LCFF Budget Overview for Parents

LCFF Budget Overview for Parents Template

Local Educational Agency (LEA) Name: Woodlake Elementary Community Charter

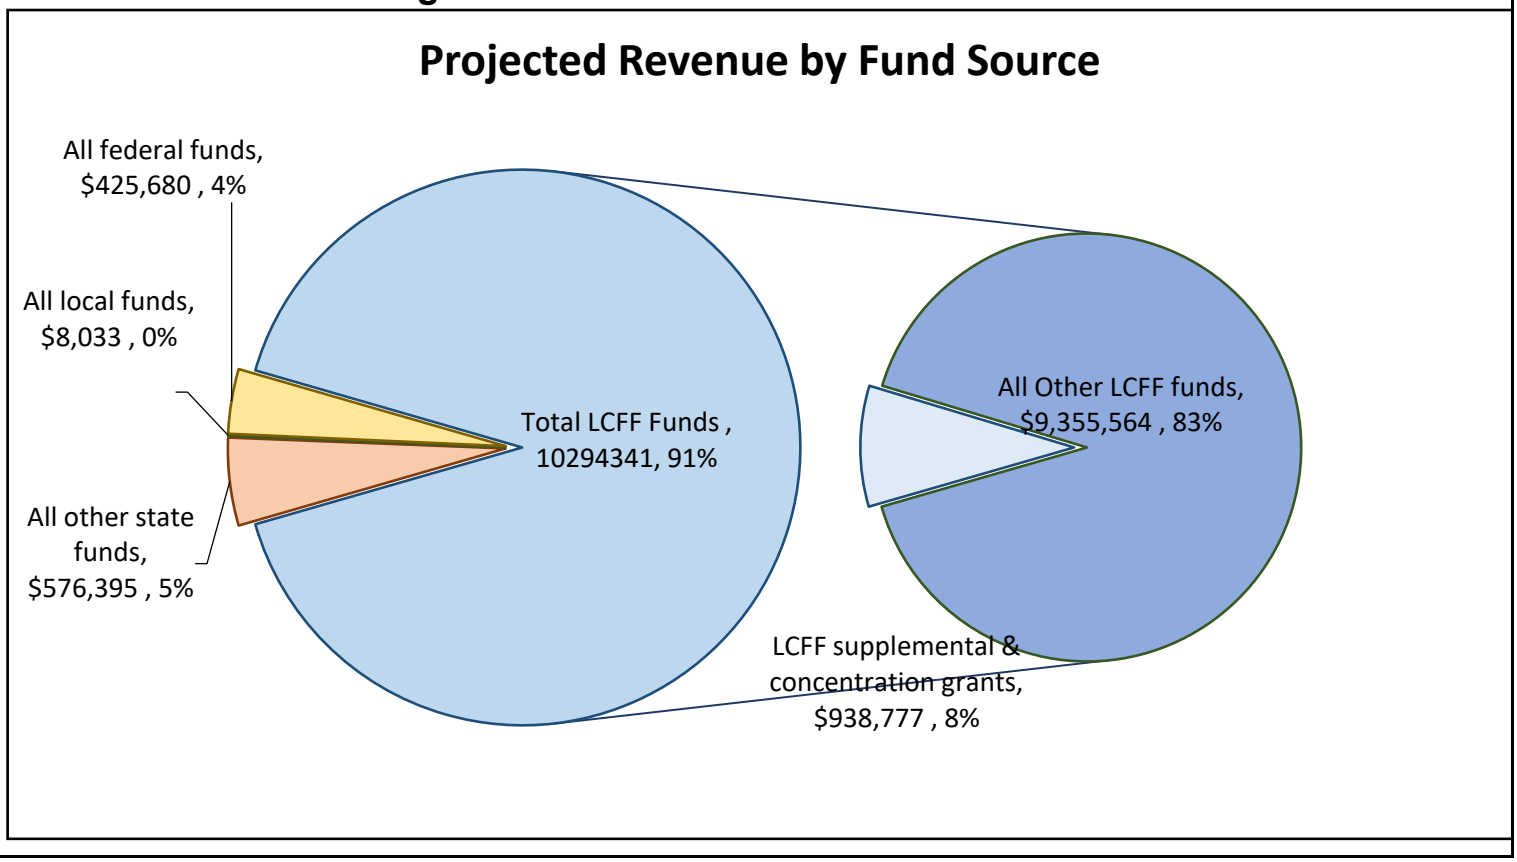

CDS Code: 19 64733 6020036

School Year: 2026-27

LEA contact information: Amy Pedersen, Principal; aka7154@lausd.net

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

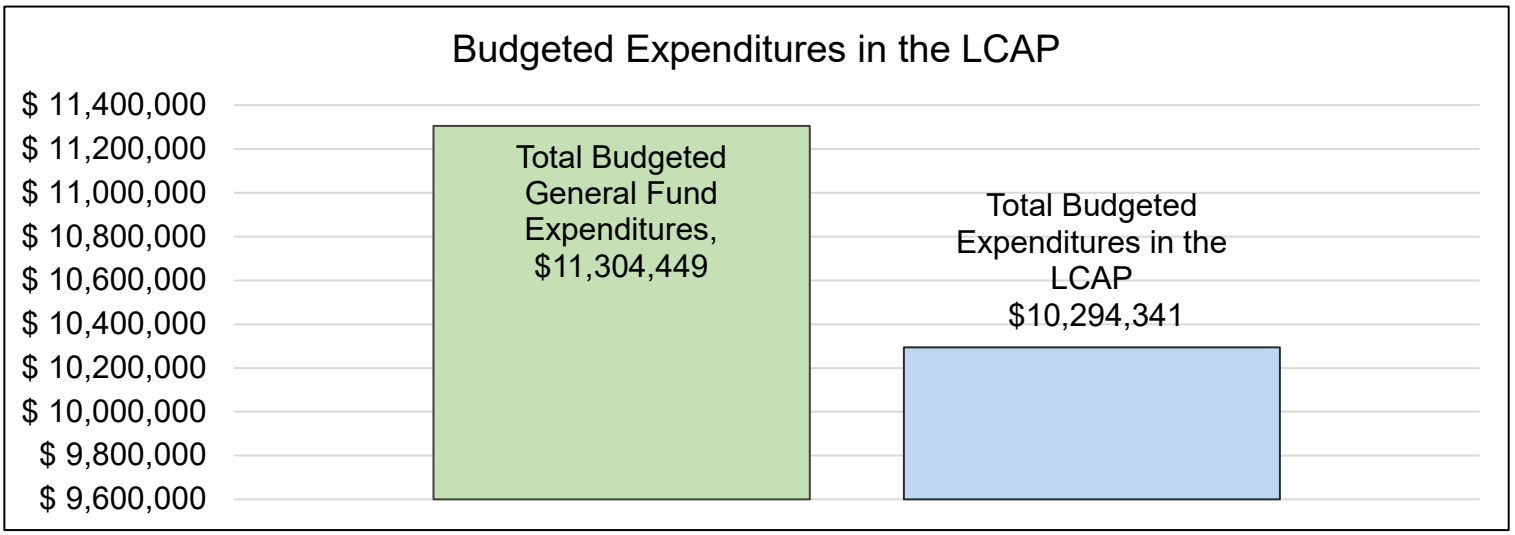

This chart shows the total general purpose revenue Woodlake Elementary Community Charter expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Woodlake Elementary Community Charter is $11,304,449.00, of which $10,294,341.00 is Local Control Funding Formula (LCFF), $576,395.00 is other state funds, $8,033.00 is local funds, and $425,680.00 is federal funds. Of the $10,294,341.00 in LCFF Funds, $938,777.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Woodlake Elementary Community Charter plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Woodlake Elementary Community Charter plans to spend $11,304,449.00 for the 2026-27 school year. Of that amount, $10,294,341.00 is tied to actions/services in the LCAP and $1,010,108.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

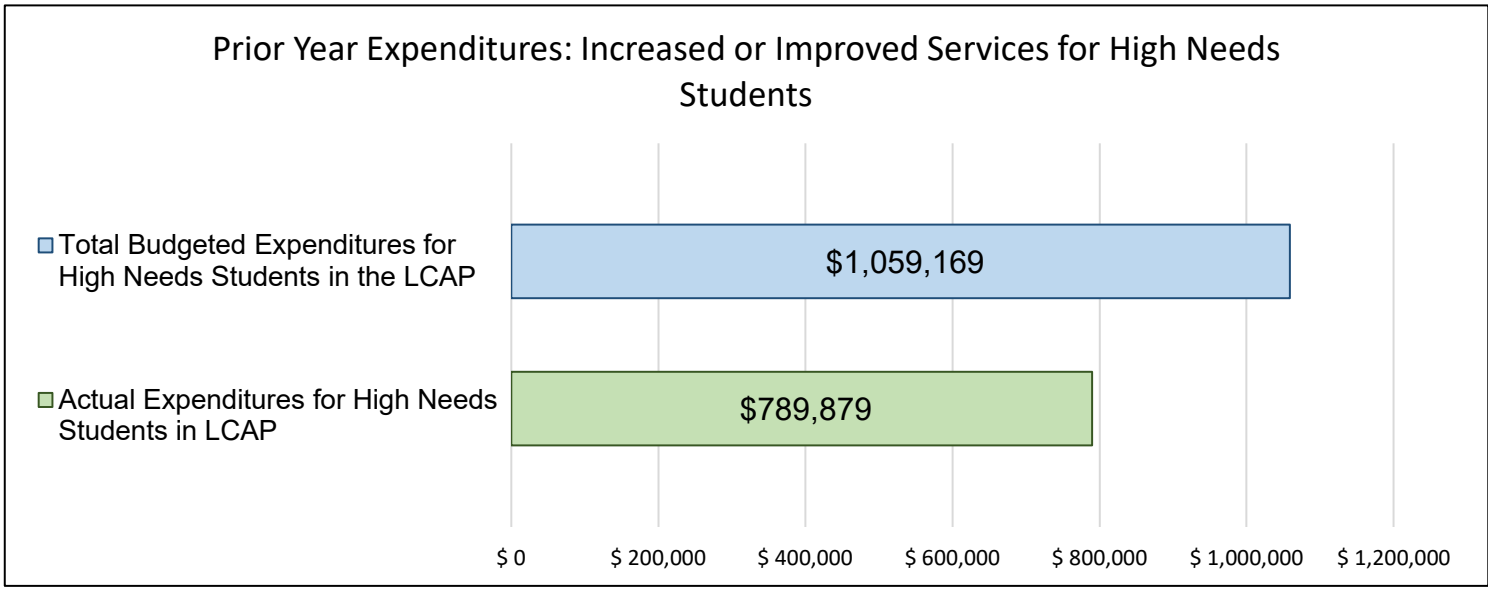

Affiliated Charter Schools are operated by the District and follow all District-wide policy guidelines. In alignment with the District's LCAP, the school's LCAP includes all LCFF sources as identified in the adopted Los Angeles Unified budget. Note that the Action Tables only reflect the school's discretionary funds (as these funds carry over within the school's budget). All Affiliated Charter School-determined expenditures are reflected in the LCAP and are referenced in the body of the LCAP Goals and Actions. The LCAP includes all LCFF funds for 2026–27 and does not include any other local, additional state, or federal funds. Those additional funds are covered in other plans such as the Special Education Local Plan Area (SELPA) Plan for other non-LCFF sources of Special Education funds and the LCAP Federal Addendum for federal funding sources.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Woodlake Elementary Community Charter is projecting it will receive $938,777.00 based on the enrollment of foster youth, English learner, and low-income students. Woodlake Elementary Community Charter must describe how it intends to increase or improve services for high needs students in the LCAP. Woodlake Elementary Community Charter plans to spend $938,777.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Woodlake Elementary Community Charter budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Woodlake Elementary Community Charter estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Woodlake Elementary Community Charter's LCAP budgeted $1,059,169.00 for planned actions to increase or improve services for high needs students. Woodlake Elementary Community Charter actually spent $789,879.00 for actions to increase or improve services for high needs students in 2025-26. The difference between the budgeted and actual expenditures of $269,290.00 had the following impact on Woodlake Elementary Community Charter's ability to increase or improve services for high needs students:

Note that the planned and actual expenditures for actions and services to increase or improve services reported here ONLY reflect the Affiliated Charter School's discretionary LCFF Supplemental and Concentration funds and expenditures (as shown in the Action Tables). The difference between Total Budgeted Expenditures and Actual Expenditures in the above chart is mainly due to staffing shortages and reliance on one-time funds. Despite these challenges, the Affiliated Charter School in partnership with Los Angeles Unified, prioritized and used available staff to support our target student populations of English Learners, students from low-income families, and students in foster care. However, staffing gaps limited student access to some planned academic and social-emotional services. For details, see the Goal Analysis sections of the 2025-26 LCAP.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-2027]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Woodlake Elementary Community Charter is nestled in an urban residential neighborhood in Woodland Hills in the West San Fernando Valley, and lies on a spacious campus near the western border of Los Angeles Unified boundaries. It serves a diverse group of approximately 540 students with the goal of Educating the Whole Child. The school serves students in grades from Transitional Kindergarten to 5th grade. Our families come from around the world and share a vast amount of cultures and languages with the school.

Our Mission Statement:

The faculty, staff, parents and volunteers of Woodlake Elementary Community Charter are dedicated to the ongoing pursuit of academic and artistic excellence, personal achievement, and social success for all of our students. We will continue to cultivate an atmosphere of well-being and acceptance in a safe and nurturing multicultural environment. We are committed to the partnership of home, school, and community and believe this partnership is essential to helping our students work to their greatest potential. Woodlake's mission is to provide our students with the necessary tools – based on educational research, character development, and advanced technology – to become lifelong learners and productive citizens of the 21st century. Additionally, we will continue to develop and advance best practices for engaging students and parents, training teachers, and promoting educational excellence, collaboration, and innovation.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

As an overview of the 2023 CA Dashboard, our school had 0 areas where All Students are in the lowest performance level rating (i.e., Red or Very Low). Below indicates the student group performance on the 2023 and 2024 CA Dashboard indicators in the lowest rating:

CA Dashboard Indicator	Lowest Performance Rating by Student Group based on 2023 CA Dashboard	Lowest Performance Rating by Student Group based on 2024 CA Dashboard	Lowest Performance Rating by Student Group based on 2025 CA Dashboard
Chronic Absenteeism	N/A	N/A	English learners, Hispanic, Socioeconomically Disadvantaged, White
Suspension Rate	N/A	N/A	N/A
Graduation Rate	-	-	-
College/Career	-	-	-
English Language Arts	N/A	N/A	N/A
Mathematics	N/A	N/A	N/A
English Learner Progress Indicator (ELPI)	N/A	N/A	N/A

Woodlake Charter increased progress in Math and English Learner Progress under the 2025 CA Dashboard. The Dashboard also showed that the school maintained progress in English Language Arts and suspension rates.

Chronic absenteeism, increased by 4.8%, leading English Learners (48.1% chronically absent, and increase of 17.2% from the previous year), Hispanic students (30.2% chronically absent, an increase of 7% from the previous year), Socioeconomically Disadvantaged students (33.9% chronically absent, an increase of 5% from the previous year) and White students (29.2% chronically absent, increased 7.3% from the previous year) students groups being identified.

Strategies to address Chronic Absenteeism

- Monthly workshops for EL families explaining attendance importance and resources with interpreters to ensure understanding and buy-in.
- Messaging that highlights cultural values around education using support staff to encourage daily attendance.
- iAttendance teams regularly review data to identify students requiring extra support and creating tailored support plans.
- Attendance recognitions (positive messages home, small class celebrations for improved attendance).

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

[Respond here]

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

[Identify the eligible schools here]

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

[Describe support for schools here]

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

[Describe monitoring and evaluation here]

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Students	Woodlake fostered student engagement through a variety of enriching programs and initiatives. The student council served as a platform for students to voice their ideas and concerns. Representatives from each grade level presented issues to their peers, gathered feedback, and shared suggestions with the council. Selected students also met with the administration throughout the year to discuss matters important to them. The school hosted weekly behavior reward assemblies to celebrate positive actions and achievements. Students benefited from enrichment classes, including Psychomotor activities provided by Got Game Sports. Additionally, the school offered after-school interventions for all grade levels using ELOP funds to support all learners. VEX and E-SPORTS were also offered weekly as part of the school's STEAM initiative, exposing students to state-of-the-art technology and district activities that prepared them for pathways in secondary education. A dedicated PSW counselor supported family wellness through informative presentations. As part of the cultural passport initiative, students experienced visits from authors, performers, and speakers, along with field trips to plays, musicals, and museums. To nurture creativity and self-expression, the school provided music classes, art classes, dance classes, drama, instrumental music instruction, and opportunities to enjoy music and dance performances. Woodlake remained committed to creating a dynamic learning environment that inspired academic growth and cultural enrichment.
Parents	Woodlake continued to engage with parents through Coffee with the Principal, Local School Leadership, Governance Council, School Site Council, committee meetings, PTSA Board, and PTSA General Meetings. The school hosted a block party before the school year began to introduce teachers and

	provide families with information about school-based programs. A TK/K playdate was held on campus, along with a pancake breakfast during the first month of school. The school hosted three movie nights each year, a Monster Bash (fall/Halloween event), a Fun Run, a Family Glow Dance, and a Night of the Arts. In addition, the school hosted a STEAM Night and a Literacy Night. PTA-sponsored Restaurant Nights were held weekly. Back to School Night and Open House were also held to further engage families.
Staff (Certificated and Classified)	Feedback from staff showed that the school should continue prioritizing having aides in classrooms to support small-group instruction and enrichment classes that kept students engaged. These enrichment opportunities also gave teachers valuable planning time to focus on meeting individual student needs. The school made it a point to keep everyone informed about ILT meetings, professional development sessions, and other learning opportunities so that staff felt supported and prepared to meet the needs of all students. Just as importantly, staff input was actively sought, and their voices helped shape decisions and guided the direction of the school.
Community	Community members were given opportunities to engage and share their thoughts and opinions throughout the year at meetings such as Coffee with the Principal, LSLC, SSC, Governance Council, committee meetings, PTSA Board meetings, and PTSA General meetings.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Feedback from educational partners including students, families, and staff was instrumental in shaping the specific goals and actions of the LCAP, ensuring that resources are prioritized to address the most pressing needs Woodlake has such as academic interventions and social emotional supports.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	**Academic Excellence**	Broad Goal

State Priorities addressed by this goal.

State Priority 2: State Standards (Conditions of Learning)
State Priority 4: Pupil Achievement (Pupil Outcomes)
State Priority 7: Course Access (Conditions of Learning)
State Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Woodlake Elementary Community Charter, will provide a personalized educational experience to support student needs and aspirations. Early success builds the foundation for continued proficiency and ultimate achievement in life. Students with disabilities are inspired to reach their maximum potential as productive and responsible citizens. High-quality instruction is aligned with the needs of students, with clear performance expectations. Student choice and access to visual and performing arts is part of a well-rounded education.

Goal Analysis for [2025-2026]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 1: Base Instructional Supports, including General Fund School Program

Goal 1 Action 1 was implemented to address the needs of all students. Base Instructional Supports, including the General Fund School Program action, focused on a schoolwide instructional model that emphasized small-group instruction, targeted pull-out supports, and ongoing progress monitoring using i-Ready and classroom-based assessments. Teachers integrated arts-based strategies into core ELA and math instruction to increase student engagement and access to rigorous content. Instructional decisions were guided by assessment data to identify students in need of additional support or enrichment. These coordinated practices ensured that instruction was differentiated and aligned to grade-level standards for all learners.

Action 2: Special Education Supports

Goal 1 Action 2 was implemented to address the needs of students. The Special Education Supports action was implemented through inclusive service delivery models that combined push-in and pull-out instructional supports aligned to student IEPs. Special Education teachers collaborated with general education staff to provide access to grade-level curriculum while addressing individualized learning goals. i-Ready data and literacy assessments were used to monitor progress and adjust interventions throughout the year. This approach ensured consistent instructional support and targeted intervention for students with disabilities.

Action 3: Charter School Categorical Block Grant

Goal 1 Action 3 implemented by allocating block grant funds to support an Assistant Principal, day to day substitutes, the class size reduction teacher, and part of our community representative. The Assistant Principal led schoolwide academic monitoring, facilitated data reviews, and aligned instructional priorities across grade levels. The day to day substitute supported our Newcomers. English Learners received focused language development support aligned to ELPAC and classroom performance data. Our parent representative supported our parents with items such as the Parent Portal and is in charge of our volunteer program.

Action 4: Class Size Reduction

Goal 1 Action 4 implemented to address the needs of English Learners, students in foster care, and low income students at Woodlake Charter. This action was implemented by adding an additional teacher in grades 4 and 5 to reduce overall class sizes. Smaller class sizes allowed teachers to increase individual student attention and implement targeted instructional strategies. Teachers used additional instructional time to provide small-group instruction and monitor student progress more closely. This staffing adjustment supported differentiated instruction in both ELA and math.

Action 5: Supplemental Arts Education

Goal 1 Action 5 was implemented to support English Learners, low-income students, and foster youth through arts integration that ensured all students participated in music, dance, theater, and visual arts. Arts instruction was intentionally embedded into ELA and math lessons to

reinforce academic skills and conceptual understanding. Teachers collaborated to align arts-integrated lessons with grade-level standards and instructional goals. These practices expanded access to arts education while supporting engagement and academic learning across content areas.

Action 6: Supplemental Afterschool Programs

Goal 1 Action 6 was implemented through structured afterschool tutoring and enrichment programs designed to extend learning beyond the instructional day. Students were identified for participation using BOY assessment data, with targeted ELA and math instruction provided by credentialed teachers. Afterschool programming emphasized standards-based skill development, small-group instruction, and consistent progress monitoring. Enrichment activities were also incorporated to build student engagement, confidence, and motivation to attend regularly.

Action 7: Charter Supplemental/Concentration Funds in Lieu of EIA

Goal 1 Action 7 was implemented by allocating supplemental and concentration funds to support staffing and targeted instruction for identified student subgroups. English Learners received focused language development support aligned to ELPAC and classroom performance data. Early literacy interventions were implemented in grades K–3 using i-Ready data to guide instruction and monitor progress. These resources ensured that instructional supports were targeted, equitable, and aligned to student needs.

Action 8: SENI Investments towards Academic Excellence

Goal 1 Action 8 was implemented through SENI-funded leadership and instructional support positions, including an Instructional Coach and day-to-day substitutes. The Instructional Coach provided job-embedded professional development through modeling, co-teaching, and collaborative planning with teachers. Together, these structures ensured consistent implementation of high-quality instruction and targeted support for student learning.

The instructional coach also supported students through small-group ELA and math intervention and worked with teachers on effective small-group instruction strategies in the classroom.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 1: Base Instructional Supports, including General Fund School Program

According to the SBA (Smarter Balanced Assessment) results, 56% of all students met or exceeded the standard in English Language Arts (ELA), while 60% met or exceeded the standard in mathematics, with gifted students performing at 100% met/exceeded in ELA and 95% in math. iReady and classroom-based assessments confirmed that the majority of students were meeting or exceeding grade-level benchmarks.

Effectiveness: These supports were effective because small-group instruction, targeted pull-outs, and integration of arts into the curriculum provided engaging, rigorous opportunities for all learners. Teachers reported that students were demonstrating growth not only on standardized tests but also in formative assessments, with progress evident across grade levels.

Action 2: Special Education Supports

Early literacy data indicated steady improvement among students receiving targeted interventions, as evidenced by increased progress on iReady benchmarks. At the beginning of the year (BOY), 91% of students in the SPED population were performing below standard. By the middle of the year (MOY), that percentage decreased by 13 points to 78%, while the proportion of students performing at or above standard increased from 8% to 22%.

Effectiveness: These supports were effective, and teachers ensured inclusive practices. Pull-out and push-in models gave students access to grade-level content while addressing individualized goals.

Action 3: Charter School Categorical Block Grant

The block grant funded an Instructional Coach and instructional aides who provided targeted, differentiated small-group instruction, coaching, professional development, and data analysis support. As a result, significant growth was observed in the targeted grade levels. In 2nd grade, 73.81% of students scored below standard on the iReady ELA assessment at the beginning of the year (BOY), decreasing to 41.17% by the end of the year (EOY), while those meeting or exceeding standards increased from 26.19% to 58.82%. Similarly, in 3rd grade,

the percentage of students scoring below standard declined from 59.3% to 32.19%, and the percentage meeting or exceeding standards rose from 40.7% to 67.81%.

Effectiveness: The Charter School Block Grant directly strengthened daily instructional programs by providing additional adult support in classrooms. This support enhanced academic engagement and contributed to improved student outcomes through targeted instruction and consistent instructional support.

Action 4: Class Size Reduction

With the addition of a teacher in grades 4 and 5, class sizes were reduced, supporting stronger student-teacher interaction. With the addition of a teacher in grades 4 and 5, class sizes were reduced, supporting stronger student-teacher interaction. iReady Math indicators i 4th grade showed that students scoring at or above benchmark significantly rose from BOY (23.08%) to EOY (63.74%), and in 5th grade from 31.25% to 58.54%, respectively. Similarly, iReady ELA indicators in 4th grade showed that students scoring at or above benchmark rose from BOY (38.46%) to EOY (54.94%), and in 5th grade from 35% to 48.78%, respectively.

Effectiveness: Class size reduction was effective because it allowed teachers to differentiate instruction more consistently, provide targeted feedback, and dedicate more time to small-group work.

Action 5: Supplemental Arts Education

Arts integration remained schoolwide, reaching 100% of students. Academic results also confirmed that students continued to excel in both ELA and math. iReady reports showed school-wide growth in ELA from 28% of students at or above standards at BOY to 50% by the MOY. Similarly, in math, growth from the BOY to the MOY went from 18% to 38% in students scoring at or above the standard.

Effectiveness: This action was highly effective. The integration of music, dance, theater, and visual arts not only enhanced engagement but also reinforced core academic skills. Families and students expressed strong enthusiasm for arts showcases, and participation correlated with high motivation and consistent attendance.

Action 6: Supplemental Afterschool Programs

Students who participated in after-school tutoring and enrichment demonstrated improved outcomes in both ELA and math. The data for students experiencing poverty who participated in our after-school programs shows significant growth. In ELA, the percentage of these students scoring at or above standard increased from 23% at the BOY to 53% by the EOY. Similarly, in Math, the percentage rose from 10% to 46% during the same period, demonstrating the positive impact of targeted intervention.

Effectiveness: Afterschool programs were effective because they provided targeted academic support beyond the school day, giving students additional time to master standards while also engaging them in enrichment activities that build confidence and curiosity.

Action 7: Charter Supplemental/Concentration Funds in Lieu of EIA

SBA results reflected strong achievement across grade levels, with English Learners making notable progress (79.3% met growth or maintained proficiency vs. 45.7% statewide). K–2 early literacy data showed improvement in foundational reading skills. In 2nd grade, 73.81% of students scored below standard on the iReady ELA assessment at the beginning of the year (BOY), decreasing to 41.17% by the end of the year (EOY), while those meeting or exceeding standards increased from 26.19% to 58.82%. Similarly, in 3rd grade, the percentage of students scoring below standard declined from 59.3% to 32.19%, and the percentage meeting or exceeding standards rose from 40.7% to 67.81%.

Effectiveness: These funds were effective because they directly supported staffing and arts programming that benefitted targeted subgroups. English Learners in particular showed significant gains, confirming that concentrated supports were reaching the intended population.

Action 8: SENI Investments towards Academic Excellence

School-wide literacy results demonstrated that students receiving both in-school intervention and after-school intervention were progressing toward grade-level expectations. SBAC data confirmed sustained growth in both ELA and Math among upper-grade students, particularly in 4th grade, growing from 58% at or above to 65%.

Effectiveness: SENI investments were highly effective in supporting the overall academic program through the leadership of an Assistant Principal and an Instructional Coach. The Assistant Principal played a key role in monitoring academic progress, guiding instructional priorities, and ensuring schoolwide alignment with learning goals. Regular data reviews, classroom visits, and teacher collaboration meetings helped identify strengths and address areas for growth. The Instructional Coach provided personalized, hands-on support through modeling, co-teaching, and professional learning sessions that empowered teachers to refine instruction and better meet student needs. Together, these roles fostered a culture of collaboration, accountability, and continuous improvement that led to stronger instruction and positive student outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Woodlake Elementary Community Charter will offer Supplemental Afterschool Programs in 2026-2027 through Expanded Learning Opportunity Program (ELOP) funds that are not part of LCFF funds, and therefore, are not reflected in Woodlake Elementary Community Charter's LCAP.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Base Instructional Supports, General Fund School Program	Woodlake Elementary Community Charter will provide quality first instruction to all students to reach Academic Excellence.	District Cost: $3,514,202 **School Discretionary Fund Cost: $409,444**	N
2	Special Education Supports	Los Angeles Unified School District will continue to provide centralized funding to support Special Education programs at Affiliated Charter Schools like Woodlake Elementary Community Charter to provide quality first instruction to all students to reach Academic Excellence.	District Cost: $2,584,183	N
3	Charter School Categorical Block Grant	Woodlake Charter has earmarked these funds for a class size reduction teacher.	**School Discretionary Fund Cost: $236,178**	N
4	Class Size Reduction	Los Angeles Unified will continue to support smaller class sizes and supports for English Learners, students in foster care, and low income students at Woodlake Elementary Community Charter.	District Cost: $509,905	Y
5	Supplemental Arts Education	Woodlake Elementary Community Charter will implement Supplemental Arts Education to support Academic Excellence for English Learners, students in foster care, and low income students at our school.	District Cost: $60,012	Y
	Supplemental Afterschool Programs	Woodlake Elementary Community Charter will offer Supplemental Afterschool Programs in 2026-2027 through Expanded Learning Opportunity Program (ELOP) funds that are not part of LCFF funds, and therefore, are not reflected in Woodlake Elementary Community Charter's LCAP.		
6	Charter Supplemental/Concentration Funds in Lieu of EIA	Woodlake Elementary Community Charter will utilize these funds to support instructional positions that strengthen and sustain our academic program, as well as a community position that will build and expand our Woodlake Family.	**School Discretionary Fund Cost: $45,795**	Y

7	SENI Investments towards Academic Excellence	Woodlake Elementary Community Charter will continue to fund a full time Assistant Principal to support implementation of the instructional program, support student development and enhance teacher capacity.	**School Discretionary Fund Cost: $297,862**	Y

Goal

Goal #	Description	Type of Goal
2	**Joy and Wellness**	Broad Goal

State Priorities addressed by this goal.

State Priority 5: Pupil Engagement (Engagement)
State Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Leverage a Multi-Tiered Systems of Support (MTSS) framework that improves social-emotional well-being, by strategically reducing and eliminating barriers to student learning and providing a comprehensive array of services. Assess barriers and provide case-management services to support students and address root causes. Implement evidence-based practices, outreach/awareness, and crisis support.

Goal Analysis for [2025-2026]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 1: Base-Funded Health Supports

Woodlake Elementary Community Charter implemented base-funded health supports by providing students with consistent access to health services, including a full-time school nurse and wellness resources. These supports ensured that student health needs were addressed promptly, helping remove barriers that could interfere with daily attendance. Health services and wellness supports contributed to maintaining a safe and supportive school environment that allowed students to remain present and engaged in learning throughout the school year. During the 2025–26 school year, 48% of Woodlake students achieved excellent attendance (96% or higher), while 25% were chronically absent, reflecting continued engagement in school.

Woodlake continued to face challenges with attendance, particularly in the lower grades, where parents often kept children home longer when they were sick. Attendance incentives and the consistent presence of a school nurse contributed positively to overall attendance rates.

Action 2: Base-Funded School Climate Support Staff

Woodlake Elementary implemented base-funded school climate supports through the work of school climate staff, including a Psychiatric Social Worker (PSW), as well as through the implementation of PBIS lessons and schoolwide assemblies focused on safety and community building. These supports promoted a positive and orderly learning environment and reinforced expectations for respectful and responsible behavior. The school provided regular opportunities for students to build connections with peers and staff, helping to strengthen students' sense of belonging and safety. According to the most recent School Experience Survey, 86% of students reported feeling safe at school and 77% reported feeling like they were part of the school community.

The school adopted a new PBIS program that year called Character Strong. This program helped strengthen students' ability to work through and solve problems as they arose.

Action 3: Supplemental School Climate Support Staff

Woodlake Elementary implemented supplemental school climate supports to provide additional assistance for targeted student groups, including English Learners, foster youth, and low-income students. Supplemental staff worked with students to support their social-emotional needs, strengthen connections to school, and ensure equitable access to school climate supports. These efforts helped reinforce an inclusive and welcoming school environment for all students. Survey results indicated that 86% of students reported feeling safe at school and 77% reported that they were part of the school community. Woodlake was awarded the Gold Certificate for progress on the ELPI.

Woodlake Elementary also implemented Joy and Wellness initiatives designed to support students' social-emotional well-being and strengthen school climate. These initiatives included activities and supports that promoted student connection, belonging, and positive engagement in the school community. Through these efforts, the school continued to emphasize a culture of care, safety, and wellness for all students.

To continue building school climate, Woodlake held Spirit Day every Friday. The class with the most spirit earned the Woody Wildcat Spirit Trophy for the week.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 1: Base-Funded Health Supports

The majority of students at Woodlake Elementary Community Charter maintained excellent attendance. In 2025–26, 48% of Woodlake students achieved excellent attendance (96% or higher), while only 25% were chronically absent, indicating sustained engagement and effective schoolwide attendance practices.

Effectiveness: This action was highly effective because consistent health support services, including a full-time nurse and access to wellness resources, reduced barriers to daily attendance. By ensuring that students' health needs were addressed promptly and equitably, the school fostered a safe environment that allowed students to remain engaged in learning and present at school consistently.

Action 2: Base-Funded School Climate Support Staff

According to the most recent School Experience Survey, 86% of students reported feeling safe at school, and 77% reported feeling like they were a part of the school community.

Effectiveness: This action was effective because school climate supports, including a PSW, regular PBIS lessons, and safety-focused and community building assemblies, directly contributed to students' sense of security and belonging. These supports created a positive and orderly learning environment where students felt welcomed, valued, and safe.

Action 3: Supplemental School Climate Support Staff

The School Experience Survey data confirmed that 86% of students reported feeling safe, and 77% reported feeling that they were part of the school.

Effectiveness: This action was effective for targeted student groups, including English Learners, foster youth, and low-income students. Supplemental staffing ensured that these students had additional support and felt connected to the school community. The high survey results reflected the success of these supplemental supports in fostering equity, inclusion, and a safe climate for all.

The Joy and Wellness initiatives were effective in supporting students' social-emotional growth, increasing positive school climate indicators, and maintaining strong attendance patterns. These efforts contributed directly to students feeling safe, cared for, and connected to their school community.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Woodlake Charter allocated funds for SENI Investments towards Joy and Wellness in 2026-27 to support English Learners, students in foster care, and low income students at our school.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Base-Funded Health Supports	In order to ensure health access and equity for all students, Woodlake Elementary will continue to receive additional nursing support.	District Cost: $176,882	N
2	Base-Funded School Climate Support Staff	Woodlake Elementary Community Charter will provide base-funded school climate support staffing to ensure all students feel safe and welcome at school.	District Cost: $23,814	N
3	Supplemental School Climate Support Staff	To provide additional supports so that our English Learners, students in foster care, and low-income students feel safe and welcome on campus, Woodlake Elementary Community Charter will also provide supplemental school climate support staffing.	District Cost: $7,940	Y
4	SENI Investments towards Joy and Wellness	Woodlake Charter will cultivate a joyful and supportive school environment that prioritizes student mental health and overall well-being, strengthens consistent attendance, and deepens community engagement by building meaningful relationships with families	**School Discretionary Fund Cost: $17,263**	Y

Goal

Goal #	Description	Type of Goal
3	**Engagement and Collaboration**	Broad Goal

State Priorities addressed by this goal.

State Priority 3: Parental Involvement (Engagement)
State Priority 5: Pupil Engagement (Engagement)
State Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

A community representative will be budgeted to help establish committees made up of school personnel and families. To help organize courses, workshops and school-wide events and to help organize and process volunteers to work around campus and in the classrooms.

Measuring and Reporting Results

Goal Analysis for [2025-2026]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 1: SENI Investments towards Engagement and Collaboration

Woodlake intentionally created opportunities to build strong partnerships with families throughout the year. The school began the year with a Back-to-School Block Party, where families met teachers and received important school information, and TK and Kindergarten students were welcomed with a special on-campus playdate.

The school hosted a Saturday Pancake Breakfast to bring the community together. Families also participated in a Dance Night, the fall Monster Bash celebration, and an engaging STEAM Night. The PTA sponsored monthly Restaurant Nights to further strengthen connection and support for the school.

The school also hosted Back to School Night, Open House, and monthly “Coffee with the Principal” meetings, along with additional topic-based sessions. Parents played an active leadership role through participation in the Local School Leadership Council, School Site Council (SSC), and the Governance Council.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 1: SENI Investments towards Engagement and Collaboration

Parent participation in our morning “Coffee with the Principal” meetings has grown, particularly when the topics reflect areas of interest to families. The number of cleared volunteers continues to increase each year, along with the total hours dedicated to volunteering. We also saw strong attendance at our beginning-of-the-year social events, reflecting continued engagement from our school community.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

While Woodlake Charter did not invest LCFF-SENI funds towards Engagement and Collaboration in 2026-27, please refer to the LAUSD LCAP for more information on district-wide supports for Engagement and Collaboration.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal

Goal #	Description	Type of Goal
4	**Operational Effectiveness and Investing in Staff**	Broad Goal

State Priorities addressed by this goal.

State Priority 1: Basic (Conditions of Learning)
State Priority 2: State Standards (Conditions of Learning)
State Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

To support the efforts described in the previous Goals, Los Angeles Unified and its Affiliated Charter Schools, like Woodlake Elementary Community Charter, will continue to maintain safe and clean facilities, ensure teachers are appropriately credentialed, provide students with standards-based instructional materials, and comply with all other operational mandates.

Measuring and Reporting Results

Goal Analysis for [2025-2026]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 1: LAUSD Support for Affiliated Charter Operations

Woodlake ECC maintained high operational standards during the first half of the school year. The plant manager oversaw the upkeep of facilities, which were consistently described by parents and staff as safe, clean, and welcoming. The school continued its participation in the green space initiative, enhancing outdoor learning environments and supporting programs such as EnrichLA gardening.

Instructional resources and staffing were fully aligned with compliance requirements. All teachers were appropriately credentialed, and all students had access to standards-based instructional materials in accordance with Williams Act requirements. Centralized operational supports provided by LAUSD were effectively utilized to ensure day-to-day operations ran smoothly.A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The FIT Tool (SARC) confirmed that the campus was in “Good Repair.” 100% of teachers were appropriately credentialed for their teaching assignments, and all students were provided with standards-based instructional materials. Parents and community members frequently expressed appreciation for the condition of the campus and the quality of instructional supports, confirming that operational investments contributed directly to a positive learning environment.

Operational Effectiveness remained a strength of Woodlake ECC. Facilities, staffing, and instructional resources consistently supported both teaching and learning, reinforcing the school’s overall academic and cultural goals.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 1: LAUSD Support for Affiliated Charter Operations

The most recent School Accountability Report Card (SARC) showed that Woodlake ECC’s facilities received a “Good Repair” rating. Additionally, 100% of teachers at Woodland Hills Elementary Charter were appropriately credentialed for their teaching assignments. Finally, all students at Woodlake ECC had access to standards-based instructional materials, meeting Williams Act requirements.

Effectiveness: This action was effective because the plant manager consistently maintained the school in excellent condition, ensuring classrooms and common areas were clean, safe, and conducive to learning. Parents and staff frequently noted the high quality of the facilities, which contributed to a positive and welcoming school environment. Additionally, fully credentialed teachers provided

instruction aligned with state standards. Teacher expertise and professional development ensured that students received rigorous, standards-based instruction supported by best practices. Finally, all students at Woodlake ECC had access to standards-based instructional materials, meeting Williams Act requirements.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No significantly planned changes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
Goal 1 Action 4	Action: Class Size Reduction and School Level Supports for Personalized Learning Interventions Need: Los Angeles Unified will continue to support smaller class sizes and support for English Learners, students in foster care, and low income students at Woodlake Charter. Scope: School-wide	Los Angeles Unified School District, including Woodlake Charter, continues to serve almost 400,000 students, each with individual strengths and learning needs. In order to deliver increased individualized support for our students, especially our low-income students, students in foster care, and English Learners, the District will reduce class sizes and provide additional site-level staffing above and beyond the base-funded instructional staffing. Throughout the educational partner engagement process, one of the highest priorities consistently identified was the need to reduce class sizes in order to provide teachers with greater opportunities to engage individually with students and effectively address their diverse academic and social-emotional needs.	● Smarter Balanced Distance from Standard (DFS) Met in English Language Arts - Grades 3-5 ● Smarter Balanced Distance from Standard (DFS) Met in Math - Grades 3-5 ● Percent of Students Meeting Early Literacy Benchmarks in Kindergarten ● Percent of Students Meeting Early Literacy Benchmarks
Goal 1 Action 5	Action: Supplemental Arts Education Need: Districtwide needs assessment including school site level surveys indicated English Learners, students from low income families, and students in foster care have less access to enriched arts education programs beyond the minimum state requirements. Evidence of need from the LAUSD Open Data Dashboard for Chronic Absenteeism.	Woodlake Elementary Community Charter will receive a funding allocation to purchase supplemental arts supplies and equipment and to support arts community partnerships. In addition, the school will continue to be assigned highly qualified certificated arts itinerant teachers to teach students at least one art discipline (music, dance, theater, and visual arts). The arts teachers provide students with arts instruction that goes beyond the minimum state requirements.	● Smarter Balanced Assessment: ELA- Grades 3-5 ● Smarter Balanced Assessment: Math- Grades 3-5 ● Student

	In addition, student engagement with the arts supports increased student attendance and reduces chronic absenteeism as well as increased academic achievement as evidenced by recent research data from Rice University on the causal effects of arts Education. Within educational partner feedback, a stated desire is for high-needs students (English Learners, students from low income families, and students in foster care) to receive equitable arts instruction and additional enrichment opportunities. Scope: School-wide	Low-income students, students in foster care, and English Learners will experience greater benefits to their academic proficiency as measured by state assessments due to their previous lack of access. The effort will continue to bring parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs. In addition, we recognize that all students will benefit from this program. In addition, we recognize that all students will benefit from this program, and therefore these supports are provided Districtwide.	Attendance:Percent of All Students with Excellent Attendance (96% or higher) ● Chronic Absenteeism Rate (District Calculation: 91% or higher) K-5 ● Implementation of Academic Standards
Goal 1 Action 6	Action: Charter Supplemental/Concentration Funds in Lieu of EIA Need: Woodlake Charter will continue to support English Learners, low-income students and students in foster care. Scope: School-wide	The IA, Inst. Coach, Sub time, and instructional materials funded through this allocation directly support our most vulnerable students by promoting academic equity, strengthening parent engagement, and ensuring a safe and supportive campus environment.	● Smarter Balanced Assessment: ELA- Grades 3-5 ● Smarter Balanced Assessment: Math- Grades 3-5 ● Met/Exceed Standard on CST- Grades 5
Goal 1 Action 7	Action: SENI Investments towards Academic Excellence Need: English Learners, students from low income families, and students in foster care scored lower than the all student group in state summative assessments such as the Smarter Balanced Assessment. Educational partner feedback ranked the need for increased student achievement as the number one priority for all students, particularly the high-need student groups of English Learners, students from low income families, and students in foster care.	The assistant principal will support with a comprehensive system to observe classroom instruction and provide reflection and feedback to improve practice. They will implement high-quality, differentiated, and ongoing professional development and coaching grounded in data to support effective teaching, learning, and leadership. They will provide targeted professional learning opportunities and coaching for newly hired teachers that result in effective, equity-driven instruction. They will expand equitable grading practices, proficiency-based assessments, and	● Percent of Students Meeting Early Literacy Benchmarks in Kindergarten ● Percent of Students Meeting Early Literacy Benchmarks in Grade 1 ● Percent of Students Meeting Early Literacy Benchmarks in Grade 2 ● Smarter Balanced

	Woodlake Charter will continue to support English Learners, low-income students and students in foster care. Scope: School-wide	personalized instruction to support all students in demonstrating grade-level proficiency of standards-based learning targets. Analyze and act upon assessment data to guide instructional planning and personalized learning so all students reach proficiency. Targeted instruction in small groups will benefit all students, but primarily English Learners, Low-Income students, and Foster Youth by addressing their exact instructional needs. Our teachers will focus on the continued development and implementation of the ELLP, along with Designated ELD small group instruction, and will help improve these students' skills. The teachers will be supported with the design and instruction of small groups within their classrooms. The aides will receive support from the intervention coach so that they can support side by side with the teachers during their small group instruction time.	Distance from Standard (DFS) Met in English Language Arts Grades 3-5 ● Smarter Balanced Distance from Standard (DFS) Met in Math - Grades 3-5
Goal 2 Action 3	Action: Supplemental School Climate Support Staff Need: To provide additional support so that our English Learners, students in foster care, and low-income students feel safe and welcome on campus, Woodlake Charter will also provide supplemental school climate support staffing. Scope: School-wide	In order to address these needs, and to expand the supports provided by the base-funded School Climate Support staffing, Los Angeles Unified will provide supplemental funding for Affiliated Charter Schools such as Woodlake Charter for additional staffing to address the school climate needs of English Learners, students in foster care, and Students designated as low-income. The School Climate Advocates are on school campuses assisting positive school culture by supporting students using conflict-resolution techniques including the use of group or individual mediation, guiding students in the use of safety protocols, as well as working with counselors and other staff to implement	

		multi-tiered systems of support, which may include parent and family participation. In addition, we recognize that this additional staffing for school climate would also benefit All students, and therefore these supports are implemented Districtwide.	
Goal 2 Action 4	Action: SENI Investments to Increase Access to Programs and Supports for Joy and Wellness **Need:** Support attendance rates and improve school climate outcomes for English Learners, students from low income families, and students in foster care. Educational partners identified increasing overall well-being as a priority for all students, with a strong focus on supporting English Learners, students from low-income families, and students in foster care to ensure that students are in environments where they feel secure, valued and are enthusiastic about learning. Scope: School-wide	The Psychiatric Social Worker will implement evidence-based mental health and social-emotional interventions, including trauma-informed practices and MTSS-aligned supports to reduce barriers to learning and improve student achievement. Using attendance, behavior, and academic data, the Psychiatric Social Worker will provide some counseling and collaborate with staff to monitor progress and adjust supports. This strategy strengthens student engagement, self-regulation, and instructional access, resulting in improved academic outcomes. Funding a Psychiatric Social Worker is an effective use of resources to meet the needs of English Learners, Low-Income students, and Foster Youth by addressing social-emotional and mental health barriers that directly impact academic achievement. Research shows that school-based, evidence-based mental health interventions such as trauma-informed practices, and MTSS-aligned supports improve student engagement, behavior, attendance, and academic outcomes, particularly for students facing economic hardship, trauma, or language-related stressors. By providing culturally responsive and Tier 1 strategic lessons within the school setting, this reduces barriers to learning, increases instructional access, and supports improved achievement and well-being	● Percent of All Students with Excellent Attendance (96% or Higher) ● State Chronic Absenteeism Rate (90% or Lower) - Grades K-8 ● Single Student Suspension Rate ● Percent of Students Who Feel Safe at School (per School Experience Survey) ● Percent of Students Who Feel They are a Part of their School (per School Experience Survey)

		for identified student subgroups, aligning directly with the school's SPSA goals.	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Woodlake Charter is not eligible for these funds.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	16.51 LCFF-funded full-time equivalent classified staff (filled and vacant positions) serving 538 students (As of May 01, 2026) **Note that these figures are also included in the LAUSD LCAP.*	*Not applicable*
Staff-to-student ratio of certificated staff providing direct services to students	33.56 LCFF-funded full-time equivalent certificated staff (filled and vacant positions) serving 538 students (As of May 01, 2026) **Note that these figures are also included in the LAUSD LCAP.*	*Not applicable*

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).
    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.
- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - *o* Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - *o* As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - o For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - o As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - o These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

- These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).
  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
    - Identify the action as an LREBG action;
    - Include an explanation of how research supports the selected action;
    - Identify the metric(s) being used to monitor the impact of the action; and
    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader

understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

- Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
    - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
    - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
    - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

      The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
    - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
