]

## Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
11.902%	0.315%	\$6,621.08	12.217%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p><b>Action:</b> Small class size</p> <p><b>Need:</b> Students who are English learners, foster youth, homeless, and/or from low-income families, often face unique challenges that require consistent, focused support. Straight grade levels allow teachers to focus their instruction more precisely on each student and sub-group, creating a stable and predictable</p>	<p>Maintaining straight grade levels from Transitional Kindergarten through fifth grade provides unduplicated students with smaller class sizes, ensuring more personalized instruction. This structure increases the teacher-to-student ratio, allowing educators to focus on individual learning needs and address gaps effectively. As a result, unduplicated students receive the targeted support necessary for improved academic achievement</p>	<p>1.1 ~ Priority 1a: Local Indicator: Percentage of properly credentialed teachers.</p> <p>1.2 ~ Priority 1b: Local Indicator: Percentage of classrooms having sufficient standards-aligned instructional materials.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>learning environment. This continuity helps unduplicated students build strong foundational skills while reducing the risk of learning gaps, ultimately fostering better academic outcomes.</p> <p><b>Scope:</b> LEA-wide</p>		
1.2	<p><b>Action:</b> Additional academic skill development ~ Media/Library Technician</p> <p><b>Need:</b> This action is needed because English learners, socio-economically disadvantaged students, foster youth, and homeless students often face significant barriers to accessing educational resources outside of the school environment.</p> <p><b>Scope:</b> LEA-wide</p>	<p>By maintaining a media/library technician position, Johnstonville ensures unduplicated students have access to essential books, computers, and support in a welcoming environment. This position helps bridge the educational gap by providing assistance, fostering literacy and technological skills, and offering stability to those who need it most.</p>	<p>2.1 ~ Priority 4a1: State Indicator/Academic performance Indicator: SBAC ELA</p>
1.3	<p><b>Action:</b> Instructional Assistant</p> <p><b>Need:</b> Unduplicated students often require additional academic and socio-emotional assistance to overcome barriers to learning, such as language proficiency challenges, socioeconomic disadvantages, and other factors.</p>	<p>An instructional aide provides personalized support to unduplicated students in the early primary grades through small group assistance, helping to address learning challenges and close academic gaps. The aide will also help facilitate interventions and enhance classroom management, allowing teachers to focus on differentiated instruction.</p>	<p>2.1 ~ Priority 4a1: State Indicator/Academic performance Indicator: SBAC ELA 2.2 ~ Priority 4a2: State Indicator/Academic performance Indicator: SBAC Math</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Scope:</b> LEA-wide</p>		
1.4	<p><b>Action:</b> Facilities in good repair</p> <p><b>Need:</b> This action is needed due to the unique challenges faced by English learners, socio-economically disadvantaged students, foster youth, and homeless students. Facilities that are in poor condition disproportionately affect students from low-income families. In addition, a safe, well-maintained learning environment fosters a sense of stability and continuity, crucial for student emotional well-being, which is an area of concern with unduplicated students.</p> <p><b>Scope:</b> LEA-wide</p>	<p>A safe, well-maintained learning environment is critical for English learners, socio-economically disadvantaged students, foster youth, and homeless students because it ensures equitable opportunities by addressing their unique educational challenges. Specialized spaces for English learners, resource-rich environments for socio-economically disadvantaged students, stable support for foster youth, and clean facilities for homeless students are essential for their success. By prioritizing these upgrades, we align with our district's commitment to fostering a secure and supportive environment where all students can thrive.</p>	<p>1.3 ~ Priority 1c: Local Indicator: Facilities in good repair.</p>
2.1	<p><b>Action:</b> Response to Instruction and Intervention Development</p> <p><b>Need:</b> Foster youth, socio-economically disadvantaged, English learners, and homeless students have unique needs due to disrupted education, poverty, and language barriers which often result in an academic gap.</p> <p><b>Scope:</b></p>	<p>Developing and implementing a Response to Instruction and Intervention (RTI<sup>2</sup>) program is crucial for addressing the unique needs of unduplicated students, ensuring access to high-quality instruction (Priority 4a1). This targeted approach supports early identification and intervention, helping students overcome barriers to academic success while fostering learning experiences (Priority 4a2). By prioritizing data-driven decision-making, RTI<sup>2</sup> enables educators to monitor progress effectively, individualize interventions, and help students who struggle academically.</p>	<p>2.1 ~ Priority 4a1: State Indicator/Academic performance 2.2 ~ Priority 4a2: State Indicator/Academic performance</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
2.2	<p><b>Action:</b> Literacy Program</p> <p><b>Need:</b> This literacy program is essential for unduplicated students (English Learners, low-income students, homeless, and foster youth) due to challenges that contribute to a persistent achievement gap in English Language Arts (ELA) compared to their peers. In addition, regular reading practices foster an increased vocabulary and deeper comprehension skills, which are critical for academic success.</p> <p><b>Scope:</b> LEA-wide</p>	<p>A literacy program addresses the achievement gap and language development needs of unduplicated students by promoting daily reading through access to resources and a reward system for those individuals who are extrinsically motivated. Implementing it district-wide helps ensure consistent support while fostering a positive reading culture. This comprehensive approach benefits unduplicated students, and the entire student body, by improving literacy skills and academic performance.</p>	<p>2.1 ~ Priority 4a1: State Indicator/Academic Indicator: SBAC ELA performance</p>
2.3	<p><b>Action:</b> Title I ~ Response to Instruction and Intervention Support ~ Personnel</p> <p><b>Need:</b> Unduplicated students have unique circumstances that can create academic gaps when compared to their peers. This targeted support helps ensure access to educational opportunities, fostering academic growth and closing achievement gaps.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Providing additional instructional aide support LEA-wide addresses the needs of unduplicated students by offering small-group academic assistance and fostering a supportive learning environment. This action directly aligns with California LCAP Priority 4a1 and 4a2, ensuring that English Learners, socio-economically disadvantaged pupils, homeless students, and/or foster youth receive instructional strategies that boost engagement and achievement. By implementing it LEA-wide, all unduplicated students have access to these resources, effectively closing achievement gaps.</p>	<p>2.1 ~ Priority 4a1: State Indicator/Academic Indicator: SBAC ELA performance 2.2 ~ Priority 4a2: State Indicator/Academic Indicator: SBAC Math performance</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.4	<p><b>Action:</b> In-school interventions and supports</p> <p><b>Need:</b> Unduplicated students need in-school intervention and support programs because there is a tendency to have academic gaps from their peers. In addition, there is a need to create small group tutoring to build foundational skills and there is a need to create socio-emotional support to reduce barriers to learning.</p> <p><b>Scope:</b> LEA-wide</p>	<p>In-school intervention and support programs are provided on an LEA-wide basis to ensure that unduplicated students have access to academic resources. This is especially true for those families that are unable to participate in the school's after school program. Interventions will help address learning gaps by offering small group instruction, tutoring, and specialized support services that address the needs of English learners, low-income students, and foster youth. By implementing these actions district-wide, Johnstonville can create a support network that is comprehensive as it strives to enhance the learning environment for unduplicated students.</p>	<p>2.1 ~ Priority 4a1: State Indicator/Academic performance Indicator: SBAC ELA</p> <p>2.2 ~ Priority 4a2: State Indicator/Academic performance Indicator: SBAC Math</p>
2.5	<p><b>Action:</b> After School Interventions and Supports</p> <p><b>Need:</b> Unduplicated students, including English learners, foster youth, homeless students, and low-income students, require additional academic support, focused English language instruction, and opportunities to interact in unstructured times to develop positive social norms, overcome learning gaps, and personal challenges. An after-school intervention and support program that addresses these needs helps students access educational opportunities and fosters academic success district-wide.</p> <p><b>Scope:</b></p>	<p>The after-school intervention and support program addresses the needs of unduplicated students by offering academic and homework assistance. In addition, students are able to have cross-grade-level interactions with students in an environment that allows for socialization and unstructured play.</p>	<p>2.1 ~ Priority 4a1: State Indicator/Academic performance Indicator: SBAC ELA</p> <p>2.2 ~ Priority 4a2: State Indicator/Academic performance Indicator: SBAC Math</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
3.1	<p><b>Action:</b> Social-emotional Counseling</p> <p><b>Need:</b> Research and reports highlight the positive impact of counseling on the engagement and success of unduplicated students. Data from educational mandates like ESSA and LCFF, along with feedback from school surveys, underscore the need for counseling services.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Reports from the National Association for College Admission Counseling and the American School Counselor Association illustrate that school counseling not only improves academic and socio-emotional outcomes for underserved students but also benefits the entire student body by fostering a supportive learning environment. In addition, data from the California Department of Education under the LCFF highlights that counseling boosts achievement, attendance, and behavior among unduplicated students, suggesting that extending such services school-wide could amplify these benefits across all demographics.</p>	<p>3.17 ~ Priority 6a: State Indicator/School Climate: Pupil Suspension Rates 3.18 ~ Priority 6b: Local Indicator/School Climate: Pupil Expulsion Rates 3.19 ~ Priority 6c: Local Indicator/School Climate: School Connectedness 3.20 ~ Priority 6d: Local Indicator/School Climate: School Safety</p>
3.2	<p><b>Action:</b> Chronic Absenteeism</p> <p><b>Need:</b> Unduplicated students frequently require enhanced access to mental health support and targeted academic interventions. Unfortunately, chronic absenteeism denies students access to these school-based interventions and supports. In addition, the development of extrinsic motivators may help those students who struggle with school attendance.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Rolling out a schoolwide program to reduce chronic absenteeism specifically addresses the needs of unduplicated students by ensuring they have equitable access to educational opportunities and support services, crucial for their academic and personal development. Such programs often include elements like access to school counseling and family engagement initiatives, which directly alleviate barriers that disproportionately affect these students. Consistent attendance facilitated by these measures allows for continuous learning and skill development, which are vital for academic success and future opportunities. Furthermore, the very nature of a schoolwide approach fosters a supportive and welcoming school climate that encourages all students to attend regularly, benefiting unduplicated students by embedding them in a stable and consistent educational environment.</p>	<p>3.14 ~ Priority 5a: State Indicator/Student Engagement: School attendance rates 3.15 ~ Priority 5b: State Indicator/Student Engagement: Chronic Absenteeism</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
3.3	<p><b>Action:</b> Chronic Absenteeism~ Community Partnerships</p> <p><b>Need:</b> Unduplicated students frequently require enhanced access to mental health support and targeted academic interventions. Unfortunately, chronic absenteeism denies students access to these school-based interventions and supports.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Rolling out a schoolwide program to reduce chronic absenteeism specifically addresses the needs of unduplicated students by ensuring they have equitable access to educational opportunities and support services, crucial for their academic and personal development. Such programs often include elements like access to school counseling and family engagement initiatives, which directly alleviate barriers that disproportionately affect these students. Consistent attendance facilitated by these measures allows for continuous learning and skill development, which are vital for academic success and future opportunities. Furthermore, the very nature of a schoolwide approach fosters a supportive and welcoming school climate that encourages all students to attend regularly, benefiting unduplicated students by embedding them in a stable and consistent educational environment.</p>	<p>3.14 ~ Priority 5a: State Indicator/Student Engagement: School attendance rates 3.15 ~ Priority 5b: State Indicator/Student Engagement: Chronic Absenteeism</p>
3.4	<p><b>Action:</b> Youth Services ~ Life Skills</p> <p><b>Need:</b> Unduplicated students have unique educational needs that can be addressed through life skills courses. Data from the National Center for Education Statistics highlights that these students are more likely to experience instability in their home environments, which can affect their academic, social, and emotional development (National Center for Education Statistics, 2020). By incorporating a life skills curriculum, schools can provide these students with critical coping and interpersonal skills, thereby supporting their overall academic success and</p>	<p>The implementation of a life skills course for all sixth to eighth graders addresses the needs of unduplicated students by equipping them with essential skills like emotional regulation, effective communication, and decision-making, which are crucial for navigating their unique challenges. Offering this program on a schoolwide basis ensures that all students benefit from these skills, promoting a more supportive school environment. This approach also helps to normalize these teachings, reducing any stigma that might be associated with targeting only specific groups, and supports the holistic development of every student, thus enhancing overall school performance and community cohesion.</p>	<p>3.17 ~ Priority 6a: State Indicator/School Climate: Pupil Suspension Rates 3.18 ~ Priority 6b: Local Indicator/School Climate: Pupil Expulsion Rates 3.19 ~ Priority 6c: Local Indicator/School Climate: School Connectedness 3.20 ~ Priority 6d: Local Indicator/School Climate: School Safety</p>

	<p>personal growth (Journal of Education for Students Placed at Risk, 2019).</p> <p><b>Scope:</b> LEA-wide</p>		

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
-------------------	--------------------	---	------------------------------------

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

The District will continue to focus on actions that are currently demonstrating at least some effectiveness in their implementation in addressing the needs, conditions, or circumstances of our unduplicated students.

The District's three strategic goals continue to be the central planning pillars and associated actions are the means through which these goals are carried out. This is especially true for the district's socioeconomically disadvantaged students, foster youth, students who qualify under McKinney Vento, and English learner students. The outcomes produced by the District's implementation can be measured through the established metrics. There is evidence the District's LCAP actions are bringing about positive change and increased support for students. It is believed through continued efforts, the identified actions will further improve student outcomes, particularly for unduplicated students who show more potential for improvement.

We must increase and improve services by 11.37% for 2023-24. We are adding staff and resources to the base program to provide more services to high-needs students and improve the existing services offered.

Added staff and staff time:  
Media/Librarian Technician  
Small class size

Bilingual instructional aide  
 Response to Instruction and Intervention ~ Instructional aides  
 After-School Interventions and Supports  
 Social-emotional Counseling  
  
 Added resources:  
 Facilities improvement  
 Response to Instruction and Intervention ~ Universal screener  
 Literacy program  
 Chronic Absenteeism Partnerships with Lassen County Probation Department's Truancy Reduction Program  
  
 Training and coaching:  
 Response to Instruction and Intervention ~ Development

**Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Johnstonville Elementary School District does not qualify for nor receive any concentration funding.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	0	1
Staff-to-student ratio of certificated staff providing direct services to students	0	1

# Local Control and Accountability Plan Instructions

## Plan Summary

### Engaging Educational Partners

#### Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- o Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- o Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## Requirements and Instructions

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

### Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

### **Comprehensive Support and Improvement**

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

#### **Schools Identified**

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

#### **Support for Identified Schools**

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

#### **Monitoring and Evaluating Effectiveness**

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## **Engaging Educational Partners Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

## **Requirements**

**School districts and COEs:** *EC sections 52060(g) (California Legislative Information) and 52066(g) (California Legislative Information) specify the educational partners that must be consulted when developing the LCAP:*

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC Section 47606.5(d) (California Legislative Information) requires that the following educational partners be consulted with when developing the LCAP:*

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of EC Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## Instructions

### Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

### Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## **Goals and Actions**

### **Purpose**

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### **Requirements and Instructions**

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

### **Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The LCFF State Priorities Summary provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

#### **Focus Goal(s) Description**

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

#### **Type of Goal**

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### **Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** *EC Section 42238.024(b)(1) (California Legislative Information)* requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

**Broad Goal Description**

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Type of Goal**

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**  
Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

**Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

- These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:

- The specific metrics for each identified student group at each specific school/site, as applicable, to measure the progress toward the goal, and/or
- The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific school/site.

Complete the table as follows:

**Metric #**

- Enter the metric number.

**Metric**

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

**Baseline**

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

#### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

#### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

#### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.

- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

#### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.

- Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “Measuring and Reporting Results” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2026–27</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

**Actions:**

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

**Total Funds**

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

**Contributing**

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

**Required Actions**

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in EC Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in EC Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be succinctly succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

**Please Note:** For the purpose of meeting the Increased or Improved Services requirement and consistent with EC Section 42238.02, long-term English learners are included in the English learner student group.

### **Statutory Requirements**

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (EC Section 42238.07[a][1], EC Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for any action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

## LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Concluding statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

## For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

## Requirements and Instructions

Complete the tables as follows:

### Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

### Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

### Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

### LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar**

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year**

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:  
LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

### **Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

### **How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

### **Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## Total Planned Expenditures Table

in the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. *This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.*
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action is included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- o This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

**Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
  - o This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - o This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - o This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - o This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

**LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.  

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
