LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Alpaugh Unified School District
CDS Code: 54718030000000
School Year: 2025-26
LEA contact information:
Troy Hayes
Superintendent
thayes@alpaughusd.org
(559) 949-8413

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

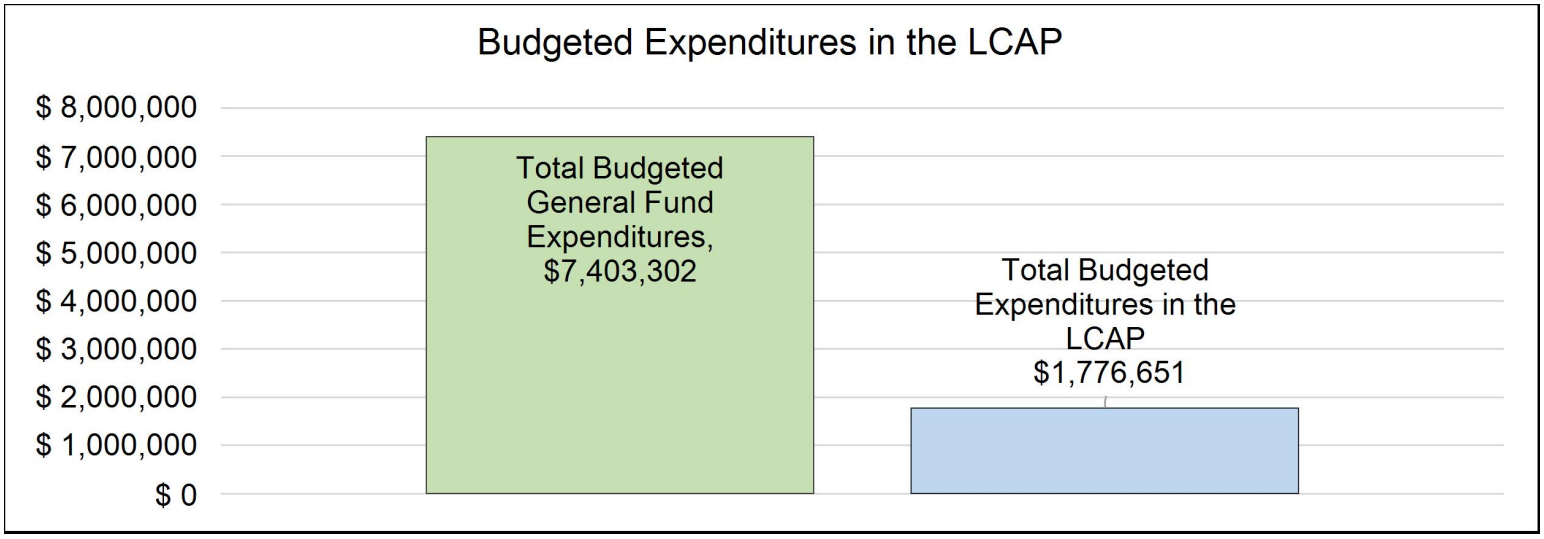

This chart shows the total general purpose revenue Alpaugh Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Alpaugh Unified School District is $7,540,346, of which $5,633,795 is Local Control Funding Formula (LCFF), $1,178,903 is other state funds, $230,000 is local funds, and $497,648 is federal funds. Of the $5,633,795 in LCFF Funds, $1,459,910 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Alpaugh Unified School District plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Alpaugh Unified School District plans to spend $7,403,302 for the 2025-26 school year. Of that amount, $1,776,651 is tied to actions/services in the LCAP and $5,626,651 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

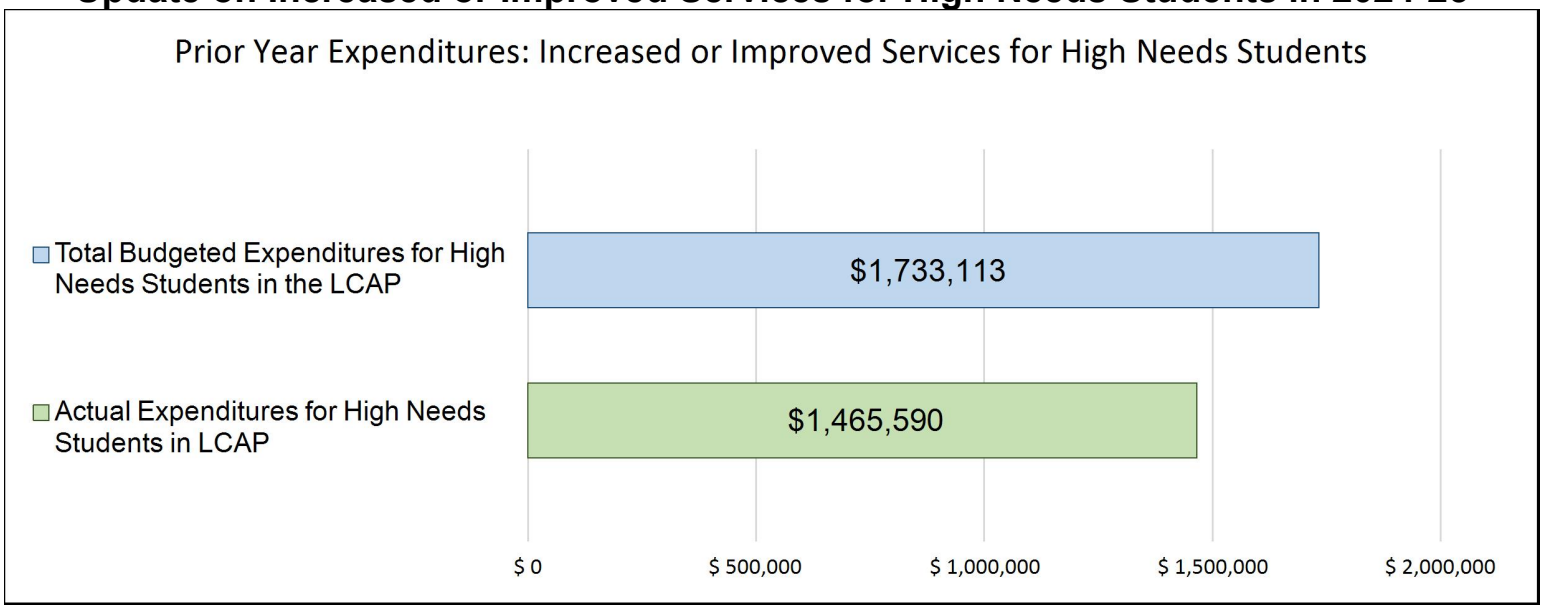

While the Local Control and Accountability Plan (LCAP) outlines expenditures tied directly to identified goals and actions for student outcomes, the district's General Fund also supports several essential operations not specifically included in the LCAP. These expenditures may include items such as districtwide utilities, insurance, legal services, routine maintenance, administrative salaries not directly tied to LCAP goals, and certain technology infrastructure costs. These functions are necessary for the ongoing operation and compliance of the district but are not directly associated with actions or services described in the LCAP.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Alpaugh Unified School District is projecting it will receive $1,459,910 based on the enrollment of foster youth, English learner, and low-income students. Alpaugh Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Alpaugh Unified School District plans to spend $1,491,424 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Alpaugh Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Alpaugh Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Alpaugh Unified School District's LCAP budgeted $1,733,113 for planned actions to increase or improve services for high needs students. Alpaugh Unified School District actually spent $1,465,590 for actions to increase or improve services for high needs students in 2024-25.

The difference between the budgeted and actual expenditures of $267,523 had the following impact on Alpaugh Unified School District's ability to increase or improve services for high needs students:

Despite the lower actual expenditures, the district maintained its commitment to improving outcomes for high needs students through targeted supports such as intervention programs, academic counseling, and access to social-emotional resources. The overall goal of increasing or improving services for these student groups was still addressed, though not always at the originally planned scale or timing. Plans are in place to carry forward unspent funds and enhance implementation in the following year.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Alpaugh Unified School District is a small, rural PK–12 public school district located in southwest Tulare County—part of the most productive agricultural region in the world. The majority of Alpaugh's residents are employed in agriculture, and the area consistently ranks among the highest in the state for poverty rates. Despite these socioeconomic challenges, students in Alpaugh USD are thriving, thanks to the district's focus on academic achievement and meaningful opportunities for college and career readiness.

The district currently serves 354 students in grades Preschool through 12th, with an additional 21 children enrolled in its preschool program. Reflective of the county's demographics, Alpaugh USD's student body is composed of approximately 93% Hispanic students and 7% White, Non-Hispanic students. All students qualify for free lunch under the National School Lunch Program. English Learners make up about 55% of the student population, while 7% are students with disabilities and 6% are identified as Migrant students.

Alpaugh USD operates with a dedicated team of 20 full-time teachers serving Preschool through 12th grade. Instructional aides support transitional kindergarten through 3rd grade classrooms, and three Early Literacy Intervention Aides are strategically deployed to bolster foundational reading skills. The district partners with the Tulare County Office of Education to provide a full-time Special Education teacher for students with identified needs. A Principal leads the schools with support from a cohesive leadership team, including the Superintendent, an Academic Coach, and a Teacher on Special Assignment (TOSA) for Early Intervention.

Guided by its Local Control and Accountability Plan (LCAP), Alpaugh Unified is committed to providing high-quality education, empowering student voice, and cultivating a culture of lifelong learning. Through strong partnerships with families, staff, and the community, the district aspires to develop students who are not only academically prepared, but also ethical, compassionate, and responsible members of society.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Analysis: Overall, Alpaugh USD has much to celebrate and much to work towards continued improvement. In celebration, we maintained a low suspension rate of 1%. We increased students meeting A-G requirements in High School to 76% in 2023 while maintaining graduation rates at 96%. With our EL students, 41% are making progress, a increase of 9%. Chronic Absenteeism rates were reduced by 9.6% to stay in the Yellow Band at 36.7% Chronic , but this will continue to be an area of focus for improvement. Academic areas in need of improvement: ELA remained in the Red, showing decreases in ELA overall scores by 11.3 scale points. In Math, scores remained roughy the same by 2.4 scale points decline.

CAASPP data below is reflective of the 2023 California Dashboard related to "Red" performance indicator results for student groups.

Alpaugh Unified (District):

ELA:

- All Students
- English Learners
- Hispanic
- Socioecomically Disadvantaged

Math:

- All Students
- English Learners
- Hispanic
- Socioecomically Disadvantaged

Alpaugh Elementary School:

ELA:

- All students
- English Learners
- Hispanic - Very Low
- Socioecomonic Disadvantaged

Math

- All Students
- English Learners
- Hispanic - Very Low
- Socioecomonic Disadvantaged

Actions 1.8 and 2.1 address the "Red" performance indicator results in ELA and Math at the district level and elementary school for the identified student groups above.

Annual update with 2024 California Dashboard information...

Overall, Alpaugh USD has much to celebrate and much to work towards continued improvement. In celebration, we maintained a low suspension rate of 1%. We increased students meeting A-G requirements in High School to 83% in 2024 while maintaining graduation rates at 97.6%. With our EL students, 23.7% are making progress, a decrease of 18%. Chronic Absenteeism rates were reduced by 9.7% to stay in the Yellow Band at 27% Chronic , but this will continue to be an area of focus for improvement. Academic areas in need of improvement: ELA remained in the Red, showing decreases in ELA overall scores by 4.6 scale points. (This figure could be a bit misleading as overall Grades 4-8 made significant gains in ELA, but 3rd grade scores being so low impacted the entire grade span.) In Math, scores increased overall by 15.2 scale points, leading to a move into the Orange. Our High School Scores showed gains in both ELA (20.3 scale point

improvement) and Math (17.7 scale point improvement), however the cohort group was not large enough to be given a color.

Alpaugh Elementary School

All CAASPP data below is reflective of the 2024 California Dashboard.

CAASPP Band Levels
ELA
All students - Very Low - Red
English Learners - Very Low - Red
Socioecomonic Disadvantaged - Very Low - Red
Hispanic - Very Low - Red

Math
All students - Low - Orange
English Learners - Very Low - Red
Socioeconomic Disadvantaged - Low - Orange
Hispanic - Low - Orange

Alpaugh High School
ELA
11th Grade - Gained 20.3 points but the group was so low no groups qualified as large enough for a color to be determined
English Learners - less than 11 students
Socioecomonic Disadvantaged - Increased 37.3 points
Hispanic - Increased 7.4 points

Math
11th Grade - Gained 17.7 points but the group was so low no groups qualified as large enough for a color to be determined
English Learners - Less than 11 students
Socioeconomic Disadvantaged - Increased 17.7 points (no color)
Hispanic - Increased 22.7 points (no color)

The district has Red performance level on ELA and Math indicators on the 2024 CA Dashboard for the following groups: All students, English Learners, Hispanic, Socioeconomically Disadvantaged.

The district does not have any unexpended Learning Recovery Emergency Block Grant (LREBG) funds.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NA

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

NA

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

NA

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parent Advisory Committee and School Site Council September 17, 2024 November 19, 2024 January 28, 2025 May 27, 2025 SELPA - May 14, 2025 Student Leadership Meetings - Monthly Student Surveys May 2025 Certificated as well as Classified Staff were provided an opportunity to provide input through Surveys	Alpaugh consults with Educational Partners on the LCAP and Annual update included includes consultation with staff, parents, community and students. This is accomplished through meetings with a variety of committees/Educational Partner groups as well as Local Surveys for Parent/Guardians, Staff (Classified and Certificated), and student leadership. Surveys and meetings also provided opportunity for questions and input. Areas of focus highlighted from education partner input include offering after school intervention options. It was suggested the programs such as Air Reading would be options for this after school intervention time. Superintendent responded that this would be included in the 2025-26 plan and budget to insure we implement these suggestions. It was discussed how this could be integrated with current ELOP and CHOICES afterschool programs. The Superintendent also shared more information about the Community Schools Grant which will work with LCAP plan and funding to provide more opportunities for Home School Connections and Engagement. School Site Council, which serves as our Parent Advisory Committee, includes Parents (including parents of English Learner and Student with Exceptional Needs), Administrators, and Community Members. These partners were instrumental in providing input, attending meetings, and completing surveys that were used in the development

Educational Partner(s)	Process for Engagement
	of our 2025-26 LCAP plan. Parents have the opportunity to express interest in participating in PAC, SSC at the beginning of each year. An election is held and those elected serve on the committees.
English Learner Advisory Committee and DELAC September 17, 2024 November 19, 2024 January 28, 2025 May 27, 2025	Alpaugh consults with Educational Partners on the LCAP and Annual update included includes consultation with staff, parents, community and students. This is accomplished through meetings with a variety of committees/Educational Partner groups as well as Local Surveys for Parent/Guardians, Staff (Classified and Certificated), and student leadership. Surveys and meetings also provided opportunity for questions and input. Areas of focus highlighted from education partner input include offering after school intervention options, specifically targeting second language learners. It was suggested the programs such as Lexia English, Rosetta Stone would be options for this after school intervention time. Superintendent responded that this would be included in the 2025-26 plan and budget to insure we implement these suggestions. It was discussed how this could be integrated with current ELOP and CHOICES afterschool programs. The Superintendent also shared more information about the Community Schools Grant which will work with LCAP plan and funding to provide more opportunities for Home School Connections and Engagement. These partners were instrumental in providing input, attending meetings, and completing surveys that were used in the development of our 2025-26 LCAP plan. Parents were provided the opportunity to express interest in participating in ELAC/DELAC at the beginning of each year. An election is held and those elected serve on the committee.
Local Bargaining Units Throughout the year during PLCS and surveys taken May 2025.	Alpaugh consults with Local Bargaining Units throughout the year and carries out surveys in May to gather input.These partners were instrumental in providing input, attending meetings, and completing

Educational Partner(s)	Process for Engagement
	surveys that were used in the development of our 2025-26 LCAP plan.
District Board Meetings - June 12, 2025 Public Hearing June 18, 2025 Approval Meeting	Board is presented with LCAP and Local Indicators at June 12, 2025 Public Hearing. They vote to approve the LCAP at June 18, 2025 meeting.
Students and Student Leadership Surveys May 2025	Students are an integral part of the contributions to the LCAP Planning. Student leadership team met frequently throughout the year and took surveys in May 2025.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Parent, Staff, and Student Surveys conducted in the Spring of 2025 identified some areas of strength and suggestions for the 2025-26 LCAP. Priorities were developed with data from these surveys to identify ongoing or additional supports that would be built into the LCAP.

Areas of Strength: Action 3.3 Student safety, Action 3.1 and 3.2 Home School Communication, Action 3.3 School Culture
Areas for Growth or Requested Services; Afterschool Intervention Options for all subgroups that can coincide with current ELOP/CHOICES programs-Action 2.8, Additional Action 3.1 Family Engagement Resource Events

Feedback from specific Educational Partner groups included: Action 3.1
SSC, Parent Advisory Committee) and English Learner Advisory Committee (ELAC/DLAC) - Parents expressed appreciation for the increased number of Community Engagement events and meaningful opportunities for involvement, and they voiced a strong interest in seeing these continue. In response, we are intentionally prioritizing these efforts in our planning. We will maintain our commitment to including parents in the instructional process through our Learning Labs, which allow families to observe and engage with classroom learning firsthand—equipping them to better support their children at home. Additionally, parents noted that the afterschool programs offered for both students and families were especially appreciated and highly valued.

Local Bargaining Units - Action 2.1 -Teachers shared again that they highly value the dedicated time each Wednesday to collaborate with their grade-level teams. They acknowledged the district's strong support of Professional Learning Communities (PLCs), noting that these efforts—paired with focused professional development—have been effective in enhancing instruction. Staff emphasized the positive impact of the Early Literacy Grant and the Early Literacy TOSA in strengthening TK–3 literacy and contributing to student growth. Additionally, teachers expressed that they feel well-supported through ongoing opportunities for professional learning, particularly through the Learning Lab process facilitated by the Academic Coach.

LEA Staff Action 2.1 and 2.2 - This feedback reflects input from all stakeholder groups, including administrators, academic coaches, teachers, classified staff, and key educational partners such as Special Education personnel, the school psychologist, and the social worker. Survey results indicate that students are increasingly being provided with opportunities to engage in critical thinking through Socratic discussions. A significant majority of staff reported feeling a strong sense of belonging on campus and expressed that the professional development they receive is of high quality. Classified staff shared that they feel valued and appreciated, while also expressing a desire for additional training focused on mental health awareness and managing behavioral challenges. Overall, staff reported feeling that the campus is a safe environment and expressed appreciation for the implementation of ActvNet and the regular practice drills for various emergency scenarios.
Staff Quotes:
“Having Wednesdays set aside for grade-level collaboration has made a huge difference in how we plan and support each other.”
“The district truly supports our Professional Learning Communities. We’ve been able to grow together and focus on what our students need most.”
“I feel valued and supported by our leadership team. They’re responsive and always looking for ways to help us improve.”
“Working with the Academic Coach in Learning Labs has given me new strategies I can immediately use in the classroom.”
“The Early Literacy Grant and support from the TOSA have really strengthened our TK–3 literacy instruction. We’re seeing real growth in our students.”
“It’s rewarding to see our youngest learners making big strides because of the extra support and focus on foundational skills.”
“There’s a true sense of community here. I feel like I belong and that my work matters.”
“Staff here care deeply about one another and about the kids. It feels like we’re all working toward the same goal.”
“I appreciate the district’s focus on safety. Tools like ActvNet and emergency drills give us peace of mind.”
“We’ve made a lot of progress in keeping our campus safe and prepared. I feel confident we’re ready for any situation.”
“I feel recognized and respected for the work I do. It’s nice to be part of a team that sees the value in every role.”
“It would be great to have more training on how to support students facing behavioral or emotional challenges, but I appreciate that the need is being heard.”

Students - Action 3.9 - Student Surveys show growth in areas of Culture and Grading Equity. Students indicated that teachers work with them in grading and flexible with assignments and supported in getting work completed. Overall student feedback was positive and showed improvements in all critical areas. Students indicated they feel they have a voice in school decisions.
Student quotes:
“I feel like my teachers really care about me. It makes me want to come to school every day.”
“Alpaugh feels like a family. Everyone knows each other and supports each other.”
“We get to share our ideas in class and have real discussions. It makes learning more interesting.”
“I like that we get chances to speak up and be part of decisions, especially in our Learning Labs.”
“My teacher always checks in on me and helps me when I don’t understand something.”
“The teachers here want us to succeed. They push us but also listen when we need help.”
“We’re learning things that matter for the future, not just for tests.”
“The AVID program and college trips have helped me see what’s possible for my life after high school.”
“I feel safe at school because we practice what to do in emergencies and the staff take it seriously.”
“Knowing that the school has plans and tools to keep us safe makes me feel more comfortable learning here.”

Student Leadership - Action 3.5 - Feedback from student leadership team indicated they felt valued in being involved in school decisions and want to see Leadership Team continue. Students indicated the Leadership Team made them feel more connected at school. Student feedback indicated they want to expand the Leadership in High School to be more Community Connected. This is an integral part of our plan moving forward as a Community School to have students empowered through leadership opportunities within the community.
Student Quotes
“Being part of the Adult Equity Series made me feel like my voice mattered. It was powerful to share my experiences with adults and be heard.”
“I never thought I’d get the chance to speak on issues that affect students like me. The leadership opportunities here have helped me grow more confident.”

Parents/Community- Action 3.2 and 3.3 - Parent survey feedback indicates they feel district has quality teachers and staff. They feel communication has continued to improve overall. Parents indicated they value being involved more in the instructional vision of the school. Educational Partners continue to be pleased with the implementation of Capturing Kids Hearts to all staff. Parents expressed strong support for afterschool initiatives and enrichment opportunities provided. This also encompasses feedback from ELAC/DELAC and SSC/PAC.
Parent Quotes
“I really appreciate how the school keeps families involved through events and activities. It makes us feel like we’re part of our children’s education.”
“The school does a great job of bringing the community together. Events like family nights and festivals show how much they care about parent involvement.”
Teacher Support:
“The teachers at Alpaugh go above and beyond. They truly care about our kids and make time to communicate with parents.”
“I’ve seen real growth in my child because of the support and attention from their teachers. I’m grateful for the dedication the staff shows every day.”
“My child feels like they belong here, and that’s what matters most to me. The school has created a welcoming environment.”
“Alpaugh USD has built strong relationships between students and staff. My child talks about how supported and encouraged they feel at school.”
“There are so many ways for parents to get involved, from volunteering in class to joining family events. It’s great to feel included.”
“I love that the school invites us into the classroom to see what our kids are learning. It helps me support my child at home.”
“I feel confident sending my child to school every day knowing they are in a safe and caring environment.”
“The safety procedures are clear and practiced regularly. I appreciate the school taking safety seriously.”

Superintendent Comments:
On behalf of the entire team at Alpaugh Unified School District, I want to extend my sincere gratitude for the thoughtful feedback you provided through our recent parent survey. Your voices are invaluable in helping us continue to build a district where every student feels supported, every parent feels welcomed, and every family feels connected.

We are especially encouraged to hear that parents recognize and appreciate our efforts to foster strong community engagement. Your positive remarks about family nights, classroom involvement, and schoolwide events affirm the importance of maintaining these connections and creating a school culture that celebrates partnership.

It is equally uplifting to hear your praise for our dedicated teachers and staff. Their commitment to student success—both academically and emotionally—is at the core of what we do. We're proud that so many of you have seen firsthand the growth, care, and communication that define our classrooms.

The sense of safety and belonging you reported is something we hold in the highest regard. From consistent drill practice to safety tools like ActvNet, we will continue to prioritize the physical and emotional well-being of every student and staff member on campus.

We also acknowledge your request for additional support in areas such as mental health and behavioral training. We are already working on plans to expand professional development in these areas, especially for our classified team members, who play a vital role in creating a supportive learning environment.

Please know that your feedback is not only heard—it is valued and acted upon. Together, we will continue to strengthen our schools, uplift our students, and ensure Alpaugh remains a district where every child is seen, supported, and celebrated.

The LEA completed the LCAP draft and presented it to the Parent Advisory Committee and the Englishe Learner Parent Adisory Committee after reviewing the input including utlilizing their comments and in the draft development. This was provided in the May 2025 meeting.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Goal 1: All students will be provided the CONDITIONS FOR LEARNING leading to college and career readiness. They will receive a broad educational program delivered by qualified staff using standards aligned instructional materials in facilities which are well maintained.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

The need to continue developing this Goal also stems from the CA Dashboard College/Career Indicator (CCI). Although currently, there isnt a color performance for CCI, the CCI for Alpaugh indicates only 20% of students are prepared. Ensuring the Conditions for Learning are in place and ALL students have equitable access to them is foundational to student success.
AUSD will continue to focus on maintaining school facilities' safety procedures as recommended by health department to support In-Person Learning for ALL students. These goals will remain the same. Since this is an ongoing requirement of the Williams Act, we will be seeking to increase or maintain fidelity for these priorities. Maintain 100% on the Fit Report Tool via Williams Act. The rationale stated here for the development of this Goal continues as the main driver for the development of actions within this Goal. Student academic success is a top priority. In order for that to happen, through our organizational improvement cycle, we will continue practices that are working, and implement others that can enhance effective instruction and continue to improve facilities to students the best conditions for learning as needed for student success. Some examples are that we have added additional technology resources and upgrades shade structure for additional learning environment, and a major improvement is a new sports/PE complex that included lights and a track. These facilities will also be used for additional community engagement activities so we can reach the whole child. It is also an ongoing priority of the state of California to measure Teacher Qualifications and Placements, therefore it will remain a priority under Goal 1 for Alpaugh USD moving forward.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The district effectively implemented LCAP Goal 1 by ensuring that all students were provided the essential conditions for learning to support college and career readiness. A broad and rigorous educational program was delivered across all school site by qualified and appropriately credentialed staff. Instructional materials were aligned with state standards and made available to all students to support equitable access to the curriculum.

In addition, ongoing efforts were made to maintain safe, clean, and functional facilities that foster a positive learning environment. These elements worked together to provide the foundational support necessary for student success. The district's strategic use of resources, staffing, and instructional planning reflected a strong commitment to creating and sustaining high-quality learning conditions, resulting in full implementation of the goal without significant gaps or variances from the planned actions. There were no significant successes or challenges to report during the year. The action remains stable and continued to support the intended goal as expected.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Alpaugh USD material differences between budget and estimated actuals are as follows:

Action 1.1 - Is less than the original plan expenditure due to a number of recruitment events that were at no cost to the district.

Action 1.3- The decrease in expenditures for maintaining facilities was primarily due to cost efficiencies and the completion of major repairs in prior years. Routine maintenance was streamlined through improved scheduling and more effective use of district maintenance staff, reducing the need for contracted services.

Action 1.4- The decrease in expenditures for instructional materials, was primarily due to existing curriculum resources remaining in good condition and not requiring full replacement during the 2024–25 school year.

Action 1.5-Despite the reduction in actual spending, the district ensured that all students continued to receive full access to these subject areas, as reflected in the 2024–25 master schedule. Existing staff were allocated more effectively, and available resources were used more efficiently without compromising instructional quality. Additionally, several instructional materials were carried over from the previous year, resulting in lower purchasing costs. As a result, the services to students—particularly English Learners—remained consistent with the district's goals, and students continued to benefit from a broad, standards-aligned educational program.

Action 1.6-Additional costs were driven by the enhancement of instruction aides. These expenditures ensured equitable access to a broad, standards-based educational program for all unduplicated students, supporting both academic achievement and well-rounded development.

Action 1.7-The increase in expenditures for programs and services for students with exceptional needs in 2024–25 reflects the district's commitment to strengthening support for students receiving special education services. The additional costs were associated materials and transportation.

Action 1.8- The increase in expenditures for the implementation of content and performance standards in 2024–25 was directly related to the district's strategic investment in strengthening teacher efficacy through instructional coaching. Additional funds were allocated to support the instructional coaches, provide targeted professional development, and create collaborative planning time for teachers to align instruction with state standards.

Action 1.9- The increase in expenditures for ELD professional learning for staff in 2024–25 reflects the district's commitment to enhancing instructional practices that support English Learners in achieving language proficiency and academic success. Additional funds were used to provide targeted professional development focused on integrated and designated ELD strategies, culturally responsive teaching, and the implementation of the ELD standards across all content areas.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The specific actions implemented under Goal 1 have been partially effective in addressing the identified needs and supporting student success by strengthening the Conditions for Learning. Alpaugh Unified School District (AUSD) has prioritized the maintenance of safe, clean, and functional facilities, as required by the Williams Act, and has consistently achieved 100% compliance on the FIT (Facilities Inspection Tool) Report. These efforts ensure that all students have access to safe learning environments that support daily in-person instruction.

Significant facility enhancements, such as upgraded technology infrastructure, the addition of outdoor shade structures for expanded learning spaces, and the development of a new sports and PE complex (featuring lighting and a track), reflect the district's commitment to continuous improvement. These improvements also serve as spaces for increased family and community engagement, aligning with whole-child development priorities.

Additionally, AUSD continues to follow health department safety recommendations to support safe in-person learning for all students. The district has also maintained its commitment to ensuring teacher qualifications and proper staff placement—both of which remain key indicators under the State Priority for Basic Services and are central to this goal.

However, data from the California School Dashboard indicates a need for further improvement in post-secondary readiness. Alpaugh USD currently reports only 20% of students as “Prepared” on the College/Career Indicator (CCI), and although the CCI has not been assigned a performance color at this time, this figure highlights a critical area for growth. As a result, the district recognizes the continued need to expand access to high-quality instructional opportunities and support services that directly impact college and career readiness.

Through the district’s organizational improvement cycle, AUSD will continue practices that have demonstrated success while identifying and implementing new strategies that strengthen instructional effectiveness and equitable access to learning conditions. The rationale for this goal remains aligned with both local needs and state priorities, and ongoing refinement of actions will continue to be informed by student outcome data.

Action 1.1 - Effective: District seeks fully credentialed teachers as well as a low turnover rate of existing fully credential teachers.Current metrics are not available from CDE regarding teacher credentialing and assignment. Even though the data is not available, the district has seen effectiveness with these actions with a 75% recruitment rate, 90% of positions filled, and support provided by the induction program. On -going professional development and support is given to new and existing teachers in order to maintain the highest quality of teaching standards to our students.
Action 1.2 - Effective: District seeks fully credentialed TK teachers as well by providing support of the induction 2-year program. On -going professional development and support is given to new and existing teachers in order to maintain the highest quality of teaching standards to our students. These include the State TK credential requirements. Current metrics are not available from CDE regarding teacher credentialing and assignment. Even though the data is not available, the district has seen effectiveness with these actions with a 75% recruitment rate, 90% of positions filled, and support provided by the induction program.
Action 1.3 - Effective: The district completes and reviews the FIT report annually to be sure that facilities are maintained in good repair and are safe. Meetings are held regularly and in emergency situations that same day with MOT staff and Administration to address any concerns and they are immediately addressed in order to maintain these standards.
Action 1.4 - Effective: All students had access to Instructional Materials (Per Williams Compliance Report) Students will have their own copy of standards-aligned texts and materials. Principal, Academic Coach, and Library Tech review each grade level and classroom each semester/trimester to ensure that requirement is being maintained throughout the year.
Action 1.5 - Effective: Students have access to A-G Requirements, Music, Science, Math, Reading and Literature programs.
Action 1.6 - Effective: All Unduplicated Students do have support staff such as Instructional Aides and Bilingual Aides. These individuals will assist in delivering high quality instruction and promoting a safe environment for learning.
Action 1.7 - Effective: Students will exceptional need have access to counseling, psychology support, and a behavior specialist which provides them support to participate in a broad course of study as indicated in Metric 1.7.
Action 1.8 - Effective: Training for teachers in ELA and Math for ELD strategies. District has maintained a fulltime onsite academic coach for intensive training, coaching, and collaborative teamwork for data analysis and to give additional instructional help for addressing the "Reds" on dashboard.
Action 1.9 - Effective: Training for teachers in ELA and Math for ELD strategies. District has maintained a fulltime onsite academic coach for intensive training, coaching, and collaborative teamwork for data analysis and to give additional instructional help for addressing the "Reds" on dashboard. Although effective the district is placing high priority on addressing the areas of "Red" on the current dashboard.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

To accelerate progress toward Goal 1, Alpaugh Unified School District will broaden its efforts to promote college and career readiness by expanding access to rigorous academic courses, work-based learning experiences, and focused academic support. The district will maintain its commitment to improving facilities and upgrading technology to enrich the learning environment. Additionally, professional development for teachers will be enhanced to strengthen instructional practices aligned with post-secondary success through the induction program and mentoring. As well as evaluating the position field rate to at least 75% recruitment yield rate and 90% of positions filled withing posting. Classified staff will benefit from expanded training in key areas such as student mental health and behavioral support. These strategic enhancements are designed to improve the district's performance on the College/Career Indicator (CCI), while continuing to uphold all health and safety measures and ensure compliance with Williams Act requirements. Actions 1.7 and 1.8 have been changed to contributing. For 1.7, Unduplicated Pupils, including those with Exceptional Needs, may experience academic, social-emotional, and behavioral challenges that affect engagement and achievement. Counseling, Psychology services, and a Behavior Specialist provide targeted, culturally responsive support to address trauma, build coping skills, and promote positive behavior, ensuring students can fully access and succeed in rigorous academic programs. For 1.8, Unduplicated Pupils, including English Learners, Low Income Students, and Foster Youth, often need targeted ELA and Math strategies to close achievement gaps. Data shows challenges with language acquisition, academic vocabulary, and applying grade-level concepts, highlighting the need for ongoing teacher training in evidence-based ELD strategies integrated into core instruction. Baseline data for Metrics 1.1 and 1.2 was corrected based on official state data that the district did not have and locally calculated data was inaccurate

Action 1.5 description has changed to more clearly inform of the services provided under this Action to support increased or improved services for Unduplicated Pupils.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Highly Qualified Teachers	All students will have access to appropriately credentials teachers. The district will make rigorous effort to recruit and hire fully qualified candidates to the fullest extent possible. This includes attending teacher job fairs for the purposes of recruiting highly qualified and fully credential teachers.	$500.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.2	TK-Teacher	Maintained Highly Qualified TK Teacher that meets all TK credentialed requirement for that grade level to ensure that students learning goals are appropriately addressed.	$121,385.00	Yes
1.3	Facilities Maintained in Good Repair	Utilizing the Fit Tool as a self reflection, facilities will remain in good repair and safe... Students will have access to facilities that, at a minimum, meet the standard of "good repair." Aligned to Priority 1 Basic Conditions Measured by Metrics 1A, 1B, and 1C Local Indicator: Priority 1 Basic Conditions at School Self-Reflection Tool Custodial staff will continue to carry out quarterly assessments of the facilities to ensure this is being met.	$20,000.00	No
1.4	Instructional Materials	All students will have access to Instructional Materials (Per Williams Compliance Report) Students will have their own copy of standards-aligned texts and materials. Principal, Academic Coach, and Library Tech will review each grade level and classroom each semester/trimester to insure those requirement is being maintained throughout the year.	$26,000.00	No
1.5	High School	This action is principally directed to meet the needs of Unduplicated Pupils (English Learners, Foster Youth, and Low-Income students) by increasing access to and successful completion of A-G coursework, which is a key barrier to postsecondary opportunities for these student groups. The district will continue to expand A-G course offerings, provide targeted academic supports aligned with A-G, extend learning opportunities, and strengthen academic counseling and college readiness advising specifically for these students.	$133,533.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.6	Instructional Aide Support	All Unduplicated Students will have support staff such as Instructional Aides and Bilingual Aides. These individuals will assist in delivering high quality instruction and promoting a safe environment for learning.	$200,629.00	Yes
1.7	Students with Exceptional Needs	Student with Exceptional Needs will have access to Counseling, Psychology support, and Behavior Specialist.	$40,069.00	Yes
1.8	ELA/ELD/ Math Coaching	Training for teachers in ELA and Math for ELD strategies. Use of academic coach for intensive training, coaching, and collaborative teamwork for data analysis. This action is designed to address the following student groups with Red indicators in Math and ELA on the 2023 California Dashboard: Alpaugh Unified: All students, EL, SED, and Hispanic Alpaugh Elementary: All students, EL, SED, and HIspanic	$14,000.00	Yes
1.9	ELD Professional Learning for Staff	Staff will participate in professional learning opportunities related to English Language Development (ELD) in order to build knowledge and capacity to effectively address the identified needs of English Learners (ELs) and Long-Term English Learners (LTELs). Provide Training for all teachers and instructional assistants via the English Learner Group coaching to improve instruction for English Learners (K-12). Training will be provided specifically in strategies that support ELs and LTELs. TOSA will provide Instructional supports in grades TK-3 and overseeing progress monitoring.	$110,494.00	Yes

Action #	Title	Description	Total Funds	Contributing

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Goal 2: Students will show significant academic growth in both English Language Arts (ELA) and Mathematics, aiming to meet or exceed established standards. To achieve this, we will provide a diverse range of learning experiences and supports tailored to each student's needs. Additionally, English Language Learners will receive targeted instruction and resources to help them progress toward English Language Proficiency.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Preparing learners for their futures in a rapidly changing world is a dynamic and ongoing challenge. To effectively address this, it is crucial to continuously monitor student progress toward proficiency using data-driven decision-making. By analyzing relevant data, educators can identify areas where students may need additional support or enrichment. Providing these tailored learning opportunities and supports ensures that each student, as well as various student groups, are equipped with the skills and knowledge necessary to succeed in their future endeavors. This comprehensive approach helps ensure that all learners are well-prepared to navigate and thrive in an ever-evolving landscape.

For the 2025-26 school year, our focus will remain on closing learning loss and gaps for overall student population and all student groups.

This addresses State Priorities:

- Priority 4: Pupil Achievement
- Priority 8: Other Student Outcomes

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Actions under Goal 2 were implemented as planned. The district has done so by providing a variety of instructional strategies and academic supports designed to promote significant growth in both English Language Arts (ELA) and Mathematics. Students received differentiated instruction tailored to their individual learning needs, with interventions and enrichment opportunities offered through small group instruction, academic coaching, and the use of data-driven instructional planning. Implementation occurred as intended, and while there were no particular successes or challenges identified during the reporting period, the district maintained consistent support for student learning through these actions

A focused effort was made to support English Language Learners (ELLs) through targeted instructional programs, designated and integrated ELD instruction, and access to language development resources. Teachers and support staff collaborated to monitor progress and adjust supports to help ELL students advance toward English language proficiency.

Through these coordinated actions, students demonstrated academic progress aligned with state standards, and implementation efforts were consistent with the planned services. The district's commitment to equity and access ensured that all student groups received the support necessary to reach their academic goals.

The District had no particular successes or challenges with the implementation of this Goal.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Alpaugh USD material differences between budget and estimated actuals are as follows:

Action 2.1-The district allocated additional resources toward professional development opportunities that focused on collaboration, equity, wellness, and effective instructional and operational practices.
Expenditures included the cost of training materials, staff travel to workshops and conferences, extended hours for planning and collaboration, substitute coverage to support staff attendance at trainings, and stipends for additional professional learning outside of regular duty hours. These investments were designed to build capacity, recognize the critical role of all staff, and create a culture of support and continuous improvement.

Action 2.2- The decrease in expenditures was due to the lower number of teachers in the Teacher Induction Program. The district continues to strategically investment that participating teachers received comprehensive support, contributing to a high-quality learning environment for all students.

Action 2.3- The increase in expenditures funded through alternative sources allowed the district to expand its efforts to improve academic outcomes and language acquisition for English Learners. Expenditures include costs of training sessions, TOSA, purchased of specialized resources and progress monitoring.

Action 2.4- the increase of expenditures were allocated to maintain and replace aging devices such as iPads, ensuring students and staff have reliable access to current technology that aligns with instructional goals. The district also expanded its provision of MiFi devices to students in need of at-home internet access (such as independent study), supporting digital equity and continued learning beyond the classroom. These investments were essential for maintaining the effectiveness of technology-integrated instruction and for meeting the ongoing

Action 2.5- Additional increase cost was associated with supporting high school students participating in the Dual Enrollment program through College of the Sequoias (COS), which provides students with access to college-level coursework while still in high school. These expenditures included coordination efforts, materials, and academic support services. The district also maintained and strengthened its offering of A–G approved courses that promote both university eligibility and career pathway development. Investments were made to sustain rigorous curriculum options, provide academic counseling, and support ongoing staff training.

Action 2.6- The decrease in expenditures related to maintaining classified and certificated staff in 2024–25 was achieved without compromising the goal of ensuring sufficient staffing levels to support student learning. Although overall expenditures decreased, the district remained fully compliant with its staffing goals and continued to provide the necessary support to meet the needs of all students, particularly in the critical early years of education.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The district's implementation of Goal 2 has been largely effective in promoting academic growth across English Language Arts (ELA) and Mathematics. A variety of targeted instructional strategies and academic supports were provided, including differentiated instruction, small group interventions, and enrichment opportunities based on data-driven planning. These efforts contributed to measurable progress in student outcomes.

In Mathematics, the district saw overall gains across most grade levels, reflecting the positive impact of consistent instructional supports and interventions. In ELA, while the overall performance in grades 3–8 showed a decrease of 4 points, this was largely attributed to a decline in third-grade scores. Notably, all other grade levels within that range demonstrated individual gains, indicating that instructional practices were generally effective and aligned with student needs.

At the high school level, both ELA and Math scale scores improved significantly, further demonstrating the effectiveness of the district's academic strategies and supports for older students. Additionally, English Language Learners received focused attention through designated and integrated ELD instruction, and progress monitoring systems ensured timely adjustments to instruction and support.

The district's commitment to equity and access remained evident through the consistent delivery of services across all student groups. Overall, the specific actions under Goal 2 have been effective in supporting academic progress, with room for continued focus on early grade literacy to address the decline in third-grade ELA performance.

Action 2.1 - Effective: Based on teacher surveys and efficacy of teacher evaluations via Ewalk software for classroom observations data collection to identity efficacy trends. Effectiveness was also demonstrated in metric 2.2.
Action 2.2 - Effective: Teachers in the program made progress towards completing their requirements and quality of instruction. This was enhanced by systemic Learning Labs via Academic Coach based on metrics 2.2.
Action 2.3 - Effective: Progress monitoring amongst the lowest grades had marked improvement in reading levels.
Action 2.4 - Effective: District maintained and increase technology resources across all grade spans in good working order to include software curriculum enhancements.

Action 2.5 - Partially Effective: Metrics 2.8, 2.9, 2.10, and 2.11 did not indicate effectiveness for the action. However, Metric 2.5 baseline indicated 86% of students are enrolled in AVID courses and there is a significant increase in High School students taking dual enrollment courses via College of the Sequoias. Our graduating seniors will have students graduating with their AA for the class of 2026.
Action 2.6 - Effective: Class size reduction demonstrated effectiveness by showing increases for all student groups on the STAR/Early Literacy Reading assessments (Metric 2.6).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflections from the prior year's implementation of Goal 2, the district has identified areas for refinement and is making strategic adjustments to better support student achievement in the coming year. While many of the planned actions proved effective—particularly in improving Math outcomes and high school ELA and Math performance—analysis of assessment data revealed a need to strengthen early literacy, especially in third grade, which negatively impacted the overall ELA performance for grades 3–8.

In support of English Language Learners, the district will also expand its monitoring protocols and increase access to language development tools to accelerate English proficiency, building on the progress made through designated and integrated ELD instruction.

These changes reflect a continued commitment to data-informed decision-making and equity-driven action, ensuring that instructional efforts remain responsive to student needs and aligned with the district's goal of improving achievement in both ELA and Math.

All changes made will not impact the metrix in this LCAP cyle.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Professional Development	Fostering a Positive and supportive work environment for both Classified and Certificated. Staff will be provided professional development training. Expenditures include materials, training, travel and additional staff hours and subs. Training will include but not limit to PLC, MTSS, Math, Reading, ELA, and ELPAC.	$68,905.00	Yes

Action #	Title	Description	Total Funds	Contributing
		This action is designed to address the following student groups with Red indicators in Math and ELA on the 2023 California Dashboard: Alpaugh Unified: All students, EL, SED, and Hispanic Alpaugh Elementary: All students, EL, SED, and HIspanic		
2.2	Teacher Induction Program	The district will continue to implement the Teacher Induction Program to support teachers in becoming highly and fully credentialed to support high quality learning environment.	$16,800.00	Yes
2.3	Services for English Learner Students.	Provide professional development and training to staff directly related to supporting and improving the outcomes of all English Learners. This will included outside professional development resources. Additional Supporting and improving the outcomes of Long Term English Learners. Cost of resources and coaching.	$130,662.00	No
2.4	Maintain 1:1 and upgrade student technology devices and home internet access	Maintaining or replacement of instructional technology to ensure access to up-to-date technology and regular academic use. iPads and chromebooks ongoing updates. At home internet Mifi devices provided as needed.	$109,090.00	Yes
2.5	College and Career Readiness AVID Courses for all HS Students	Preparing students for college and career readiness the district will: A. Continuing support for AVID. All students entering high school will be enrolled in Freshmen Avid and all HS students will be enrolled in Avid. B. Supporting High School Students in a Dual Enrollment program through COS. C. Maintain A-G courses that promote university attendance and career pathways	$23,677.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.6	Class Size Reduction	Maintain classified and certificated staff. This reduction is to maintain low numbers in Grades TK-2 where literacy and language barriers are more significant and necessitate the most support. Lower class size in these grades enable us to make smaller groups for more focused interventions. We are being strategic where we place staff so that lower grades have lower class sizes and instructional aides are available in all lower grade classrooms for additional student support.	$204,588.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Goal 3: Our objective is to actively involve parents, students, and the broader community in the educational process through meaningful and collaborative engagement. By fostering strong partnerships and open lines of communication, we aim to create a supportive network that enhances the educational experience for all students. This includes encouraging parents to take an active role in their children's learning, empowering students to take ownership of their educational journey, and inviting community members to contribute their expertise and resources. Through these collaborative efforts, we strive to build a cohesive and inclusive educational environment that benefits everyone involved. Parent and Pupil Engagement, School Climate	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

This goal was selected because Parent Involvement, Pupil Engagement, as well as School Climate are high priorities for our district.

Educational partners recognize the importance of building a strong sense of community and promoting equity in Alpaugh, especially within its rural context. While we have established parent engagement through committees such as SSC, PAC, ELAC/DELAC, and WASC committees, participation has often been limited to parents who are also employees. This goal seeks to broaden community input and increase active parental involvement on campus and in the educational process.

Research consistently shows that increased parent engagement leads to higher student engagement and achievement. Consequently, improving chronic attendance rates remains a high-priority goal. Despite significant improvements, we will continue to intensively monitor and address chronic attendance.

Chronic Absenteeism was at 37% on the 2023 Dashboard. Engaging students and families will increase attendance through strategic engagement and reduce chronic absenteeism.
Our parent surveys indicated they would like more Community Engagement Events like the events we have help where resources are available to them. This goes in conjunction with our recent Community Schools Grant we were awarded.

Addresses State Priorities

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Actions under Goal 3 were implemented as planned. Goal 3 was implemented by promoting meaningful and collaborative engagement among parents, students, and community stakeholders. Multiple strategies were employed to strengthen partnerships and maintain open lines of communication, including regular community meetings, surveys, workshops, and community fair events. A significant success during the year.

Parents were encouraged to actively participate in their children's education through family engagement activities, academic nights, and volunteer opportunities. Students were empowered to take ownership of their learning through leadership roles, goal-setting, and participation in school decision-making processes. The district also collaborated with local organizations and community school partners to

bring in additional resources and expertise that enriched the learning environment. Additional community events held onsite through family engagement activities such as back-to-school fair, literature night, father-daughter dance as well as mother-son dance.

These efforts supported a positive school climate and fostered strong parent and pupil engagement, contributing to a cohesive and inclusive educational environment. The implementation was aligned with the planned actions, ensuring that all students benefited from a supportive network of adults and peers invested in their success. There were no particular successes or challenges with timplementation of this Goal.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Alpaugh USD material differences between budget and estimated actuals are as follows:

Action 3.1-The reduction in costs was achieved through budget realignments and partnering with community school grant,. The Community Liaison continues to play an essential role in fostering family engagement, improving attendance, and supporting student success, in alignment with district priorities.

Action 3.2- The increase in expenditures for parent engagement and communication in 2024–25 was funded through alternative sources to support the district's ongoing commitment to family involvement in student success. These funds were used to expand the variety and frequency of parent trainings offered throughout the school year, with the goal of equipping parents and guardians with the knowledge and tools necessary to support their children's learning at home.

Action 3.3- The decrease in expenditures for parent communication systems was the result of cost-efficiency measures and leveraging existing resources, rather than a reduction in services. The district continued to maintain and utilize communication platforms that ensure accurate, timely, and meaningful messages are delivered to parents regarding their child's progress and important school or district events.

Action 3.4- The decrease in expenditures for extracurricular activities and field trips in reflects a strategic reduction in costs without limiting student access or participation. The district continued to ensure that all students in grades K–12 had the opportunity to engage in enriching extracurricular activities and educational field trips.

Action 3.5- Additional funds were allocated to cover leadership stipends, training costs for the Capturing Kids' Hearts Process Champions, and materials for leadership team meetings and related professional development sessions.

Action 3.6- The reduction in cost was due in part to utilizing alternative funding sources and streamlining program delivery, ensuring that the focus on improving student attendance was sustained without compromising the quality or scope of services provided.

Action 3.7-This increase allowed for the continuation and potential expansion of services, including individual and group counseling, social-emotional learning resources, and targeted interventions. These supports are aligned with district priorities to foster a safe, supportive learning environment and address the diverse needs of all students.

Action 3.8-Cost reductions were achieved by utilizing in-house certified trainers, consolidating training sessions, and leveraging previously purchased materials. These measures allowed the district to maintain its commitment to promoting positive behavior practices and mental health awareness among staff while managing costs effectively.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under Goal 3 have proven to be highly effective in strengthening parent, student, and community engagement throughout the district. Over the past year, the district significantly increased the number of family-focused events, reaching a total of 25 engagement opportunities designed to foster collaboration, build relationships, and support student success. These events included academic nights, family workshops, cultural celebrations, and community fairs, all aimed at creating inclusive spaces for families to connect with the school community.

Feedback from families has been overwhelmingly positive, indicating a strong sense of appreciation for the district's efforts to involve them more deeply in their children's education. Moreover, parent participation has evolved beyond attendance—more families are now actively contributing to the planning and facilitation of these events, reflecting a growing sense of shared ownership and partnership with the district.

Student engagement has also grown through expanded opportunities for leadership, goal-setting, and input into school initiatives, helping to cultivate a school climate that values student voice. Collaboration with local organizations and community school partners further enhanced the quality and impact of the district's engagement strategies by bringing in additional resources and support systems for students and families.

Overall, the specific actions taken to implement Goal 3 have been highly effective in building a cohesive, inclusive, and supportive school environment. These efforts have directly contributed to a positive school climate and have strengthened the network of adults and peers working together to support student achievement and well-being.

Action 3.1 - Effective: The district has seen a tremendous outpour of Parent and Community support in their attendance of a mulittude of events and communications. This data was collected via parent and Community surveys.
Action 3.2 - Effective: Parent training sessions held throughout the school year proved to be highly effective, as evidenced by increased parent participation in school events, improved communication between families and staff, and positive feedback from attendees indicating that the training provided valuable strategies to support student learning and well-being at home. This data was collected via parent and Community surveys.
Action 3.3 - Effective: Parent communication efforts during the school year were highly effective, as reflected in a 92% parent survey satisfaction rate regarding school communication, a 15% increase in attendance at family engagement events compared to the prior year, and a 20% rise in parent participation in academic conferences. These results indicate that families felt well-informed, supported, and actively engaged in their child's education. This data was collected via parent and Community surveys.

Action 3,4 - Effective: Pupil engagement strategies implemented during the school year were highly effective, as demonstrated by a increase in average daily attendance, a rise in student participation in extracurricular and enrichment activities, and an improvement on student survey measures of interest and motivation in learning. These gains reflect the success of targeted efforts to foster a positive, interactive, and student-centered learning environment.
Action 3.5 - Effective: "Leadership development initiatives during the school year were highly effective, as evidenced by an increase in student participation in leadership roles such as student council, club officers, and peer mentoring; a growth in staff engagement in leadership-focused professional development; and of participants reporting increased confidence in their leadership abilities on end-of-year surveys. These outcomes demonstrate that targeted programs successfully strengthened leadership skills across both student and staff groups."
Action 3.6 - Effective: Chronic absenteeism reduction efforts resulted in a 9% decrease in the overall chronic absenteeism rate compared to the prior year. Targeted interventions, including increased parent outreach, attendance incentive programs, and early identification of at-risk students, contributed to stronger daily attendance and improved student engagement.
Action 3.7 - Effective: Efforts to improve high school graduation rates were indicated by achieving a 97.6% graduation rate, reflecting a 1.6 % increase from the previous year.
Action 3.8 - Effective: Efforts to reduce pupil suspension rates are reflective with the overall suspension rate decreasing by 1 percentage point compared to the previous year. These improvements were supported by the implementation of restorative practices, increased social-emotional supports, and proactive behavior intervention strategies that promoted a positive school climate.
Action 3.9 - Effective: District efforts to create and maintain a school climate of safety and connectedness were indicated by an increase in positive responses on the Student Surveys regarding students feeling safe at school and an increase in students reporting a strong sense of belonging. The district’s implementation of the Capturing Kids’ Hearts program, increased campus supervision, and expanded social-emotional supports contributed to a more positive, secure, and inclusive school environment.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflections from the prior year’s implementation of Goal 3, the district has identified key areas of success as well as opportunities for refinement, leading to several adjustments for the coming year. The significant increase in family engagement—reflected in the expansion to 25 events and the growing involvement of parents in both planning and execution—has affirmed the effectiveness of community-centered strategies. As a result, the district will formalize this momentum by establishing clearer metrics to track not just the number of events, but also levels of parent participation, leadership roles, and satisfaction through post-event surveys and engagement logs.

Additionally, the district will utilize feedback from surveys to place greater emphasis on the quality and depth of engagement, including increasing opportunities for parents and students to contribute to school decision-making processes. New actions will include forming parent

advisory teams, expanding student leadership initiatives, and deepening partnerships with local organizations to provide ongoing support and enrichment.

These changes reflect a commitment to evolving the district's family and community engagement practices from event-based involvement to sustained, meaningful collaboration—further aligning with the district's vision of a cohesive and inclusive educational environment.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Parent Engagement	The District will maintain the employment of a Community Liaison to ensure easy access for the community and families to communicate, while also supporting school sites and making home visits and follow up calls to address the needs of our families and students.	$1,000.00	Yes
3.2	Parent Training	In order to ensure parents are well informed and have the skills necessary to support their student at home, the district will provide a variety of parent trainings throughout the school year. The district will provide communication to ensure that families and community are aware of opportunities available to them within the district. Expenditures include materials, and program costs.	$1,000.00	Yes
3.3	Parent Communication	Purchase, maintain parent communication systems to ensure the accurate, timely and meaningful messages get to parents to inform them about their student's progress and other school/district events.	$55,000.00	No
3.4	Pupil Engagement	In order to ensure that all students have the opportunity to participate in extra curricular actives, the district will fund the cost of field trips, and support extra-curricular actives for students K-12.	$22,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.5	Leadership Development	The district will cover leadership stipends, Capturing Kids Heart Process Champions Training, as well as leadership team meeting materials, and trainings related to leadership.	$48,530.00	Yes
3.6	Chronic Absenteeism	The District will fund a portion of the Principal position out of LCAP to ensure that the school site is addressing chronic absenteeism. Principal will address the needs of Unduplicated Students to reduce chronic absenteeism by implementing targeted attendance interventions, including early identification of at-risk students through regular attendance monitoring. Outreach will be prioritized for families of Unduplicated Students, with personalized phone calls, home visits, and bilingual communication to address barriers to attendance. The Principal will coordinate with the Community Liaison, Social Worker, and site counselors to connect families with resources such as transportation assistance, health services, and academic support. Positive attendance incentive programs will be implemented to encourage consistent attendance, while staff will be trained to build strong relationships with students, fostering a sense of belonging and engagement that promotes daily school participation. It will also fund the position of the Attendance Secretary and provide staff salary support for attendance makeup days during Saturday School. Attendance incentives will be also use to promote a positive attendance.	$114,248.00	Yes
3.7	High School Graduation Rate	The district will continue to maintain a contracted Counselor, cost of programs and materials.The counselor will support Unduplicated Students in increasing graduation rates by closely monitoring academic progress and identifying students at risk of falling behind. Individual graduation plans will be developed in collaboration with students, families, and teachers to ensure timely credit completion. The counselor will provide targeted guidance on course selection, facilitate access to credit recovery and tutoring programs, and connect students with college and career readiness opportunities. Regular check-ins, mentorship connections, and	$52,054.00	No

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	English Learners - 143.1 points below standard Hispanic - 126.4 points below standard Socioeconomically Disadvantaged - 131.3 points below standard The above academic results are also well below the state average for these groups and indicate a significant achievement gap. **Scope:** LEA-wide		
1.5	**Action:** High School **Need:** District data shows that English Learners, and Low-Income students are less likely to complete A-G requirements due to barriers such as limited access to rigorous courses and insufficient academic supports. The district has put forth great efforts in providing additional A-G supports and these efforts are demonstrating a positive impact on student success related to A-G outcomes. 2024 Dashboard graduation rate was at 97.6% an increase of 1.6% from the previous year. In addition 83% of high school students met A-G rates. This illustrates the effectiveness of this action in impacting Unduplicated student	This action is principally directed to Unduplicated Pupils to address equity gaps in A-G access and completion. District data shows that English Learners, and Low-Income students are less likely to complete A-G requirements due to barriers such as limited access to rigorous courses and insufficient academic supports. By expanding A-G offerings, providing targeted supports (tutoring, credit recovery, counseling, AVID), and strengthening advising for Unduplicated Pupils, the district increases and improves services beyond the base program to ensure greater postsecondary eligibility and success. This action is expected to be effective in meeting the goals for Unduplicated Pupils by closing the A-G completion gap, increasing postsecondary eligibility, and improving long-term college and career outcomes.	#1.5 #3.7

	outcomes and the need to maintain these services. High School Graduation rate 97.6% - All Students English Learners - 94.1% in 2024 However, in 2023 there was no data due to less than 11 students 97.1% Socioeconomically Disadvantaged **Scope:** Schoolwide	The action is implemented districtwide to ensure a systemic approach that raises outcomes for all students while prioritizing those with the greatest needs.	
1.6	**Action:** Instructional Aide Support **Need:** Alpaugh Unified has a socioeconomically disadvantaged student population of nearly 88% and there is evidence of many student needs, including academic and especially for Unduplicated Pupils. 2024 Dashboard ELA Results All Students - 102 points below standard English Learners - 120 points below standard Hispanic - 102.9 points below standard	Instructional Aides will provide additional learning supports to unduplicated pupils in all subject areas via small groups instruction, tutoring, one-to-one learning opportunities. They will also assist in monitoring the academic progress of these students. These supports will be provided during school. By providing a learning support to unduplicated pupils, students will build academic skills at an accelerated pace. Even though this action is principally directed at addressing the needs of unduplicated pupils, it will be implemented LEA-wide to benefit all students, as many other students exhibited similar needs.	#1.6

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Socioeconomically Disadvantaged - 101.9 points below standard 2024 Dashboard Math Results All Students - 129 points below standard English Learners - 143.1 points below standard Hispanic - 126.4 points below standard Socioeconomically Disadvantaged - 131.3 points below standard The above academic results are also well below the state average for these groups and indicate a significant achievement gap. **Scope:** LEA-wide		
1.7	**Action:** Students with Exceptional Needs **Need:** Unduplicated Pupils—including English Learners, Low-Income Students, and Foster Youth—often encounter academic, social-emotional, and behavioral challenges that directly affect engagement, attendance, and achievement. For example, in Alpaugh Unified School District, CAASPP data shows persistent gaps in English Language Arts and	Providing Counseling, Psychology support, and access to a Behavior Specialist ensures Unduplicated Pupils and Students with Exceptional Needs, receive targeted interventions that address social-emotional, behavioral, and mental health barriers to learning. Many Unduplicated Pupils face increased risk factors such as poverty, trauma, language acquisition challenges, and limited access to external support services. By embedding these supports within the school setting, students can receive timely, consistent, and personalized assistance that improves	#1.7

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Mathematics achievement between Unduplicated Pupils and their peers. 72.8% of SWDs are also an English learner and/or socioeconomically disadvantaged. Similar to the unduplicated pupil CAASPP outcomes, SWD also have a considerable achievement gap with their peers. Research confirms these patterns statewide: English Learners and Foster Youth are more likely to experience interruptions in learning due to mobility and language development needs, while Low-Income Students disproportionately face barriers related to economic stress and limited access to enrichment opportunities. According to the California Department of Education, Foster Youth graduate at rates nearly 20 percentage points lower than the statewide average, and English Learners consistently perform below state averages on standardized assessments. To address these barriers, the district provides targeted mental health and behavioral supports, recognizing that trauma, stress, and limited coping strategies often interfere with academic progress. Access to Counseling and Psychology services allows for individualized interventions, while a Behavior Specialist implements proactive strategies that build self-regulation and positive behavior. These supports create consistent, culturally responsive, and developmentally appropriate systems that remove barriers to learning, ensuring that Unduplicated Pupils can fully access rigorous academic programs and move toward equitable outcomes in graduation and A–G course completion.	emotional regulation, builds resilience, and fosters a safe and positive learning environment. This action is implemented on an LEA-wide basis to ensure equity of access for all students who may experience similar needs, regardless of specific subgroup identification. Providing these services universally helps reduce stigma, increases student willingness to seek help, and creates a comprehensive system of support that benefits all learners—while ensuring that Unduplicated Pupils, who are statistically more likely to require these interventions, are fully supported in achieving academic and behavioral success.	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
1.8	**Action:** ELA/ELD/ Math Coaching **Need:** Unduplicated Pupils, including English Learners, Low Income Students, and Foster Youth, often require targeted instructional strategies in English Language Arts (ELA) and Mathematics to close persistent achievement gaps. Assessment data indicates that these students may struggle with language acquisition, academic vocabulary, and applying grade-level concepts, which impacts their performance across content areas. There is a need for teachers to receive sustained professional development in evidence-based ELD strategies that are integrated into core instruction, ensuring that language development occurs alongside content mastery. Additionally, the use of an Academic Coach to provide intensive training, model lessons, facilitate collaborative planning, and lead data-driven analysis ensures that instructional practices are continuously refined. This level of targeted, ongoing support addresses the need for consistent implementation of high-quality instruction that is responsive to student progress, ultimately improving outcomes for Unduplicated Pupils in both ELA and Mathematics.	Providing targeted training in ELA and Math for ELD strategies equips teachers with the skills to integrate language development into core instruction, ensuring Unduplicated Pupils—particularly English Learners, Low Income Students, and Foster Youth—receive instruction that addresses both content mastery and language acquisition. The inclusion of an Academic Coach allows for intensive, job-embedded professional development, lesson modeling, and structured collaboration for data analysis. This ensures that instructional adjustments are timely, evidence-based, and responsive to student needs. Implementing this action on an LEA-wide basis ensures that all teachers, regardless of grade level or school site, have access to the same high-quality training and coaching. This creates a cohesive instructional approach that benefits all students, while disproportionately supporting Unduplicated Pupils, who are statistically more likely to experience gaps in ELA and Math proficiency. Schoolwide implementation also fosters consistent expectations, shared best practices, and equitable access to instructional supports, helping to close achievement gaps across the district.	#1.8 #2.1 #2.2

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
2.1	**Action:** Professional Development **Need:** Alpaugh Unified has a socioeconomically disadvantaged student population of nearly 88% and there is evidence of many student needs, including academic and especially for Unduplicated Pupils. 2024 Dashboard ELA Results All Students - 102 points below standard English Learners - 120 points below standard Hispanic - 102.9 points below standard Socioeconomically Disadvantaged - 101.9 points below standard 2024 Dashboard Math Results All Students - 129 points below standard English Learners - 143.1 points below standard Hispanic - 126.4 points below standard	The district will provide targeted professional development to more effectively address the needs of Unduplicated student groups. By investing in ongoing professional development, educators can enhance their ability to deliver culturally responsive teaching, differentiate instruction, and implement interventions that promote academic success for these groups. The district will equip staff with the knowledge and skills to meet the diverse needs of unduplicated students as it is vital for closing achievement gaps. Even though this action is principally directed at addressing the needs of Unduplicated pupils, it will be implemented LEA-wide to benefit all students, as many other students exhibited similar needs.	#2.1 #2.2 #2.3

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
