# **LCFF Budget Overview for Parents**

Local Educational Agency (LEA) Name: Pleasant Grove JUSD

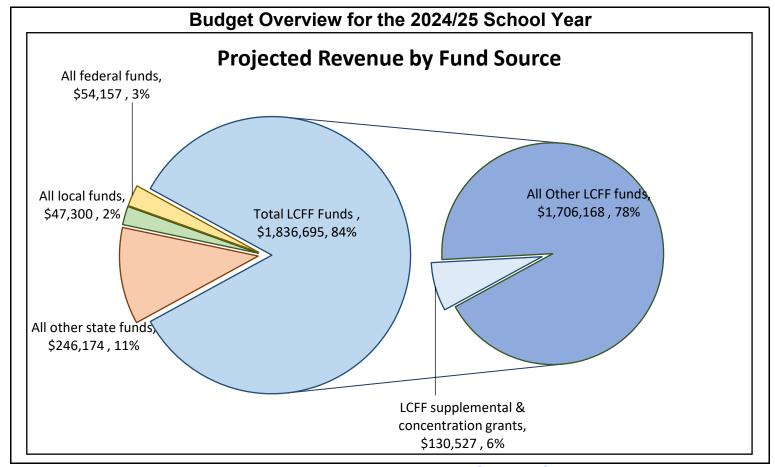

CDS Code: 51714310000000

School Year: 2024/25

LEA contact information: Dave Tarr (916) 655-3235 davet@sutter.k12.ca.us

Approved by COE on 9-11-24

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

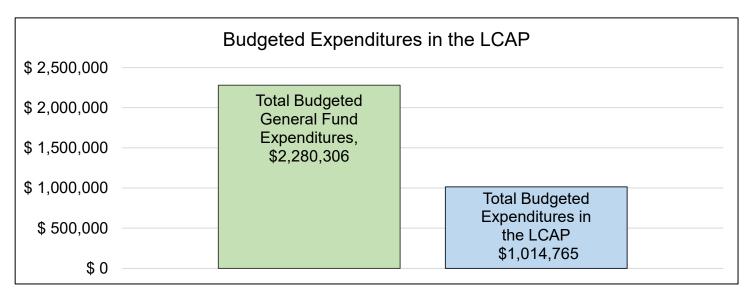

This chart shows the total general purpose revenue Pleasant Grove JUSD expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Pleasant Grove JUSD is \$2,184,326.00, of which \$1,836,695.00 is Local Control Funding Formula (LCFF), \$246,174.00 is other state funds, \$47,300.00 is local funds, and \$54,157.00 is federal funds. Of the \$1,836,695.00 in LCFF Funds, \$130,527.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# **LCFF Budget Overview for Parents**

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Pleasant Grove JUSD plans to spend for 2024/25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Pleasant Grove JUSD plans to spend \$2,280,306.00 for the 2024/25 school year. Of that amount, \$1,014,765.00 is tied to actions/services in the LCAP and \$1,265,541.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

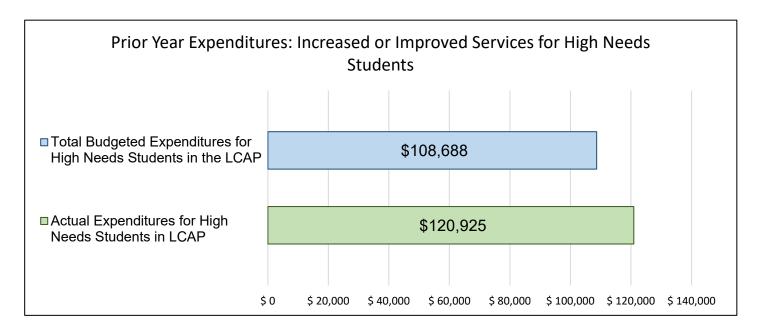

General Fund expenditures not in the LCAP are general operating costs such as salaries, special education, maintenance and operations, instructional supplies, administration, technology, and cafeteria.

Increased or Improved Services for High Needs Students in the LCAP for the 2024/25 School Year

In 2024/25, Pleasant Grove JUSD is projecting it will receive \$130,527.00 based on the enrollment of foster youth, English learner, and low-income students. Pleasant Grove JUSD must describe how it intends to increase or improve services for high needs students in the LCAP. Pleasant Grove JUSD plans to spend \$134,106.00 towards meeting this requirement, as described in the LCAP.

# **LCFF Budget Overview for Parents**

## Update on Increased or Improved Services for High Needs Students in 2023/24

This chart compares what Pleasant Grove JUSD budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Pleasant Grove JUSD estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023/24, Pleasant Grove JUSD's LCAP budgeted \$108,688.00 for planned actions to increase or improve services for high needs students. Pleasant Grove JUSD actually spent \$120,925.00 for actions to increase or improve services for high needs students in 2023/24.

# 2023–24 Local Control and Accountability Plan Annual Update

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Successes: Eight classroom teachers were funded and teachers participated in extensive professional development in Academic Vocabulary Toolkit (AVT) and expanding skills into writing and across curricular areas. This is the 3<sup>rd</sup> year we have worked with the county for professional development (PD) and coaching related to math. We adopted a vision and mission statement, At PG, students will have confidence to persevere through solving mathematical problems. At all grade levels, students will develop and use a strong number sense to increase fluency and solve algorithms. Students will be able to communicate their thinking using grade appropriate strategies and vocabulary. We were part of the Rural Math Collaborative, a grant to help instructional coaches become better math coaches and three of our teachers participated in the teacher cycle. Our new middle school math teacher and Student Services Coordinator participated in a 5day training for Foundations for Core Connection curriculum for our middle school math program, College Preparatory Math (CPM). We hired a retired school administrator to provide mentoring and coaching to our third grade teacher who started in October after the previous teacher left. The mentor and our Student Services Coordinator worked extensively with our new teacher on classroom management, establishing routines and procedures, lesson planning and delivery, pacing of lessons and units, and grading. Our Student Services Coordinator attended the Science of Reading training during the summer and held PD for all paraeducators on the foundational skills for reading development. (Action 1.1) We maintained small class sizes ranging from our smallest class with 12 students to our largest with 23 students. (Action 1.2) We purchased all planned standards-aligned instructional materials. (Action 1.3) A 60% Student Services Coordinator (Intervention Specialist) and paraprofessional staff allowed us to offer a robust Tier II and Tier III intervention program to all students but especially to our Socio-economically Disadvantaged (SED), English Learners, Foster Youth (currently none), and Students with Disabilities (SWD). Approximately 58 students received tiered intervention in ELA or Math. (Action 1.4) All students took part in a six-week dance program during the school day. About 95% of the students performed in the evening performance. Over three hundred parents and family members attended the evening performance. Our art docent returned this year and all students received art instruction one hour per week for six weeks. (Action 1.5) Teachers and students had 1:1 computer access and support for technology. (Action 1.6)

There were no substantive differences between planned actions and actual implementation of the actions in Goal 1. Challenges included: Due to the shortage of teachers, we were not able to be fully staffed and had to combine our first and second graders for a combination class. Our third grade teacher left at the end of September and the position was filled with a new teacher who needed additional support. Two of our three middle school teachers are new to their grade levels and one of them is new to the school. (Action 1.1)

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were several material differences between Budgeted Expenditures and Estimated Actual Expenditures in Goal 1. We spent less on several actions because veteran personnel left and were replaced by newer staff.

Action 1.1: We overbudgeted slightly when developing the 2023/24 LCAP and two veteran teachers left PG and they were replaced by new teachers so employee costs were much lower so we spent less on this action.

Action 1.2: We spent more on this action because costs to employ increased after the LCAP was approved.

Action 1.4: Two of our aides left PG and were replaced by new employees who provided intervention for less time than planned and one aide we planned to use for intervention was needed in a combination classroom so did not work in intervention so we spent less in this action.

Action 1.6: We spent more on this action because we purchased more technology than planned because some laptops unexpectedly needed to be replaced.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Goal 1 encompasses our academic program including good first instruction, universal assessments, progress monitoring, and intervention (Action 1.1-1.4) in addition to Visual and Performing Arts (VAPA) (Action 1.5) and Technology (Action 1.6).

Actions 1.1, 1.2, 1.3, 1.4: As a result of these actions, performance in math on the California Assessment of Student Performance and Progress (CASSPP) has increased over time from 33.33% of all students scoring Standard Met/Exceeded in 2021 to 43.40% in 2023; from 23.33% for our SED student group in 2021 to 28.57% in 2023; and from 0% for our English learners (EL) in 2021 to 40% in 2023. The 2023 California School Dashboard (Dashboard) reported improvement in performance level for our All student group in Math. We have also seen an improvement in students scoring Standard Met on our local assessment, FastBridge, in both English Language Arts (ELA) and Math from Winter 2021 to Winter 2024. (see metric above). Over 63% of English learners increased at least one level on the 2024 Summative ELPAC. We met very few of our Desired Outcomes for Goal 1 but judging effectiveness of our actions in making progress toward the goal is complicated by the fact that Covid happened early on in the current LCAP cycle so most metrics have not improved from our Baseline year and often Desired Outcomes were not adjusted enough. Everyone hoped that recovery would be much faster and more consistent. Taking that into consideration, Actions 1.1-1.4 were effective in making progress, especially in performance in math where we devoted most of our PD attention and Actions 1.1, 1.2, and 1.4 will remain in some form in the 2024/25 LCAP.

Actions 1.5 and 1.6 do not have any specific metrics associated with them. We have Visual and Performing Arts (VAPA) and Technology in place, so these actions will be removed.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

#### Metrics Changes:

- Priority 2B will now include 2<sup>nd</sup> grade students
- Priority 7A: Course Access *Progress (1-5) implementing academic standards for all students* we will now collect data for Health Education, Physical Education (PE), and remove CTE.
- Other metrics may have wording changes to aid in clarity.

## **Expected Outcome Changes:**

Changes have been made to all Expected Outcomes to reflect Baseline data and planned programs and services.

## **Action Changes:**

- Actions for Standards-aligned Instructional Materials (1.3) VAPA (1.5), and Technology (1.6) have been met and will be removed from the LCAP.

- 2023/24 Action Certificated Staff/Professional Development will be split into 2024/25 Action 1.1 Certificated Staff with no changes and
  Action 1.2 Professional Development with the following changes: We will add PD for Science of Reading and remove PD in a handwriting
  curriculum. We also added PD for our math curriculum and we will continue the PD we started in the 2023/24 school year.
- 2023/24 Action 1.2 Certificated Staff to Reduce Class Sizes will now be Action 1.3.
- Action 1.4 Monitoring Learning and Intervention: We have added begin to implement standard-aligned assessments (in-coming, progress monitoring, end of year) in ELA and Math and hold data meetings after each testing window (fall, end of Tri 1, winter, and end of Tri 2)

#### Goal

Goal #	Description	
,	Enhance student engagement by providing enrichment activities, a positive and safe school climate, effective character education, and meaningful parent participation opportunities.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Successes: We regularly communicated with parents through email and social media. (Action 2.1) Various student engagement opportunities were offered such as Friday at the Flag, Read Across America, awards assemblies, Principal List lunch with the principal, Shady Creek for our 6th graders, Red Ribbon Week activities, Spirit Week, whole school swim party, and numerous field trips and assemblies. New staff members assumed the task of coordinating the Student Leadership Team and as a result, many additional student engagement activities were added. After we adopted Character Strong curriculum staff participated in a full day implementation training and we reviewed the curriculum at least once a month at one of our PD Mondays. We are in Stage 1 of PBIS. Restorative practices have been implemented for middle schoolers, there are several positive reinforcements to promote student expectations including Panther Pride weekly cards, banners for best behavior during assemblies, and Panther Character Awards each month. (Action 2.2) A part-time school counselor worked with students and provided lessons for teachers to use in class. This service was increased to 1.5 days per week in January. (Action 2.3) Transportation to and from school was available for all in-district students and to designated stops for inter-district students. We transported an average of 70 students each day. (Action 2.4) We contracted periodic major cleaning services; funded a new hourly position to clean three hours per day; hired a high school student as a part-time employee for school cleaning 1-2 hours per day for 4 days per week; and funded two part-time positions for facilities maintenance and cleaning. (Action 2.5)

There were no substantive differences between planned actions and actual implementation of the actions in Goal 2. Challenges included: We contract counseling services with SCSOS and the availability of staff has been inconsistent and didn't start until we were well into Trimester 1. (Action 2.3) Although we have staff to maintain and clean the facilities, there was too much to do for the time allotted so we had to contract out more landscaping tasks, hire additional part-time staff, and reallocate time for our existing staff so we could prioritize cleaning. (Action 2.5)

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were some material differences between Budgeted Expenditures and Estimated Actual Expenditures in Goal 2 resulting in spending 6.48% more than budgeted.

Action 2.3: More counseling time resulted in spending more than budgeted.

Action 2.4: We only ran one bus route so we had less cost for personnel and fuel so we spent less than budgeted.

Action 2.5: Since one of our bus drivers had more time due to only running one bus route, we used more personnel time on facilities resulting in spending more than budgeted.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The focus on Goal 2 is engagement for students and parents. Actions included parent engagement, student engagement and attendance, supporting social-emotional needs, transportation, and safe, clean facilities. Based on metrics, the actions for Goal 2 were effective in making progress toward the goal during the three-year LCAP cycle.

- Action 2.1 Parent Engagement: Our efforts to engage families and improve communication have improved the rating on the metric, Percent of parents who Strongly Agree/Agree, "I have opportunity to participate in decision making groups." From 83.6% in 2019 to 96% in 2024. Comments on the parent survey regarding parent involvement and communication are positive with high praise for the friendly, welcoming environment. Each year the percentage of parents who say the school is friendly and welcoming has increased and is now 100%. On the 2024 parent survey, 96% of parents say communication is good compared to 90.1% in 2021. This action has been effective.
- Action 2.5 Safe, Clean Facilities: Even with staffing challenges, our FIT rating has remained Exemplary since our baseline year.
- Action 2.2 Student Engagement and Attendance, 2.3 Support SEL Needs, 2.4 Transportation: Our Chronic Absenteeism Rate, is higher than it was in 2019, however, as reported on the 2023 Dashboard, it has declined from 20% in 2022 to 10.5% in 2023. Our Attendance Rate increased from 88.73% in 2022/23 to 90.24% in 2023/24. Feeling of school safety has increased for some educational partner groups: Parents 96.2% in our baseline year to 100% in 2024; Students 85.2% in our baseline year to 98.9% in 2024; Staff 91% in our baseline year to 86% in 2024. The Dashboard reports that our Suspension Rate has increased since 2019 when it was 2.7% to 5.8% on the 2023 Dashboard. Several student groups are in the Red performance level on the 2023 Dashboard: All 5.8%, Hispanic 11.1%, and SED 14%. Our local Suspension Rate as of April 2024 was 3.82% for our All student group and 7.94% for SED. As we evaluated each action and listened to input from our students, we determined that Action 2.2 and 2.3 have been effective in making progress toward Goal 2 but Action 2.4 Transportation was not effective in decreasing chronic absenteeism.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

## Metrics Changes:

- Adding Priority 3 B/C: Parent Involvement Percentage of parents who attend Trimester 1 Parent/Teacher Conferences
- Other metrics may have wording changes to aid in clarity.

## **Expected Outcome Changes:**

- Changes have been made to all Expected Outcomes to reflect Baseline data and planned programs and services.

#### **Action Changes:**

- Actions 2.4 is not effective in decreasing chronic absenteeism and Action 2.5 has been met so these actions are being removed from the 2024/25 LCAP.
- Action 2.2: This action is now titled, Student Engagement because we are adding a separate Attendance action. We added activities
  from our Panther Pride initiative, some school spirit activities, and Character Trait Recognition. We removed teacher stipends because

- they are included in our teacher salaries and weekly SEL lessons because they are also part of our core program and expected to be scheduled each week.
- Action 2.3: We added this action, Attendance. We will regularly inform parents and students about the importance of attendance; use our Student Information System (SIS) to monitor student attendance and send attendance letters once a student reaches each threshold; and evaluate evidence based attendance improvement programs and put at least one program in place to improve attendance.
- 2023/24 Action 2.3 Support Social-emotional Needs is now action 2.4
- Action 2.5: We added an action for Student Behavior to improve behavior for all students and to address the high suspension rates of our All, Hispanic, and SED student groups. We will implement Positive Behavioral Interventions and Supports (PBIS) and Restorative Practices.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

### Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at <a href="LCFF@cde.ca.gov">LCFF@cde.ca.gov</a>.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

#### Goals and Actions

### Goal(s)

## **Goal Analysis**

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

 Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

• Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. "Effectiveness" means the degree to which the actions were successful in producing the desired result and "ineffectiveness" means that the actions did not produce any significant or desired result.
  - o In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics

is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

 Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a threeyear period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven
    effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action
    and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education November 2023

# **Local Control and Accountability Plan**

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Pleasant Grove Joint Union School District	Dave Tarr Principal/Superintendent	davet@sutter.k12.ca.us (916) 655-3235

# Plan Summary 2024/25

## **General Information**

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The Pleasant Grove Joint Union School District, located in rural south Sutter County, serves approximately 160 students in grades TK-8. Our student body is comprised of approximately 63% inter-district transfer students who come to us by choice due to our reputation for achievement and behavioral expectations. We accept all types of students for enrollment: students with behavioral problems, special education needs, or those who receive Title I services. The percentage of students who qualify for free and reduced breakfast and lunch is 40.76% currently. Our EL population is less than 10%.

The Pleasant Grove Joint Union School District (PGJUSD) has a rich history, traditional values, and progressive practices. As a learning community, we ardently believe failure is not an option and support our beliefs by putting effective practices into place. We are the only school in the Pleasant Grove School District. The school began serving students of the rural farming communities of South Sutter County in the mid 1800's, and many of our students' parents and grandparents, and even some of our current staff members, attended school here. We enjoy the many benefits of being a central part of a close knit, multigenerational farming community. Although we have strong roots in the past, we are a forward thinking, high quality school. Pleasant Grove students and staff all work hard and expect a lot of each other. We provide a unique educational experience, and everyone performs their best, no matter what their role.

We value strong, fundamental, standards-based education while employing innovative, engaging teaching techniques to meet the variety of learning needs and styles we encounter. We received Distinguished School Awards in 2008 and 2014 and a Title I Award in 2014. In 2016 we received the Gold Ribbon and Title I Awards. Never content to rest on our laurels, Pleasant Grove School continues to maintain a reputation of uncompromised commitment to academic growth.

Our vision is one of excellence in action and continuous learning, for all of us! We are not a complacent community of learners: everyone from community members to Board of Trustees to our custodians and bus drivers are integral to our success. We have partnerships with community groups such as 4-H, Kiwanis Club, and the local fire department who provide services for our students. Our parents are very supportive of and involved in our school as Parents' Club members and classroom volunteers.

## **Reflections: Annual Performance**

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

For the last three years, we have worked to improve our English Language Arts (ELA) and math instruction. We worked with Sutter County Superintendent of Schools (SCSOS) staff to identify essential standards and we participated in training and coaching in Academic Vocabulary Toolkit and using these tools in all subject areas to improve instruction for all student but especially our English learners (EL). Our Student Services Coordinator attended the Science of Reading training during the summer and held PD for all paraeducators on the foundational skills for reading development. Through extensive professional development focused on mathematics instruction as we aligned instruction, assessment, and essential standards. We worked with the county for lesson planning and coaching, we adopted a vision and mission statement for math, and participated in the Rural Math Collaborative. Our instructional coach and middle school math teacher attended training focused on our College Preparatory Math (CPM) math curriculum.

As a result of our actions, performance in math on the California Assessment of Student Performance and Progress (CASSPP) has increased over time from 33.33% of all students scoring Standard Met/Exceeded in 2021 to 43.40% in 2023 and from 23.33% for our Socio-economically Disadvantaged (SED) student group in 2021 to 28.57% in 2023. The 2023 California School Dashboard (Dashboard) reported improvement for our All student group in Math. Due to our extensive PD and increased intervention, we have also seen an improvement in students scoring Standard Met on our local assessment, FastBridge, in both English Language Arts (ELA) and Math from Winter 2021 when we began testing to Winter 2024.

Despite the gains, we still have areas of need in ELA and Math. On the Dashboard, all student groups declined in ELA and our SED student group also declined Math. Unlike the gains in math as reported in CAASPP, there have been declines in ELA over time from 51.86% of all students scoring Standard Met/Exceeded in 2021 to 46.07% in 2023 and 60% of SED student in 2021 to 41.17% in 2023. As reported on state and local assessments there is a performance gap in ELA and Math between our All student group and SED student group. We do not have a large enough English learner student group to have a performance level on the Dashboard or percentages through CAASPP, but when we examine our local data, we see there is a performance gap between our All student group and English learners (ELA 12.5% winter 2024; Math 50% winter 2024). To continue our work to eliminate the achievement gap and improve academic achievement for all students, in the 2024/25 LCAP we will continue to fund additional certificated staff so our class sizes are small; include the addition of the Science of Reading and PD in our math curriculum; and we will maintain our local assessment and progress monitoring system and targeted intervention. (Actions 1.2, 1.3, 1.4)

#### 2023 California School Dashboard (Dashboard) - Distance from Standard

## ELA:

All: 20.6 points below standard, declined 9.3 points SED: 42.2 points below standard, declined 23.8 points White: 21.5 points below standard, declined 11 points

#### Math:

All: 26.1 points below standard, increased 6.3 points SED: 69.3 points below standard, declined 3.3 points White: 13.3 points below standard, increased 8.1 points

#### Local Assessment - FastBridge - Scoring at or above the 40th percentile

ELA

All: 53% in 2021 to 67.96% in 2024 SED: 45% in 2021 to 61.54% in 2024

Math

All: 72% in 2021 to 84.31% in 2024 SED: 61% in 2021 to 73.68% in 2024

After the events of the past several years, we recognized the increased need to improve parent engagement and student engagement and well-being. Actions in the 2023/24 LCAP included increasing communication and parent engagement opportunities; adding student engagement events; supporting social-emotional needs; providing transportation; and making sure we had safe, clean facilities. Our efforts to engage families and improve communication increased the rating on the metric, *Percent of parents who Strongly Agree/Agree, "I have opportunity to participate in decision making groups."* from 83.6% in 2019 to 96% in 2024. Comments on the parent survey regarding parent involvement and communication were positive with high praise for the friendly, welcoming environment. Each year the percentage of parents who say the school is friendly and welcoming has increased and is now 100%. On the 2024 parent survey, 96% of parents say communication is good compared to 90.1% in 2021. Feelings of school safety have increased for some educational partner groups: Parents 96.2% in our baseline year to 100% in 2024; Students 85.2% in our baseline year to 98.9% in 2024; Staff 91% in our baseline year to 86% in 2024. (Action 2.1)

Our Chronic Absenteeism Rate is higher than it was in 2019, however, as reported on the 2023 Dashboard, all significant student groups have improved. All: 10.5%, declined 9.5%; Hispanic 2.9%, declined 11.8%; White: 12.6%, declined 8.7%; SED: 15.8%, declined 7.3%. We attribute this steady decline to Action 2.2 Student Engagement and Attendance. The Dashboard reports that our Suspension Rate has increased since 2019 when it was 2.7% to 5.8% on the 2023 Dashboard for our All student group. Three student groups are in the Red performance level on the 2023 Dashboard: All 5.8%, increased 2.3%; Hispanic 11.1%, increased 8.2%; and SED 14%, increased 8.5%. Our White student group increased 0.7% to 4.8% and stayed in the same performance level. Our local Suspension Rate as of April 2024 was 3.82% for our All student group and 7.94% for SED. More work needs to be done to improve attendance and behavior so in the 2024/25 LCAP we will add Action 2.3 Attendance where we will regularly inform parents and students about the importance of attendance; use our Student Information System (SIS) to monitor student attendance and send attendance letters once a student reaches each threshold; and evaluate evidence based attendance improvement programs and put at least one program in place to improve attendance. To improve behavior for all students and to address the suspension rates of our All, Hispanic, and SED student groups we will add Action 2.5 where we will implement Positive Behavioral Interventions and Supports (PBIS) and Restorative Practices.

# **Engaging Educational Partners**

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

The district leadership staff began the process of reviewing progress on the current LCAP goals and actions in October 2023 and began gathering input from educational partners in January 2024 and this process continued throughout the development of the LCAP. The following educational partner meetings and surveys were used in the development of this document and considered before finalizing the LCAP.

Educational Partner(s)	Process for Engagement
Certificated & Classified Staff (No Bargaining Unit)	Staff completed surveys for LCAP Metrics and Local Priorities 2 and 3 in January 2024 and discussed ratings for Priority 2 at a staff meeting in January. Results of parent and student surveys were shared at a March 2024 meeting. Additional discussions regarding the progress on the current LCAP, data collected, proposed actions, and the draft 2024/25 LCAP occurred during spring 2024 meetings. The draft LCAP was available to staff for comment prior to final board approval.
Principals & Administrators	N/A
Parents	Parent surveys were used to obtain data for the annual update as well as metrics to drive goals and actions for the 2024/25 LCAP. Meetings and the availability of surveys were publicized through email messages and posted on our website. The draft LCAP was posted on the website and available for input prior to board adoption.
Students	Students in grades 4 <sup>th</sup> -8 <sup>th</sup> were surveyed in February 2024 via Google forms for their input on conditions of learning, engagement, and academics. Results were used for the annual update as well as metrics to drive goals and actions for the 2024/25 LCAP.
Parent Advisory Committee (PAC)	The Parent Advisory Committee reviewed the draft LCAP in May 2024 prior to the board adoption.
ELAC/DELAC	N/A – Fewer than 21 English learners
SELPA	District leaders met with the Sutter County SELPA Director in April 2024 for input on the 2024/25 LCAP.

Insert or delete rows, as necessary.

#### A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

PGJUSD actively sought the involvement and input of all educational partners as part of the 2024/25 LCAP development process and considered their input before finalizing the LCAP. The following summarizes the actions and services that have been influenced by specific educational partner input.

Educational partners noted the need to maintain small class sizes and continue our targeted intervention program. Parents recognize the additional intervention and support their children are receiving and want those to continue. The following actions are a result of this input:

Goal 1, Action 1.3: Fund enough certificated staff to have small class sizes.

Goal 1, Action 1.4: Monitor learning and deliver targeted intervention.

Attendance and behavior continue to be concerns for staff, parents, and the board. Through our Annual Update process it was determined that we needed specific actions to address these needs. The following actions are a result:

Goal 2, Action 2.3 Attendance: We will regularly inform parents and students about the importance of attendance; use our Student Information System (SIS) to monitor student attendance and send attendance letters once a student reaches each threshold; and evaluate evidence based attendance improvement programs and put at least one program in place to improve attendance.

Goal 2, Action 2.5 Student Behavior: To improve behavior for all students and to address the suspension rates of our All, Hispanic, and SED student groups we will implement Positive Behavioral Interventions and Supports (PBIS) and Restorative Practices.

## **Goals and Actions**

## Goal

Goal #	Description	Type of Goal
1	Ensure that all students are college and career ready by providing rigorous, relevant, and high-quality instruction that challenges all students and develops citizenship, leadership, and innovative thinking.	Broad

#### State Priorities addressed by this goal.

State Priorities: 1, 2, 4, 7, 8

An explanation of why the LEA has developed this goal.

As a result of extensive PD and increased intervention, performance in math on the CASSPP, while not at our Baseline, has increased over time from 33.33% of all students scoring Standard Met/Exceeded in 2021 to 43.40% in 2023; from 23.33% for our SED students in 2021 to 28.57% in 2023; and from 0% for our English learners in 2021 to 40% in 2023. The 2023 Dashboard reported improvement for our All student group in Math from 2022. We have also seen an improvement in students scoring Standard Met on our local assessment, FastBridge, in both ELA and Math from Winter 2021 when we began testing to Winter 2024.

Despite the gains, we still have areas of need in ELA and Math. On the 2023 Dashboard, all student groups declined in ELA and our SED student group also declined Math. As reported on 2023 CAASPP, we are not making progress in ELA. Our All student group had 46.07% of students scoring Standard Met/Exceeded in 2023 down from 51.86% in 2021 and far from our Baseline of 62%. Our SED student group is also not making progress in ELA, 41.17% scored Standard Met/Exceeded in 2023 down significantly from 60% in 2021 and still far from our Baseline of 54%. Also, as reported in state and local assessments there is a performance gap in ELA and Math between our All student group and SED and EL student groups.

The actions and services linked to this goal concentrate on improving instruction through ongoing PD and improving academic performance by using data to inform instruction and determine intervention needs for all students but especially our Socio-economically Disadvantaged student group and our English learners.

# Goal Analysis for 2024/25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

N/A

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

N/A

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

N/A

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

# **Actions**

Action #	Title	Description	Total Funds	Contributing
1.1	Certificated Staff	Ensure the development, effectiveness, and retention of highly qualified staff, through a comprehensive program of professional development, support, and compensation.		No
1.2	Professional Development	We will access professional development and coaching activities through our Student Services Coordinator, County Offices of Education, and curriculum publishers on:  O ELA  O Writing O AVT O High 5 For All O Science of Reading O Continue a Reading Development training for instructional aides O Continue PD in SEL curriculum/behavior practices O Math O We will continue our work with SCSOS in Math O Student Services Coordinator will attend Rural Coaching in Math O Training for teachers in our Math curriculum  Teachers and/or administrators will have the opportunity to attend training during summer 2024 on ELA, Writing, Math, and/or SEL. Teachers will be paid their negotiated supplemental rate of pay.		No
1.3	Certificated Staff to Reduce Class Sizes	Fund staff to reduce class sizes to better serve low-income students, English learners and foster youth.	\$134,106	Yes
1.4	Monitoring Learning and Intervention	Monitor the academic achievement of students and provide intervention and support to address the academic needs of all students including SED, EL, foster youth (currently none), and SWD.      Assessments and data management system  Staff to coordinate assessment system and evaluate assessment data  Begin to implement standard-aligned assessments (in-coming, progress monitoring, end of year) in ELA and Math  Hold data meetings after each testing window (fall, end of Tri 1, winter, and end of Tri 2)  Coaching and instructional planning for lessons and intervention  Staff to provide targeted intervention to students		No

## Goal

Goal #	Description	Type of Goal
2	Enhance student engagement by providing enrichment activities, a positive and safe school climate, effective character education, and meaningful parent participation opportunities.	Broad

State Priorities addressed by this goal.

State Priorities: 1, 3, 5, 6

An explanation of why the LEA has developed this goal.

This goal was developed to support the safety, engagement, and involvement of all educational partners. During the previous three-year LCAP cycle, we recognized the increased need to improve parent engagement and student engagement and well-being. Actions included, increasing communication and parent engagement opportunities; adding student engagement events and renewing our attendance tracking system; supporting social-emotional needs; providing transportation; and making sure we have safe, clean facilities. Our efforts to engage families and improve communication increased the rating on the metric, *Percent of parents who Strongly Agree/Agree, "I have opportunity to participate in decision making groups."* From 83.6% in 2019 to 96% in 2024. Comments on the parent survey regarding parent involvement and communication are positive with high praise for the friendly, welcoming environment. Each year the percentage of parents who say the school is friendly and welcoming has increased and is now 100%. On the 2024 parent survey, 96% of parents say communication is good compared to 90.1% in 2021. Feelings of school safety have increased for some educational partner groups: Parents 96.2% in our baseline year to 100% in 2024; Students 85.2% in our baseline year to 98.9% in 2024; Staff 91% in our baseline year to 86% in 2024.

Our Chronic Absenteeism Rate, along with most other schools in the state, is higher than it was in 2019, however, as reported on the 2023 Dashboard, it has declined from 20% in 2022 to 10.5% in 2023. We attribute this steady decline to Actions 2.2 Student Engagement and Attendance and 2.4 Transportation. The Dashboard reports that our Suspension Rate has increased since 2019 when it was 2.7% to 5.8% on the 2023 Dashboard. Three student groups are in the Red performance level on the 2023 Dashboard: All 5.8%, Hispanic 11.1%, and SED 14%. Our local Suspension Rate as of April 2024 was 3.82% for our All student group and 7.94% for SED.

The actions in this goal are focused on creating and maintaining a positive school climate where everyone is encouraged to be an active participant in the school community.

# **Measuring and Reporting Results**

# Goal Analysis for 2023/24

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

N/A

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

N/A

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

N/A

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

# **Actions**

Action #	Title	Description		Contributing
2.1	Parent Engagement	Promote parent engagement through regular communication and school events and activities.		No
2.2	Student Engagement	Increase student engagement, regular school attendance, and positive behavior by offering varied opportunities for students to engage in school and learning.  O Panther Pride Initiative  O Student expectations for standards of behavior. Each week students who exhibit those behaviors are recognized with a certificate during the weekly Friday at the Flag  O During monthly assemblies, the class that shows the students expectation for the month receives keeps the Panther for the month and gets a treat  Assemblies (Many of our assemblies of funded through Parent's Club)  School spirit activities and prizes  Two classes showing Panther Spirit get a flag to hang in their classroom for the month  Student Leadership program  Character Trait Recognition  Monthly at assemblies	\$1,500	No
2.3	Attendance	<ul> <li>In addition to increasing student engagement we will:         <ul> <li>Regularly inform parents and students about the importance of attendance (Welcome Letter; Back-to-School Night; monthly newsletters; meetings)</li> <li>Use our Student Information System (SIS) to monitor student attendance and send attendance letters once a student reaches each threshold</li> <li>Evaluate evidence based attendance improvement programs and put at least one program in place to improve attendance</li> </ul> </li> </ul>	\$18,476	No

2.4	Support Social-Emotional Needs	<ul> <li>Support SEL needs of all students by funding a part-time school counselor and implementing an SEL curriculum into all classrooms.</li> </ul>	\$11,430	No
2.5	Student Behavior	We are part of the SCSOS consortium so this action will be funded through SCSOS. While it is designed to improve the behavior of all students, it will address the Suspension Rate performance level (Red) of our All, Hispanic, and SED student groups.  O PBIS  O Training for all staff O Restorative Practice O Superintendent/Principal, Student Services Coordinator, 6th-8th grade teachers will attend training through SCSOS	\$3,040	No

# **Local Control and Accountability Plan Instructions**

**Plan Summary** 

**Engaging Educational Partners** 

**Goals and Actions** 

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at <a href="LCFF@cde.ca.gov">LCFF@cde.ca.gov</a>.

# **Introduction and Instructions**

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- Comprehensive Strategic Planning: The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- Meaningful Engagement of Educational Partners: The LCAP development process should result in an LCAP that reflects decisions
  made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights
  about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify
  potential goals and actions to be included in the LCAP.
- Accountability and Compliance: The LCAP serves an important accountability function because the nature of some LCAP template
  sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most
  notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.
- o Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

Local Control and Accountability Plan Instructions

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# **Plan Summary**

# **Purpose**

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

# **Requirements and Instructions**

#### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

#### Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
   and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

#### Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

## Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

#### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

• Identify the schools within the LEA that have been identified for CSI.

#### **Support for Identified Schools**

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

 Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

#### **Monitoring and Evaluating Effectiveness**

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

 Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

# **Engaging Educational Partners**

# **Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

# Requirements

**School districts and COEs:** *EC* sections <u>52060(g)</u> (<u>California Legislative Information</u>) and <u>52066(g)</u> (<u>California Legislative Information</u>) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators.
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC* Section <u>47606.5(d)</u> (California Legislative Information) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and

Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the <a href="CDE's LCAP webpage">CDE's LCAP webpage</a>.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see Education Code Section 52062 (California Legislative Information);
  - Note: Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of EC Section 52062(a).
- For COEs, see Education Code Section 52068 (California Legislative Information); and
- For charter schools, see Education Code Section 47606.5 (California Legislative Information).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## Instructions

# Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

# Complete the table as follows:

**Educational Partners** 

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

## Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other
  engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to
  engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools
  generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each
  applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process

Analysis of challenges or successes in the implementation of actions

# **Goals and Actions**

# **Purpose**

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

# Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

#### Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The <u>LCFF State Priorities Summary</u> provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

## Focus Goal(s)

#### Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

#### Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

# Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

#### Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

Local Control and Accountability Plan Instructions

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing
  at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing,
  subject matter preparation, and retention of the school's educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the
    performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

#### Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise
  receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to
  implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** *EC* Section <u>42238.024(b)(1)</u> (California Legislative Information) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

#### **Broad Goal**

#### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a
  focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

## Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

## Maintenance of Progress Goal

#### Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Local Control and Accountability Plan Instructions

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

## Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

# Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- Required metrics for LEA-wide actions: For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- Required metrics for Equity Multiplier goals: For each Equity Multiplier goal, the LEA must identify:

- The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
- o The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

#### Complete the table as follows:

#### Metric #

Enter the metric number.

#### Metric

 Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

#### Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the threeyear plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - o Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
    - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.

 Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

#### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

#### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

#### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year
     2, as applicable.

#### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "Measuring and Reporting Results" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

## Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - o Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

• Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. "Effectiveness" means
  the degree to which the actions were successful in producing the target result and "ineffectiveness" means that the actions did not
  produce any significant or targeted result.
  - o In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a threeyear period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven
    effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action
    and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

## Actions:

Complete the table as follows. Add additional rows as necessary.

#### Action #

Enter the action number.

#### Title

Provide a short title for the action. This title will also appear in the action tables.

#### Description

- Provide a brief description of the action.
  - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
  - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

#### **Total Funds**

• Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

## Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
  - Note: for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in EC Section 306, provided to students, and
  - Professional development for teachers.

- o If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.
- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

# **Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

# Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the

identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

#### LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

## For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

# **Requirements and Instructions**

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

 Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

#### Projected Additional 15 percent LCFF Concentration Grant

• Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

#### Projected Percentage to Increase or Improve Services for the Coming School Year

• Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

#### LCFF Carryover — Percentage

• Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

#### LCFF Carryover — Dollar

• Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

#### Total Percentage to Increase or Improve Services for the Coming School Year

Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required
Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be
increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section
15496(a)(7).

# **Required Descriptions:**

#### **LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

#### **Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

#### How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

#### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

#### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

#### **Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

#### How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

#### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the
  contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the
  amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the
  number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55
  percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a
  single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must
  describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who
  provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing
  support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

#### Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - o The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - o The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

# **Action Tables**

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

# **Total Planned Expenditures Table**

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- LCAP Year: Identify the applicable LCAP Year.
- 1. Projected LCFF Base Grant: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- 2. Projected LCFF Supplemental and/or Concentration Grants: Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- 3. Projected Percentage to Increase or Improve Services for the Coming School Year: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5

CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- LCFF Carryover Percentage: Specify the LCFF Carryover Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- Total Percentage to Increase or Improve Services for the Coming School Year: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.
- Goal #: Enter the LCAP Goal number for the action.
- Action #: Enter the action's number as indicated in the LCAP Goal.
- Action Title: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- Contributing to Increased or Improved Services?: Type "Yes" if the action is included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is not included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - Scope: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - Unduplicated Student Group(s): Regardless of scope, contributing actions serve one or more unduplicated student groups.
     Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - Location: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- Total Personnel: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - Note: For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- Other State Funds: Enter the total amount of Other State Funds utilized to implement this action, if any.
  - Note: Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- Local Funds: Enter the total amount of Local Funds utilized to implement this action, if any.
- Federal Funds: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

# **Contributing Actions Table**

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

# **Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

• Estimated Actual Expenditures: Enter the total estimated actual expenditures to implement this action, if any.

# **Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- 6. Estimated Actual LCFF Supplemental and/or Concentration Grants: Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- Estimated Actual Expenditures for Contributing Actions: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - o Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and

determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

# **LCFF Carryover Table**

- 9. Estimated Actual LCFF Base Grant: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- 10. Total Percentage to Increase or Improve Services for the Current School Year: This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## **Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

## **Contributing Actions Table**

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - o This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- 5. Total Planned Percentage of Improved Services
  - o This percentage is the total of the Planned Percentage of Improved Services column.
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

## **Contributing Actions Annual Update Table**

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

## • 6. Estimated Actual LCFF Supplemental and Concentration Grants

 This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

## • 4. Total Planned Contributing Expenditures (LCFF Funds)

This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

#### • 7. Total Estimated Actual Expenditures for Contributing Actions

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

## • 5. Total Planned Percentage of Improved Services (%)

o This amount is the total of the Planned Percentage of Improved Services column.

## • 8. Total Estimated Actual Percentage of Improved Services (%)

- This amount is the total of the Estimated Actual Percentage of Improved Services column.
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

## LCFF Carryover Table

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)

 This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

#### • 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)

• This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

#### • 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

#### • 13. LCFF Carryover — Percentage (12 divided by 9)

 This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education November 2023
