LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Aspire Richmond Technology Academy
CDS Code: 07-61796-0132118
School Year: 2025-26
LEA contact information:
Samantha Lamb
Principal
AspireRTA@aspirepublicschools.org
510-480-0660

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

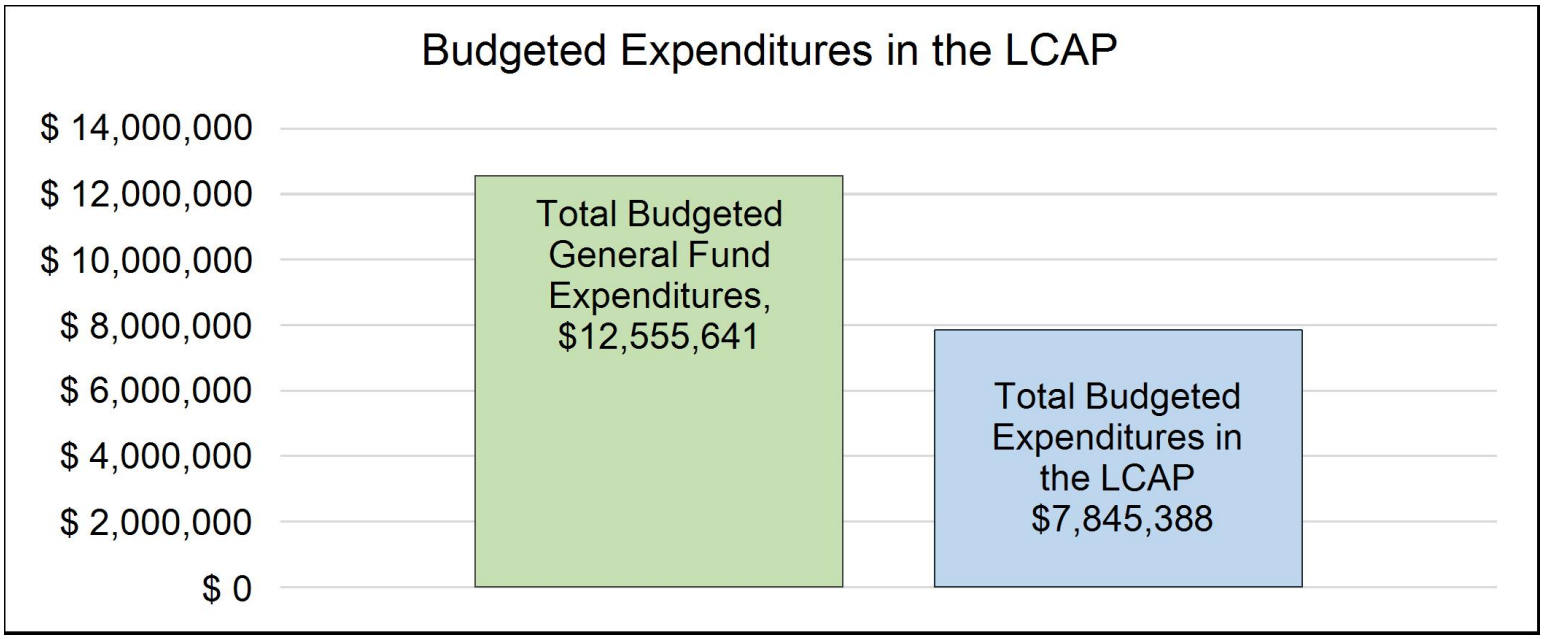

This chart shows the total general purpose revenue Aspire Richmond Technology Academy expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Aspire Richmond Technology Academy is $12,987,700, of which $8,529,181 is Local Control Funding Formula (LCFF), $3,655,259 is other state funds, $197,846 is local funds, and $605,414 is federal funds. Of the $8,529,181 in LCFF Funds, $2,140,245 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Aspire Richmond Technology Academy plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Aspire Richmond Technology Academy plans to spend $12,555,641 for the 2025-26 school year. Of that amount, $$7,845,388 is tied to actions/services in the LCAP and $4,710,253 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

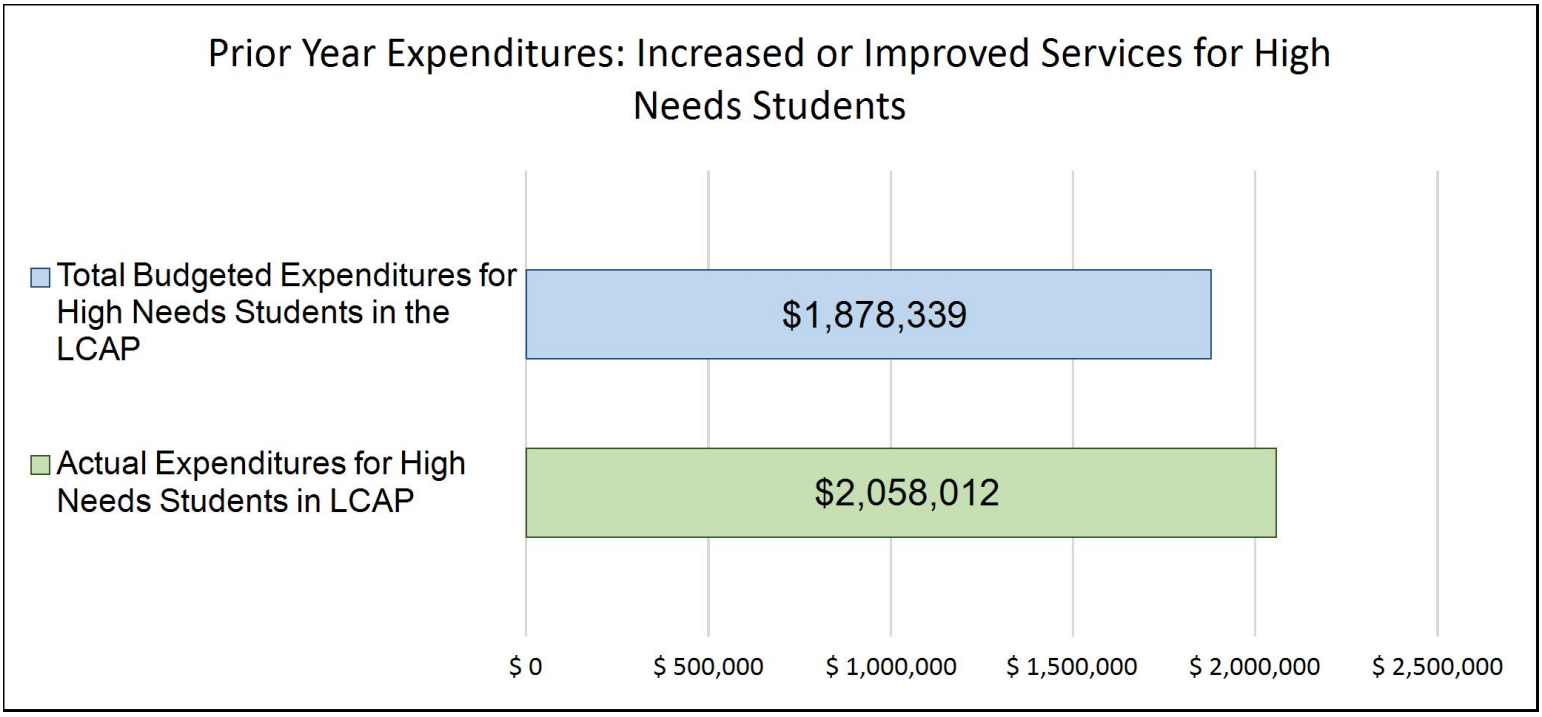

It's crucial to emphasize that while the LCAP plays a central role in resource allocation, it does not encompass the entirety of LEA expenditures. The General Fund, which covers expenses beyond the LCAP framework, encompasses a broad spectrum of services and administrative functions, including but not limited to operational costs for fundamental LEA functions such as administration, utilities, and cafeteria services.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Aspire Richmond Technology Academy is projecting it will receive $2,140,245 based on the enrollment of foster youth, English learner, and low-income students. Aspire Richmond Technology Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Aspire Richmond Technology Academy plans to spend $$2,173,000 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Aspire Richmond Technology Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Aspire Richmond Technology Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Aspire Richmond Technology Academy's LCAP budgeted $$1,878,339 for planned actions to increase or improve services for high needs students. Aspire Richmond Technology Academy actually spent $$2,058,012 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Aspire Richmond Technology Academy (RTA) is a TK-5 public charter school located in Richmond, California, operating under the West Contra Costa Unified School District. Serving 590 students, RTA is part of the Aspire Public Schools network, a non-profit organization dedicated to fostering college-ready scholars. The school's diverse student population includes 72% Hispanic, 13% African American, and 7% Asian-American students, with 80% of the student body eligible for free and reduced lunch programs.

Guided by its mission of "Education for Liberation," RTA provides a rigorous academic experience tailored to meet both the academic and social-emotional needs of its scholars. The school emphasizes teacher effectiveness, family involvement, and small-group differentiated instruction as key pillars of its educational framework. Programs such as blended learning, google classroom and support services are integrated into the curriculum to equip students with skills necessary for success in a highly technical economy. Recognized as a "Top Bay Area Public School" for its English Learner growth and its work with low-income Latino students in math, RTA strives to create a culture where scholars become transformational agents of change through collaborative and critical learning experiences.

With a commitment to inclusivity, RTA partners with families and community stakeholders to ensure all students feel supported, safe, and engaged. The school cultivates self-motivated, competent, and life-long learners, preparing them for college, career, and the responsibilities of global citizenship.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

We do not have unspent LREBG funds from the prior year. However, with the potential for new LREBG funds to be dispersed in 2025-26, we have incorporated new actions to reflect the use of these funds per the Ed Code requirement and the required needs assessment. The rationale for each action and how it is expected to address the areas of need are included in the action descriptions in the LCAP.

As required by the LCAP template, the actions related to the student groups and state indicators identified in the 2022–23 California School Dashboard as performing at the lowest performance level (red) will remain unchanged throughout the three-year LCAP cycle. These groups and indicators, which have guided the development of actions and services, are as follows: English Learner Progress: English Learner Suspension: Black/African American, All Students, Multiple Races/Two or More, Socioeconomically Disadvantaged, Students with Disabilities

For the 23-24 school year, Aspire Richmond Technology Academy demonstrated a mix of strengths and areas for growth under California's Accountability System. RTA excelled in maintaining a positive school climate and made notable progress in certain academic areas. It achieved a low suspension rate in the green, with just 1.5%, which had declined by 2.1%. English Learner Progress was particularly strong, with 52.9% of English learners making progress, an increase of 24.3%. RTA also met standards in key areas such as the implementation of academic standards, parent and family engagement, and providing access to a broad course of study, reflecting a well-rounded approach to student development.

However, there were areas where RTA still faced challenges. Chronic absenteeism was a concern, with 27.7% of students being chronically absent, although the school made progress by reducing this rate by 6.2%. Additionally, English Language Arts performance remained a challenge, with students scoring 40.6 points below the standard, with a modest improvement of 4.4 points. Subgroups of students with disabilties and African America students are in the red and orange respectively for both ELA, and will need targeted support for improvement. Mathematics performance also requires attention, with an orange rating and students scoring 50.6 points below the standard. All subgroups performed in the orange, with the exception of students with disabilities, which performed in the red on the 2024 Dashboard.

RTA is analyzing this data and has already started to address the challenges in absenteeism, English Language Arts, and Mathematics, to implement improvements essential for continued improvement.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

ATSI
Aspire Richmond Technology Academy
Students from Two or More Races

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

In response, we have developed a comprehensive support and improvement plan that involves a multi-pronged approach. Initially, we are conducting a thorough needs assessment to pinpoint specific areas for improvement, especially focusing on the Studens from Two or More Races that led to our ATSI designation. This process involves engaging a broad range of stakeholders, including teachers, parents, students, and community members, to ensure a holistic understanding of needs and to gather diverse input on improvement strategies.

To directly address these needs, targeted professional development sessions are being organized for our staff, concentrating on areas such as differentiated instruction and cultural competency, among others. We are strategically reallocating resources—both financial and human—to bolster our efforts, which may include hiring additional support personnel or investing in new technology. The adoption of evidence-based instructional strategies is a cornerstone of our plan, aimed specifically at elevating the performance of the groups underpinning our ATSI status.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

To gauge the effectiveness of our initiatives, we are instituting regular data reviews, establishing feedback loops with all school stakeholders, and making necessary adjustments based on this ongoing evaluation. An annual review process will further assess our progress towards meeting our set goals, allowing us to refine our approach continually. This structured, responsive framework underscores our commitment to not just addressing the immediate factors behind our ATSI designation, but to fostering sustained improvement and success for all students at Aspire Richmond Technology Academy

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers	Teachers participate in Fall and Winter Teammate surveys, where they rate different aspects of school culture, relationships, priorities, practices. Lead teachers meet weekly to plan implementation and progress monitoring of schoolwide and grade level goals, which they then take to their weekly team meetings and biweekly data talks. Teachers are also engaged in weekly staff meetings, professional development, school surveys, and either weekly, biweekly, or monthly 1-1 coaching meetings. There are also bi-annual regional professional developments. Through these various avenues they are able to reflect on and share how we are progressing toward our school goals, and what support is needed, so we can further develop and refine our LCAP goals and action steps.
Principals and Admin	School leaders, including the Principal, Assistant Principals, Deans, Business Manager, Instructional Coach and After School Director participate in daily admin chats, weekly admin meetings, rotating specialized admin meetings, weekly professional development and staff meetings, and Fall and Winter Teammate Surveys. These various meetings and check ins focus on schoolwide planning, resource allocation, professional learning, and goal setting aligned to our LCAP goals and action steps.
Other School Personnel	Non-instructional staff, including support and operations teams, were also engaged through Fall and Winter Teammate Surveys, weekly staff meetings, weekly surveys, quarterly launch and annual reflection professional developments. These engagements provided input on our school culture, workplace environment, operational systems,

Educational Partner(s)	Process for Engagement
	student support services, and staff relationships, which directly inform the development and refinement of the LCAP.
Parents	Families are engaged through Fall and Winter Family Surveys, quarterly SSC, admin chats, ELAC, and Black Family meetings, and cultural or academic family engagement opportunities throughout the year. During these meetings, feedback was gathered on progress toward our LCAP goals, barriers to engagement, and family and community needs.
Students	Students participate in a fall and winter survey in which they give feedback on their schoolwide and class experiences, including sense of belonging, learning experiences, and climate. We also have a student council and a Black Boys and Black Girls group which meet monthly to give feedback on our school practices and share ways to support student success on our goals.
SELPA (Special Education)	Our special education provider team meets weekly, our instructional aides meet weekly, and our ed specialists have an additional biweekly meeting in which we discuss and determine student needs, provide input on our SpEd supports and programming, and review practices to determine adjustments to our goals and action steps. They participate in the bi-annual teammate surveys as well as school and regional instructional and professional development as applicable. Feedback is integrated into our instructional priorities, accommodations, and support plans for students with IEPs.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The engagement process with educational partners led to several key changes in the development of the LCAP, reflecting the diverse feedback gathered from teachers, principals, non-instructional staff, parents, students, and SELPA representatives. Based on feedback from teachers, the LCAP was revised to include a stronger math focus next year in professional development, planning and data analysis. Additionally, based on feedback from all staff members in the teammate survey, we will continue to focus on improving the staff to leadership relationships through listening meetings, open office hours and leadership development, staff wellbeing by reducing additional meetings and tasks and increasing joy, and feedback and coaching through more consistent use of the ASLF and related rubrics during learning walks and coaching.

Parents and families, through surveys and meetings, identified barriers to engagement, prompting the addition of flexible family engagement options, including virtual participation opportunities, more student and/or family centered activities, and more communication about

academics in the classroom. Student feedback regarding school safety and emotional regulation resulted in more specific school rules which prioritized safety, and hands on teaching of emotional regulation through role plays and practice of the meta moment.

Consultations with SELPA representatives informed changes related to ensuring that students with special needs received equitable support, including enhancing collaboration between general and special education staff to help facilitate more co-planning and coteaching. These changes demonstrate how input from key educational partners directly influenced the LCAP's goals, actions, and budget to better address academic, behavioral, and social-emotional outcomes across student groups.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Building Our Capacity as Instructional Leaders by implementing the use of research-based signature instructional strategies, high quality instruction, high quality instructional materials, professional development, and data-driven practices from a culturally relevant and linguistically responsive lens to be used across the region.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

To advance teacher instructional quality and student academic performance across our educational community, emphasizing the integration of culturally responsive pedagogy and practice and research-based strategic instructional teaching and data analysis practices. This instructional priority will lead to culturally responsive classrooms and educators equipped with the skills to facilitate learning and foster a community of independent student learners. We will see increases in student academic proficiency levels and growth rate as measured by mclass, iReady and SBAC.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

(1.1 Grade Level Curriculum) All necessary curriculum materials were acquired; meeting Williams Act requirements. Professional development prioritized the Science of Reading, though Eureka Math 2.0 training was limited due to time constraints. Grade-level teams engaged in common planning and data analysis. We had 1:1 device access for all students, supporting digital practice through platforms like iReady.

(1.2 Instruction (Professional Development and Culturally Relevant Pedagogy)) Extensive PD was provided in the Science of Reading. We utilized the ASLF framework within our unit planning PDs, and established a shared understanding of culturally relevant pedagogy and practice, though we were at varying degrees of ability to integrate strategies based on stakeholder levels of experience.

(1.3 Instruction (Master Scheduling) A consistent master schedule ensured equitable access to core instruction, interventions, and enrichment. The after-school program expanded by 30 days, though fluency support was limited by insufficient resources and training.

(1.4 Instruction (Assessment) Progress monitoring protocols were implemented, with Data Talks occurring about every 6–8 weeks. Tiered interventions were based on assessment data, though analysis for all major subject areas was impacted by competing responsibilities.

(1.5 Black Excellence) Expanded Pro-Black initiatives included curriculum integration, PD at school and through the region, student groups, family engagement, and the launch of a Black Excellence Celebration. However, quarterly learning walks focused on Black academic achievement were not completed due to insufficient time.

(1.6 English Learners) Quarterly PD and onboarding were provided for ELD, with a focus on the designated ELD curriculum and vocabulary for integrated ELD. 100% of MLLs were tested on the ELPAC, and data was used to inform placement and instruction. Collaboration with the MLL Program Manager supported PD co-planning, and we were able to communicate effectively with families through the Language Line for translation.

(1.7 SPED) Collaboration between general and special education was impacted by compliance demands. Our Dean of Special Populations and the launch of a Behavioral Health Program strengthened support structures and helped reduce our suspension rates.

(1.8 Title I) Targeted literacy and behavior interventions were delivered by both specialized staff and classroom teachers to support struggling readers and our scholars with high behavior needs.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Spending increased due to a higher-than-anticipated English Learner (ELL) student count compared to the budgeted projection.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

(1.1 Grade Level Curriculum, and 1.2 Instruction (Professional Development and Culturally Relevant Pedagogy)) Our recent data indicates meaningful progress in ELA, with a 4.4-point increase in SBAC DFS, affirming that our focused implementation of the Science of Reading, effective Tier 1 and Tier 2 instruction, and consistent PD are driving literacy gains. Classroom walkthroughs further validate strong ELA instructional practices across grade levels.
In contrast, math performance declined slightly (-0.8 DFS overall), pointing to a clear need for increased numeracy support and targeted professional development. This trend was consistent across student groups, particularly English Learners (ELs) and Students with Disabilities (SWD), who showed declines in math scores.

(1.6 English Learners) Our English Learners demonstrated strong progress in language development, with an 8.5-point gain in SBAC ELA, and a 24.3% increase in ELPAC growth, resulting in a movement from red to green on the California Dashboard. However, ELs also experienced a 10.6-point drop in SBAC math, highlighting the need for more robust math supports for multilingual learners.

(1.5 Black Excellence) While we've made commendable progress in fostering school culture and student identity for our Black scholars through our Black programming and student groups, academic outcomes did not follow suit. These students experienced a 13.5-point drop in ELA DFS and -0.3 in math, underscoring the need for more intentional academic interventions, interdisciplinary teaching, and quarterly learning walks centered on culturally responsive instruction.

(1.7 SPED) Students with IEPs remain one of our most underserved populations. They experienced steep declines in both ELA (-17.8 DFS) and math (-9.1 DFS), and remain 32.8 points below standard in science. Limited growth in internal assessments, coupled with inconsistent co-teaching and lack of SPED-GE collaboration, contributed to these outcomes. However, we saw positive trends in behavior, with fewer suspensions, reflecting the impact of our BHP meetings and Dean of Special Populations.

(1.8 Title I) Socioeconomically disadvantaged (SED) students saw promising academic gains, particularly in ELA (+9.6 DFS), validating the effectiveness of our targeted interventions from our reading specialist and classroom teachers. Math gains were minimal (+0.3 DFS), reinforcing the broader need for math-focused interventions. Behavior data also improved for this group, showing the effectiveness of our Student Support Manager (SSM) role.

(1.3 Instruction (Master Scheduling) and 1.4 Instruction (Assessment) Lastly, while our master schedule has improved equitable service delivery, and SBAC-aligned assessments helped identify gaps, the inconsistent implementation of tiered interventions and time spent analyzing data across subjects limited our overall impact. Our after-school program also fell short in improving literacy outcomes, with 73% of students still below grade level on iReady, signaling the need for more targeted and skill-specific support after school.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

(1.1 Grade Level Curriculum, and 1.2 Instruction (Professional Development and Culturally Relevant Pedagogy)) Due to our regression in math, we will provide quarterly professional development and data analysis for math curriculum (Eureka 2.0) implementation. We will keep all of the other supports consistent. We will also focus more on data analysis and learning walks for subgroups, which are already action steps, but were not fully implemented.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Grade Level Curriculum	Purchase needed curriculum replacements to ensure that all core subjects have standards-aligned and board-approved curriculum Refer to 23-24 BA Curriculum Overview	$133,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		(Tk-5 only) Purchase additional Tier III supplemental instructional materials for intervention support aligned to the Science of Reading i.e. Phonics curriculum (SIPPS), Phonemic Awareness curriculum (Heggerty) for use in core program (or during ELOP) Provide quarterly professional development for continued curriculum implementation (Eureka 2.0, OCR/Heggerty, etc.) Purchase chromebooks so that all students have devices (1:1) and access to regular grade-level content practice experiences Purchase personalized instruction curriculum (iReady) Provide grade level and content planning time for lesson planning, unit development and data analysis On-going analysis of curriculum with Regional Instructional Team (implementation and access) in accordance with the Williams Act Requirements for textbooks and curriculum		
1.2	Instruction (Professional Development and Culturally Relevant Pedagogy)	Provide access to on-going comprehensive professional development designed and led by the Regional Instructional Team as well as school adminstration on strategies for foundational literacy, foundational numeracy, and culturally relevant and linguistically responsive teaching (Science of Reading, etc.). Utilize updated ASLF framework as a coaching tool that has integrated Culturally Responsive Teaching Strategies to the Culture of Learning and Essential Content domains Build capacity of stakeholder by establishing a shared understanding of culturally relevant pedagogy and practice and its connection to critical literacy and liberatory education	$1,077,000.00	Yes
1.3	Instruction (Master Scheduling)	Continue to create a master schedule that is equitable and provides students with access to all core content and opportunities for enrichment/arts with the necessary allotted minutes for core content areas. Ensure master schedule has time for intervention/credit recovery to the extent possible that does not limit access to enrichment	$3,648,000.00	No

Action #	Title	Description	Total Funds	Contributing
		Work with Regional Expanded Learning Program Manager and Afterschool Director to ensure After-School Program is available for all students, runs for 30 additional days outside of the school year, and provides homework support, enrichment, and academic support in fluency (reading fluency, math basic skills, typing skills).		
1.4	Instruction (Assessment)	Establish and implement progress monitoring protocol (Data Chats) across grade levels and content area; six-eight week data analysis (data-driven strategic next steps and planning). Provide regular time for data discussions (through shared preps, release days with substitutes, or protected time on early release days). Tiering of students aligned to data to leverage specific support to help students with the mastery of standards; analysis of proficiency and growth rates. Administer Interim Assessment Blocks (IAB) twice a year Design and implement end of chapter assessments, end of unit assessments and exit tickets to reflect the testing questions of SBAC	$0.00	No
1.5	Black Excellence	In 22-23, suspension rates for our Black students were in the red on the California Dashboard. We are planning the following to support our black scholars. Implement the use of culturally relevant literature and other instructional materials to support an interdisciplinary approach to Pro-Black Programming. Explicitly teaching Black History beyond the surface approach throughout the academic year. Provide access to on-going comprehensive professional development designed and led by the Regional Instructional Team on Microaggressions: Beliefs, Attitudes and Perceptions that Impact Learning for Black Students. This is in support of reducing anti-Blackness. Conduct quarterly learning walks to review the instructional program with a specific focus on Black student academic achievement (inclusive of SEL work).	$0.00	No

Action #	Title	Description	Total Funds	Contributing
		Continue our Black Student Union (BSU) and provide materials (t-shirts, supplies, etc.) Start a Black Family Advisory Council to get input on our school community		
1.6	English Learners	In 22-23 our English Learners were Red on the California Dashboard for ELPI. We are doing the following actions to improve the outcomes of our MLLS. Provide onboarding training sessions for new teachers of Designated ELD to be familiar with the Designated ELD curriculum with documentation of agenda, presentation, and sign in/out sheets Ensure instructional staff to know all English Learners by their MLL indicator (SIFE, M0, N1, N2, N3, At-risk LTEL, LTEL) Provide specific training on strategies for Integrated EL support, focusing on differentiated instruction and assessments, to enhance their learning experience with documentation of agenda, presentation, and sign in/out sheets Develop and keep record of systematic opportunities for observation and feedback of PD-implemented instructional strategies Develop and maintain system to ensure newly enrolled English Learners are identified and placed into Designated ELD with 30 days of enrollment Provide opportunities for instructional staff to analyze local and state assessments by individual English Learner growth and their progress towards reclassification, documenting EL progress monitoring for each student in their cume file Meet or exceed 95% completion on the Summative ELPAC Provide all state required communication to families and keep a copy of each communication in each student's cume file Ensure all student records are up-to-date in both PowerSchool and students' cume file Ensure all eligible students for reclassification are identified and reclassified prior to Summative ELPAC testing Engage in progress monitoring of individual students who have reclassified within the last 4 years and document this progress monitoring in the students' cume file	$32,000.00	

Action #	Title	Description	Total Funds	Contributing
		Engage in a school level MLL program evaluation upon receiving all Summative ELPAC scores to adjust instruction for the upcoming school year Develop systematic opportunities for instructional staff to observe and give feedback to each other implementing Designated and/or Integrated ELD Work with instructional staff to know which English Learners are growing, maintaining, or regressing on the Summative ELPAC in order to further progress monitor their growth on internal reading assessments throughout the year to intervene on language development Work closely with regional Multilingual Learners Program Manager to co-plan sessions and ensure the implementation of beast practices en ELD instruction and support Contract with sub agencies to train and administer ELPAC testing Host EL family nights Leverage translation services for 100% of languages served		
1.7	SPED	Ensure classroom General Education and Education Specialist co-teachers have weekly shared planning time to support co-teaching, data analysis, and collaboration With Program Specialist, conduct a program review and conduct co-teaching self-assessment and create 1-2 goals based on self-assessment Review current practices to ensure there are data stepbacks built into your schedule to monitor success and threats of new models and partnership In 22-23 our suspension rates for scholars with IEPs were in the red on the California Dashboard. We will launch the Behavior Health Program and hire a Special Populations Admin to support students with the highest behavioral health needs.	$1,575,000.00	No
1.8	Title I	To enhance academic performance across all student groups, with a focus on aiding those at the lowest achievement levels, our strategy involves utilizing Title I funds for the following positions: Intervention Specialist	$181,000.00	No

Action #	Title	Description	Total Funds	Contributing
		School Support Manager This approach, grounded in our commitment to equity, ensures all students have access to necessary resources and support, regardless of socioeconomic status. By allocating Title I funds towards these positions we aim to provide targeted interventions that directly contribute to student success. The expected outcome is an improvement in the academic performance of our low-achieving students, measured by assessments, progress monitoring, and state testing results, evidencing the effectiveness of this support. Funding from Title I will specifically support these critical roles, aligning our actions with federal guidelines to boost educational outcomes for disadvantaged students.		

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Enhance teammate development by establishing models and systems for ongoing professional development through coaching and communities of practice (CoPs)	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 3: Parental Involvement (Engagement)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 6: School Climate (Engagement)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

This goal on the development of adult learners will lead to the attraction and retention of teammates. We will see growth in positive responses to our Teammate Survey questions on Coaching, Feedback & Development. Additionally, weekly or biweekly observation and feedback coaching cycles for all teachers and ed specialists will lead to growth in educator instructional practice which will increase student attendance and academic performance outcomes. To assemble and sustain a team of exceptional educational professionals through strategic initiatives aimed at recruitment, development and retention. We will focus on enhancing our team's development by implementing structured models and systems that provide continuous professional growth opportunities. This will include individualized coaching, team coaching, and the formation of vibrant Communities of Practice (CoPs), which will foster a culture of lifelong learning and collaborative innovation.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Overall, most actions under this goal were successfully implemented, though a few faced challenges that impacted the degree of implementation.

(2.1 Coaching, 2.2 Professional Development) We provided differentiated coaching using the ASLF for goal-setting and conducted BOY, MOY, and EOY PLPs for all teachers. Admin also had PLPs, though not all included TLF-aligned goals due to a lack of familiarity with the rubric. While Teachboost wasn't used for all coaching sessions, it was integrated into some 1:1 coaching and all PLPs. Walkthroughs targeted ASLF-aligned practices, and resulting trends informed PD. We used grade-level meetings and data talks to apply the ASLF and maintained collaborative planning time and weekly data analysis. However, time constraints limited our use of consultancies, anchor texts, and coaching data analysis.

(2.3 Teammate Retention) Staff engagement was supported through weekly surveys, open-door policies, listening meetings, and office hours, with feedback informing next steps. Wellness goals were optional because some staff were more invested in other growth goals. New staff were supported via the Educare Bear group and Cub Clubs. (2.5 Pipeline Development) Stretch goals and related supports were made during PLPs, and we hosted six Alder residents this year.

(2.4 Affinity Groups) Teammates had access to regional PD in summer and fall, with affinity groups on the summer agenda, though winter PD was canceled. We also partnered closely with the credentialing department to support teachers in clearing credentials.

(2.6 Teacher Credentialing) We worked closely with the teacher credentialing department to support our teachers in clearing their credentials.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between budgeted expenditures and estimated actual expenditures for any of the actions under this goal

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

(2.1 Coaching) The differentiated coaching model had mixed results. While 68% of staff found feedback useful and PLPs were consistently managed via TeachBoost, coaching lacked alignment due to inconsistent use of ASLF and TLF, consultancies and anchor texts. Staff requested more consistent learning walks with clearer goals and follow-up.

(2.2 Professional Development) We used the Teachboost platform for all PLPs, but not all coaching due to a lack of familiarity with the platform, and other preferred systems. We utilized the ASLF more 1-1 than in larger groups, which caused alignment and common understanding to be inconsistent.

(2.3 Teammate Retention) Our staff retention decreased from 88.9% to 84.7% which is a decrease by 4.2%. Positive data shows that staff belonging is at 82%, which shows that collaboration, onboarding, and input is being utilized well. However, wellbeing (72%) and staff-leadership relationships (52%) show that current supports, like listening meetings, aren't fully effective. Competing priorities during collaborative preps also added stress.

(2.4 Affinity Groups) Cultural development efforts were limited—affinity groups only met once, resulting in low positivity (49%) around cultural awareness.

(2.5 Pipeline development, 2.6 Teacher Credentialing) The Alder program was a success in staffing residents, but career development goals were hard to support due to time and coverage constraints. Support for credentialing was helpful, but test difficulty remains a barrier.

In short, while some systems worked well, inconsistent implementation, limited capacity, and competing priorities reduced overall impact.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

(2.1 Coaching) To create more direct links between the ASLF and other supporting walkthrough rubrics, we will add direct connections between the two which will help ground our feedback in the universal document, and give clearer action steps to teachers.

(2.2 Professional Development) Next year, we will highlight relevant components of the ASLF during content PDs so that we are able to increase common understanding.

(2.3 Teammate Retention) Although the wellness goal is well intentioned, some staff find it more helpful to either reduce the number of goals or complete a career advancement or other goal. To increase staff wellbeing, we will reduce unnecessary meetings and tasks, and promote more joy and connection through staff recognition, games and activities.

(2.4 Affinity Groups) We will need to provide additional schoolbased affinity groups and/or PD opportunityes that focus on cultural awareness and action.

(2.5 Pipeline Development) Because we have more Alder support, we will adjust to have either residents or student teachers.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Coaching	Implement a school site differentiated coaching model to ensure that teachers are receiving coaching & feedback cadence according to teacher need and goals Ensure all teachers receive coaching and feedback using the Aspire Student Learning Framework (ASLF) Implement Teachboost to progress monitor frequency of coaching and coaching points Teachers create goals using the Aspire Student Learning Framework (ASLF) and have mid-year and end of year debriefs to monitor growth Admin team members create goals using the Transformational Leadership Framework (TLF) and have mid-year and end of year debriefs with principals Implement consistent walkthrough schedule using the ASLF and aligned supporting walkthrough rubrics, with explicit connections between the rubrics, to align coaches, identify coaching trends and inform staff professional development Develop admin and lead teacher coaches in ILT by regularly using consultancies, anchor texts, & coaching data analysis Share coaching and walkthrough trends in the weekly Staff Newsletter	$176,000.00	Yes
2.2	Professional Development	Lead staff professional development on Teachboost platform for teacher/ed specialist coaching and PLPs Lead staff professional development on the Aspire Student Learning Framework (ASLF) so that teachers and coaches are aligned on framework for rigorous instruction	$0.00	No
2.3	Teammate Retention	Staff input sessions on school culture/climate Weekly staff survey to monitor staff culture/climate Open office hours with admin team Listening Meetings with staff Share teammate survey results & leadership next steps after each survey administration	$92,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		All teammates will be encouraged to write one wellness goal during their Professional Learning Plan. Adjust master schedule to ensure adequate teacher collaboration and planning time, and reduce additional meetings and tasks. Increase feeling valued, connected and joyful through more staff recognition and games or activities. Establish clear school site onboarding practices to support new teachers that are new to profession or role and/or new to district		
2.4	Affinity Groups	Ensure all teammates have the ability to attend regional and/or school affinity groups or cultural awareness and action PD	$0.00	No
2.5	Pipeline Development	During Professional Learning Plan (PLP) meetings, all teammates will set stretch goals to develop them for their future career goals and receive support/development in those areas (which may include release time for observations, tests, etc.) Work towards securing at least 4 student teachers or residents total from Alder or other universities.	$0.00	No
2.6	Teacher Credentialing	In accordance with the Williams Act Requirements regarding teacher credentialing Such that schools are working to improve and clear Teacher Misalignments	$0.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	To elevate and personalize student learning experiences across our educational community through the strategic integration of data-driven practices. Our aim is to cultivate a supportive and responsive educational environment where every student's unique needs are met with tailored systems of support and innovative tiered strategies.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

To elevate and personalize student learning experiences for all subgroups across our educational community through the strategic integration of data-driven practices. Our aim is to cultivate a supportive and responsive educational environment where every student's unique needs are met with tailored systems of support and innovative tiered strategies and interventions. This goal on school culture and climate emphasizes the use of data to develop differentiated systems of support that will lead to improved student engagement and chronic absenteeism rates, and lower suspension rates.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

To build strong family engagement and improve student outcomes, we initiated a variety of actions as planned, with some adaptations due to time, participation, and capacity constraints.

(3.1 Family Community Engagement and Outreach) Initially, we held monthly Principal Chats, but due to low participation, we merged them with School Site Council (SSC) meetings. Similarly, while SSC and ELAC meetings were originally planned quarterly, we shifted them to Zoom to accommodate higher family attendance.
A significant challenge was low in-person engagement, which we addressed by increasing accessible virtual formats and adding family-centered events such as Literacy Night, Black Excellence Celebration, and others. We also created a Black Family Advisory Group, which met regularly during the winter and spring.

(3.2 Attendance) We focused on Tier 1 supports as opposed to subgroups, due to whole school attendance needs. We conducted weekly review of class-level attendance data during semester 2, and had staff outreach to families every Friday for students missing 2+ days. Admin

did daily attendance messages to families and class-based incentives. While home visits were initially planned, they were not completed due to time limitations.

(3.3 SEL) To streamline efforts and maximize impact, we merged the attendance and culture teams. We implemented Tier 2 and 3 behavioral interventions through COST, BWT, and BHP meetings, ensuring wraparound supports for students with the highest needs. SEL was a key focus, with quarterly PDs, regular data reviews using Panorama, and integration of SEL planning into weekly team meetings. While we couldn't launch student service, safety, or environment crews as intended, we successfully established a student council. Family SEL engagement was more limited than planned, with two dedicated workshops and SEL content embedded into other meetings.

(3.4 MTSS) We had monthly COST MTSS admin meetings and Weekly COST RTI and BWT meetings. We added quarterly COST consultancies for grade level teachers which included professional development and student consultation. We did not have PD co-facilitated by the regional team, instead we got support from them in a train the trainer model.

(3.5 Enrollment) We did not need to complete many of the action steps due to a large applicant pool. We participated in the county recruitment fair, and shared with current families about our enrollment.

(3.6 Classroom Facilities and Student Physical Spaces) We conducted walkthroughs 2x a year not quarterly, due to time constraints and competing priorities. We held the annual training on our school safety plan, and have a checklist for all items in classrooms.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between budgeted expenditures and estimated actual expenditures for any of the actions under this goal

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

(3.1 Family Community Engagement and Outreach) Attempts to combine SSC/ELAC meetings with family events have had low turnout. Survey and anecdotal data show limited family involvement overall (only 9% help regularly, 42% visit monthly or weekly, 27% support fundraising). Events with performances, raffles, and food draw the most participation. Online meetings work better for content delivery.

(3.2 Attendance) There's been a 2% increase in attendance compared to last year due to daily messages, weekly data reviews, and student incentives. Chronic absenteeism has decreased to 23.77% (down 4% from last year), but it remains a concern. Home visits and summer outreach are next steps.

(3.3 SEL) Suspension rates have dropped to 1.5%, earning a green rating on the California dashboard. Tier 2 and 3 supports have proven effective.However, physical and psychological safety is rated at 49%, and emotional regulation at 48%, highlighting the need to strengthen SEL through tiered supports and better Tier 1 planning.

(3.4 MTSS) The improved MTSS system has helped move 90 students through the COST process and 42 through SST, with a more efficient referral process now in place. Scholars are receiving more targeted supports and interventions, and our referral process is more streamlined for teacher use, as seen by more scholars being referred on time.

(3.5 Enrollment) There are 500 students on the waitlist, indicating strong enrollment demand with adequate efforts though we have not been doing many of the action steps.

(3.6 Classroom Facilities and Student Physical Spaces) The school has a ""good"" FIT rating, completed all safety drills, and passed Williams Act visitations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

(3.1 Family and Community Engagement and Outreach) We will keep meetings online (SSC, ELAC, chats), and will increase at school engagement opportunities, with about 2-3 events per quarter for families.

(3.3 SEL) We wil merge the leadership clubs with student council for time and resource efficiency. We will reduce the number of family experiences to focus our efforts and make them more sustainable.""

(3.4 MTSS) Due to a shift in how PD is run, we will be taking out the co-facilitated PDs.

(3.5 Enrollment) We will remove some of the specific enrollment actions because we have such a large pool without many outreach efforts.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Family and Community Engagement & Outreach	Continue to hold quarterly Principal Chats, SSC and ELAC meetings with families. Continue to survey families to include feedback in strategic planning. Hold yearly ""Lunch with a Loved One"" inviting families to eat lunch with their children. Hold at least 2 events per quarter that include workshops and/or performances, food, child care as needed, translation, and door prizes. Share quarterly grade level teaching focal points for families to utilize at home.	$0.00	No

Action #	Title	Description	Total Funds	Contributing
		Maintain Black Family Advisory Group for family members of black students to provide input on our school culture and climate.		
3.2	Attendance	Establish an Attendance Team that will develop an attendance plan, progress monitor and lead intervention strategies Ensure attendance team reviews attendance data weekly. During data reviews, focus on looking at attendance rates specifically for ELs, Foster Youth, and low-income students. Increase family communication when students are absent (including personal communication for every absence, and conducting home visits for students with chronic absenteeism) School-wide attendance incentive programs (perfect attendance certificates, grade level attendance competitions) Focus on early family education for our TK-2 grade families by providing monthly reminders/information on importance of attendance Include information on the importance of attendance to families during Back to School events, BOY newsletters, First Day Packets and discuss attendance during SLC's Conduct home visits/outreach during the summer to students with chronic absenteeism/truancy	$200,000.00	Yes
3.3	SEL	In 22-23 our suspension rates for our low income, African American, and student with disabilities were in the red on the California Dashboard. We will address this by providing tier 2 and 3 behavior interventions. We also will launch the Behavior Health Program to support students with multiple suspensions. Provide curriculum materials and resources for teachers Provide time for teachers/teams to review SEL data from Panorama, and modify SEL units through a data-informed perspective Provide regular planning time for advisory teams to internalize and adjust SEL units Continue Student Council. Continue quarterly SEL family education experiences and development of adult SEL.	$495,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Continue to develop Adult SEL		
3.4	MTSS	Continue MTSS team meetings that reinforce learning on creating systems to look at multiple data sources to progress monitor universal program, additional supports, and intensified supports. (One example: create a school Tiered Instruction Matrix (TIM)) Provide professional development on MTSS to school site teammates. The actions outlined above are designed to benefit all students, while specifically aiming to address the urgent needs highlighted by the California School Dashboard. Red indicators have been identified for African American, Low income, and Students with disabilities in Suspension. These actions ensure that while all students receive support, there is focused intervention to support those most at risk.	$0.00	No
3.5	Enrollment	Establish a site enrollment team that will develop student enrollment. Plan and lead student recruitment efforts. Attend at least one community event per year to advertise the school. Hold at least one open house per year. Conduct information sessions and drop off marketing materials.	$0.00	No
3.6	Classroom Facilities, and Student Physical Spaces	In accordance with the Williams Act Requirements regarding facilities, building managers conduct quarterly facilities walkthroughs using the Facility Inspection Tool (FIT) School Ratings are at least “Good”. Annually train all teammates on the school comprehensive safety plan Create a checklist of key items that should be included in all classrooms (including emergency school safety kits, where student work is displayed, key anchors charts, etc)	$195,000.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Ensure student access to targeted academic support and social-emotional resources to accelerate learning recovery and improve student outcomes for identified subgroups in areas identified by LREBG the needs assessment	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The LEA developed this goal to ensure that all students, particularly identified subgroups, have equitable access to targeted academic support and social-emotional resources. This goal addresses the learning recovery needs identified through the LREBG needs assessment, aiming to accelerate learning recovery and improve student outcomes by providing comprehensive support in areas most impacted by the pandemic.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	**Action:** Grade Level Curriculum **Need:** ELs' ELA scores decreased from -47.50 to -58.80; Low-income students from -35.80 to -50.70 **Scope:**	This action addresses the decline by procuring up-to-date, standards-aligned curriculum, adaptive blended learning programs, and organizing professional development. It equips teachers to enhance outcomes for struggling students by providing rigorous educational content tailored to their needs. Implementing this action LEA-wide ensures uniform quality in educational resources and teaching strategies, vital for standardizing high educational standards across all classrooms.	Metric (1.1 & 1.2) SBAC

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
1.2	**Action:** Instruction (Professional Development and Culturally Relevant Pedagogy) **Need:** ELA declines for ELs and low income and ongoing challenges in Mathematics. **Scope:** LEA-wide	Provides professional development in culturally relevant pedagogy, enhancing teachers' abilities to engage diverse students effectively, thus addressing disparities. LEA-wide training ensures all teachers can support diverse student backgrounds, promoting inclusivity and improving academic outcomes universally.	Metric (1.1 & 1.2) SBAC
2.1	**Action:** Coaching **Need:** Persistent academic challenges in ELA and Mathematics for both English Learners and low-income students. **Scope:** LEA-wide	Implements a differentiated coaching model tailored to teacher needs, utilizing the Aspire Student Learning Framework to enhance instructional quality and effectiveness, particularly in areas where students are struggling. Utilization of the Teachboost platform to progress monitor coaching frequency, high leverage coaching points, and PLP goals across the school year. Providing consistent and differentiated coaching across the LEA ensures that all teachers, regardless of school location or specific student demographics, receive the support needed to address educational disparities effectively.	Metric (2.2) Teacher Sense of Safety and School Connectedness
2.3	**Action:** Teammate Retention **Need:** A high teammate retention rate is crucial for unduplicated students, such as English learners, foster youth, and low-income students, because consistent staff presence helps build strong relationships and creates a	Regular staff input sessions and weekly surveys on culture/climate offer a platform for staff to voice concerns and suggestions, creating a more inclusive environment where staff feel valued and heard. Open office hours and listening meetings with the admin team provide opportunities for staff to communicate directly with leadership, promoting a supportive culture. Sharing survey results and outlining leadership's next steps reinforce	Metric (2.3) Retention Rate

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	stable learning environment. Unduplicated students often require sustained support to overcome academic barriers, and continuity in staffing ensures that educators are better acquainted with each student's needs, learning history, and challenges. This continuity allows staff to provide tailored support, foster trust, and implement strategies effectively, thereby improving academic and socio-emotional outcomes. **Scope:** LEA-wide	transparency and accountability, while adjusting the master schedule to allow for adequate teacher collaboration reduces stress and fosters teamwork. Including wellness goals in each teammate's Professional Learning Plan emphasizes staff well-being and ensures they prioritize mental health. Clear onboarding practices support new teachers, particularly those new to the profession or district, helping them acclimate and reducing the risk of early burnout or turnover. Collectively, these actions promote a healthier work environment and improve staff retention. This continuity benefits unduplicated students by providing consistent relationships, tailored support, and a stable school climate that is essential for their success.	
3.2	**Action:** Attendance **Need:** Chronic absenteeism rates remain high for English Learners, with a need to improve engagement. **Scope:** LEA-wide	Establishes a dedicated Attendance Team to monitor and address absenteeism with targeted strategies, including direct family communication, attendance incentives and interventions. A schoolwide focus on improving attendance ensures that interventions reach all affected students, helping to reduce absenteeism rates across the LEA and improve overall student engagement and achievement.	Metric (3.1) Chronic Absenteeism Metric (3.3) Attendance
3.3	**Action:** SEL **Need:** The Aspire Student Survey reveals that only 69% of students and just 46% have positive teacher-student relationships. Safety perceptions need improvement, with 78% of	Providing curriculum materials and resources ensures that teachers have what they need to deliver high-quality SEL instruction. Reviewing Panorama SEL data and modifying SEL units helps tailor instruction to identified student needs. Regular planning time for advisory teams ensures consistency in implementing SEL strategies. Student leadership clubs like service, environment,	Metric (3.6) Student sense of safety and connectedness

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	students feeling safe at school. This highlights challenges that disproportionately affect unduplicated students, who make up 86% of the school's population. Addressing these concerns requires a comprehensive approach to Social-Emotional Learning (SEL) to improve the school climate, support strong relationships, and create a safer environment. **Scope:** LEA-wide	and safety crews offer students opportunities to engage in meaningful activities and develop leadership skills, fostering a stronger sense of belonging. Monthly family education experiences help reinforce SEL concepts at home and strengthen school-family connections. Developing Adult SEL empowers staff to model positive behaviors, contributing to a healthier school environment.	
3.6	**Action:** Classroom Facilities, and Student Physical Spaces **Need:** Given that 87.71% of our student population are unduplicated pupils (including Low-Income, English Learner, and Foster Youth), it is essential to address safety and connectedness proactively. Survey data indicates that: Student Sense of Safety: Remains in the 2nd Quintile, indicating room for improvement despite stability. Family Safety Perception: Increased from 72% to 76%, but 24% of families still do not feel that the school provides a safe environment for their child. **Scope:** LEA-wide	A classroom checklist will ensure the consistent presence of essential safety kits, student work displays, and key anchor charts, promoting a safe and engaging learning environment. Providing these actions schoolwide ensures all students have equitable access to safe and well-maintained facilities, reinforcing safety expectations and supporting unduplicated students. A standardized safety plan across all classrooms also helps create a uniformly positive environment.	Metric (3.6) Student Sense of Safety Metric (3.9) Parent Sense of Safety

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

These funds are allocated towards essential salary support to maintain our current staff levels and towards comprehensive professional development programs. By using the funds to cover part of the existing salaries, we ensure that our schools do not lose valuable staff members due to budget constraints. Concurrently, the investment in professional development enriches our staff's skills and teaching capabilities, enhancing both job satisfaction and educational outcomes. This dual approach of financial support and professional growth not only stabilizes our workforce but also directly contributes to sustained, high-quality service for our students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A - single school LEA	N/A - single school LEA
Staff-to-student ratio of certificated staff providing direct services to students	N/A - single school LEA	N/A - single school LEA

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
