2025-26 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
NextGeneration STEAM Academy	Brenda L Scholl Executive Director	bscholl@riacademies.net 209--717-6702

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.

- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and

- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at https://www.cde.ca.gov/ds/ad/tamo.asp.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2024-2025	37	27	1	5	4			

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0%

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0%

Implementation of State Academic Standards (LCFF Priority 2)

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the optional reflection tool (Option 2).

OPTION 1: Narrative Summary (Limited to 3,000 characters)
In the narrative box provided on the Dashboard, identify the locally selected measures or tools that the LEA is using to track its progress in implementing the state academic standards adopted by the state board and briefly describe why the LEA chose the selected measures or tools.

Additionally, summarize the LEA's progress in implementing the academic standards adopted by the SBE, based on the locally selected measures or tools. The adopted academic standards are:

- English Language Arts (ELA) – Common Core State Standards for ELA
- English Language Development (ELD) (Aligned to Common Core State Standards for ELA)
- Mathematics – Common Core State Standards for Mathematics
- Next Generation Science Standards
- History-Social Science
- Career Technical Education
- Health Education Content Standards
- Physical Education Model Content Standards
- Visual and Performing Arts
- World Language

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. **Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

   Rating Scale (lowest to highest):
   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards			3		
History-Social Science			3		

2. **Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science			3		

3. **Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA			3		
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics			3		
Next Generation Science Standards			3		
History-Social Science			3		

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education						N/A
Health Education Content Standards	1					
Physical Education Model Content Standards			3			
Visual and Performing Arts			3			
World Language						N/A

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole			3		
Identifying the professional learning needs of individual teachers			3		
Providing support for teachers on the standards they have not yet mastered			3		

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: [1]

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):

   1 – Exploration and Research
   2 – Beginning Development
   3 – Initial Implementation
   4 – Full Implementation
   5 – Full Implementation and Sustainability

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.

5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	3
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	4
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	3
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	4

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Building relationships between school and families and community is a priority for STEAM Academy. We work as a staff to learn how to best support students/families and on how best to communicate with families on an on-going, regular basis. We receive formal and informal verbal and written feedback from families on events and programs that they thought were successful or ways they can be improved and use that to tailor future events.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

One area that we would like to expand is Parent/Caregiver Education and Community Connectedness through assemblies and cohort gatherings.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

We have provided an SEL Assembly for Parents/Guardians to attend but we would like to expand our offerings to support our parents and open the dialog between school staff and families. We also plan to support the implementation of gatherings of cohorts such as grade level communities, ethnic groups, etc.
Additionally, it is a goal of our school community to promote and increase participation in our Parent Teacher Organization. Our PTO not only allows opportunities for parents and school staff to build relationships but to plan community building events that allow all to come together.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	3
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	3
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	4
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	3

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

Parental volunteer participation, including unduplicated student parents and parents of students with exceptional needs, continues to be strong. This is verified by volunteer logs, attendance at school events, Parent Teacher Conferences, and meeting sign-in sheets. The large parent involvement component is vital to our school program. Parents are encouraged to volunteer 5 hours per child, per month at our school. This school year, over 200 parent volunteers were cleared to volunteer in classrooms and/or participate in school field trips. In addition to on-going work in the classrooms, there were many committees and activities where parent involvement plays a large role: Governing Board Meetings, LCAP Advisory Committee, Coffee and Chats, Parent/Teacher conferences, committee meetings, and IEP meetings. Many family events were held throughout the year to encourage parent involvement and participation such as; music concerts, awards ceremonies, sporting events, and Science and Technology Night. Regular emails and monthly newsletters verify ongoing efforts to seek/encourage parent participation in school events and offer input in school decisions.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

STEAM Academy is always looking for ways to encourage and increase parental involvement/ participation, creating and modifying events to best meet the needs of our students and families.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

From the feedback we received in our survey and during meetings, we will change the times of events in an attempt to increase parent participation and figure out what will work best for a majority of our families.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	3
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	3
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	3
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	3

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

STEAM Academy provides various ways for parents to provide input and advise administration. School wide meetings, focus groups and committees, and one-one with classroom teachers and administration are just a few ways parents can provide input. Opinions of parents, and feedback is sought through surveys and open forms. Bi-monthly open conversations are held with the community and school administrators where parents are free to provide input, make suggestions for improvement or ask questions. There are advisory groups that are comprised of staff and parents that change annually, giving anyone the opportunity to participate in school planning. Parent/Teacher conferences and IEP meetings are held regularly that involve parents in decision making for their children.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

An area that we will continue to explore is providing translation services for families who attend our school to enable them to better participate in their child's learning and school environment.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

One way we have begun to engage the families of students who are English Language Learners is to increase the frequency of our ELAC meetings and use that time to inform parents of events, meetings, and committees that they might not have been aware of. Based on our survey responses to our annual LCAP survey, we will continue our outreach to engage parents in meaningful ways and on a timely basis.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction
LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and

- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

STEAM Academy annually administers both a Parent and Student survey to gain insight about connectedness to the school. The survey is done in the spring through a Google link sent by email to the parents to complete at home, and for students during class time so Teachers can support and work through the survey with the class as needed. Some results from the Student and Parent surveys for the 24-25 school year are below:

Student Survey Results
78% of students surveyed strongly agreed or agreed to the statement: I like going to school.
22% of students surveyed strongly disagreed or disagreed.

81% of students surveyed strongly agreed or agreed to the statement: I feel comfortable talking with school staff.
19% of students surveyed strongly disagreed or disagreed.

85% of students surveyed strongly agreed or agreed to the statement: I feel safe at school.
15% of students surveyed strongly disagreed or disagreed.

Parent Survey Results
82% of parents agreed or strongly agreed that their child "Likes coming to school".
7% strongly disagreed or disagreed.

77% of parents agreed or strongly agreed that their child's school creates welcoming environments for all families in our community.
8% strongly disagreed or disagreed.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

We were able to disaggregate student survey data by grade level span. Through this breakdown, we were able to identify that a majority of Tk- 2, 3-5, and 6-8 students enjoy going to school and are comfortable at school. For the minority group of students who do not, we would like to give them the opportunity to elaborate so we can implement solutions. We also want to allow students who do love school to share why so we can continue our best practices. Next year, we will add opportunities in the survey for students to elaborate why they answered the way they did. Although we did double our participation of the parent survey this school year, it is still a small majority of our families. We plan to prioritize involvement in the upcoming year by having the survey available to take after the mid year parent- teacher conference again, have teachers email out the survey link and post to their weekly newsletters, and have the school push it out to families who have text notifications on.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

The data that has been collected through this survey continues to be positive, and we think this is tied to the training we do with teachers about the student/teacher relationships that is such a large part of our culture. There is a small percentage of students who answered the questions in the negative, and we continue to explore ways that we can reach all students to make sure that they feel valued, safe and welcome here at school. Next year we will use a different platform to be able to disaggregate the data. With a more detailed look, hopefully we can better determine if there is a specific group(s) of students who are not feeling connected to so we can specifically address those areas with them.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

All students, including unduplicated students and students with exceptional needs, have access and are enrolled in rigorous a broad course of study that includes the adopted courses of study specified in the California Education Code for Grades 1-6 and Grades 7-12 , as applicable, verified by class assignments and class schedules.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

All students, including unduplicated students and students with exceptional needs, have access to rigorous curriculum and assignments through their individual devices, verified by class assignments and class schedules. Students in grades 6-8 have additional Success Classes (electives) that they sign up for based on interest three times a year. Students have access to all course options and are assigned to either their first or second choice selections.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

There are no barriers to providing access to a broad course of study for all students enrolled.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

There are no barriers to providing access to a broad course of study for all students enrolled.

Coordination of Services for Expelled Students – COE Only (LCFF Priority 9)

Assess the degree of implementation of the progress in coordinating instruction for expelled students in your county.

Rating Scale (lowest to highest):
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Coordinating Instruction	1	2	3	4	5
1. Assessing status of triennial plan for providing educational services to all expelled students in the county, including:	[No response required]	[No response required]	[No response required]	[No response required]	[No response required]
a. Review of required outcome data.					
b. Identifying existing educational alternatives for expelled pupils, gaps in educational services to expelled pupils, and strategies for filling those service gaps.					
c. Identifying alternative placements for pupils who are expelled and placed in district community day school programs, but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils.					
2. Coordinating on development and implementation of triennial plan with all LEAs within the county.					
3. Establishing ongoing collaboration and policy development for transparent referral process for LEAs within the county to the county office of education or other program options, including dissemination to all LEAs within the county a menu of available continuum of services for expelled students.					

Coordinating Instruction	1	2	3	4	5
4. Developing memorandum of understanding regarding the coordination of partial credit policies between district of residence and county office of education.					

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

Assess the degree of implementation of coordinated service program components for foster youth in your county.

Rating Scale (lowest to highest):

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

Coordinating Services	1	2	3	4	5
1. Establishing ongoing collaboration and supporting policy development, including establishing formalized information sharing agreements with child welfare, probation, Local Education Agency (LEAs), the courts, and other organizations to support determining the proper educational placement of foster youth (e.g., school of origin versus current residence, comprehensive versus alternative school, and regular versus special education).					
2. Building capacity with LEA, probation, child welfare, and other organizations for purposes of implementing school-based support infrastructure for foster youth intended to improve educational outcomes (e.g., provide regular professional development with the Foster Youth Liaisons to facilitate adequate transportation services for foster youth).					
3. Providing information and assistance to LEAs regarding the educational needs of foster youth in order to improve educational outcomes.					

Coordinating Services	1	2	3	4	5
4. Providing direct educational services for foster youth in LEA or county-operated programs provided the school district has certified that specified services cannot be provided or funded using other sources, including, but not limited to, Local Control Funding Formula, federal, state or local funding.					
5. Establishing ongoing collaboration and supporting development of policies and procedures that facilitate expeditious transfer of records, transcripts, and other relevant educational information.					
6. Facilitating the coordination of post-secondary opportunities for youth by engaging with systems partners, including, but not limited to, child welfare transition planning and independent living services, community colleges or universities, career technical education, and workforce development providers.					
7. Developing strategies to prioritize the needs of foster youth in the community, using community-wide assessments that consider age group, geographical area, and identification of highest needs students based on academic needs and placement type.					
8. Engaging in the process of reviewing plan deliverables and of collecting and analyzing LEA and COE level outcome data for purposes of evaluating effectiveness of support services for foster youth and whether the investment in services contributes to improved educational outcomes for foster youth.
