

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: San Bernardino County Superintendent of Schools

CDS Code: 36103630000000

School Year: 2024-25

LEA contact information:

Myrlene Pierre

Assistant Superintendent - Student Services

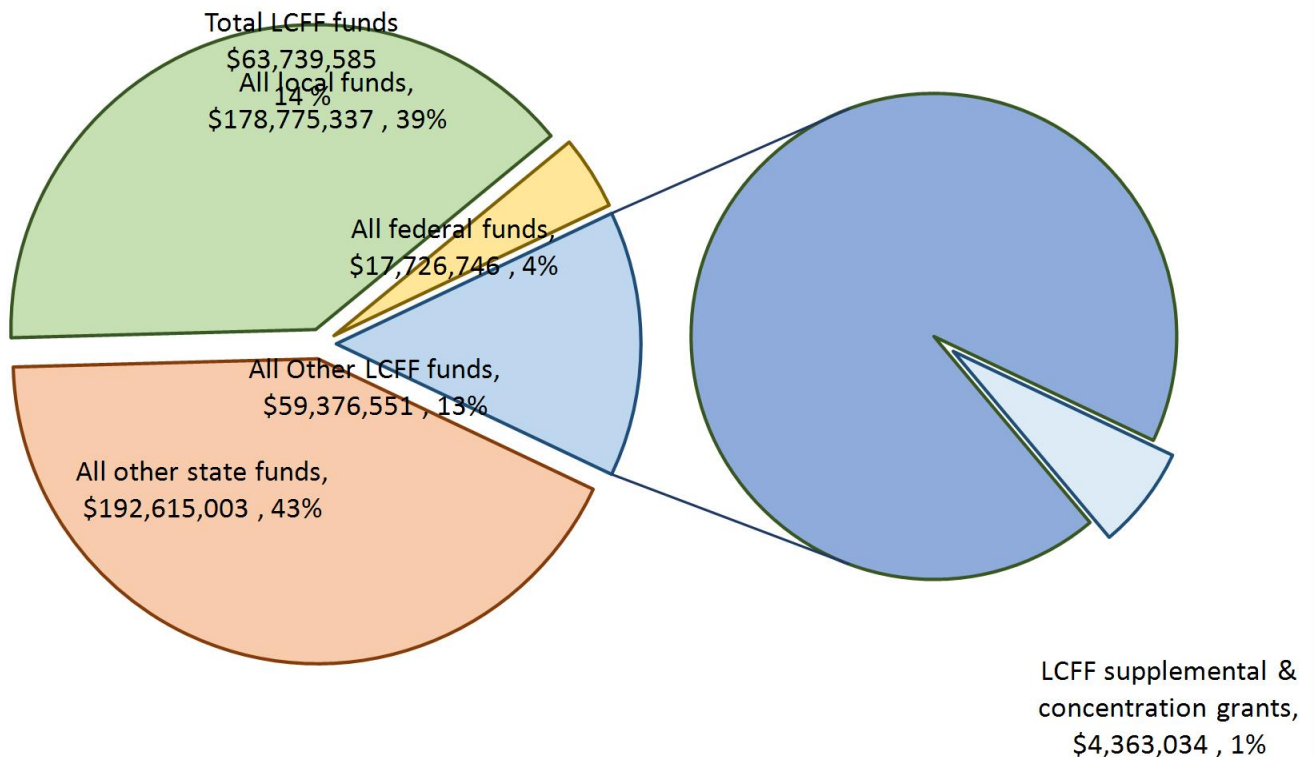

myrlene.pierre@sbcss.net

909-387-8511

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2024-25 School Year

#### Projected Revenue by Fund Source

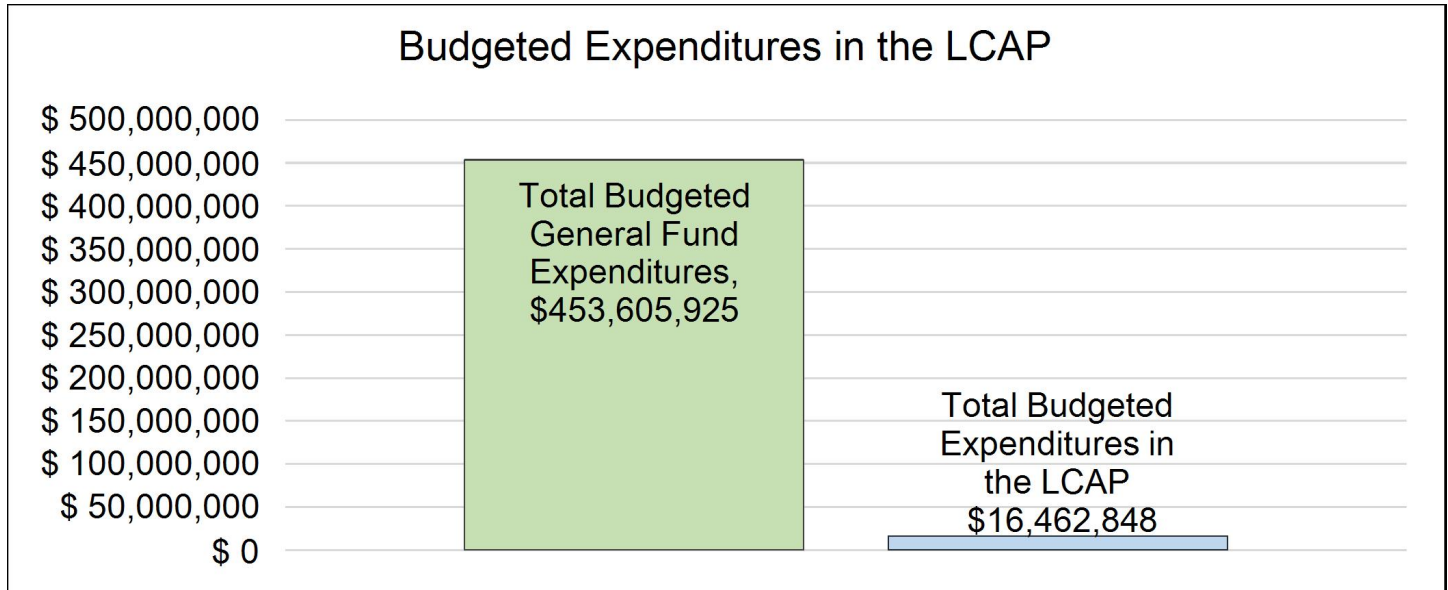

This chart shows the total general purpose revenue San Bernardino County Superintendent of Schools expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for San Bernardino County Superintendent of Schools is \$452,856,671, of which \$63,739,585.00 is Local Control Funding Formula (LCFF), \$192,615,003.00 is other state funds, \$178,775,337.00 is local funds, and \$17,726,746.00 is federal funds. Of the \$63,739,585.00 in LCFF Funds, \$4,363,034.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much San Bernardino County Superintendent of Schools plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: San Bernardino County Superintendent of Schools plans to spend \$453,605,925.00 for the 2024-25 school year. Of that amount, \$16,462,848.00 is tied to actions/services in the LCAP and \$437,143,077 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

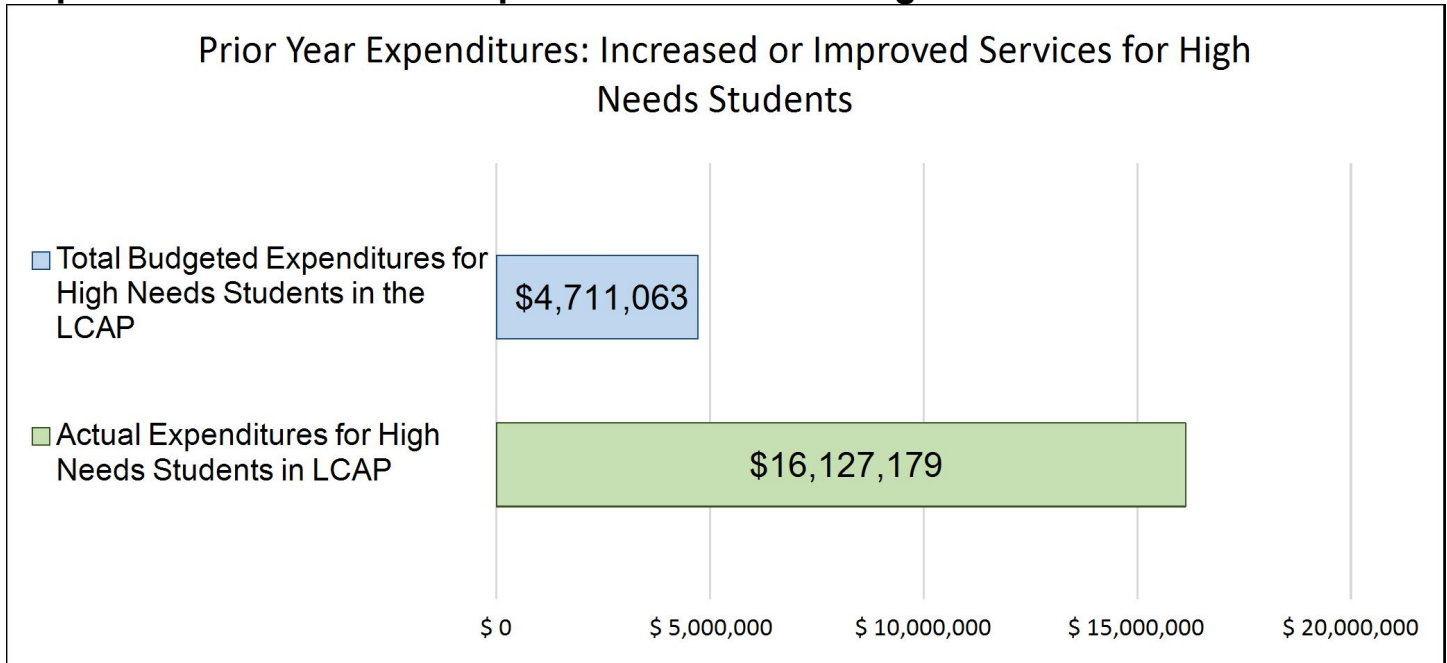

General fund budget expenditures for the LCAP year that are not included in the LCAP relate to funding mandated programs and services, providing district support, and other state, federal, and locally restricted programs.

## Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, San Bernardino County Superintendent of Schools is projecting it will receive \$4,363,034.00 based on the enrollment of foster youth, English learner, and low-income students. San Bernardino County Superintendent of Schools must describe how it intends to increase or improve services for high needs students in the LCAP. San Bernardino County Superintendent of Schools plans to spend \$4,363,034.00 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what San Bernardino County Superintendent of Schools budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what San Bernardino County Superintendent of Schools estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, San Bernardino County Superintendent of Schools's LCAP budgeted \$4,711,063.00 for planned actions to increase or improve services for high needs students. San Bernardino County Superintendent of Schools actually spent \$16,127,179.00 for actions to increase or improve services for high needs students in 2023-24.

## 2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

## Goals and Actions

### Goal

Goal #	Description
1	Conditions of Learning: SBCSS will provide a high-quality, structured, and safe learning environment that proactively addresses the unique academic needs of the student population we serve for increased academic achievement, increased English language proficiency, and increased college and career readiness.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(1) The percentage of students who demonstrate growth as measured by STAR ELA and Math Pre and Post assessments, disaggregated by subgroups, and supports provided (tutoring, summer school, etc.) (State priority 2A, 4A).	(1) In the Community School - 35% in ELA and 38% in Math and Juvenile Court School - 43% and 47% of students with a pre- and post-assessment demonstrated growth in 2020-2021.	(1) In the Community School - 80% in ELA and 59% in Math and Juvenile Court School - 65% and 64% of students with a pre- and post-assessment demonstrated growth in 2021-2022.	(1) In the Community School 53% in ELA and 62% in Math and Juvenile Court School - 64% and 63% of students with a pre- and post-assessment demonstrated growth in 2022-23.  Overall, 63% showed growth in ELA and 61% in Math. English learners - 59% and 55%, Low-Income - 63% and 60%, Foster Youth - 70% and 55%, Hispanic - 58% and 60%, and Students with disabilities (SWD) 76% and 70%	In the Community School 51% in ELA and 57% in Math and in Juvenile Court School, 79% and 80% of students with a pre and post assessment demonstrated growth in 2023-24.  Overall, 58% showed growth in ELA and 63% showed growth in Math. (Overall = CS + JCS) The following data are for CS + JCS (ELA and Math, respectively) English Learners: 60% and 62% Low-Income: 57% and 63% (NSLP = Y)	(1) 80% of students with pre- and post-STAR assessment scores will demonstrate growth.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
				Foster Youth: 50% and 50% Hispanic: 58% and 63% Students with disabilities (SWD): 57% and 60%	
<p>(2)(a) The percentage of students with disabilities (SWD) demonstrating progress toward goals as identified by their IEP team. (State priority 7C).</p> <p>(2)(b) Number of training offered in the area of special education and/or section 504.</p>	<p>(2)(a) New metric; no baseline data available.</p> <p>(2)(b) New metric; no baseline data available.</p>	<p>(2)(a) 76% of SWD are demonstrating progress toward goals in the first three quarters of 2021-2022.</p> <p>(2)(b) 2 trainings were provided and attended by staff at 6 of the 11 sites in 2021-2022.</p>	<p>(2)(a) 75% of SWD are demonstrating progress toward goals in the first three quarters of 2022-2023.</p> <p>(2)(b) 2 trainings were provided and attended by staff at 11 of the 11 sites in 2022-23.</p>	<p>(2)(a) 93% of SWD are demonstrating progress toward goals in the first three quarters of 2022-2023.</p> <p>(2)(b) 2 trainings were provided and attended by staff at 11 of the 11 sites in 2023-24.</p>	<p>(2)(a) 85% of SWD will demonstrate progress toward goals.</p> <p>(b) At least 2 trainings per year will be offered focused on Section 504 and IEP identification, supports, and services.</p>
(3) Ratio of Teacher/Paraeducator (State priority 1A).	(3) 1:2 classroom Teacher/Paraeducator ratio in 2020-2021.	(3) 1:2 classroom Teacher/Paraeducator ratio was maintained in 2021-2022.	(3) 1:2 classroom Teacher/Paraeducator ratio was maintained in 2022-2023.	(3) 1:2 classroom Teacher/Paraeducator ratio was maintained in 2023-2024.	(3) Maintain teacher/paraeducator ratio of 1:2.
(4) Percentage of appropriately assigned teachers, per their credential as identified in CalSAAS. (State priority 1A).	(4) 100% of teachers were appropriately assigned per their credential in 2019-2020.	(4) 100% of teachers are appropriately assigned per their credential in 2021-2022.	(4) 100% of teachers are appropriately assigned per their credential in 2022-2023.	(4) 100% of teachers are appropriately assigned per their credential in 2023-2024.	(4) Maintain 100% appropriately assigned teachers.
(5)(a) Percentage of sites in overall "good	(5)(a) 100% were in overall good repair	(5)(a) 100% of sites are in overall good	(5)(a) 100% of sites are in overall good	(5)(a) 100% of sites are in overall good	(5)(a) Maintain 100% of sites in good repair

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
<p>repair" and instructional material sufficiency based on the facilities inspection tool (FIT) and instructional materials survey. (State priorities 1B,C).</p> <p>(5)(b) Number of contact opportunities in support of the Boys Republic program as determined by tracking maintained by the Program Manager.</p>	<p>and had sufficient instruction materials in 2020-2021.</p> <p>(5)(b) New metric; no baseline data available.</p>	<p>repair and have sufficient instruction materials in 2021-2022.</p> <p>(5)(b) Two contact opportunities have occurred during the 2021-2022 school year.</p>	<p>repair and have sufficient instruction materials in 2022-2023.</p> <p>(5)(b) Two contact opportunities have occurred during the 2022-2023 school year.</p>	<p>repair and have sufficient instruction materials in 2023-2024.</p> <p>(5)(b) Two contact opportunities have occurred during the 2023-2024 school year.</p>	<p>and with sufficient instructional materials.</p> <p>(5)(b) A minimum of six (6) contact opportunities will occur in support of the Boys Republic program.</p>
<p>(6) Percentage of McKinney-Vento (MV) students contacted regarding needs within 2 weeks of enrollment. (State priority 7B).</p>	<p>(6) 100% of McKinney-Vento students were contacted in 2020-2021, but the timeline is a new metric; no baseline data is available.</p>	<p>(6) 79% of McKinney-Vento students were contacted in 2021-2022 within two weeks of enrollment.</p>	<p>(6) 60% of McKinney-Vento students were contacted in 2022-2023 within two weeks of enrollment.</p>	<p>(6) 74% of McKinney-Vento students were contacted in 2023-2024 within two weeks of enrollment</p>	<p>(6) Maintain 100% McKinney-Vento students contacted, within two weeks of enrollment.</p>
<p>(7) The percentage of students who demonstrate 0.5 grade equivalent gains or more after receiving 5 months of tutoring, as measured by STAR pre/post assessments. (State priority 7B).</p>	<p>(7) 85% of students had 0.5 grade equivalent gains or more after participating in tutoring for 5 months in 2019-2020.</p>	<p>(7) Due to staffing shortages, consistent tutoring was not provided for 5 months of support in 2021-2022.</p>	<p>(7) Due to staffing shortages, consistent tutoring was not provided to determine 5 months of support in 2022-23. We have contracted with 24:7 virtual tutoring services for future year data.</p>	<p>Due to staffing shortages, FEV Tutors were contracted to provide tutoring services. 46% of students who scheduled sessions attended and 88% of those students mastered the lessons.</p>	<p>(7) After five months of tutoring, 95% of students who participate will achieve academic gains equal to 0.5 grade equivalent growth.</p>

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
				However, there is no data to support the correlation between 5 months of tutoring and increased STAR scores.	

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 1 addresses conditions of learning. SBCSS will provide a high-quality, structured, and safe learning environment that proactively addresses the unique academic needs of the student population we serve for increased academic achievement, increased English language proficiency, and increased college and career readiness. The seven actions for this goal were fully implemented over the three-year cycle and the associated metrics demonstrated progress.

**ELA and Math Assessment and Students With Disabilities:**

The actions related to ELA and Math achievement were fully implemented. Action 1.1 provided a system of assessing student academic progress quarterly, which has allowed ongoing monitoring of academic growth and needs. The challenge in this area is due to the high student turnover due to the population of students serviced. However, the success is evidenced in the ability to monitor student ELA and Math progress for students enrolled longer than one quarter of the school year. Action 1.2 was fully implemented over the three-year cycle. The success of the implementation was due to the use of the Web IEP and SEIS systems to monitor student progress towards IEP goals. In addition, two training sessions per year were offered to parents and staff on special education and Section 504 processes and services. Ongoing challenges of substitute coverage for staff and parent engagement impact the level of session attendance. However, this was addressed by offering more frequent opportunities for engagement activities around these topics.

**Paraeducator Support, Teacher Assignment, and Safe and Sanitary Campuses:**

The actions related to teacher assignments (1.4), paraeducator support (1.3) and safe & sanitary campuses (1.5) were fully implemented. There has been a direct effort to overcome the challenges associated with staffing by ongoing collaboration with Human Resources. Maintaining safe and sanitary campuses has been a success due to the additional targeted ESSER funds.

**McKinney-Vento Services and Additional Supports:**

Actions 1.6 and 1.7 were also fully implemented over the three-year cycle. The success was that the clinical counseling team was fully staffed and available to serve McKinney-Vento youth. The challenge in this area was connecting with students within the two weeks of enrollment, as students did not always immediately attend school upon enrollment. However, once each student attended school, the team

was able to successfully provide resources. Likewise, the additional supports such as extended learning opportunities, tutoring and credit recovery were also successfully accessed by students upon their school attendance.

Overall, all Goa1 actions were fully implemented.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There has been no material difference in the Budget Expenditure and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

All actions for Goal 1 related to addressing the conditions for learning have all been effective to some degree.

#### ELA and Math Assessment:

Progress in ELA and Math, with emphasizing on subgroups, showed varied results. While some improvements were noted, there is a continued need to address academic achievement, particularly among English learners and socio-economically disadvantaged students. The evidence of Actions 1.1 and 1.2 effectiveness are demonstrated by the 2022-23 CA Dashboard, which shows that students' ELA achievement improved by 39.5 points and Math achievement improved by 42.9 points. English Language Proficiency increased by 15.3%. Additionally, Metric 1.1 serves to support the effectiveness of using a pre/post ELA and Math assessments tool to monitor student growth. For those students who remain in the program longer than one quarter and receive multiple assessments, there is evidence of improved academic growth as evidenced by pre-post STAR assessments. Educational partner feedback also supports the effectiveness of using this tool to inform instructional practices, as 58% and 63% of students with two assessments showed growth in ELA and Math respectively.

#### Students With Disabilities:

Action 1.2, related to supporting students receiving special services, was effective, as 93% of students demonstrated progress towards meeting their IEP goals as evidenced by metric 1.2.

#### Paraeducator Support, Teacher Assignments, and Safe and Sanitary Campuses

Actions 1.3-1.5, related to staffing and professional development, were effective, as evidenced by the successful outcomes of metrics 1.3-1.5.

#### McKinney-Vento Services and Additional Supports:

Actions related to Academic Achievement, such as ELA and Math assessments, additional tutoring support, credit recovery and extended learning opportunities, as students made academic progress in ELA and Math.

Overall, all Goal 1 actions were effective as evidenced by the associated metrics and educational partner feedback.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on internal and CA Dashboard metrics, there is a continued need to address academic achievement among all student groups. Thus, all current actions will be maintained. However, Action 1.6 will be moved to Goal 2. Additionally, educational partner feedback has suggested that increased professional development and high-quality instruction are a priority for the next three-year LCAP cycle. which will result in increased funding for the actions pertaining to professional development. Additional actions will be added to the new three-year LCAP to addresses these two areas of feedback.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
2	Engagement: SBCSS will provide all students, with an added focus on low-performing student groups (English learners, foster youth, socioeconomically disadvantaged, and Hispanic subgroups) and increased positive interactions and experiences between school personnel, students, parents, and community members to increase student attendance, academic achievement, and graduation rate and decrease suspension rates.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(1)(a) Attendance Rate Percentage(s) for months 1-5 combined (State priority 5A)	(1) (a) The attendance rate percentage for months 1-5 of 20/21 were: CS 73.47%; JCS 99.13%.	(1)(a) The attendance rate percentage for months 1-5 of 2021-22 was: CS 79%; JCS 93%. With an overall attendance rate of 81% in the alternative education program.	(1)(a) The attendance rate percentage for months 1-5 of 2022-23 was: CS 68%; JCS 96%. With an overall attendance rate of 82% in the alternative education program.	(1)(a) The attendance rate percentage for months 1-5 of 23-24 was: CS 80%; JCS 96% with an overall attendance rate of 81%	(1)(a) Attendance percentage rates will increase of at least 2% per year across both programs.
(1)(b) Suspension rate percentage(s) (State priority 6A)	(b) Suspension rates in the most recent full year data (2018-19) were: CS 7.0%, JCS 8.8%.	(1)(b) The suspension rate for the 2021-2022 school year for months 1-10 were 16% in the CS and 9% in JCS, for an overall suspension rate of 13.5%.	(1)(b) The suspension rate for the 2022-2023 school year for months 1-10 were 7.1% in the CS and 4.8% in JCS, for an overall suspension rate of 5.9%.	1)(b) The suspension rate for community schools for the 2022-2023 school year for months 1-10 was 5.7% in CS, 2.9% in JCS, with an overall suspension rate of 4.4%.	(b) Suspension rate s will decrease by at least 1% each year across both programs.
(2) Percentage of students receiving attendance interventions (i.e.	(2) New metric. No baseline data available.	(2) 5% of students absent 10% or more of the school year in months 1-10 received	(2) 44% of students absent 10% or more of the school year in months 1-10 received	(2) 64% of students absent 10% or more of the school year in months 1-10 received	(2) 100% of students absent 5 or more days in a quarter, and/or more than 10% of the

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
attendance letters, home visits, community resources, etc.) after 5 or more days absent in a quarter or 10% of the school year. (State priorities 5A,B)		attendance interventions.	attendance interventions in 2022-23.	attendance interventions in 2023-24.	school year receive tiered attendance interventions (i.e. attendance letters, home visits, community resources, etc.)
(3)(a) Percentage of parents attending student-centered events based on sign-in sheets. (State priority 3A, B, C)	(3)(a) New metric. No baseline data available.	(3)(a) <1% parent participation rate at each event in 2021-22.	(3)(a) average of 15% parent participation rate at each event in 2022-23.	(3)(a) average of 66% parent participation rate at each event in 2023-24.	(3)(a) 25% parent participation rate at each event.
(3)(b) Percent of parents completing LCAP surveys (State priorities 3A,B and 6C)	(3)(b) New metric. No baseline data available.	(3)(b) 80% of parents completed the 2021-22 winter LCAP survey.	(3)(b) 53% of parents completed the 2022-23 winter LCAP survey.	(3)(b) 57% of parents completed the 2023-24 winter LCAP survey.	(3)(b) 90% parent survey completion rate.
(4) Number of available alternative learning experiences (ALE) each year. (State priority 8)	(4) New metric. No baseline data available.	(4) 8 out of 12 sites provided two or more ALE opportunities in 2021-22.	(4) 11 out of 11 sites provided two or more ALE opportunities in 2022-23.	(4) 11 out of 11 sites provided two or more ALE opportunities in 2023-24.	(4) At least two (2) opportunities per year will be available per site.
(5)(a) Percentage of students whose transcripts were evaluated within 1 month of enrollment as determined by academic counselor tracking logs.  (5)(b) Percentage of students successfully	(5)(a) New metric. No baseline data available.  (5)(b) No baseline data available.  (5)(c) The attendance rate percentage for months 1-5 of 20/21	(5)(a) 66% of student transcripts were evaluated within 1 month of enrollment during the first three quarters of the 2021-2022 school year (JDAC). ## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 2 addresses student engagement. SBCSS provides all students, with an added focus on low performing student groups (English learners, foster youth, socioeconomically disadvantaged, and Hispanic subgroups) increased positive interactions and experiences between school personnel, students, parents, and community members to increase student attendance, academic achievement, and graduation rate and decrease suspension rates.

The 2022-23 CA Dashboard shows that suspensions were at 10.6%, an increase of 5.6%. Chronic Absenteeism was at 56.7%, and increase of 12.2%, and Graduation rate at 49.5%, a decrease of 1.4%.

#### School Climate and Culture:

Action 2.1 related to Positive Behavior and Support (PBIS) was implemented at several sites. The success in implementing this action was seen in the state-wide PBIS recognition of three school sites. However, the challenge was in fully implementing the framework at all sites. Implementation of PBIS will need to continue to be a focus for the next LCAP cycle.

#### Parent Information and Parent Engagement:

Parent engagement activities associated with actions 2.2. and 2.3 were fully implemented. The success associated with this action was in the increased ability to provide timely information to families. This also allowed for increased engagement in the multiple opportunities to be a part of the decision-making process for their students' education. A challenge with this action was allowing greater access for parents to attend meetings, this was addressed by having more hybrid meetings, with meet the needs of parents who could not attend in-person.

#### Alternative Learning Experiences & Guidance and Registration Support:

Actions 2.4 and 2.5 were fully implemented. The success of these actions was in the number of partnerships and activities in which students were able to participate. In addition, the guidance counselors/registrars were able to directly support students in the enrollment and course assignment process. Students were able to successfully transition to and from Juvenile Court School with electronic referrals, which enabled them to report to school in a timely manner.

#### Attendance and Chronic Absenteeism:

Action 2.6 was fully implemented. The success of this action is that all appropriate staff were trained in the SART/SARB process and Absenteeism/Truancy notifications to families were issued. In addition, staff went above and beyond to identify barriers to student attendance and meet student and family needs with a variety of recourses, including bus passes and food. One of the challenges in the implementation of the SARB process in that more than 90% of the students who attend the county schools Alt Ed programs had prior attendance concerns and had been through the SARB process in their local school district. SBCSS will continue to use alternative means to engage students and families to improve attendance.

Overall, all Goal 2 actions were fully implemented.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 did have material difference in the Budget Expenditure and Estimated Actual Expenditures.

2.2 Parent Information action was underestimated. It was initially budgeted at \$11,600 for parent communication tool, supplies, printing. The position of the Family Engagement Content Manager was created and supported this action. The actual expenditure was \$185,750.

2.6 Attendance and Chronic Absenteeism action overestimated. It was initially budgeted for approximately \$660,000. The actions were able to be met with existing staff with a reduction in the estimation. These funds were used to cover the difference in action 2.2.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

All actions for Goal 2 related to student engagement have all been effective to some degree.

#### School Climate and Culture:

Efforts to improve school climate and culture are an ongoing priority of SBCSS. The implementation of PBIS has been effective to some extent as evidenced by CA State PBIS recognition for three sites, Bob Murphy and Tri-City Community Schools earning Bronze level and Burton Thralls Juvenile Court School earning Gold level. SBCSS is committed to continuing the implementation of PBIS throughout all sites.

#### Parent Information and Parent Engagement:

Parent engagement efforts associated with actions 2.2 and 2.3 were effective in increasing the number of parent participation. The rate of parents attending student centered events increased from 15% in 2022-23 to 66% in 2023-24 (metric 2.2). In addition, 57% of parents completed the 2023-24 LCAP parent survey, which was an increase of 4% from the previous year.

#### Alternative Learning Experiences & Guidance and Registration Support:

A strong highlight of the current LCAP was the successful implementation of action 2.4, Alternative Learning Experiences (ALE). Every student was able to participate in at least one ALE designed to provide community-based learning experiences tied to academic and career achievement.

Action 2.5 focused on guidance and registration support served to help students in course placement a credit recovery. These efforts were effective as evidenced by 92% of students successfully having their transcripts evaluated with the first month of enrollment in JCS and 75% of students successfully enrolling in another educational setting after exiting JAC.

#### Attendance and Chronic Absenteeism:

Action 2.6 was partially effective in the area of addressing attendance and chronic absenteeism. Although sites have been trained in the SART/SARB process and interventions have been put in place, absenteeism has not decreased during the current three-year cycle.

Alternative evidence-based actions will be developed for the next LCAP cycle.

Overall, all Goal 2 actions were effective as evidenced by the associated metrics and educational partner feedback.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on internal and CA Dashboard metrics, there is a continued need to address school climate and engagement among all student groups. Additionally, educational partner feedback has suggested increased professional development and supports for Positive Behavior Intervention and Support (PBIS), and efforts to support social-emotional learning and supports. Hence, actions 1-5 and their associated metrics will remain. However, action 6 will be adjusted to address absenteeism in a more effective manner.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
3	Pupil Outcomes/Achievement: SBCSS will focus on addressing the needs of the whole child with expanded course offerings, Future Ready skills, and social and cross-cultural skills vital for all students' success, including targeted supports for students in low-performing subgroups.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(1)(a) Number of available supplemental instructional materials for core related subjects: ELA, Math, Science, Social Studies. (State priority 1B). ## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 3 address Pupil Outcomes and Achievement. SBCSS focused on addressing the needs of the whole child with expanded course offerings, Future Ready skills, and social and cross-cultural skills vital for all students' success, including targeted supports for students in low-performing subgroups. The actions over the three-year cycle showed improvement in course offerings and expanded offerings for college and career experiences for all students. All Goal 3 actions were fully implemented.

The 2022-23 Dashboard showed a very low status with 0.5% of students being "prepared".

**Supplemental Instructional and Assessment Materials:**

Action 3.1 was fully implemented. Over the course of the three-year LCAP, SBCSS has provided all core-curriculum classrooms with a variety of supplemental instructional materials in all core subjects, allowing for support in improving ELA and Math proficiency. SBCSS successfully provided 23 supplemental instructional resources to support student learning.

**Counseling Center:**

Action 3.2 which allowed SBCSS to provide consistent counseling services to individual students, and groups counseling was fully implemented. This was a success as students were able to meet counseling requirements set forth by their home-districts while attending County Schools.

**Professional Development:**

Action 3.3 related to professional development was fully implemented. The increase in professional development offerings has been a success during the LCAP cycle. Thirty-nine professional development sessions have been offered. In addition, PD on-demand was implemented to provide more flexibility to staff in how and when they were able to attend trainings.

**Career Exploration and Experience:**

Action 3.4 related to course offerings and Future Ready skills were successfully implemented. There was an increase in students earning CTE/Vocational credits.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There has been no material difference in the Budget Expenditure and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The holistic approach to student needs, including expanded course offerings and social skills development, yielded positive outcomes, though the effectiveness varied across different student subgroups.

**Supplemental Instructional and Assessment Materials:**

The actions related to supplemental instructional and assessment materials were effective. This is an area of success as the availability of supplemental instructional materials remained consistent, ensuring resources were available across core subjects. This consistency meets

the desired outcome, reflecting effectiveness in resource provision. This is an area of success as the availability of supplemental instructional materials remained consistent, ensuring resources were available across core subjects. This consistency meets the desired outcome, reflecting effectiveness in resource provision. The effectiveness of this action is supported by the data showing students who demonstrate growth when taking the ELA and Math assessments a minimum of two times. Although students often transition 51% in ELA and 57% in Math and in Juvenile Court School, 79% and 80% of students with a pre- and post-assessment demonstrated growth in 2023-24.

#### Counseling Center:

The implementation of the actions related to providing ongoing counseling services were effective. The team was able to be onsite to provide direct services to students and to meet counseling requirements set as conditions of their successful enrollment in SBCSS programs. One data point used to assess this action is the Child Adolescent Needs and Strengths Assessment (CANS). The data showed a 44.7% improvement in attendance, 53.8% in achievement and 58% in school behaviors.

#### Professional Development:

The professional development actions were effective in providing the needed instructional support to SBCSS teachers. Thirty-nine professional development sessions have been offered, including an average of 4 monthly professional developmental session offered by the instructional technology coach. However, one of the challenges is increasing the number of teachers who attend the training due to the lack of substitute teachers. Professional development will continue to be a priority and there will be continued collaboration with Human Resources to meet the needs for substitute coverage. Additionally, adjustments to the day and time of delivery of training will be evaluated to offer more opportunities for training in an after-school model.

#### Career Exploration and Experience:

There was an increase in students earning CTE/Vocational credits, 13.6% compared to 7.1 % in 2022-23, This outcome shows progress towards engaging students in vocational education. Data shows that this action was effective, however, additional focus on this area will continue in the new three-year LCAP cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on the success and challenges of meeting Goal 3, there will be a continued focus on the actions associated with expanding course offerings, addressing Future Ready skills, and social and cross-cultural skills vital for all students' success, including targeted supports for students in low-performing subgroups.

In addition, to address the College/Career indicator, additional resources will be added to increase access to dual enrollment, career exploration/experiences and increase community partnerships in the area of college/career readiness.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
4	Expelled Youth: SBCSS will ensure expelled youth receive access to a continuum of services for successful transition back to their district of residence and completion of graduation requirements.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(1) Percent of SB county district CWA's that receive information and materials shared at monthly meetings. (State priority 9).	(1) 100% of SB county school districts' CWA's received information and materials shared at monthly meetings in 2020-2021.	(1) Monthly CWA meetings are held and 100% of SB districts have access to the information and materials shared.	(1) Monthly CWA meetings are held and 100% of SB districts have access to the information and materials shared.	(1) Monthly CWA meetings are held and 100% of SB districts have access to the information and materials shared.	(1) 100% of SB county school districts will receive information and materials shared at monthly meetings.
(2)(a) Percentage of students identified by the expulsion tracking tool with verifiable and successful transition among schools.	(2)(a) 100% of students identified by the expulsion tracking tool had verifiable and successful transition among schools in 2019-2020.	(2)(a) 100% of students identified by the expulsion tracking tool had verifiable and successful transition among schools in 2020-2021.	(2)(a) 100% of students identified by the expulsion tracking tool had verifiable and successful transition among schools in 2021-2022.	(2)(a) 100% of students identified by the expulsion tracking tool had verifiable and successful transition among schools in 2022-2023.	(2)(a) 100% of students identified by the expulsion tracking tool will have verifiable and successful transition among schools.
(2)(b) Percent of expelled youth enrolled within 5 days as documented on the Pupil School Attendance Review Board Report (PSR).	(2)(b) New metric; no baseline data available.	(2)(b) 62% of expelled students were successfully enrolled in school within 5 attendance days.	(2)(b) 57% of expelled students were successfully enrolled in school within 5 attendance days in 2021-2022.	(2)(b) 57% of expelled students were successfully enrolled in school within 5 attendance days in 2022-2023.	(2)(b) 75% of expelled students will be successfully enrolled in school within 5 attendance days.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 4 addressed supports for expelled youth. As a county office, SBCSS is responsible for supporting 33 school districts in applying California Education Codes that guide student discipline procedures and protocols within the school districts. LCAP actions related to this goal were fully implemented.

Technical Assistance to Districts:

Action 4.1 related to SBCSS Children Deserve Success/Child Welfare and Attendance (CWA) was fully implemented. All 33 school districts were encouraged to participate in monthly meetings. This action required that agendas, materials and minutes from each meeting be provided. All materials were also posted on the SBCSS website and sent to all stakeholders via email transmission.

Coordinate Instruction of Expelled Youth:

Action 4.2 focused on coordinating instruction for expelled youth. This was done through the creation of a Pupil Expulsion Report (PER) to ensure that expelled youth were successfully transitioned into their next educational placement. This action was fully implemented.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There has been no material difference in the Budget Expenditure and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

SBCSS Children Deserve Success/Child Welfare and Attendance (CWA) fully implemented the actions.

Technical Assistance to Districts:

In an effort to provide consistency throughout San Bernardino County monthly meetings were held with representatives from all 33 school districts. This action was effective as monthly CWA meetings are held and 100% of SB districts have access to the information and materials shared.

Coordinate Instruction of Expelled Youth:

This action was effective, as 100% of the districts successfully used the expulsion tracking tool and 57% of the students were enrolled within 5 attendance days. The actions aimed at facilitating expelled youth's transition between the County and district schools demonstrated effectiveness, with a notable percentage of successful transitions. These actions will continue in the next LCAP cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The actions were fully implemented and there was no material difference in the implementation of the actions. These actions will continue to be implemented in the next three-year LCAP cycle with no changes.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
5	Foster Youth: SBCSS will increase the coordination of foster youth programs and services to ensure equitable opportunities and outcomes for foster youth.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(1) Current policies and procedures regarding foster youth, including enrollment, credit attainment, and supports.	(1) Board adopted policies and procedures are in place during the 2020-2021 school year.	(1) Board adopted policies and procedures are in place.	(1) 30 school districts, child welfare, and probation have fully executed transportation MOUs and 22 districts have school-based mentoring MOUs.	(1) SBCSS Board policies are current, sample template board policies for LEA's have been shared. LEA's have reported having updated board policies. All 33 LEA's have access to foster focus, CALPADS, and meet the ESSA school stability requirements using a countywide transportation plan established through the Foster Care Advisory Council.	(1) Maintain and update as necessary board policies and procedures.
(2) Number of Foster Care Advisory Council meetings offered each year (agendas, minutes, etc.). (State Priority 10A,B)	(2) 5 Foster Care Advisory Council meetings were held in 2019-2020.	(2) As of April 2022, 6 Foster Care Advisory Council meetings have taken place.	(2) As of April 2023, 5 Foster Care Advisory Council meetings have taken place. Focus for this year have been on	(2) As of February 2024, 6 Foster Care Advisory Council meetings have been held. Focus for this year has been on	(2) Provide a minimum of 5 Foster Care Advisory Council meetings a year.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
			improving school stability and establishing notification procedures for school discipline.	establishing practices for discipline notification statewide for youth in foster care suspended for a period longer than one class period. This notification is made to attorney, social worker, and education rights holder of the youth. This is a statewide effort to ensure notification regardless of county of jurisdiction.	
(3) Number of culturally responsive activities/events that promote student achievement, physical fitness, resiliency, and mentorship opportunities. (State Priority 10)	(3) 50 culturally responsive events/activities were held in 2019-2020	(3) As of April 2022, 64 culturally responsive activities have been provided county-wide to approximately 3,000 participants.	(3) As of April 2023, 65 culturally responsive activities have been provided county-wide to approximately 6,500 participants.	(3) As of February 2024, approximately 60 culturally responsive activities have been provided to approximately 6,000 attendees. In an attempt to be more equitable emphasis has been placed on providing multiple options and venues. Opportunities has been provided virtually, at school sites, district wide, county wide, region wide, statewide, and nationally.	(3) Maintain offering at least 50 culturally responsive events/activities each year.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
(4) Percent of foster youth participating in extended learning/enrichment opportunities as measured by supplemental attendance tracking.	(4) New metric; no baseline data available.	(4) Approximately 85% of San Bernardino County foster care dependents have received at least one service from the San Bernardino FYSCP program.	(4) Approximately 80% of San Bernardino County foster care dependents have received at least one service from the San Bernardino FYSCP program in some capacity.	(4) Approximately 90% of San Bernardino dependents have received at least one service from the San Bernardino FYSCP. Depending on the needs of the youth services range from notification of Educational Rights Holder, assistance with records retrieval, numerous youth events focusing on college/career, school-based mentoring, post-secondary support programs, and many other collaborative efforts with LEAs and partners.	(4) 75% of foster youth participate in extended learning/enrichment opportunities.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 5 focused on supports for foster youth. As a county office, SBCSS Foster Youth Coordinating Program (FYSCP) provides technical assistance and leadership, and collaborates with school districts to coordinate instruction, supports and resources for foster youth.

Policy and Procedures and Liaison Training:

Actions 5.1 and 5.2 were fully implemented, as FYSCP established policies and necessary data infrastructure to support and monitor the educational success of foster youth. There was increased coordination of foster youth programs and services. This goal was reached as indicated by the four LCAP metrics. There was consistent progress in updating board policies and procedures regarding foster youth.

**Culturally Responsive Activities/Events and Academic Achievement:**

Action 5.3 and 5.4 were fully implemented. Foster youth were provided opportunities to participate in culturally responsive activities/events to promote student achievement. These activities provided foster youth with increased learning and enrichment opportunities.

The actions were fully implemented and there was no material difference in the implementation of the actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between budgeted expenditures and estimated actual expenditures and/or planned percentages of improved services and estimated actual percentages of improved services.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Initiatives aimed at assisting districts in supporting foster youth throughout the county were effective.

**Policy/Procedures & Liaison Training:**

Efforts to improve coordination of foster youth programs and services showed positive trends in engagement and support. Overall, the metrics reflect a strong commitment to supporting foster youth, with particular strengths in policy implementation, community engagement, cultural responsiveness, and extended learning opportunities. The data suggests that the LCAP actions are effectively addressing the specific needs of foster youth in San Bernardino County, as all 33 districts had access to Foster Focus, CALPADS, and met the ESSA school stability requirements using a countywide transportation plan established through the Foster Care Advisory Council. More than 5 Foster Care Advisory Council meetings were held.

**Culturally Responsive Activities/Events & Academic Achievement:**

Actions to meet the unique needs of foster youth were implemented by County Foster Youth administrative team with great effectiveness. The purpose of this three-year LCAP cycle was to create foundational systems for the 33 school districts that are served by SB County Superintendent of Schools. This included creating systems for consistent policy updates and regularly scheduled advisory council meetings. Actions that directly impacted students were successfully implemented, this included engaging 6,000 students in 60 culturally responsive activities and approximately 90% of San Bernardino foster youth have received at least one service, including extended learning opportunities. Despite the absence of baseline data, there was significant engagement of foster youth in extended learning opportunities, surpassing the desired outcome of 75% participation. This indicates high effectiveness in providing enriching experiences for foster youth.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no substantive changes made to the goal, actions, or metrics in Goal 5. All desired outcomes were met during the current 3-year LCAP cycle. This will continue as a Maintenance Goal in the next three-year LCAP cycle with no changes.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education  
November 2023

## Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
San Bernardino County Superintendent of Schools	Myrlene Pierre Assistant Superintendent - Student Services	Myrlene.Pierre@sbcss.net 909-387-8511

## Plan Summary [2024-25]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The San Bernardino County Superintendent of Schools (SBCSS) is located in the Riverside-San Bernardino metropolitan area (sometimes called the "Inland Empire"). San Bernardino County is ethnically diverse, with public school enrollments of slightly under 400,000 students (2022-2023, CDE/Dataquest).

San Bernardino County is a dynamic and ever-changing community. Researchers from California State University San Bernardino (CSUSB) reported the majority of individuals sampled in their annual study either felt San Bernardino County was a "very good" or "fairly good" place to live. Respondents cited attributes such as location, scenery, affordability of housing, weather, good schools and universities as positive features of San Bernardino County. In contrast, respondents also reported dissatisfaction with crime/gang activity, traffic, and homelessness as negative features associated with living in the county. Responses were highly variable, depending on the city the participant lived in. The majority of respondents reported either "Good" or "Fair" sentiments regarding the economy within San Bernardino (Inland Empire Annual Survey/2018). This report touches on multiple facets of life in San Bernardino. It is clear, San Bernardino is an ethnically, geographically and economically diverse community.

SBCSS serves students residing throughout San Bernardino County, the largest county, geographically, in the contiguous United States, covering nearly 20,052 square miles. SBCSS has an enrollment of approximately 5,000 students in PK-12 (across all programs) and provides a myriad of educational services and opportunities to students in Alternative Education (AE) and Special Education (SE) settings. Program services and administration are divided into three regions (Desert/Mountain, East Valley and West End). Special Education students

served by SBCSS are referred by local districts through the Individual Education Program (IEP) process and are covered under their district of accountability LCAP. Students attending our Special Education School have their own School Site Council and School Plan for Student Achievement (SPSA or school plan).

In addition to the special education school, SBCSS operates 8 Community School (CS) campuses, an Independent Study program (IS) across San Bernardino County, under one school CDS Code, and the Juvenile Court School (JCS); these programs make up the SBCSS Alternative Education (AE) Program. As of the 2023 census date (the first Wednesday in October), enrollment consisted of 18% English Learners, 6% Foster Youth, 8% Homeless, 90% Socio-Economically disadvantaged, and 21% Special Education. The unduplicated ethnic student demographic data in the AE programs show: 65% Hispanic/Latino, 21% African American, 10% White and 4% Other.

SBCSS operates a Title I school-wide program (SWP) in all schools. 76% of students are high school level, with 22% middle school and 2% elementary. The actions and services included in the SPSAs not only reflect individual school differences but are aligned to this SBCSSs Local Control Accountability Plan (LCAP) to support student achievement while incorporating flexible local control. In the 2024-2025 school year, in order to create a clear connection between SBCSS performance and the planning process that is memorialized in the LCAP, we will highlight specific goals and actions in the LCAP focused on improving student outcomes of low-performing student groups. The SBCSS targeted student groups are English learners, foster youth, Hispanic, African American, and socioeconomically disadvantaged youth.

San Bernardino County Superintendent of Schools is utilizing our community and court schools base grant to increase mental health, college and career counseling services to support the academic, behavioral and social emotional well-being of our students. These funds will also be used for the enhancements and continuation of career technical education (CTE), youth leadership empowerment programs, as well as increased academic intervention services. The Student Enrichment and Support Block Grant will ensure an increase in work-based and vocational learning experiences and additional access to dual enrollment programs. We are committed to transparently utilizing these resources to promote student success and expand access for educational opportunities.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

The California School Dashboard annually reports progress in the areas of Pupil Achievement, School Climate, Pupil Engagement, and Outcomes to a Broad Course of Study.

SBCSS Pupil Achievement performance indicator in English Language Arts (ELA) and Mathematics showed growth and was at the orange level on the CA Dashboard. Although ELA and Mathematics scores were below standard by 144.2 and 220.5 points respectively, both areas showed an increase, ELA by 39.5 points and Math by 42.9 points. An additional notable area of growth was in the English Learner Progress, marked yellow with 39.4% of students making progress—an increase of 12.4%. This positive trend will be leveraged to build comprehensive strategies that address academic performance.

The college and career readiness indicator is at the "very low" status. This will be an area of focus in this 3-year LCAP cycle. There will be enhanced efforts to provided college and career experience for all students.

School Climate and Pupil Engagement indicators showed chronic absenteeism at 59%, an increase of 14.6%, which places it in the red category. The suspension rate is also in the red category, with 11.5% of students suspended at least once, reflecting an 8.4% increase. The graduation rate has declined by 10.7%, with 44.4% of students graduating. These areas will continue to be highlighted in the LCAP to improve outcomes in these areas.

Based on the 2023 CA Dashboard all schools and student groups with red indicators will need to be addressed in the new three-year LCAP cycle. Below are the identified schools, student groups and areas:

School within the LEA:

Suspension-

Community School/Independent Alternative Education

Chronic Absenteeism-

Community School/Independent Alternative Education

Graduation-

Community School/Independent Alternative Education

San Bernardino County Juvenile Detention and Assessment Center

San Bernardino County Special Education

College/Career-

Community School/Independent Alternative Education

San Bernardino County Juvenile Detention and Assessment Center

San Bernardino County Special Education

Student Groups within the LEA:

English Learners (Differentiated Assistance) - Suspensions, Chronic Absenteeism, Graduation and College & Career Indicator

Foster Youth (Differentiated Assistance)- Suspension, Graduation and College & Career Indicator

Homeless Youth (Differentiated Assistance)- Suspension, Graduation and College & Career Indicator

Socioeconomically Disadvantaged (Differentiated Assistance)- Suspension, Chronic Absenteeism, Graduation and College & Career Indicator

Students with Disabilities (Differentiated Assistance)- Suspension, Chronic Absenteeism, Graduation and College & Career Indicator

African American (Differentiated Assistance)- Suspension, Chronic Absenteeism, Graduation and College & Career Indicator

Hispanic (Differentiated Assistance)- Suspension, Chronic Absenteeism, Graduation and College & Career Indicator

White- Suspension

Red Dashboard Indicators by School, Indicator and student groups

Community School/Independent Alternative Education (Equity Multiplier) (CSI)

#### Suspension Rate

- English Learners
- Foster Youth
- Homeless
- Socioeconomically Disadvantaged

### Suspension Rate

- African American
- Two or More Races

### Graduation Rate

- Socioeconomically Disadvantaged
- Students with Disabilities
- Hispanic

### College/Career

- Socioeconomically Disadvantaged
- Students with Disabilities
- Hispanic

### Reflection based on Local data indicators:

Based on the analysis of the "Winter 2024 SBCSS Student Survey, Grades 6-12" conducted by the San Bernardino County Superintendent of Schools, here are the key learnings:

#### Identified Needs:

Engagement: The average score for student engagement was 35%, indicating a need for strategies to increase student interest and participation in class.

Challenging Feelings: The average score was 57%, suggesting that students frequently experience challenging emotions. This highlights the need for more robust social-emotional support.

Self-Efficacy about ELA and Math: The average scores were 58% and 55% respectively, indicating a need for additional support in these areas to boost student confidence.

#### Areas of Strength:

School Safety: The average score was 81%, suggesting that students generally feel safe at school.

Classroom Effort: The average score was 72%, indicating that students are putting forth effort in their classes.

## Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

SBCSS Community Schools (CS) and Juvenile (JCS) are in Differentiated Assistance and receive Technical Assistance due to the student outcomes on the 2022-2023 CA Dashboard.

The SBCSS administrative team is addressing these areas in three ways:

In collaboration with the SBCSS County-wide LCAP division, the SBCSS Student Services team has attended Differentiated Assistance full-day planning. The Community Schools/IS and Juvenile Court School team members participated in the Plan-Do-Study cycle focused on the suspension rate data. It was decided that the initial steps will be to focus on understanding the data processing and train staff on appropriate responses to discipline, including "other means of correction."

In addition, the Tri-County Consortium is the venue in which technical assistance is supported. The Tri-County Consortium is made up of San Bernardino, Orange and Riverside County Alternative Education Divisions. Based on the fact that all three counties serve similar populations in Alt Ed, and share similar challenges with improving student outcomes, the technical assistance collaboration has been critical. The team has committed to a Plan-Do-Study cycle focused on English Learner data.

The third level of technical assistance support comes from the California Department of Education (CDE). The CDE team has met with SBCSS leadership to support all aspects of LCAP writing for a county Alt Ed program. These meeting are ongoing, with feedback provided on a regular basis.

## Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

During the 2023-24 school year, three SBCSS schools were identified as being eligible for Comprehensive Support and Improvement (CSI) funds.

- San Bernardino County Special Education School - CDS code 36-10363-6069348
- San Bernardino County Juvenile Detention and Assessment Center CDS code 36-10363-3630431
- Community School / Independent Alternative Education School CDS code 36-10363-0107466

Each school was determined eligible based on the graduation rate.

## ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Since initial identification in the fall of 2018, SBCSS administration began by working with the California Department of Education (CDE) and an outside consulting firm, WestEd, to develop plans that would address the specific needs of the identified school. SBCSS administrators from all three regions gathered to conduct a needs assessment based on data obtained from the CA School Dashboard, CALPADS and our student information system (Aeries), using improvement science strategies. Each region looked at school-specific data and conducted a root-cause analysis to discern what, if any, trends were present in the data. Administrators then took data back to their respective school sites, shared it, and asked for feedback using improvement science strategies to facilitate recursive inquiry. The ultimate goal during inquiry is to uncover potential underlying root causes associated with low-performing subgroups. We will now begin the process of developing and refining Aim statements to address factors that contribute towards a lowered graduation rate, such as chronic absenteeism, suspensions, and achievement on standardized assessments. Aim statements will address disproportionality in those identified measures as well. As we move through this process, we are also working in a Tri-County collaborative with an intent to uncover best practices associated with County Offices of Education working with at-risk student populations. Best practices associated with instruction, assessment, discipline, and operations will be communicated with staff members and incorporated into the School Plan for Student Achievement (SPSA) to ensure site-specific resource equity.

## ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement through a consistent and frequent use of data. Specifically, data associated with student performance (local assessments, attendance, chronic absenteeism, credit-acquisition, and discipline) will be reviewed by administration on a weekly and quarterly basis. Negative trends in student data will be reported immediately to the school site where intervention can take place in a timely manner. Time will be set aside during monthly administrative meetings to review and assess data and evaluate the effectiveness of current interventions/practices.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Educational Partners: Parents, Students, Teachers, Other School Personnel, Local Collective Bargaining Units, SELPA & Community Members	<p>LCAP Educational Partner Engagement - In-person meeting on February 6, 2024, with all educational partners to review actions for the 2023-24 school year.</p> <p>A Hybrid Educational Partner Engagement meeting was held on April 24, 2024. During this meeting, parents and all educational partners were presented with information on LCFF, State and Federal funds. Specifically, information was shared on the Equity Multiplier (EM) funds that each of the three (3) SBCSS schools received. Educational partners representing all three schools contributed to how the EM funds would be used to improve outcomes for students. The work of this group influenced the development of LCAP goals.</p> <p>Surveys- In addition to meetings, parents, students, teachers, and other school staff were asked to complete surveys that asked about school climate, academic support, and knowledge of available resources. From November 2023 to January 2024 surveys were completed, and findings were presented at the quarterly meeting in March. All parents with students in the Alternative Education programs received information to access the surveys through the communication system (phone, email, and text) and through fliers and postings at each school site. 316 students, 205 parents, and 78 staff members responded to the surveys.</p>

Educational Partner(s)	Process for Engagement
Parent Advisory Councils	Parent Advisory Meetings (consisting of parents and District Advisory Council (DAC) and English Learner Advisory Council (DELAC) members) were conducted in November, January, March, and April. In addition, SBCSS began an African American Parent Advisory Council in the fall of 2023. Meetings were held in November, February, and April. Advisory meetings included parent-specific questions, needs, and feedback as it relates to the LCAP and their role in the monitoring and reviewing of the plan.
School Site Councils	School Site Council meetings, comprised of principals, teachers, parents, students, and other school staff members were held in each region and the Juvenile Court School during the months of September, December, March, and May.
Area Directors, Principals and Student Services Leadership	<p>Area Director and principal meetings were held regularly throughout the year. Principals were also asked to complete a survey in January-February.</p> <p>March 2024, Student Services Branch staff were asked to participate in reviewing and providing feedback LCAP Data and actions.</p>
Public Comment	The public comment period began on April 17, 2024, and on May 13, 2024, a public hearing occurred, and a draft LCAP was presented to the county board of education, along with a presentation.
County Board of Education	February 12, 2024, the written LCAP Mid-Year Report was submitted and an LCAP Mid-Year presentation was completed during the open session of the Board meeting.

#### A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

SBCSS strives to meet four main goals when engaging educational partners:

1. We want to engage more parents and students.
2. We want to show value to our partner voices.
3. We want to be transparent.
4. We want to encourage out of the box thinking and consider innovative practices to improve student outcomes.

To meet these goals SBCSS actively engaged educational partners throughout the year to monitor progress and continually provide input in the LCAP goals, action, and revision/development process. Educational partners were engaged early in the year, and quarterly progress monitoring meetings were held.

The information gathered from each opportunity was reviewed and compared to prior year goals and actions. Goals and actions for 2024-2025 year were revised based on the feedback.

The comprehensive analysis of educational partner feedback across key stakeholder groups—parents, teachers, students, other school personnel, local collective bargaining unit members, Special Education Local Plan Area (SELPA), and administrative leadership—reveals several strengths, areas for growth, and actionable recommendations for the Local Control and Accountability Plan (LCAP).

Parent survey results indicate a need for improved communication and engagement strategies, as busy schedules were identified as a significant barrier to involvement. Teacher responses highlighted the importance of professional development and feedback, with a call for more relevant and practical opportunities. Students expressed a desire for a more engaging and supportive school climate, emphasizing the need for motivational learning experiences and better preparation for future academic challenges.

Staff feedback revealed concerns about staff-family relationships, suggesting that more effort is required to foster positive interactions and communication with families. This is critical for creating a supportive community around students. Leadership input, although not directly reviewed, presumably aligns with these findings, emphasizing the importance of strategic planning and resource allocation to address these areas.

To enhance overall educational outcomes, the LCAP will continue to focus on increasing parental engagement through flexible scheduling and digital platforms, improving professional development for teachers with a focus on practical application, and enriching the school climate with motivational and inclusive practices. Strengthening staff-family relationships through regular, meaningful communication and engagement activities will also be vital.

In addition, specific feedback regarding the continued focus on areas of student engagement, achievement, and other outcomes provided specific input to LCAP goals and actions. Educational partners representing all three Equity Multiplier schools contributed to how the Equity Multiplier funds would be used to improve outcomes in these areas.

These recommendations aim to create a more cohesive, supportive, and engaging educational environment for all stakeholders, ultimately leading to improved student success and well-being. Implementing these strategies will require dedicated efforts and resources but promises significant benefits for the school community.

The educational partner feedback from various stakeholders, including parents, teachers, students, staff, and leadership, underscores a commitment to fostering a supportive and engaging learning environment. Identified strengths include a positive school climate and a strong sense of community among students and staff; however, areas for growth highlight the need for enhanced communication between home and school, more engaging and differentiated instructional strategies, and increased opportunities for professional development. Recommendations focus on leveraging technology to facilitate communication, adopting flexible engagement strategies to accommodate diverse schedules, and prioritizing resources for professional learning that align with the evolving needs of both students and educators. These steps aim to strengthen the educational community and improve student outcomes in alignment with LCAP goals.

More specifically, there were 6 areas of focus that the educational partner feedback will influence the actions in the next LCAP three-year cycle. The areas are as follows:

1. Professional Development/Training
2. High-quality Instructional Programming
3. School Climate/Positive Behavior Interventions and Supports (PBIS)
4. Additional staffing to meet students' diverse needs
5. Increased focus on procedures and practices related to student data
6. Increase and improve family resources

The goals and actions created for the 2024-25 LCAP is written to align with the student needs as determined by various data points, including the above feedback from the engaged educational partners.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	<p>Conditions of Learning: SBCSS will provide a high-quality, structured, and safe learning environment that proactively addresses the unique academic needs of the student population we serve for increased academic achievement, increased English language proficiency, and increased college and career readiness.</p> <p>Over the next three-year cycle, SBCSS will improve academic achievement in the areas of Math CAASPP, ELA CAASPP, and English Learner Proficiency.</p>	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 2: State Standards (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 7: Course Access (Conditions of Learning)</p>
---

An explanation of why the LEA has developed this goal.

<p>Comprehensive analysis of academic achievement data and in consultation with educational partners, SBCSS has chosen to prioritize improving academic achievement in English Language Arts (ELA), Math, and English Learner Proficiency. This decision reflects a strategic focus on addressing disparities in achievement and fostering a foundation of lifelong learning across all student groups.</p> <p>Although the CA Dashboard shows that there has been growth in the areas of ELA, Math, and English Language Proficiency, SBCSS maintains a continued focus on improving outcomes in these areas. The academic data shows that several student groups are underperforming in ELA, Math and English Learner Proficiency, with an emphasis on the low-income, Hispanic, African American, and English Learner subgroups.</p> <p>Overall performance: The data shows that the All Students group is -140.4 points distance from standard in ELA, -213.4 points distance from standard in Math, and 38.9% of English Learners show language proficiency.</p> <p>This goal was refined and prioritized through meaningful consultation with a wide range of educational partners. The feedback included a need for continued professional development for staff, and ongoing monitoring go student academic progress. This led to an ongoing focus on the unique needs of the population of students served int the SBCSS Alternative Education Program.</p> <p>Upon enrollment, 97% of students score below grade level in ELA and Math. Of those that have pre/post scores, 58% in ELA and 63% math overall showed growth during the first three quarters of the 2023-24 school year. The ELA percentage declined from the previous year by 5%</p>
--

but increased in math by 2%. Low-Income (LI)/Socio-economically disadvantaged (SED) students compared to all students in both subjects, the English learner and Hispanic subgroups were less at 60% and 58% in ELA respectively and 62% and 63% in math. Students with disabilities demonstrated growth at a rate of 57% ELA and 60% in math. Foster youth, 50% demonstrated growth, and 50% demonstrated growth in math. The data continues to show a need for additional supports and services (such as para-educators, tutors, McKinney-Vento liaisons, etc.), teacher training, and other resources to increase academic gains. Specific targeted supports are also needed for the English learners, and Hispanic subgroups in ELA and English learners, low-income, foster youth and Hispanic subgroups in math.

English learner supports and services continue to focus on increasing academic language and access to academic content. While language development is a focus, the average length of enrollment is 50 days, causing most students not to be enrolled long enough to reach reclassification.

Due to the incoming academic level of students and the high transiency rate within the alternative education program, with an average enrollment in the CS is 85 days and 16 days at the JCS, advanced placement courses are not provided at the sites, and there is a high need for credit recovery supports. However, a focus on completing A-G courses was identified as a need by educational partner feedback, as over 50% of students surveyed expressed interest in higher education after graduation, which further supports a need for additional supports and services (such as para-educators, tutors, McKinney-Vento liaisons, etc.), teacher training, and other resources to increase academic achievement and successful completion courses.

This goal also outlines how SBCSS meets the minimum legally required component related to teacher licensing, safe sanitary buildings, and instructional materials. Educational partner input and local data have identified these required components, combined with areas of need such as interventions, assessment, facilities in locations that provide a healthy environment for students, internet safety, and individualized supports, as strategic ways to ensure students demonstrate academic growth. Through the continuous improvement process and progress monitoring, SBCSS will ensure that through these actions students will have increased academic achievement, English language proficiency, and college and career readiness skills as measured by the identified metrics.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	<p>Engagement: SBCSS will provide all students, with an added focus on low performing student groups (English learners, foster youth, socioeconomically disadvantaged, Hispanic, and African American subgroups) increased positive interactions and experiences between school personnel, students, parents, and community members to increase student attendance, academic achievement, and graduation rate and decrease suspension rates.</p> <p>Over the course of the next three-year cycle, SBCSS will reduce chronic absenteeism, suspension and increase graduation rates at both the Community Schools (CS) and Juvenile Court Schools (JCS) for the following student groups: English Learners, Foster, Homeless, Low Income, Students with Disabilities, African American, White and Hispanic youth. SBCSS Special Education School will reduce suspension rates (African American and Two or more races), increase graduation rates and the college career indicator.</p>	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Research shows that "effective family engagement can contribute to improved student outcomes and to closing persistent achievement gaps among students of different racial and ethnic backgrounds and family income levels." (CDE, 2017). Educational partner feedback also identified Parent involvement, student engagement, and student and family support as top current challenges for SBCSS Alternative Education (AE) programs during the 2023-24 planning year for the new three-year LCAP cycle. Educational partners continue to acknowledge the need for increased interactions, timely communication, community outreach, and the importance of the student/teacher relationship in keeping students engaged.

Another aspect of this goal is supports and services to ensure students are aware of what they need to stay on track toward graduation. The current graduation rate is at 49.5% with significant subgroups between 42.6% (Students with Disabilities) and 56.7% (Foster Youth) as indicated in metric 2.2.

Educational partner input continues to identify the need to increase parent/student information and supports, especially related to what is needed to graduate as an action due to the decline in the overall graduation rate. Therefore, the actions identified to provide an academic counselor and/or transition specialist to minimize the gaps in subgroup graduation rates continue to be supported. Educational partners also continue to identify the academic counselor and transition supports as actions to help decrease the middle and high school dropout rates through the support of students during the transition from the SBCSS program to their next educational program.

This goal provides the support and resources to expand the efforts of SBCSS to engage families, connect them to community resources, and continue building strong student/teacher and parent/teacher relationships to increase student attendance, participation, and ultimately achievement through school connectedness. By providing the supports and resources as outlined, and through continual progress monitoring, SBCSS will increase positive interactions and experiences between school personnel, students, parents, and community members for increased student attendance and academic achievement.

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Attendance and Chronic Absenteeism	(a) A Chronic Absenteeism report will be accessible to all principals and staff, as appropriate. The principals, teachers, behavior health counselors, and probation officers will work with the parents and students to improve student attendance. Teachers will annotate student records (in Aeries) with the interventions used to improve student attendance.  (b) SBCSS will utilize and provide resources to increase student attendance and decrease chronic absenteeism (such as transportation assistance, bus passes, etc.)  Actions measured by M 2.1	\$253,395.00	Yes
2.2	Graduation Rates and Guidance Support	(a) SBCSS will increase graduation rates at all three schools (Community Schools/IS, Juvenile Detention Assessment Center (JDAC), and Special Education) by maintaining a Guidance Counselor/Registrar(s) to help students develop course plans toward graduation, and coordinate with local districts for students returning to their home school to graduate. Credit recovery supports will also be provided, and students (grades 11 and 12) will be evaluated within 1 month of enrollment to determine eligibility under Education Code 51225.1.	\$1,219,297.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>(b) SBCSS will assist students in successfully transitioning into and out of the Juvenile Court School and Community School programs, utilizing an electronic referral process to provide record transfer support, and ensure partial credits are earned.</p> <p>Actions measured by M 2.2</p>		
<b>2.3</b>	School Climate and Culture	<p>SBCSS will continue implementing Positive Behavior Interventions and Supports (PBIS) in its Community Schools and Juvenile Court schools to create and sustain a positive school campus environment conducive to positive student achievement, attendance, and reduce suspensions. Counselors will support the implementation of Positive Behavior Intervention and Supports (PBIS) within the schools.</p> <p>Actions measured by M 2.3</p>	\$159,248.00	Yes
<b>2.4</b>	McKinney Vento Services	<p>The behavioral health counseling team will serve as school McKinney-Vento liaisons. 100% of students identified as McKinney-Vento eligible will be first assessed for the need of emergency resources (transportation, academic, shelter, food, etc.) and provided those resources within two weeks of established eligibility or two weeks from the date of enrollment if already identified as McKinney Vento eligible.</p> <p>Actions measured by M 2.4</p>	\$47,250.00	No
<b>2.5</b>	Parent Information	<p>SBCSS will provide parents with timely information regarding programs and resources (i.e., McKinney-Vento supports, English learner programs, tutoring, attendance information, etc.).</p> <p>Actions measured by M 2.5</p>	\$23,625.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	<p>Pupil Outcomes/Achievement: SBCSS will focus on addressing the needs of the whole child with expanded course offerings, Future Ready skills, and social and cross-cultural skills vital for all students' success, including targeted supports for students in low-performing subgroups.</p> <p>Over the course of the next three-year cycle, SBCSS will increase college and career pathway completion at both the Community Schools (CS) and Juvenile Courts Schools (JCS) principally directed for the following student groups: English Learners, Foster, Homeless, Low Income, Students with Disabilities, African American, and Hispanic youth.</p>	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

In the 21st century, students will need to acquire a deeper conceptual and practical knowledge of multiple content areas in order to be sufficiently prepared for today's entry-level careers, freshman-level college courses, and workforce training programs. Educational partner feedback in both current and prior year surveys show that over 50% of students want to pursue post-secondary education (college or vocational school) and that partners believe access to specialized programs and expanded course offerings are important to student success. However, the CA state dashboard College Career Indicator (CCI) shows only 0.5% of 2023 students were prepared for college and career after graduation.

SBCSS also acknowledges that students and families continue to face post-pandemic challenges. Fully engaging in the educational process continues to be an area of growth for student, not just academically, but also mentally and emotionally. Because of this, stakeholders continue to identify the areas of mental and emotional health supports as increased area of need, especially for our low income, foster and homeless youth populations. Therefore, stakeholders and data determined these actions combined address the needs of the whole child, including basic needs, and mental and emotional needs. SBCSS is addressing this goal by employing actions such as working with behavior health counselors, utilizing instructional materials, assessments, and resources that provide students with the future ready skills necessary to be successfully prepared for the future.

For the 2023-24 school year, SBCSS met the criteria to include specific goals in the 2023-24 LCAP due to three years of low performance in specific priority areas within specific subgroups. The actions and metrics included in this goal contribute toward improved outcomes for low-performing student groups in the areas of English language Arts, Math, and English Learner achievement/progress. The actions, metrics, and expenditures included will help achieve the outcomes identified as they focus on providing individual and targeted student supports and staff training needed to increase student achievement.

## Measuring and Reporting Results

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
4	Expelled Youth: SBCSS will ensure expelled youth receive access to a continuum of services for successful transition back to their district of residence and completion of graduation requirements.	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 9: Expelled Pupils – COEs Only (Conditions of Learning)

An explanation of why the LEA has developed this goal.

As a county office, SBCSS provides technical assistance and leadership, and collaborates with school districts to coordinate instruction of expelled students. This goal addresses those supports necessary to ensure expelled youth receive access to a continuum of services through inter-agency collaboration and tracking. SBCSS is addressing this goal by the following actions and services: child welfare and attendance meetings will be offered to promote networking and collaboration amongst districts and pupil expulsions will be documented and disseminated to all needed parties.

## Measuring and Reporting Results

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
5	<p>Foster Youth: SBCSS will increase the coordination of foster youth programs and services to ensure equitable opportunities and outcomes for foster youth.</p> <p>Over the course of the next three-year cycle, SBCSS will increase graduation rates, college and career pathway completion and reduces the suspension rate for foster youth at both the Community Schools (CS) and Juvenile Court Schools (JCS).</p>	Focus Goal

State Priorities addressed by this goal.

Priority 10: Foster Youth – COEs Only (Conditions of Learning)

An explanation of why the LEA has developed this goal.

As a county office, SBCSS provides technical assistance and leadership, and collaborates with school districts to coordinate instruction, supports and resources for foster youth. Foster youth have identified needs and support in the areas related to building leadership skills, transition from high school to college/career, computer technology advancement, resiliency, and other areas associated with successful transition to adulthood. These actions combined help achieve the goal through coordination of resources, offering opportunities that promote student achievement, and accompanying supports to ensure equitable opportunities and outcomes for foster youth.

In addition, over 5% of SBCSS alternative education students are foster youth. On average each year, approximately 16% of foster youth are suspended at least once, less than 60% graduate, and almost 100% are below grade level upon entering the program. Foster youth are also amongst the group of students experiencing the greatest gaps in learning during the pandemic necessitating even greater supports and services to close this achievement gap. SBCSS is addressing this goal by ensuring policies and procedures are in place to immediately identify and enroll foster youth, training liaisons to identify foster youth and their needs, providing culturally responsive activities to students and training to staff, and providing targeted interventions based on the individual assessed needs for each individual student.

Case management, mentoring, educational support, and transition support are the priorities for FYSCP program. In addition, remote communities are a major target for the foster youth services coordinated programs (FYSCP) this year, helping to make sure that youth living in small communities are able to participate in opportunities. A major focus for events is engagement and the transition from high school to college/career. Approximately 160 youth have participated in statewide summits, served on youth panels at events, or participated in leadership roles in planning and development. Also, approximately 1,200 youth are engaged and participating in school-based mentoring across the county. Over 2,500 records requests, educational rights notification, and youth event participations have also been recorded.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Current policies and procedures regarding foster youth, including enrollment, credit attainment, and supports.	SBCSS Board policies are current, sample template board policies for LEA's have been shared. LEA's have reported having updated board policies. All 33 LEA's have access to foster focus, CALPADS, and meet the ESSA school stability requirements using a countywide transportation plan established through the Foster Care Advisory Council.			Maintain and update as necessary board policies and procedures.	
5.2	Number of Foster Care Advisory Council meetings offered each year (agendas, minutes, etc.). (State Priority 10A,B)	Six Foster Care Advisory Council meetings have been held. Focus for this year has been on establishing practices for discipline notification statewide for youth in foster care suspended for a period longer than one class period. This notification is made to attorney, social worker, and education rights holder of the youth. This is a statewide effort to ensure notification			Provide a minimum of 5 Foster Care Advisory Council meetings a year.	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		regardless of county of jurisdiction.				
5.3	Number of culturally responsive activities/events that promote student achievement, physical fitness, resiliency, and mentorship opportunities. (State Priority 10)	Approximately 60 culturally responsive activities have been provided to approximately 6,000 attendees. In an attempt to be more equitable emphasis has been placed on providing multiple options and venues. Opportunities has been provided virtually, at school sites, district wide, county wide, region wide, statewide, and nationally.			Maintain offering at least 50 culturally responsive events/activities each year.	
5.4	Percent of foster youth participating in extended earning/enrichment opportunities as measured by supplemental attendance tracking.	Approximately 90% of San Bernardino dependents have received at least one service from the San Bernardino FYSCP. Depending on the needs of the youth services range from notification of Educational Rights Holder, assistance with records retrieval, numerous youth events focusing on college/career, school-based mentoring, post-secondary support			90% of foster youth participate in extended learning/enrichment opportunities.	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		programs, and many other collaborative efforts with LEAs and partners.				

## Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable.

## Actions

Action #	Title	Description	Total Funds	Contributing
5.1	Policy and Procedures	<p>(a) The Foster Youth Services Coordinating Program (FYSCP) will establish policy and necessary data infrastructure to support and monitor the educational success of FY (i.e., CALPADS, County SIS, Foster Focus).</p> <p>(b) The FYSCP will ensure SB County 33 school districts use policy and procedures necessary to ensure FY are promptly enrolled and awarded credits for all work completed, including partial credits (per CA Ed. Code 48853.5 and 51225.2).</p>		

Action #	Title	Description	Total Funds	Contributing
<b>5.2</b>	Liaison Training	<p>The Foster Youth Services Coordinating Program (FYSCP) will ensure all school liaisons for FY (including SBCSS) have training and policy guidelines on FY rights, and they will provide ongoing consultation to school level staff and collaborate internally and externally with stakeholders (San Bernardino County Probation, 33 District Child Welfare and Attendance representatives and Foster Youth Liaisons, Department of Behavioral Health, and Juvenile Justice Representatives) [per CA Ed.Code 48853.5].</p> <p>*Costs are encompassed in Goal 5 Action 1 budgeted expenses.</p>		
<b>5.3</b>	Culturally Responsive Activities/Events	<p>The FYSCP will coordinate with the Alliance for Education to ensure County Schools FY have the opportunity to participate in culturally responsive activities/events that promote student achievement (including graduation and post-secondary opportunities), physical fitness, resiliency and mentorship. Participation in activities/events will also be available to enrolled AE students as funding permits.</p> <p>*Costs are encompassed in Goal 5 Action 1 budgeted expenses.</p>	\$247,141.00	
<b>5.4</b>	Academic Achievement	<p>SBCSS will provide foster youth with increased learning and enrichment opportunities, such as tutoring, summer school, etc. based on data informed needs.</p> <p>*Costs are encompassed in Goal 1 Action 7 budgeted expenses.</p>	\$2,263,228.00

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	<p><b>Action:</b> English Language Proficiency</p> <p><b>Need:</b> English Learner Progress is at 38.9% (15.3% increase). Educational partners feedback supports the continued focus on English language acquisition for the English learner population.</p>	<p>This action will improve the implementation of additional English language supports to increase English language acquisition for the English learner subgroup. The goal of these increased efforts is to demonstrate growth in EL language acquisition as demonstrated in the increased percentage of reclassified students and EL Progress data.</p> <p>These actions are being provided on a schoolwide basis due to ELA data and educational partner feedback indicating that all students will benefit</p>	Effectiveness will be measured by Metric 1.3.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<b>Scope:</b> Schoolwide	from these actions. Because the actions meet the need to provide targeted instruction and individual and small group supports, we expect to see improvement for all students.	
<b>1.4</b>	<b>Action:</b> Students with Disabilities  <b>Need:</b> This action is determined based on academic indicators as well as educational partner feedback. There is a continued need to monitor students' progress toward meeting IEP goals, as well as continued training of staff and parents on special education and 504 plan process and services.  <b>Scope:</b> Schoolwide	Professional development is necessary to ensure staff is trained on how to provide specialized instructional support and monitor student progress towards meeting IEP goals. Educational partners identified this as a continuing action in supporting the academic achievement of students.  These actions are being provided on a schoolwide basis and we expect that the strategies will benefit low-income students in this student group.	Effectiveness will be measured by Metric 1.5.
<b>1.5</b>	<b>Action:</b> Paraeducator Support  <b>Need:</b> Unduplicated students continue to need additional support in ELA and Math. Based on educational partner feedback, there is a request to expand supports of paraeducators to one per classroom. Through assessment data and educational partner feedback, there is a continued focus on designing instruction focused on closing learning gaps for low-income students. Educational partners and SBCSS identified paraeducators in the classroom as one strategy which offers	This action is to increase the academic support in each Alt Ed classroom. Although the action is principally directed to unduplicated youth, it will support all students in the Alt Ed programs. The paraeducator ratio over the prior three-year LCAP was 2:1, but educational partners identified a 1:1 ratio as a priority to close the achievement gap of low-income students.  These actions are being provided on a schoolwide basis and we expect that all students will benefit from these actions. However, because of the significantly greater number of low-income students needing support, and because the actions meet the need to provide targeted instruction and individual and small group	Effectiveness will be measured by Metric 1.6.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>additional individual and small group support to low-income students, including primary language support and translation when needed. Training is also necessary to ensure paraeducators and additional support staff are trained in research-based programs and services shown to increase low-income student achievement at higher rates than non-low-income students.</p> <p><b>Scope:</b> Schoolwide</p>	<p>supports, we expect to see improvement for all students.</p>	
<b>1.8</b>	<p><b>Action:</b> Long-term English Learners</p> <p><b>Need:</b> There are 115 students who qualify as LTELs (Ellevation 2024). This is the first year that LTELs will be identified as a unique student group on the CA Dashboard. Based on this data and educational partner feedback, additional supports are needed improve language acquisition of our LTEL subgroup.</p> <p><b>Scope:</b> Schoolwide</p>	<p>The actions will focus on improving language acquisition of the LTELs. By focusing on the elements required for reclassification, SBCSS will add supports needed to meet requirements for students to be reclassified.</p> <p>These actions are being provided on a schoolwide basis due to ELA data and educational partner feedback indicating that all students will benefit from these actions. Because the actions meet the need to provide targeted instruction and individual and small group supports, we expect to see improvement for all students.</p>	Effectiveness will be measured by Metric 1.9.
<b>2.1</b>	<p><b>Action:</b> Attendance and Chronic Absenteeism</p> <p><b>Need:</b></p>	<p>SBCSS is addressing this need by providing supports, such as transportation assistance and translation services to increase parent support, to help remove barriers student face in getting to school. SBCSS believes</p>	Effectiveness will be measured by Metric 3.1

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>CA Dashboard showed that 41.9% of English learner students were chronically absent in 2022-2023. Educational partners also identified the need for improved student participation as a unique need for our English learner population. This data point describes the unique needs of English learner students to build school connectedness and providing supports for the student and family related to why they don't attend regularly. In addition, the data shows a need for tiered reengagement strategies that continually monitor student attendance and address chronic absenteeism.</p> <p><b>Scope:</b> Schoolwide</p>	<p>this action will impact English learner attendance rates at a higher rate than non-English learner students as evidence by improved attendance rate percentages and decreased chronic absenteeism related to the English learner population.</p>	
2.2	<p><b>Action:</b> Graduation Rates and Guidance Support</p> <p><b>Need:</b> A breakdown of the graduation rate by subgroups shows that English learners had a 44.2% graduation rate, compared to the overall graduation rate of 49.5%. These data points describe the unique needs of English learners to have actions related to increasing the graduation rate of English learners. In addition, educational partners identified this action as a continued need, especially due to the low graduation rate of unduplicated pupils, English learners in particular.</p> <p><b>Scope:</b></p>	<p>SBCSS plans to minimize these gaps in subgroup graduation rates by increasing parent/student information and supports related to what is needed to graduate, but also to provide academic counseling support directly to students so they know what is needed to graduate and have support in building an academic plan to obtain that goal. This action is being provided on a schoolwide basis and we expect that all students will benefit and graduate high school within four years.</p>	<p>Effectiveness will be measured by Metric 2.2.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
<b>2.3</b>	<p><b>Action:</b> School Climate and Culture</p> <p><b>Need:</b> Educational partner feedback identified school climate, including parent involvement and student engagement as top current challenges for the 90% low-income population in the SBCSS Alternative Education (AE) programs. Educational partners expressed the unique needs of low-income students is a continual need to have positive interactions, timely communication, and community outreach and the importance of the student/teacher relationship to keep students engaged.</p> <p><b>Scope:</b> Schoolwide</p>	<p>SBCSS believes these actions working together provide the support and resources to expand the efforts of SBCSS to engage families, connect them to community resources, and continue building strong student/teacher and parent/teacher relationships to increase low-income student attendance, participation, and ultimately achievement. Parent and student surveys demonstrated that PBIS strategies are successfully being implemented and working toward creating a positive school culture. Educational partners determined the positive school culture created by PBIS strategies needs to be continued and expanded.</p>	Effectiveness will be measured by Metric 3.1
<b>3.1</b>	<p><b>Action:</b> College and Career Exploration and Experiences</p> <p><b>Need:</b> Data shows that only 0.5% of the low-income subgroup and no English learners or foster youth rated in either prepared or approaching on the dashboard CCI indicator, demonstrating students would benefit from guidance toward career interests so they are better prepared for</p>	<p>SBCSS is offering to meet these unique needs by utilizing a career interest inventory to determine areas of interest and strength and offering career technical education in a variety of courses based on the interests of students within the subgroups.</p> <p>To ensure the action successfully moves students toward college and career preparation, metrics closely related to student achievement have been added. SBCSS will continually monitor student progress and modify the action as needed through continuous improvement.</p>	Effectiveness will be measured by Metric 3.1

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>post-secondary opportunities.</p> <p><b>Scope:</b> Schoolwide</p>		
<b>3.2</b>	<p><b>Action:</b> Supplemental Instructional and Assessment Materials</p> <p><b>Need:</b> STAR Assessment data showed that 58.1% of students who were enrolled for a length of time to take a pre- and post-assessment, improved in ELA and 61.3% improved in Math. Based on these and other local assessment data points, educational partners identified low student engagement and academic proficiency as unique needs of these subgroups.</p> <p><b>Scope:</b> Schoolwide</p>	<p>These unique needs are being addressed by incorporating instructional strategies and materials that are engaging and utilize multiple modalities to address the differing learning styles of students in these subgroups. This action is being provided on a schoolwide basis and we expect that all students will benefit from these actions. However, because of the significantly greater number of low-income students who need to improve in their ELA and math skills, and because the action meets the needs identified as increasing low-income student engagement and academic proficiency, we expect that the percent of proficient students will increase.</p>	<p>Effectiveness will be measured by Metric 1.3 and 3.2</p>
<b>3.3</b>	<p><b>Action:</b> Counseling Center</p> <p><b>Need:</b> This action addresses the needs of the whole child, including basic needs and mental and emotional needs. The 2023-24 Child Adolescent Needs and Strengths Assessment (CANS) 2.0 assessment tool reported Improvement changes in: School Attendance- 44.7%</p>	<p>This action is being provided on a schoolwide basis. SBCSS understands that t that all students continue to be impacted post-pandemic, and thus, will benefit from this action. However, because of the significantly greater number of low-income students who need support in meeting their basic needs as well as mental and emotional supports, and because the action meets the needs identified as providing mental health and clinical services, we expect that low-income students will have significantly better CANS aggregated scores that the CANS aggregated scores of all students.</p>	<p>Effectiveness will be measured by Metric 3.3</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>School Achievement- 53.8% School Behavior- 58%</p> <p>In addition to the CANS data, educational partners determined the low-income subgroup in particular would benefit from increased mental health and clinical services. This action is a continued action from the 2019-2023 LCAP. Due to continuing needs brought on by the pandemic, educational partners requested the action continue as a support to low-income students to receive mental, social, and emotional health services.</p> <p><b>Scope:</b> Schoolwide</p>	<p>There is a need to continue to support students in improving in the areas of attendance, achievement and behavior. The Counseling Center team will continue to provide direct services to the unduplicated student population. They provided a variety of resources to support in the areas of attendance, achievement and behavior.</p>	
<b>3.4</b>	<p><b>Action:</b> Professional Development</p> <p><b>Need:</b> CA Dashboard shows that 15.8%% of foster youth are suspended at least once, less than 60% graduate, and almost 100% are below grade level upon entering the program.</p> <p><b>Scope:</b> Schoolwide</p>	<p>Educational partners identified additional teacher training in targeted interventions and supports, behavior management, special education, and section 504 plans as actions that will contribute to decreased suspension of foster youth and increased targeted interventions to address foster youth graduation rates and academic achievement. SBCSS is confident by training teachers, the action will increase the percentage of foster youth academic gains.</p>	<p>Effectiveness will be measured by Metric 3.4</p>

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
-------------------	--------------------	---	------------------------------------

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

**Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## Requirements and Instructions

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

### Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

**Comprehensive Support and Improvement**

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

*Schools Identified*

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

*Support for Identified Schools*

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

*Monitoring and Evaluating Effectiveness*

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**

**Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

**Requirements**

**School districts and COEs:** *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## Instructions

### Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

### Complete the table as follows:

#### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

#### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

**Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

## Broad Goal

### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

### State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

**Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

#### Metric #

- Enter the metric number.

#### Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

#### Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2026–27</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

**Actions:**  
Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

## Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

## Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

### Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

#### LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

#### Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

## Required Descriptions:

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

#### Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

#### How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

### **Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

### **How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

### Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

### **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.  
  
The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
