LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Carlsbad Unified School District
CDS Code: 37 73551 0000000
School Year: 2026-27
LEA contact information:
Bryan Brockett, Ed.D
Assistant Superintendent
bbrockett@carlsbadusd.net
(760) 331-5013

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

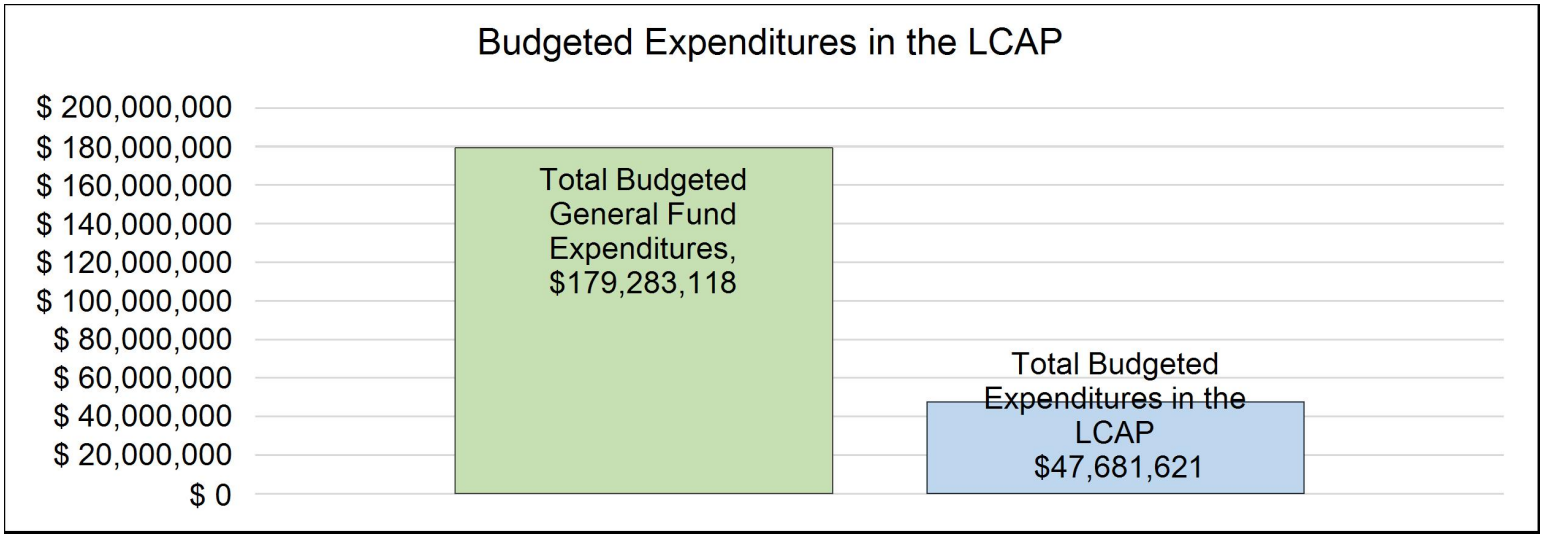

This chart shows the total general purpose revenue Carlsbad Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Carlsbad Unified School District is $179,263,891, of which $138,240,724 is Local Control Funding Formula (LCFF), $21,370,104 is other state funds, $15,261,996 is local funds, and $4,391,067 is federal funds. Of the $138,240,724 in LCFF Funds, $6,153,721 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Carlsbad Unified School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Carlsbad Unified School District plans to spend $179,283,118 for the 2026-27 school year. Of that amount, $47,681,621.00 is tied to actions/services in the LCAP and $131,601,497 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

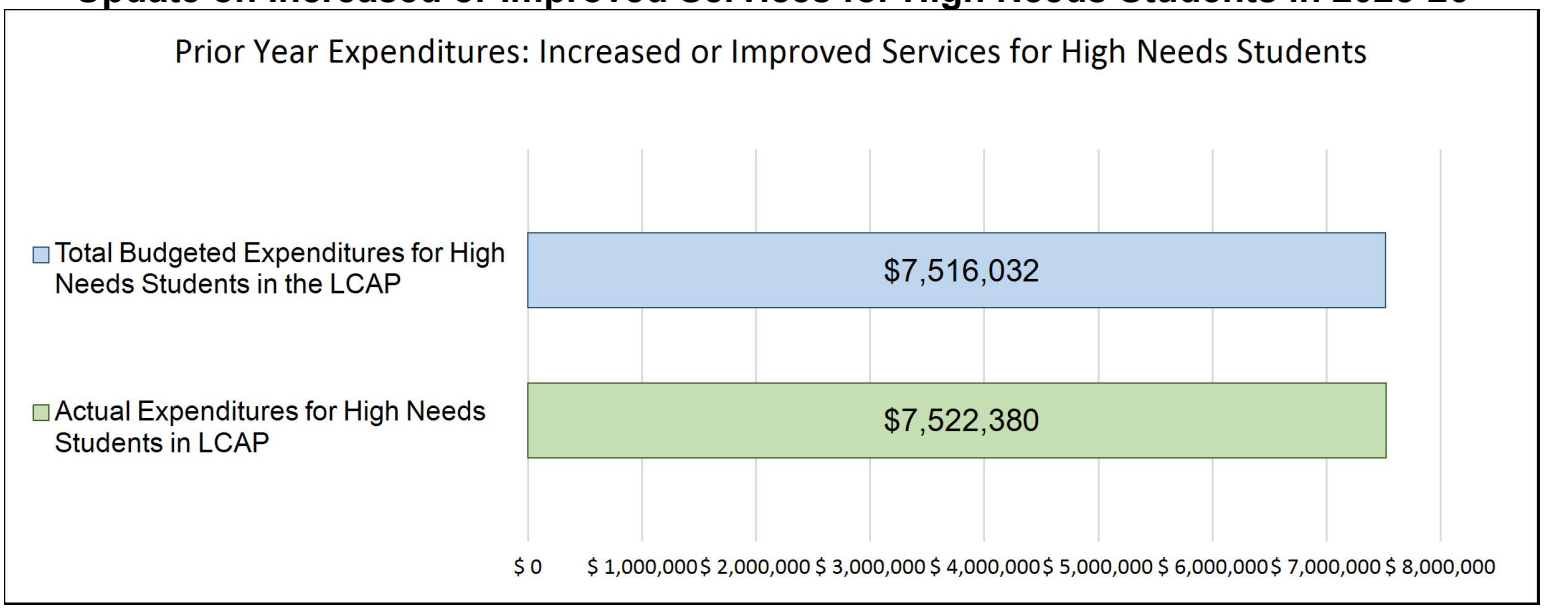

The budgeted expenditures include allocations for general education teachers, materials and supplies, and several fixed costs for services and operations to include rent, utilities, insurance, and other professional services.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Carlsbad Unified School District is projecting it will receive $6,153,721 based on the enrollment of Foster Youth, English learner, and low-income students. Carlsbad Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Carlsbad Unified School District plans to spend $6,643,160.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Carlsbad Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Carlsbad Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Carlsbad Unified School District's LCAP budgeted $7,516,032.00 for planned actions to increase or improve services for high needs students. Carlsbad Unified School District actually spent $7,522,380.00 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

CUSD provides a comprehensive curriculum, enabling all students to excel as they meet the challenges and opportunities of our changing world. All of our Carlsbad Unified schools offer students the means to succeed by providing programs that maximize the abilities, talents, and interests of each individual. The Carlsbad Unified School District has nine elementary schools that feed into three middle schools, two high schools, a continuation high school and an independent study program. CUSD serves approximately 10,708 students, 30% of which are designated as socioeconomically disadvantaged. Approximately 4% of CUSD students are classified as English Learners, and approximately 16% receive Special Education services. Significant student groups include 26% of students identifying as Hispanic, approximately 56% identifying as White, and 10% identifying as two or more races.

The district's mission for all students is "We provide every student an extraordinary education in an inspiring environment." Combined with our core values of integrity, excellence, respect, and accountability for students and staff, we create positive learning environments where students and staff thrive.

CUSD is also committed to preparing students for life beyond high school. The CUSD program includes the "CUSD Graduate Profile," adopted by our School Board in 2014-15. The Profile includes qualities and skills of CUSD Graduates that prepare them for success. These skills include being an effective communicator and collaborator, a lifelong learner, a critical thinker, a college and career ready scholar,an ethical and responsible citizen, and a self directed individual.

CUSD has also instituted three year strategic plans in the areas of Technology, Career Pathways, and the Forward Together Plan focused on Diversity, Equity, Inclusion, and Belonging. Each of these plans highlight targeted goals and metrics that are to be achieved each year. Updates on these plans are brought back annually in a public board meeting to make adjustments, report on annual metrics, and gather feedback.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

With the support and guidance of a new Superintendent for the 2025-26 school year, we remain committed to maintaining the strength of our programs and continuing progress toward our established goals. We continue to be focused on ensuring stability, continuity, and clear communication across all initiatives. We remain grounded in our shared vision and strategic priorities and will continue working collaboratively to support students, staff, and families.

Carlsbad Unified continues to see high levels of performance on the 2025 California Dashboard with ELA at Blue and Math at Green. We are particularly proud of our English Learner Progress, which was in the Green indicator level, reflecting focused work over the past several years to update the District's EL Master Plan and provide additional ELD support staff.

The College and Career Indicator and Graduation Rate are both in the Blue indicator for all students and all student subgroups are in the Blue or Green indicator level for Graduation Rate. The Suspension Rate remains low overall. On the local STAR assessment for ELA and Math, students demonstrating high or typical growth between fall and mid-year was 72% in ELA and 70.4% in math. Additionally, students meeting or exceeding end of the year standards on the STAR assessment was 73.4% in ELA and 64.2% in Math. On the spring 2025 SBAC, students meeting/exceeding standards was 71% in ELA and 62% in math. On the CAST, 58% of students met/exceeded standards. In the graduating class of 2025, 81% of students met a-g requirements; 84% of students were enrolled in an honors, advanced, or college-level course; and the Advanced Placement pass rate was 88%.

Student groups within the district that received the lowest performance level on one or more state indicators on the 2025 Dashboard:
Long-Term English Learners for ELA, Math, Science, and Chronic Absenteeism

Schools that received the lowest performance level on one or more state indicators on the 2025 Dashboard:
Carlsbad Village Academy - College and Career (All Students)

Learning Recovery Emergency Block Grant (LREBG): The District has $41,984 of unused LREBG funds for 2025-26 that will be utilized in 2026-27, along with an anticipated 206,828 of new LREBG funds for 2026-27. These funds will be utilized in support of Goal 2, Action 2.11, to provide additional counseling support for social emotional support, college and career readiness, and student well being. Needs assessment conducted through educational partner feedback and program evaluation have identified a need for additional counseling support, including attention to consistent counselor access and consideration of counseling caseloads. According to the American School Counselor Association (ASCA): "Several studies have noted that smaller ratios support increases in standardized test performance (Parzych et al., 2019), attendance (Carey et al., 2012), GPA (Goodman-Scott et al., 2018) and graduation rates (Lapan & Gysbers, 2012), as well as decreased disciplinary infractions (Carrell & Carrell, 2006; Lapan et al., 2012). Additional studies have shown that lower ratios also increase the likelihood of students having conversations with school counselors regarding college-going and postsecondary plans (Bryan et al., 2009;

Danos, 2017; Engberg & Gilbert, 2014; Hurwitz & Howell, 2013; Woods & Domina, 2014; Lapan et al. 2019)." Additionally, Brown & Knight (2024) note the need for intentional planning and targeted investment to provide additional counselor support, which has been correlated to the variety of positive outcomes identified above.

Student groups within a school that received the lowest performance level on one or more state indicators on the 2025 Dashboard:
Calavera Hills Elementary: ELs for ELPI
Poinsettia Elementary: EL and Socioeconomically Disadvantaged for Chronic Absenteeism
Aviara Oaks Middle School Students with Disabilities for ELA and Chronic Absenteeism
Calavera Hills Middle: Students with Disabilities for ELA and Chronic Absenteeism
Valley Middle: Students with Disabilities for ELA and Chronic Absenteeism
Carlsbad High School: Students with Disabilities for Science

Below is a copy of the 2024 California Dashboard information for CUSD:

Schools that received the lowest performance level on one or more state indicators on the 2024 Dashboard:

Jefferson Elementary for Chronic Absenteeism and English Learner Progress

Student groups within the district that received the lowest performance level on one or more state indicators on the 2024 Dashboard:
Long-Term English Learners for ELA and Math Performance
African American and Homeless for Chronic Absenteeism

Student groups within a school that received the lowest performance level on one or more state indicators on the 2024 Dashboard:
Jefferson Elementary: English Learners for English Learner Progress, English Learners, Socioeconomically Disadvantaged, Students with Disabilities, and Hispanic for Chronic Absenteeism, Hispanic, for Chronic Absenteeism, English Learners and Students with Disabilities for English Language Arts
Kelly Elementary: Socioeconomically Disadvantaged for Suspension Rates
Magnolia Elementary: Socioeconomically Disadvantaged for Suspension Rates
Poinsettia Elementary: English Learners for Chronic Absenteeism and Students with Disabilities for English Language Arts
Aviara Oaks Middle School: English Learners for Chronic Absenteeism and Students with Disabilities for Math
Valley Middle: English Learners, Long-Term English Learners and Students with Disabilities for English Language Arts and English Learners and Students with Disabilities for Math
Carlsbad High: Students with Disabilities in ELA and Math
Carlsbad Village Academy: Hispanic for Suspension Rate; Socio-Economically Disadvantaged for Suspension Rate, Graduation Rate, and College/Career

It is important to note a significant increase in the socioeconomically disadvantaged designation from 21% in 2023-24 to 30% in 2024-2025.

Below is a copy the 2023 California Dashboard information for CUSD:

Carlsbad Unified continues to see high levels of performance on the 2023 California Dashboard with ELA at very high, Math at high, Graduation Rate at very high, Suspension Rate at low for the all students group, and high regarding College/Career readiness. On the local STAR assessment for ELA and Math, students demonstrating high or typical growth between fall and mid-year was 69% in ELA and 70.4% in math. Additionally, students meeting or exceeding end of the year standards on the STAR assessment was 73.1% in ELA and 57.2% in Math. On the spring 2023 SBAC, students meeting/exceeding standards was 74.1% in ELA and 62% in math. On the CAST, 57% of students met/exceeded standards. For college and career readiness, the graduation rate was 95%; 84% of students met a-g requirements; 80.4% of students were enrolled in an honors, advanced, or college-level course; and the Advanced Placement pass rate was 84%.

Schools that received the lowest performance level on one or more state indicators on the 2023 Dashboard:
Buena Vista and Kelly Elementary for Chronic Absenteeism
Aviara Oaks Middle School for English Learner Progress
Carlsbad Village Academy for Graduation Rate, Suspension Rate, and College/Career
Student groups within the district that received the lowest performance level on one or more state indicators on the 2023 Dashboard:
African American, English Learners, and Foster Youth for Suspension Rate
English Learners and Homeless for Graduation Rate

Student groups within a school that received the lowest performance level on one or more state indicators on the 2023 Dashboard:
Buena Vista Elementary: Hispanic for Chronic Absenteeism
Calavera Hills Elementary: Hispanic and Students with Disabilities for Suspension Rate
Jefferson Elementary: English Learners for English Language Arts
Kelly Elementary: Hispanic, Two or More Races, Students with Disabilities, and White for Chronic Absenteeism
Magnolia Elementary: Hispanic and Socio-Economically Disadvantaged for Chronic Absenteeism
Aviara Oaks Middle: English Learners for English Learner Progress
Calavera Hills Middle: English Learners for Suspension Rate and Math; Students with Disabilities for Math
Valley Middle: Two or More Races and White for Chronic Absenteeism
Carlsbad High: English Learners for Suspension Rate
Carlsbad Village Academy: Hispanic for Suspension Rate; Socio-Economically Disadvantaged for Suspension Rate, Graduation Rate, and College/Career

CUSD has included more detailed spreadsheets outlining the specific actions that address the low performance. This document is linked as an attachment.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

CUSD is no longer identified for Differentiated Assistance due to progress made through targeted districtwide efforts focused on Multilingual Learners, MTSS, and Universal Design for Learning (UDL). On the 2025 California Dashboard, English Learners maintained performance out of the red band. The district wrapped up its collaboration with the San Diego County Office of Education Technical Assistance provider with the release of the 2025 Dashboard in November.

Over the past three years, the district has narrowed its focus on strengthening early and consistent English Language Development (ELD) and building stronger MTSS structures across schools. Key actions included continued implementation of the English Learner Master Plan, adding an ELD TOSA to support best-first instruction for multilingual learners, continuing MTSS coaches in elementary and middle schools, and implementing a districtwide instructional focus on UDL. UDL continued to be a consistent instructional focus during the 2025-26 school year, with an emphasis on strengthening Tier 1 classroom-based instruction for all learners. The district also expanded its focus to data-based decision-making, improving grade-level and departmental collaboration protocols, and developing clearer entry and exit criteria for Tier 2 supports.

While the district is no longer identified for Differentiated Assistance, targeted support planning remains in place for identified schools. Poinsettia Elementary School was identified for ATSI due to chronic absenteeism among English Learners, and Carlsbad Village Academy remains identified for CSI based on graduation rate. Both schools have developed targeted plans and actions to address these areas of need.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Carlsbad Village Academy

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Carlsbad Village Academy, a Dashboard Alternative School Status (DASS) school identified for Comprehensive Support and Improvement (CSI) due to graduation rate, will continue implementation of targeted improvement strategies during the 2026-27 school year in collaboration with Carlsbad Unified and educational partners. CSI funds supported interventions focused on student engagement, attendance, social-emotional wellness, credit attainment, and postsecondary readiness.

During the 2025-26 school year, Carlsbad Village Academy continued ongoing needs assessment and root cause analysis through staff collaboration, SST and MTSS meetings, student voice surveys, family communication, and review of multiple data sources, including attendance trends, credit attainment, STAR and MDTP data, Kelvin survey results, and graduation indicators.

This analysis reinforced several key needs impacting graduation outcomes, including chronic absenteeism, significant credit deficiencies among newly enrolled students, and the need for personalized, relationship-centered supports that increase engagement and relevance for students. The school also identified continued needs related to social-emotional wellness, mental health supports, and effective instructional practices for English Learners.

Based on first-semester data, the school reduced chronic absenteeism by more than 30% and demonstrated consistent growth in student credit attainment, validating the school's focus on attendance, social-emotional learning, and relevant, personalized learning experiences. Additionally, the school recorded only one suspension during Fall 2025, the lowest suspension rate in 12 years, reflecting the positive impact of trauma-informed and preventative practices.

During the 2025-26 school year, CSI-funded interventions included continued support for an Intervention Counselor, MTSS systems, mentoring partnerships, and school redesign planning aligned with evidence-based practices under ESSA.

The Intervention Counselor provided targeted case management, attendance outreach, Tier 2 and Tier 3 supports, graduation planning, and coordination of family communication and postsecondary planning. These supports align with evidence-based dropout prevention and student engagement practices identified by the What Works Clearinghouse.

The school also strengthened student wellness and engagement supports through partnerships with Boys to Men Mentoring and Vista Community Clinic's RAP-A program, which provides mentoring, emotional resilience supports, and mental health services designed to address barriers to academic persistence.

Additionally, Carlsbad Village Academy launched a Big Picture Learning transformation process to redesign the school around relevance, personalization, student agency, and real-world learning connections. This work included staff visioning sessions, advisory redesign planning, leadership site visits to model programs, and professional learning focused on project-based and community-based learning structures. These efforts are intended to create more meaningful and engaging pathways for students who have historically experienced disconnection from traditional school models. The school will continue its partnership with Big Picture Learning for the 2026-27 school year.

The ongoing needs assessment continued to identify inequities related to student engagement, access to personalized learning pathways, mental health supports, credit recovery opportunities, and postsecondary readiness experiences. Additional inequities included the need for stronger systems of intervention and professional learning aligned to Designated ELD, UDL, and MTSS practices.

CSI funding has supported efforts to address these inequities through continued implementation of the Intervention Counselor role, MTSS coordination, expanded mentoring and mental health partnerships, professional learning aligned to Big Picture Learning and UDL practices, and strategic planning time for staff to strengthen advisory systems, project-based learning, and community-connected learning opportunities.

These strategies are aligned to LCAP Goals 1.3, 1.5, 2.6, and 2.8, SPSA Goals 1 and 2, and the overarching CSI goal of improving graduation outcomes by creating conditions in which students are engaged, supported, and prepared for life beyond high school.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The plan will be monitored through a continuous improvement cycle that includes regular review of student academic, engagement, and postsecondary readiness data. Student progress will be tracked through EduClimber and local data systems, including attendance, chronic

absenteeism, grades, credit attainment, graduation status, CAASPP, STAR, and MDTP assessment results, dual enrollment participation, work-based learning experiences, and college and career readiness indicators. The Intervention Counselor, MTSS teacher, counselors, and site leadership team will review student-level data monthly to identify students in need of additional support and determine the effectiveness of current interventions.

Progress toward SPSA goals will be discussed quarterly during staff and department meetings, with a focus on attendance trends, credit recovery, graduation monitoring, student engagement, and participation in Futures Academy, work-based learning, advisory, and other learner-centered experiences. Parent engagement data, including participation in school events, conferences, and surveys, will also be reviewed quarterly. School climate data, including Kelvin survey results, behavioral data, and student connectedness measures, will also be analyzed to monitor progress toward improving student engagement and school belonging.

Effectiveness will be measured by improvements in graduation rates, reductions in chronic absenteeism and disciplinary incidents, increases in credit attainment, improved participation in college and career readiness opportunities, and stronger student engagement and connectedness indicators. Semi-annual reviews of Dashboard metrics, local assessment data, and progress-monitoring reports will be conducted with staff, School Site Council, and district leadership.

If data indicate that students are not making expected progress, the school will adjust interventions by modifying attendance supports, increasing counseling or academic intervention services, refining advisory and learner-centered practices, expanding family outreach efforts, and strengthening partnerships that provide authentic learning and career-connected experiences. Findings from these reviews will be used to inform ongoing implementation of their SPSA, the District support of porgrams, and ensure resources remain aligned to the greatest student needs.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
District English Learner Advisory Committee (DELAC)	Standing consultation group that meets four times per year to provide input and feedback on the LCAP Goals and Success Indicators, district priorities, and EL program. The LCAP was specifically reviewed and discussed through this lens at the November 5, 2025 and January 27, 2026 meetings.
Student/Superintendent Advisory Committee (SSAC)	Standing consultation group that meets monthly to discuss, provide input and feedback on the LCAP Goals and Success Indicators and district priorities. Questions and concerns are openly discussed and reports from sites are provided. The LCAP was reviewed and discussed at the February 11, 2026 meeting.
Special Education Advisory Committee (SEAC)	Standing consultation group that meets monthly to provide input and feedback on the LCAP Goals and Success Indicators and district priorities. (Including SELPA representation) The committee discusses special education support in CUSD and is an opportunity for parents to network with each other and ask questions of staff. Input was provided at SEAC meetings on September 19, 2025; October 17, 2025; and January 30, 2026.
Carlsbad Unified Teachers' Association (CUTA)	Standing consultation group that meets monthly to provide input and feedback on the district's goals and priorities. Representatives from the district office and each grade span discuss needs and alignment to district programs, resources, and communication. The LCAP was reviewed and discussed at the February 26, 2026 meeting.
Carlsbad Educational Foundation Board of Directors	CUSD and the Foundation have an annual meeting to provide feedback and input regarding LCAP Goals and Success Indicators

Educational Partner(s)	Process for Engagement
	and district priorities. This meeting took place on February 26, 2026. Additionally, a site principal serves as a liaison on the Board and attends the foundation's monthly meetings to offer feedback and ensure collaborative discussion and decisions made around funding and programs in support of district goals.
Parent/Superintendent Advisory Council (PSAC)	Standing consultation group that meets monthly to provide input and feedback on the LCAP Goals and Success Indicators and district priorities. The LCAP was reviewed and discussed at the March 2, 2026 meeting.
Teacher/Superintendent Advisory Council (TSAC)	Standing consultation group that meets monthly to provide input and feedback on the LCAP Goals and Success Indicators and district priorities. The LCAP was reviewed and discussed at the March 2, 2026 meeting.
Site Principals and District Administrators	Site principals and district administrators have an annual meeting to provide feedback and input regarding LCAP Goals and Success Indicators and district priorities. The LCAP was reviewed and discussed at two separate meetings on February 3 and February 17, 2026.
Laborers' International Union of North America (LIUNA)	Standing consultation group that meets monthly to provide input and feedback on the LCAP Goals and Success Indicators and district priorities. Representatives from the district office and other school personnel from various classifications discuss needs and alignment to district programs, resources, and communication. The LCAP was reviewed and discussed at the February 19, 2026 meeting.
Joint Homeless and Foster Care Liaison Meetings	SDCOE Liaison Meetings that meet multiple times a year to discuss strategies and priorities for foster youth and homeless students. Meetings were held and attended by CUSD staff on January 13 and May 12, 2026.
Carlsbad Community	Thought Exchange survey was sent to all families, staff, and posted for community feedback during the month of February 2026.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In addition to the consultation meetings, an online survey/ThoughtExchange was launched to the Carlsbad community for the month of February, 2026. The purpose of the exchange was to gather input from families (specifically parents/guardians of unduplicated students), students, teachers, staff, and Carlsbad community members to identify strengths, priorities, and areas of focus to best meet the needs of

students in the district. The ThoughtExchange asked one question: “What actions should Carlsbad Unified prioritize over the next three years to improve outcomes for all students, including those with the greatest needs?”

The exchange was provided in multiple languages. The number of responses is as follows: Parents/Guardian = 740; Students = 2231; Classified Staff/other school personnel = 81; Certificated Staff = 267; Community Members = 37; Total Respondents = 3406

The information gathered through consultation groups and from survey responses was compiled and presented to the Board of Trustees in the LCAP Study Session. This informed revisions to the metrics and actions/services for the 2026-27 LCAP. A draft of the LCAP was provided to the Board of Trustees in May. The draft was posted on the website and shared with advisory committees for review and comment. Input was used to make further revisions to the plan and then it was presented at a Public Hearing in June.

The following themes were identified through an analysis of input provided from the consultation meetings and survey (Not listed in any particular order): 1) Prioritize mental health and counseling services for students, 2) Optimize learning conditions and behavioral standards, 3) Enhance instruction and academic growth, and 4) Lower class sizes

As a result of the input gathered from educational partners, LCAP metrics and actions/services were updated to address identified needs and priorities. Changes to the LCAP include:
1) Continue counseling support at the elementary level at 1.0 FTE at each site to provide mental health and academic supports for students and continue with additional secondary counseling support (Goal 1 Action 3, Goal 2 Action 8, Goal 2 Action 10)
2) Staff and student training to support positive school climate and response (Goal 2 Action 5)
3) Refine MTSS Model and Continue: TK-8 1.0 FTE MTSS Teachers; HS 1.0 FTE MTSS Support; HS Intervention Classes; Secondary Counselor Support; Supplemental funds for tutoring/intervention, and summer school (Goal 1 Action 3)
4) Continue to provide additional teachers at elementary school sites in grades 4-5 (Goal 1 Action 3)

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Ensure that students demonstrate academic growth and proficiencies so they leave TK-12 ready for college/career.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goal was developed to align with the CUSD Graduate Profile and identified as a need by educational partners and data analysis. Students' scores on state and local assessments in ELA and math indicate a need to continue actions specifically addressing the learning needs of specific student groups. Ongoing services to address students' social emotional and mental wellness was also identified as a need. Consistent implementation of the MTSS framework is also needed.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Description of Implementation:
1.1/1.2 Professional Learning: Staff support, including TOSAs and district and site staff, continued to support professional development and staff support for unduplicated students and all students. Targeted professional learning supported teachers in adopting instructional strategies that specifically address the needs of unduplicated student groups. For English Learners and Long-Term English Learners (LTELs) in particular, professional development included guidance on identification, evidence-based instructional practices, and progress monitoring. These efforts were led by site principals, ELD Teachers on Special Assignment (TOSAs), and curriculum partners to support progress toward reclassification. The district continued professional development on UDL strategies to support all learners, and particularly unduplicated students and students with disabilities.

1.3/1.4 Academic Interventions and Support: The addition of staff and supplemental services supported improved academic performance by addressing both academic and mental health needs. Increased support staff was designed to provide targeted assistance to students, particularly those requiring additional academic and social-emotional support. These actions included MTSS teachers at the elementary and middle school levels, summer school, additional counselors, and additional teachers (elementary) and sections (secondary) to mitigate class sizes. These actions were designed to benefit unduplicated students by addressing their specific needs through expanded access to

interventions and supports. At the same time, all students will benefit from the increased capacity to provide personalized and responsive support, contributing to overall gains in academic achievement.

1.5/1.6 English Learner Services: ELD support and training, ELPAC assessment support, and EL Resource Teachers provided support for English Learners in addition to core classroom instruction. The district continued implementation of the ELD Master Plan and shows continued growth in reclassification rates for English Learner students.

1.7 Site Funds: School sites developed plans to offer tutoring and/or additional intervention sections to support student learning. While these actions were primarily intended to address the needs of unduplicated students, they were also implemented on an LEA-wide basis to ensure broader impact and to improve academic outcomes for all students. This approach allows for equitable access to targeted supports while maximizing the effectiveness of available resources.

1.8 Special Education Services: Special Education support students with disabilities, including for unduplicated students, in the integration of students in general education settings, including support for the Preschool program, Special Day programs, Learning Center, Extended School Years, Adult Transition, and related service providers.

Summary of Progress:
During the 2025–26 school year, the district demonstrated mixed progress toward its academic and equity goals, maintaining stable performance while facing persistent gaps for specific subgroups. While ELA scores saw a minor decline and Math remained steady, California School Dashboard ratings improved for several key demographics, including socioeconomically disadvantaged (SED) students. Science performance held consistent overall, notably featuring a nearly 6% proficiency increase among students with disabilities (SWD). Local benchmarks including STAR and MDTP met growth targets, though the results highlight an opportunity to better utilize assessment data to drive daily classroom instruction.

English Learners showed significant improvement in language acquisition, successfully moving from Orange to Green on the state Dashboard. High school outcomes remain a major strength, with graduation rates climbing to 97.7% and A-G completion rates exceeding the district’s 80% target. Furthermore, nearly 84% of high schoolers are now enrolled in advanced coursework, reflecting a strong positive trajectory in college readiness. Despite these successes, the district acknowledges an ongoing need for effective interventions to bridge the performance gaps that still affect SWD and SED populations.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

1.3/1.4 - Shift in funding sources led to decrease in funds credited to action 1.3 and increase to 1.4, with the overall expenditure on those related actions and services $189,395 (3.1%) over budgeted amount. This difference is due to increased operating costs.

1.5 - English Learner Services exceeded budgeted expenditures by $36,197 (11.8%) due to increased operating expenses.

1.7 - Site Funds - Reduced revenue due to reduction in unduplicated student count resulted in reduced expenditures.

1.8 Special Education Services and Supports estimated actual expenditures to be approximately $22,790,686 (23.4%) due to increased costs for Special Education and related services

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The district continued to show mixed progress toward academic and equity goals in 2025–26. Challenges remain in demonstrating growth overall on CAASPP assessments and in bridging equity gaps for academic outcomes for specific subgroups, including English Learners (EL), Students with Disabilities (SWD), and socioeconomically disadvantaged (SED) students.

Academic Performance:
1.1 ELA: Overall SBAC scores dropped slightly (71.5% to 70.8%), but the Dashboard color ratings improved for all students (Green to Blue) and key subgroups, especially SED (Orange to Green) and SWD (Orange to Yellow). This may reflect positive impacts or MTSS teachers identifying and supporting students who were not meeting standards on state and local assessment measures. (Partially Effective)

1.2 Math: Scores remained stable (61.6% for two years), and end-of-year local benchmarks were similarly stable. Subgroup performance was mixed, but Dashboard indicators for some subgroups showed growth: Hispanic (Orange to Green) and SED (Orange to Yellow). (Partially Effective)

1.3 Science: CAST scores remained consistent as well (58.2% to 58.0%). EL and SED subgroups showed declines in percentages of students meeting or exceeding standards, while SWD increased by nearly 6% to 25.0% meeting or exceeding. (Partially Effective)

1.9, 1.10 & 1.12 STAR/MDTP Benchmarks: Both Math and ELA growth targets were met and overall winter administration proficiency is consistent from winter 2025 to winter 2026 (slight increase in ELA, slight decrease in math). Overall there is growth from the baseline proficiency levels (+.9% in ELA and +4.8% in math) but relatively flat year over year numbers raise the possibility of improved use of assessment results to inform instruction and meet student needs. MDTP results (high school math) have shown strong in-course growth for students and modest overall proficiency grown year over year. Similar to STAR assessments, there is room for growth with how MDTP assessment results are used to inform instruction and interventions for students. (Partially Effective)

Equity & Subgroup Support:
1.5 EL Progress: Showed a strong improvement on the Dashboard (Orange to Green), reflecting positive growth and support in English language acquisition and support in building consistent systems and adding appropriate supports for multilingual learners across the grade levels. (Effective)

1.6 Reclassification: Previous year (2025) exceeded the 12% goal, at 16.8%. Current-year data is pending. (Effective)

College & Career Readiness:
1.4 & 1.7 A-G & AP: A-G rate increased to 81%, exceeding the 80% target; AP pass rate increased and continues to show a strong positive trajectory. (Effective)

1.11 Advanced Coursework: Enrollment continued to grow, reaching 83.9% of high school students who have enrolled in at least one Honors/AP/Community College Course. (Effective)

1.8 Graduation: Increased for 2025 to 97.7% with Dashboard indicator improvements for SED, SWD, and Hispanic student groups. (Effective)

Areas of Effectiveness (Progress and Growth):

Actions targeting English Learner advancement, high school outcomes, and local progress monitoring (MTSS, professional development, counseling support, tutoring, credit recovery) have yielded positive, measurable growth:
College and Career Readiness: Advanced Placement (AP) Success: The percentage of students passing at least one AP exam with a score of 3 or higher rose significantly from a baseline of 42.7% to 57.5% in Year 2, marking a +14.8% increase.
Graduation Rates: The graduation rate grew by +2.7% from the 95% baseline to 97.7%. Additionally, the California School Dashboard moved from Yellow to Blue (the highest tier) overall, with widespread growth across EL, Homeless, Hispanic, Socioeconomically Disadvantaged (SED), and Students with Disabilities (SWD) subgroups.
Advanced Course Enrollment: Student enrollment in advanced courses (Honors, AP, or Community College) increased by +2.3% from the baseline to 83.9%.
English Learner (EL) Support: * English Learner Progress Indicator (ELPI): The percentage of EL students making progress grew by +5.1% from the baseline (49.1% to 54.2%), shifting the Dashboard color from Yellow to Green.
Reclassification Rate: The district maintained an upward trajectory in EL reclassification, increasing from 14.9% to 16.8%, successfully staying above its 12% target.
Science and Local Assessment Metrics: California Science Test (CAST): Overall proficiency improved by +0.9%. Notably, English Learners jumped from a 0% baseline to 4.9% (+4.9%), and Students with Disabilities grew from 21.66% to 25.0% (+3.3%).
STAR Local Assessments (Grades 2-8): The percentage of students meeting or exceeding standards grew from baseline numbers to Winter 2026 by +0.9% in ELA (reaching 74%) and +4.8% in Math (reaching 62%).
High School Math (MDTP): High school math raw scores saw an overall average increase of +1.0 from the 24.5 baseline.

Areas for Continued Growth:

Despite successes in the outcomes and metrics listed above, actions aimed at boosting performance on state standardized assessments (SBAC) have not supported the District in meeting growth targets:
SBAC ELA Performance: Overall proficiency for all students fell by -2.9% from the baseline (73.7% down to 70.8%).
Subgroup declines were evident as well: Socioeconomically Disadvantaged (SED) students dropped by -3.2% (to 52.9%), English Learners dropped by -0.3% (to 12.9%), and Students with Disabilities dropped from 37.75% to 33.4%.
On the state dashboard, Long-Term English Learners (LTEL) remain stuck at a Red performance level.
SBAC Math Performance: Overall proficiency dropped slightly by -0.5% (from 62.08% to 61.6%).
Equity gaps widened among student groups: English Learners declined by -3.5% (down to 11.8%), SED students declined by -2.5% (down to 41.3%), and SWD fell by -2.4% (down to 28.3%).
The state dashboard highlights ongoing areas for growth, with African American (AA) and EL student groups maintaining an Orange tier, and LTEL students remaining at Red.

STAR Growth Trends: The percentage of students achieving high or typical growth on local STAR assessments fell by -1.4% in both ELA (down to 69%) and Math (down to 68%) compared to the baseline.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

1.1 - Updated year 3 target for accuracy

1.12 - Data reporting format updated for 2025-26 for accuracy to match the stated goal to increase the overall proficiency level.

1.14 - Added new metric in 2026 based on required academic metrics. Added prior year outcomes and growth metrics to mirror growth metrics in 1.1 and 1.2.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Professional Learning	Implement strategies to close the achievement gap and improve language acquisition instruction and programs, including professional learning, coaching, support and guidance, specifically to address the needs of unduplicated students including LTELs.	$932,249.00	Yes
1.2	Professional Learning	Implement strategies to close the achievement gap, including professional learning, coaching, support and guidance	$3,042,989.00	No
1.3	Academic interventions & support	Provide academic interventions for students who need additional support, with emphasis on English Learner, Foster Youth, and Low Income	$2,553,242.00	Yes
1.4	Academic interventions & support	Provide academic interventions for students who need additional support.	$4,102,632.00	No

Action #	Title	Description	Total Funds	Contributing
1.5	English Learner Services	Provide supplemental supports for English Learners and LTELs.	$341,848.00	Yes
1.6	English Learner Services	Provide supplemental supports for Long Term English Learners or LTELs. This action is directed towards student groups who were red on the 2023 dashboard.	$216,857.00	No
1.7	Site funds	Provide additional funds to schools to support academic interventions for English Learner, LTELs, Foster Youth, and Low Income students	$273,930.00	Yes
1.8	Special Education Services	Provide targeted Special Education supports to include staff, transportation, & services *See Carlsbad-LCAP Required Actions & 2023 CA School Dashboard Data Addendum	$22,790,686.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Align student learning to State-adopted standards supported by materials, instruction, and technology in a fiscally sound, safe and clean environment	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Feedback from educational partners and data analysis indicated a need to maintain this goal and actions/services. This goal is centered around professional development and training for staff, providing aligned instructional materials and resources, and mental health supports and school safety for students and staff.

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

In the 2025–26 school year, the district effectively carried out most of the planned actions aligned to Goal 2, with strong implementation in key areas such as teacher assignment, instructional materials, professional development, facilities, and student safety.

2.1/2.2 Professional Development: Professional development focused on Universal Design for Learning (UDL) and other Multi-Tiered System of Supports (MTSS) strategies to enhance instructional practices across all classrooms. These strategies were designed to improve overall teacher pedagogy by equipping educators with tools to effectively meet the diverse needs of learners. These efforts were implemented on an LEA-wide basis to ensure maximum impact on improving academic outcomes for all student groups, including unduplicated students. Actions included teacher professional development and coaching.

2.3 Instructional Materials: Instructional materials were provided to support curriculum implementation, with new instructional materials in Science and Social Studies to improve student achievement and access to current, standards-aligned materials. ELD materials were also provided to support ELD courses and new Academic Language and Literacy courses designed to support reclassification efforts for ELs at the high school level. These actions support all student groups, including unduplicated students.

2.4 Digital Hardware and Software: Digital hardware and software purchases supported student learning, teacher instructional technology and data analysis to support professional learning communities and timely student intervention. These actions support all student groups, including unduplicated students.

2.5 Diversity, Equity, Inclusion, and Belonging Plan: All actions in year three of the Forward Together plan were implemented and were completed or in progress as of spring 2026. Actions included support for site No Place for Hate coordinators and community engagement related to equity and inclusion efforts. These actions support all student groups, including unduplicated students.

2.6 Safety and Security: Actions included support of School Resource Officer position and contracted district safety consultant, who evaluated safety needs and supported site and district leaders in emergency and safety preparation and training. These actions support all student groups, including unduplicated students.

2.7/2.8 Academic and Social Emotional Supports: Actions included counseling support at elementary and secondary levels. Through combined funding sources, all elementary schools had a full time counselor for the first time this year. Additional psychologist support was also provided. These actions support all student groups, including unduplicated students.

2.9 Cleaning Standards: N/A

2.10 Student Wellness: Additional staff was added in Nutrition Services to support efforts to provide salad bars and scratch cooking at school sites.

2.11 Academic and Social Emotional Supports: Utilizing Learning Recovery Emergency Block Grant (LREBG) funds, two additional counselors were hired to support academic growth, social emotional needs, and college and career readiness. These actions support all student groups, including unduplicated students. Evaluation of the effectiveness of this action is evaluated by analyzing metrics 2.5, 2.6, 2.7, 2.8 for impacts on student well being, connectedness, and emotional and behavioral health.

2.12 New metric/action for 2026-27

Implementation Summary:
Overall, there were minimal substantive differences between planned actions and actual implementation. Most initiatives progressed as intended, with full implementation or continued progress across metrics.

Conclusion:
Implementation of Goal 2 actions was largely successful, with most targets met or exceeded. Key strengths included professional development, climate improvements, and systemic action plan execution. Areas for continued focus include facilities upgrades, increasing teacher assignment rates, and improving parent perceptions of school climate. For the 2026–27 school year, the district will implement measurable standards through Board Policy 5030 on Wellness. This new direction reflects a broader commitment to student health and well-being through better nutrition, sustainability, and food service practices. As a result, the previous goal related to district-wide cleaning standards will be phased out. Additionally, the district will continue its Forward Together Work, refining focused actions around core commitments for equity.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

2.1 - The district fully expended Educator Effectiveness grant funds, which led to a shift in funding sources to support professional development initiatives and overall increase in funding in this area.

2.2 - The district fully expended Educator Effectiveness grant funds, which led to a shift in funding sources to support professional development initiatives and overall decrease in funding in this area.

2.3 - Instructional Materials - Reduced allocation of restricted dollars for instructional materials and lower than anticipated needs to maintain current materials.

2.5 - Exceeded planned expenditures by $2,427.00 in support of school climate activities and staff training.

2.8 - Academic and Emotional Supports - No reduction in service; shift in funding source after inititial budget. Additional costs captured under 1.8: Special Education Services.

2.10 - Cost of additional staff in Nutrition lower than expected at approximately $120,000.

2.11 - Costs related to additional counseling support at elementary and secondary level were lower than anticipated. Carryover LREBG funds will be utilized along with additional anticipated LREBG funds in the 2026-27 school year to continue to support expanded access to school counselors for unduplicated students and for all students.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

2.1/2.2 Professional Development: The relevance of PD was rated at 96%, exceeding the target.Teacher Assignments & Materials: 95.1% of teachers remained appropriately assigned, and 100% of students had access to instructional materials, maintaining high standards from the baseline. The professional development strategies implemented (2.1, 2.2, 2.5, 2.9), particularly around Universal Design for Learning (UDL) and Multi-Tiered System of Supports (MTSS)—have been largely effective in improving teacher instructional practices and supporting progress toward the goal. These LEA-wide strategies helped increase the relevance of professional development, as evidenced by a 96% favorable rating, exceeding the target of 90%. (Effective)

2.3 Instructional Materials/2.4 Digital Hardware and Software: Along with professional development, 100% of students were provided with the necessary instructional materials (2.3) and the technology strategic plan was updated and teachers were surveyed to ensure maintenance of devices, hardware, and software. All classrooms were outfitted with the tech package and professional development around tech-supported instruction was provided to all sites (2.4). (Effective)

2.5 Diversity, Equity, Inclusion, and Belonging Plan: The "Forward Together" plan showed complete implementation (32/32 actions), demonstrating strong follow-through. Academic targets are yet to be reported for 2026, but 2025 academic targets (CAASPP) continued to show achievement gaps for identified subgroups. (Partially Effective)

2.6 Safety and Security: Student perception data as measured on the Kelvin Survey was up 1% (elementary) and 3% (secondary); however, parent and staff perceptions of safety declined by 4% and 9%, respectively. (Partially Effective)

2.7/2.8 Academic and Social Emotional Supports: The integration of additional counseling, academic, and social-emotional supports (2.7, 2.8, 2.11) has also shown positive impact, with year to year metrics up on every metric at both elementary and secondary levels. Student

survey data revealed increases or stable high ratings in emotional health, connectedness, and safety across both elementary and secondary levels. For instance, middle and high school emotional health improved from 84% to 86%, and climate increased from 81% to 84%. Expulsion: Expulsion rate was 0%. School Climate & Wellness: Student survey ratings either improved or were maintained across all categories, especially for middle and high school students where emotional health and climate ratings rose. Suspension: Suspension rates rose in 2024-25, with several subgroups showing in the Red or Orange bands on the Dashboard: Red: Foster; Orange: AA, EL, Hispanic, LTEL. Parent survey results also indicate a need for greater engagement or communication efforts to improve perceptions of safety and connectedness. While these actions are implemented district-wide, they have been especially important for unduplicated students (e.g., EL, SED, foster youth), who may face greater academic and social-emotional challenges. With the support of extra counselors and school psychologist allocations focusing on more preventative measures, we have been able to maintain a low expulsion rate. However, suspension rates showed increases, with several subgroups showing in the Red or Orange bands on the Dashboard: Red: Foster; Orange: AA, EL, Hispanic, LTEL. This shows a need for continued support for behavior interventions and proactive school climate improvement. (Partially Effective)

2.9 Cleaning Standards: N/A

2.10 Student Wellness: The District has proposed an updated Wellness policy with measurable targets to be implemented in the 2026-27 school year. Additional staffing in the 2025-26 school year allowed for expanded access to salad bars and scratch cooking. (Effective)

2.11 Academic and Social Emotional Supports: Utilizing Learning Recovery Emergency Block Grant (LREBG) funds, two additional counselors were hired to support academic growth, social emotional needs, and college and career readiness. These actions support all student groups, including unduplicated students. See description 2.7/2.8 above for analysis of the effectiveness of counseling supports.

2.12 New metric/action for 2026-27

Additional Successes:

Facilities: Facilities in good repair improved to at 97.7%, with progress still needed to meet the 100% target.

Conclusion:
Implementation of Goal 2 actions was largely successful, with most targets met or exceeded. Key strengths included professional development, climate improvements, and systemic action plan execution. Areas for continued focus include facilities upgrades, increasing teacher assignment rates, and improving parent perceptions of school climate. For the 2026–27 school year, the district will implement measurable standards through Board Policy 5030 on Wellness. This new direction reflects a broader commitment to student health and well-being through better nutrition, sustainability, and food service practices. As a result, the previous goal related to district-wide cleaning standards will be phased out. Additionally, the district will continue its Forward Together Work, refining focused actions around core commitments for equity. In summary, the combination of high-quality professional development and expanded student services has been effective in making progress toward improving both academic achievement and student well-being across all groups, with particular benefit to unduplicated students.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Discontinuing Action 2.5 and replacing it with Action 2.12 based on educational partner feedback, the District added a new metric specifically targeted at student behavior, discipline, and school climate by reducing the number of students reporting bullying and harassment on the Spring Kelvin survey. This change also comes as the Forward Together 3-year plan comes to the end of its third year, making a shift to implement ongoing Forward Together Commitments for school climate activities, administrative response, staff training, and elevated student voice.

2.10 - Shift from policy revision and identification of targets (2025-26) to implementation and monitoring (2026-27).

2.11 - Learning Recovery Emergency Block Grant (LREBG): The District has $41,984 of unused LREBG funds for 2025-26 that will be utilized in 2026-27 along with $206,828 of anticipated new LREBG funding. These funds will be utilized in support of Goal 2, Action 2.11, to provide additional counseling support for social emotional support, college and career readiness, and student well being. Needs assessment conducted through educational partner feedback and program evaluation have identified a need for additional counseling support, including attention to consistent counselor access and consideration of counseling caseloads. This action aligns with the allowable uses of LREBG funding for student support for: "Integrating evidence-based pupil supports to address other barriers to learning...such as the provision of health, counseling, or mental health services". Evaluation of the effectiveness of this action is evaluated by analyzing metrics 2.5, 2.6, 2.7, 2.8 for impacts on student well being, connectedness, and emotional and behavioral health. These positions will serve all students.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Professional Development	Provide professional development and collaboration time for staff, aligned with districts initiatives specifically for unduplicated students. This action relates to the implementation of the work underway as part of differentiated assistance.	$232,942.00	Yes
2.2	Professional Development	Provide professional development and collaboration time for staff, aligned with districts initiatives	$1,002,022.00	No
2.3	Instructional materials	Provide students with instructional materials and programs to meet the needs of all students	$1,693,703.00	No

Action #	Title	Description	Total Funds	Contributing
2.4	Digital hardware and software	Upgrade and support digital devices, hardware, and software to support students and staff	$1,925,742.00	No
2.5	Diversity, Equity, Inclusion, and Belonging Plan	Upon the completion of Year 3 of the Forward Together Strategic Plan, implement ongoing Forward Together Commitments for school climate activities, administrative response, staff training, and elevated student voice. (This action has been discontinued for the 2026-27 LCAP)	$0.00	No
2.6	Safety and Security	Improve safety and security protocols, including training for staff, emergency preparedness equipment and supplies, security personnel, and facility upgrades	$282,499.00	No
2.7	Academic and Social Emotional Supports	Provide mental health, social emotional, and academic support for students specifically for unduplicated student support	$1,362,928.00	Yes
2.8	Academic and Social Emotional Supports	Provide mental health, social emotional, and academic support for students.	$2,461,417.00	No
2.9	Cleaning Standards	Continue to implement cleaning standards and facilities work order completion process at all school sites. (This action has been discontinued for the 25/26 school year)	$0.00	No
2.10	Student Wellness	Implement wellness standards to enhance the quality and nutritional value of school lunch programs across the district	$120,000.00	No
2.11	Academic and Social Emotional Supports (LREBG Funded)	Hire additional counselors using one time LREBG money to help support students. The counselors will provide both social emotional and academic support for students. Utilizing Learning Recovery Emergency Block Grant	$248,812.00	No

Action #	Title	Description	Total Funds	Contributing
		(LREBG) funds, additional counselors will be hired to support academic growth, social emotional needs, and college and career readiness. These actions support all student groups, including unduplicated students. Evaluation of the effectiveness of this action is evaluated by analyzing metrics 2.5, 2.6, 2.7, 2.8 for impacts on student well being, connectedness, and emotional and behavioral health. Planned LREBG expenditures indicated here include carryover from 2025-26 and additional new LREBG funds allocated by the state for 2026-27. This action is fully funded by the LREBG.		
2.12	Student Discipline, Safety, and Behavior	Implement district training for students and staff regarding responding to, interrupting, and reporting bullying, harassment, and hate-motivated actions and language. (New action for the 2026-27 LCAP)	$118,750.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Engage parents, staff & community to promote unique educational opportunities for students	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Feedback from educational partners and data analysis indicated a need to continue with this goal and focus on ways to engage and communicate with families, staff and the community. This includes continuing to expand and market career pathways and CTE courses and provide students with work based learning opportunities. Parent University, offering topics of interest for families, will continue to be provided. Committees to review practice and policies around attendance and discipline will be established to address ensure consistent implementation across the district and to reduce chronic absenteeism and suspension rates, specifically for homeless students.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

3.1/3.2 Career Pathways: Career pathway opportunities continued to focus on providing access to educational pathways in high-demand, high-wage fields, as well as those of high interest to students, with a focus for inclusion of unduplicated students. We continued to focus on work-based learning opportunities, which include job shadowing, internships, career and strength inventories, college and career fairs, career chats, and employability skills workshops. A TK-12 career education continuum has been developed and implemented, with all students having access to high quality career education experiences across the continuum. This action is provided to all students on an LEA-wide basis to maximize the impact of engagement and opportunity. Having students engaged in college/career exploration leads to greater engagement and students can see connections between academics and how those apply to career preparation.

3.3/3.4 Communication Tools: Parents communication and outreach is critical specifically to families of unduplicated students. This actions is addressing how we can better provide outreach and support to engage more families. While additional bilingual services, community liaisons, and school to home communications are primarily geared towards unduplicated students we recognize that these actions will meet needs of other families/students with improved communication and support.

3.5 Student Engagement: Professional development and staff time to continue to understand barriers and explore ways to better engage unduplicated students with strategies that will address chronic absenteeism, school climate issues, and improved behavior. These strategies and supports will impact all students and are therefore provided on an LEA-wide basis to maximize student outcomes around school climate, connectedness, positive student behavior, and attendance.

3.6 Parent Engagement: Parent University events were provided in both English and Spanish so that all parents can participate in topics specifically around student success. Topics are relevant for all families and are therefore provided on an LEA-wide basis to promote greater participation and access to a variety of topics.

Overall, the district made strong strides toward the goals, especially in college/career preparedness and CTE completion rates, but challenges remain in reducing absenteeism and chronic absenteeism. These areas will continue to be a focus moving forward.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

3.3/3.4 - Lower than anticipated salary and benefits for positions supporting these actions.

3.6 - Lower than expected expenditures due to donations of services and supplies. Parent University and parent engagement activities met goals for participation and relevance, including for EL, Foster, and Low Income students and families.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

3.1/3.2 Career Pathways: 2025 Dashboard results for College/Career Readiness showed strong growth with all students at 74.9% prepared; Blue Status. Homeless and SWD also grew by by one performance band. CA Dashboard College/Career Additional Report - Students completing both A-G classes and CTE sequence or program showed continued growth with a 4.5% increase over two years. The district made continued progress in supporting the needs of unduplicated students, particularly through initiatives such as career exploration, work-based learning opportunities, and enhanced communication with families. The district offered high-interest career exploration activities, including job shadowing, internships, career inventories, and career fairs, which contributed to an increase in career pathway participation. The state's College and Career Inventory completion rates and career inventory participation also saw positive growth, further supporting unduplicated students in preparing for future career opportunities. (Effective)

3.3/3.4 Communication Tools: Efforts to engage families, particularly those of unduplicated students, were strengthened through bilingual services, community liaisons, and improved school-to-home communication, ensuring that families received timely and relevant information (3.3, 3.4). These actions, while focused on unduplicated students, also benefited all students by enhancing overall communication and support. (Effective)

3.5 Student Engagement: Attendance rates a slight decrease from 95% to 94.3% with a slight increase in chronic absenteeism after rates dropped significantly the previous year. The dropout rate remained stable at 0% for middle school and continued to fall for high school at 1.9%, which is approaching the high school target of 1%. the district worked to address barriers that impact unduplicated students, particularly chronic absenteeism, school climate, and behavior. Chronic absenteeism rates decreased at K-8, but with high school absenteeism increasing 0.9%. The district also made progress in improving school climate, as reflected in increased positive ratings for student connectedness and well-being (3.5), but needs to continue with efforts to improve school climate and partner with families to support strong engagement and attendance. (Partially Effective)

3.6 Parent Engagement: Parent University showed continued success in both the relevance of topics (96%) and increased participation (1,525 participants). The target for participation (1,500) has been met this year and we seek to continue to expand family engagement opportunities based on educational partner feedback. (Effective)

Overall, the district's LEA-wide strategies, including career exploration, family engagement, and supports to address absenteeism and school climate, successfully supported both unduplicated students and the broader student population. Moving forward, the district will continue to focus on reducing absenteeism and further engaging families to build on these positive outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

None at this time

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Career Pathways	Continue to close workforce gaps, including development of employability skills and offering CTE and career pathways responsive to local and regional hiring needs specifically to support unduplicated students.	$628,912.00	Yes
3.2	Career Pathways	Continue to close workforce gaps, including development of employability skills and offering CTE and career pathways responsive to local and regional hiring needs *See Carlsbad-LCAP Required Actions & 2023 CA School Dashboard Data Addendum	$2,689,441.00	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	**Action:** Professional Learning **Need:** We continue to have academic gaps for unduplicated students in progress in academic areas. 2025 SBAC ELA All students: 70.8% EL:12.9% SED: 52.9%	These actions are designed to significantly improve academic performance among unduplicated students by addressing their unique needs through targeted professional development. While the focus is on unduplicated students, the actions will be implemented on an LEA-wide basis to maximize their overall impact on academic outcomes for all students. To ensure effectiveness, targeted professional learning will support teachers in adopting	We will monitor the progress of professional development through the following methods: standardized test scores, professional development surveys, grades, and universal screener data. (Metrics 1.1-1.12, 2.1, 2.9)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	SWD 33.4% 2025 Dashboard ELA All Students: Blue AA: Yellow EL: Orange LTEL: Red Homeless: Yellow SED: Green SWD: Yellow 2025 SBAC Math All students: 61.6% EL: 11.8% SED: 41.3% SWD 28.3% 2025 Dashboard All Students: Green AA: Orange EL: Orange LTEL: Red Hispanic: Green Homeless: SED: Yellow SWD: Orange **Scope:** LEA-wide	instructional strategies that specifically address the needs of unduplicated student groups. For Long-Term English Learners (LTELs) in particular, professional development will include guidance on identification, evidence-based instructional practices, and progress monitoring. These efforts will be led by site principals, ELD Teachers on Special Assignment (TOSAs), and curriculum partners to support progress toward reclassification. The integration of Designated and Integrated ELD strategies will enhance instruction for LTELs while simultaneously benefiting all students by promoting language development across the curriculum.	
1.3	**Action:** Academic interventions & support **Need:** Academic performance for ELs, FY, & LI: Address academic gaps that include:	The addition of staff and supplemental services will support improved academic performance by addressing both academic and mental health needs. Increased support staff is essential for providing targeted assistance to students,	We will monitor and track several academic indicators including standardized test scores, graduation rates, and A-G

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	2025 SBAC ELA All students: 70.8% EL:12.9% SED: 52.9% SWD 33.4% 2025 Dashboard ELA All Students: Blue AA: Yellow EL: Orange LTEL: Red Homeless: Yellow SED: Green SWD: Yellow 2025 SBAC Math All students: 61.6% EL: 11.8% SED: 41.3% SWD 28.3% 2025 Dashboard All Students: Green AA: Orange EL: Orange LTEL: Red Hispanic: Green Homeless: SED: Yellow SWD: Orange This action is directed towards students groups who were red on the 2025 dashboard. **Scope:**	particularly those requiring additional academic and social-emotional support. Although these services are implemented on an LEA-wide basis, they are strategically designed to benefit unduplicated students by addressing their specific needs through expanded access to interventions and supports. At the same time, all students will benefit from the increased capacity to provide personalized and responsive support, contributing to overall gains in academic achievement.	completion rates. 	LEA-wide		
1.7	**Action:** Site funds **Need:** Address academic gaps that include: Academic performance for ELs, FY, & LI: 2025 SBAC ELA All students: 70.8% EL:12.9% SED: 52.9% SWD 33.4% 2025 Dashboard ELA All Students: Blue AA: Yellow EL: Orange LTEL: Red Homeless: Yellow SED: Green SWD: Yellow 2025 SBAC Math All students: 61.6% EL: 11.8% SED: 41.3% SWD 28.3% 2025 Dashboard All Students: Green AA: Orange EL: Orange LTEL: Red Hispanic: Green Homeless:	School sites will develop plans to offer tutoring and/or additional intervention sections to support student learning. While these actions are primarily intended to address the needs of unduplicated students, they will be implemented on an LEA-wide basis to ensure broader impact and to improve academic outcomes for all students. This approach allows for equitable access to targeted supports while maximizing the effectiveness of available resources.	Academic Indicators (ELA & Math) for the SBAC, CAST, and Graduation Rates (Metrics 1.1-1.12, 2.1, 2.7, 2.9)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	SED: Yellow SWD: Orange **Scope:** LEA-wide		
2.1	**Action:** Professional Development **Need:** Instructional strategies to meet the needs of all students and unduplicated students. **Scope:** LEA-wide	Professional development focused on Universal Design for Learning (UDL) and other Multi-Tiered System of Supports (MTSS) strategies will enhance instructional practices across all classrooms. These strategies are designed to improve overall teacher pedagogy by equipping educators with tools to effectively meet the diverse needs of learners. Although these efforts will support all students, they are being implemented on an LEA-wide basis to ensure maximum impact on improving academic outcomes for all student groups, including unduplicated students.	Professional development exit surveys and student academic performance on standardized tests along with grades. (Metrics 1.1-1.12, 2.1, 2.9)
2.7	**Action:** Academic and Social Emotional Supports **Need:** To provide additional academic, social emotional, and mental health supports primarily earmarked for unduplicated students. Academically we still see large learning gaps among specific groups of students. **Scope:** LEA-wide	Additional counseling, academic, and social-emotional supports will benefit all students. These actions are provided on an LEA-wide basis to maximize their impact in increasing overall social-emotional wellness for all students. However, many of these supports are primarily going towards the unique needs of unduplicated students.	Student performance on standardized assessments, monitor counseling referrals, attendance, intervention programs, and climate surveys. (Metircs 2.7, 3.5, 3.6, 3.7, 3.8)
3.1	**Action:** Career Pathways **Need:**	This action is provided to all students on an LEA-wide basis to maximize the impact of engagement and opportunity. Having students engaged in college/career exploration leads to greater	Career pathway participation for all students and unduplicated students, the number of

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Specifically support the needs of and opportunities for unduplicated students by offering high-interest career exploration. These include job shadowing, internships, career and strength inventories, and career fairs. *See Carlsbad-LCAP Required Actions & 2023 CA School Dashboard Data Addendum **Scope:** LEA-wide	engagement and students can see connections between academics and how those apply to career preparation.	students participating in work-based learning and other career opportunities, the state's College and Career Inventory completion rates, and participation rates in career inventories. (Metrics 3.1, 3.2, 3.3, 3.4)
3.3	**Action:** Communication Tools **Need:** Parents communication and outreach is critical specifically to families of unduplicated students. This actions is addressing how we can better provide outreach and support to engage more families. **Scope:** LEA-wide	While additional bilingual services, community liaisons, and school to home communications are primarily geared towards unduplicated students we recognize that these actions will meet needs of other families/students with improved communication and support.	School connectedness surveys that include the annual LCAP Stakeholder survey and participation at ELAC and DELAC Meetings. (Metrics 2.8, 3.1, 3.9)
3.5	**Action:** Student Engagement **Need:** Continue to understand barriers and explore ways to better engage unduplicated students with strategies that will address chronic absenteeism, school climate issues, and improved behavior. *See Carlsbad-LCAP Required Actions & 2023 CA School Dashboard Data Addendum	These strategies and supports will impact all students and are therefore provided on an LEA-wide basis to maximize student outcomes around school climate, connectedness, positive student behavior, and attendance.	Chronic absenteeism rates, behavior and student discipline rates, and Kelvin survey results specifically on school connectedness and school climate (Metrics 2.5, 2.6, 2.7, 3.5, 3.6, 3.7)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
3.6	**Action:** Parent Engagement **Need:** Parent engagement specifically for unduplicated students is a critical component to student success. Continuing to offer high-interest Parent University topics for parents is a key component to involving parents. **Scope:** LEA-wide	Parent University events are provided in both English and Spanish so that all parents can participate in topics specifically around student success. Topics are relevant for all families and are therefore provided on an LEA-wide basis to promote greater participation and access to a variety of topics.	Parent University exit surveys and participation rates (Metrics 2.8, 3.1, 3.9)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.5	**Action:** English Learner Services **Need:** English proficiency and academic progress of EL and LTEL students. This action is directed towards students groups who were red on the 2023 dashboard.	Staff and courses targeted to meet the language needs of EL students	EL Progress Indicator (1.5), EL Reclassification (1.6), Academic Indicators (1.1, 1.2, 1.3, 1.14), Graduation Rate (1.8)

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Scope: Limited to Unduplicated Student Group(s)		

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
