LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Scholarship Prep Orange County
CDS Code: 30 10306 0134288
School Year: 2026-27
LEA contact information:
Andrew Crowe
Deputy Director

714-881-7235

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

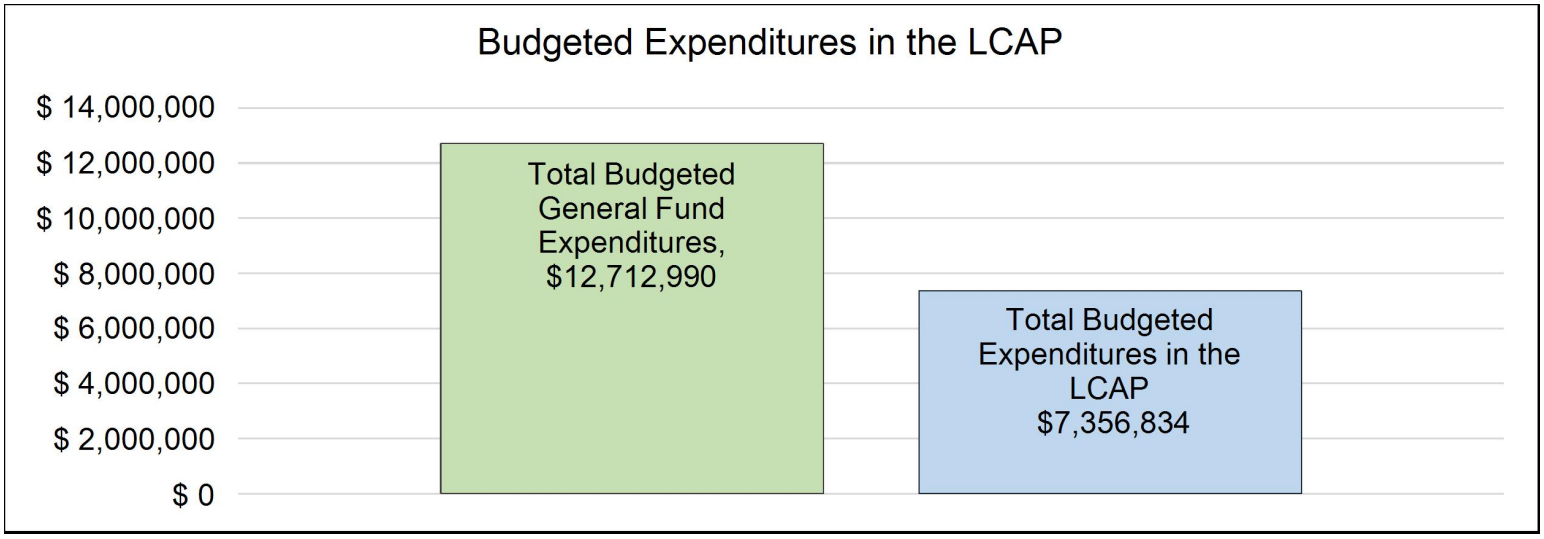

This chart shows the total general purpose revenue Scholarship Prep Orange County expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Scholarship Prep Orange County is $13,129,035, of which $8,291,738 is Local Control Funding Formula (LCFF), $3,477,593 is other state funds, $272,787 is local funds, and $1,086,917 is federal funds. Of the $8,291,738 in LCFF Funds, $2,345,336 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Scholarship Prep Orange County plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Scholarship Prep Orange County plans to spend $12,712,990 for the 2026-27 school year. Of that amount, $7,356,834.00 is tied to actions/services in the LCAP and $5,356,156 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

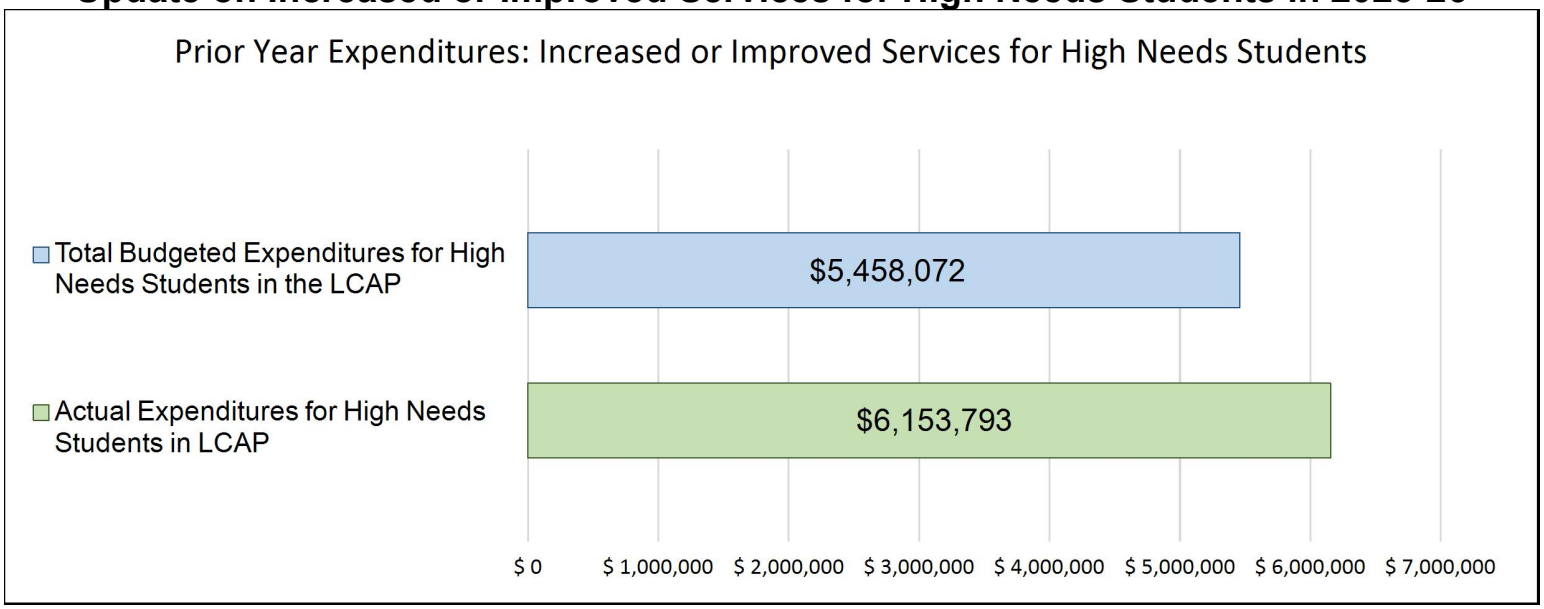

Major General Fund Budget Expenditures not included in the LCAP are rent, office expenses, insurance, utilities, janitorial services, and equipment leasing.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Scholarship Prep Orange County is projecting it will receive $2,345,336 based on the enrollment of Foster Youth, English learner, and low-income students. Scholarship Prep Orange County must describe how it intends to increase or improve services for high needs students in the LCAP. Scholarship Prep Orange County plans to spend $5,903,266 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Scholarship Prep Orange County budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Scholarship Prep Orange County estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Scholarship Prep Orange County's LCAP budgeted $5,458,072.00 for planned actions to increase or improve services for high needs students. Scholarship Prep Orange County actually spent $6,153,793.00 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Scholarship Prep Orange County (SP-OC) is a direct-funded independent charter school, established in 2015 in Santa Ana, the county seat of Orange County. The Orange County Board of Education (OCDE) approved the school's charter petition in January 2016, and Grades TK through 8 began in the fall of 2016. In 2021, SP-OC was granted a 7 year renewal. SP-OC is committed to creating community change by operating university-inspired, trauma-informed public schools for all students, especially those experiencing homelessness or those in the foster care system.

The name of the school refers to providing scholarship pathways for students through rigorous academics and intensive athletics and arts. Scholarship Prep is committed to closing the achievement gap for all students, specifically homeless and foster youth and those underserved, and seeks to establish a sustainable education program where scholarship is standard, equity is essential, and partnerships are power, with the primary goal that every student will one day be eligible for a college scholarship to earn a degree, and set them up for success in giving back to his or her community. Scholarship Prep has grown since its opening, now serving approximately 571 Scholars in grades TK-8.

The current enrollment is broken down below:
TK: 35
Kindergarten: 40
First Grade: 49

Second Grade: 70
Third Grade: 64
Fourth Grade: 70
Fifth Grade: 49
Sixth Grade: 68
Seventh Grade: 64
Eighth Grade: 62

Scholarship Prep's significant student subgroups consist of 83.5% Socioeconomically Disadvantaged, 39.1% English Learners, 16.8% Special Education, and 27% Homeless Youth. The predominant student race/ethnicity subgroup at Scholarship Prep is Hispanic (95.4%) and 1.9% White, and 1.2% Asian. All students, including specific subgroups, are the target of Scholarship Preps' school-wide learning goals for the Local Control Accountability Plan. Scholarship Prep is not an Equity Multiplier School and therefore does not receive Equity Multiplier funds.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

As we reflect on our annual performance using the California School Dashboard and local data, we recognize both our achievements and areas for growth at Scholarship Prep – Orange County. Over the past year, our data reveal areas of meaningful progress as well as critical needs requiring targeted intervention.

- Outstanding School Climate: Chronic Absenteeism decreased significantly by an extraordinary 20.4 points to just 3.5%, receiving a Blue performance level, which is well below the state average of 17.1%. Each of our significant student groups also saw double-digit decline. Our Long-Term English Learners decreased by 23.9% (11.8% chronically absent) receiving a Yellow performance level, Homeless students declined by 12.3% (6% chronically absent) and our Students with Disabilities declined by 29.7% (2.9% chronically absent), both of which received a Green performance level. Three of our student groups received a Blue performance level with our English Learners declining 21.9% (4% chronically absent), Hispanic students declined 20.7% (3% chronically absent), and Socioeconomically Disadvantaged students declined 21.6% (3.8% chronically absent). We also saw exceptional declines in our suspension rates across student groups. The Suspension Rate declined by 3.4 points to 0.8%, also earning Blue. Four student groups earned Blue (English Learners at .7%, Hispanic students at .8%, LTEL at 0%, and Socioeconomically disadvantaged at .8%) and two earned Green (Homeless at 2.1% and Students with Disabilities at .9%) in suspension rate.
- Accelerated ELA Growth: 76.2% of students improved their ELA scores, earning an Accelerated growth designation. Four student groups achieved Accelerated growth. ELA performance improved by 14.2 points to 23.7 points below standard (Yellow). While still below proficiency, the combination of Accelerated growth and a 14-point improvement signals strong momentum toward standard.
- Improving ELA Performance: ELA improved 14.2 points across the board. Socioeconomically Disadvantaged students gained 14.2 points, English Learners gained 10.7 points, Hispanic students gained 15.3 points, and Homeless students gained 18.2 points — all receiving Yellow.

We are very encouraged by the significant growth we've seen over the past year, as shown by our performance on the CA School Dashboard, however, we acknowledge the many challenges we still face and the current areas for growth.

- Stagnant Mathematics Performance: Mathematics performance maintained at 57.5 points below standard, receiving an Orange performance level — gaining only 0.9 points while the state improved by 5.2. Students with Disabilities declined to 135.2 points below standard (Red). English Learners were at 77.9 points below standard (Orange), and four additional groups received Orange. Math growth was only Average (65.9%), compared to Accelerated in ELA, suggesting an opportunity to examine what instructional approaches are driving ELA gains and apply them to math.
- English Learner Progress Below State Average: 36.3% of English Learners made progress, receiving an Orange performance level — below the state average of 46.4%. Long-Term English Learners received Orange at 33.3% making progress.

Scholarship Prep Orange County does not have any leftover Learning Recovery Emergency Block Grant (LREBG) funds that will be used in 26-27.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Orange County is no longer identified for Technical Assistance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NA

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

NA

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

NA

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers	Input provided through surveys (one in fall, one in spring), focus groups, and feedback sessions held during professional development time during the spring semester.
Principal/Administrators	Input provided through feedback sessions with organization leaders throughout the year, with an emphasis in the second semester.
Other School Personnel	Input provided through surveys, focus groups, and feedback sessions with site administrators.
Family Stakeholder Feedback	Input was provided through surveys (one in fall, one in spring), focus groups, and feedback sessions held in the spring semester. Opportunities to provide feedback were offered at PEP Squad meetings, ELAC meetings, and Coffee with the Principal sessions.
Students	Input was provided through surveys (one in the fall, one in the spring), focus groups, and feedback sessions during the spring semester.
Community/Partnerships	Community partners provide input through feedback sessions with site admin and organization leaders throughout the year. The community at large had the opportunity to provide input during the public hearing at Scholarship Prep's May board meeting.
Board of Directors	The LCAP was brought to the board for public hearing in June and final approve during the June 18th board meeting.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Educational partner feedback gathered through surveys, meetings, advisory committees, family engagement opportunities, and staff collaboration structures indicated overall satisfaction with the direction of the LCAP and the goals, metrics, and actions established during the

third and final year of the current three-year LCAP cycle. Families, students, staff, and community partners expressed continued support for the school's focus on academic achievement, student engagement, school culture, and family partnership systems.

Educational partners also emphasized the importance of maintaining strong instructional practices, consistent student supports, positive school culture systems, and meaningful family engagement opportunities while continuing to strengthen outcomes for all student groups. Feedback gathered throughout the year was used to inform ongoing refinement of implementation practices, intervention systems, professional development priorities, and student support structures in preparation for the development of the next three-year LCAP cycle. Overall, the adopted LCAP reflects the priorities, feedback, and shared commitment of educational partners to supporting positive academic, social-emotional, and engagement outcomes for all students.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Goal 1- Access for All: Scholarship Prep teachers are appropriately assigned and fully credentialed. Every pupil at Scholarship Prep has sufficient access to standards-aligned instructional materials. Scholarship Prep facilities are maintained in good repair.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Purpose
To ensure that all students are successful academically, and close the opportunity gap, they must have teachers who are appropriately assigned and fully credentialed, sufficient access to standards-aligned instructional materials, and facilities are safe, maintained, and in good repair.

Related Metrics and Expected Outcomes
To monitor progress and evaluate success in this goal, we aim to:

- Maintain the percentage of teachers fully credentialed
- Maintain the percentage of students with access to curricular resources
- Maintain the percentage of students with access to technology devices
- Maintain or upgrade the school facilities rating on FIT tool
- Increase the percentage of Designated ELD walkthroughs with evidence of implementation of ELD standards and ELD curriculum

Actions and Expenditures

To ensure equitable access for all students, Scholarship Prep will:

- Hire and retain highly qualified staff
- Provide standards-aligned core instructional materials to all students
- Maintain and upgrade facilities to support the school's educational philosophy and provide equal access for all students
- Provide personnel to provide tech support the implementation of the academic program
- Provide Chromebooks to all students

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions under Goal 1 were implemented as planned during the 2025–26 school year, with no substantive differences between the planned actions and actual implementation. Scholarship Prep continued to prioritize equitable access to high-quality educational opportunities through maintaining appropriately assigned and fully credentialed staff, providing standards-aligned instructional materials, maintaining safe and well-maintained facilities, and ensuring students had access to technology and instructional supports necessary for academic success.

A continued focus on recruitment, retention, and staff development supported the implementation of Action 1. Scholarship Prep maintained systems to hire and retain highly qualified and appropriately credentialed staff in order to ensure students had access to effective instruction aligned to the school's educational philosophy and academic priorities.

Implementation of Action 2 ensured that all students had access to standards-aligned core instructional materials across grade levels and content areas. These materials supported consistent instructional delivery and equitable access to rigorous, grade-level curriculum aligned to California State Standards.

Facility improvements and maintenance remained a priority throughout the year under Action 3. Scholarship Prep continued to maintain safe, clean, and accessible learning environments that support student learning and reflect the school's commitment to providing equitable access for all students.

To support instructional continuity and access to digital learning, Action 4 provided ongoing personnel and technical support for educational technology systems. This included maintaining devices, troubleshooting technical issues, and supporting staff and students with implementation of instructional technology tools.

Technology access also remained a key component of Goal 1 through Action 5, with all students continuing to receive access to Chromebooks and digital resources to support classroom instruction, assessments, and learning opportunities both on campus and at home.

Additional supports for Students with Disabilities continued through Action 6, which focused on evidence-based interventions, tutoring, coaching, focused professional development, stakeholder engagement, and formative assessment practices. Structured systems for monitoring implementation and student progress remained in place to support improved outcomes and academic growth for Students with Disabilities.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences between budgeted expenditures and estimated actuals.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions associated with Goal 1 have been effective in maintaining equitable access to basic educational services and instructional supports across all Scholarship Prep schools. Outcome data demonstrates that the school successfully maintained 100% of teachers fully credentialed during the 2025–26 school year, indicating that efforts to hire and retain highly qualified staff were effective in ensuring students had access to appropriately credentialed educators. Additionally, 100% of students continued to have access to curricular resources and technology devices, demonstrating the effectiveness of the school's actions related to instructional materials, technology access, and technical support systems.

The school also maintained a "Good" rating on the FIT tool, reflecting the effectiveness of ongoing facility maintenance and upgrades in providing safe and well-maintained learning environments for students and staff. Furthermore, the data shows that 100% of designated ELD walkthroughs included evidence of implementation of ELD standards and curriculum, demonstrating successful implementation of instructional systems and supports designed to meet the needs of English Learners.

Overall, the data indicates that the actions implemented under Goal 1 have been effective in ensuring students continue to have equitable access to credentialed teachers, instructional materials, technology, safe facilities, and standards-aligned instructional supports necessary for academic success.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on a review of implementation outcomes, local data, and educational partner feedback, no substantive changes will be made to Goal 1, its metrics, target outcomes, or actions for the 2026–27 school year. Reflection on prior practice indicates that the current actions and systems have been effective in maintaining equitable access to credentialed teachers, instructional materials, technology resources, safe facilities, and standards-aligned instructional supports across all schools. As Scholarship Prep enters the third year of its three-year LCAP cycle, the school will continue implementation of all aspects of this goal to maintain consistency and sustain progress toward ensuring equitable access and foundational educational supports for all students.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Hire and retain highly qualified staff	Scholarship Prep teachers are appropriately assigned and fully credentialed. CCSS Implementation 7. Course Access	$2,637,738.00	No Yes
1.2	Provide standards-aligned core instructional materials to all students	To ensure that all students are successful academically and close the opportunity gap, they must have teachers who are appropriately assigned and fully credentialed, sufficient access to standards-aligned instructional materials, and facilities are safe, maintained, and in good repair.	$128,700.00	Yes
1.3	Maintain and upgrade facilities to support the school's educational philosophy and	To ensure that all students are successful academically and close the opportunity gap, they must have teachers who are appropriately assigned and fully credentialed, sufficient access to standards-aligned instructional materials, and facilities are safe, maintained, and in good repair.	$108,300.00	Yes

Action #	Title	Description	Total Funds	Contributing
	provide equal access for all students			
1.4	Provide personnel to provide tech support the implementation of the academic program.	To ensure that all students are successful academically and close the opportunity gap, they must have teachers who are appropriately assigned and fully credentialed, sufficient access to standards-aligned instructional materials, and facilities are safe, maintained, and in good repair.	$52,500.00	Yes
1.5	Provide Chromebooks to all students	To ensure that all students are successful academically and close the opportunity gap, they must have teachers who are appropriately assigned and fully credentialed, sufficient access to standards-aligned instructional materials, and facilities are safe, maintained, and in good repair.	$14,315.00	Yes
1.6	Special Education Added Support	Addressing the deficit in growth for Students with Disabilities requires targeted, evidence-based interventions and a structured approach to implementation and monitoring of Evidence-Based Interventions. Supporting with Coaching, tutoring, Focused Professional Development, Engaging all Stakeholders, Using Formative Assessment.	$356,358.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Success for All: Scholarship Prep students, including all significant subgroups, shall achieve at least equal to the academic performance of the comparison public schools as measured by progress on CAASPP, ELPAC, and other state-mandated assessments.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Purpose

To ensure that all students are successful and close the opportunity gap, they must achieve at high levels and outperform comparison schools on state assessments.

Related Metrics and Expected Outcomes
To monitor progress and evaluate success in this goal, we aim to:

- Increase CAASPP ELA distance from 3
- Increase CAASPP math distance from 3
- Increase CASTpercent of students suggesting considerable understanding
- Increase percent of K-2 students meeting or exceeding their growth goals in iReady reading
- Increase percent of K-2 students meeting or exceeding their growth goals in iReady math
- Increase percent of EL students making at least one step of progress toward EL proficiency on ELPAC
- Increase percent of EL students who reclassify
- Increase percent of teachers scoring 3.0 of higher on evaluation rubric

Actions and Expenditures
To ensure success for all students, Scholarship Prep will:

- Provide individualized coaching to all teachers
- Provide electives instructors to provide arts and athletics instruction for all students
- Utilize effective data tools and protocols to support teachers in analyzing student data
- Provide instructional aides to support with intervention and additional after school tutoring
- Develop and implement Extended School Year (ESY) and Summer Bridge opportunities for students

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions associated with Goal 2 were implemented as planned during the 2025–26 school year, with no substantive differences between planned actions and actual implementation. Scholarship Prep continued to prioritize academic achievement and equitable outcomes for all students, including significant student groups such as English Learners, Students with Disabilities, foster youth, and homeless youth.

Teacher coaching (Action 2.1) remained a central component of instructional improvement efforts throughout the year. Individualized coaching cycles were provided to teachers to strengthen instructional practices, data analysis, lesson planning, differentiation, and supports for targeted student groups. Coaching systems focused on improving instructional quality and supporting teachers in meeting the diverse academic needs of students.

Electives programming (Action 2.2) continued to provide students with access to arts, athletics, and enrichment opportunities designed to support whole-child development and student engagement. Scholarship Prep supported elective instructors to ensure students had access to a broad range of learning experiences aligned to the school's educational philosophy.

Data analysis tools (Action 2.3) and protocols were implemented to support teachers and leaders in reviewing student achievement data and identifying instructional next steps. Teachers engaged in ongoing data reflection cycles designed to strengthen instructional responsiveness and improve academic outcomes for all student groups.

Intervention and tutoring supports (Action 2.4)continued throughout the school year to provide additional academic assistance for students demonstrating a need for targeted support. This included intervention services during the school day as well as after-school tutoring opportunities for students, including English Learners, foster youth, homeless youth, and Students with Disabilities.

Extended learning opportunities, including Extended School Year (ESY), Summer Bridge programming, and after-school learning opportunities (Action 2.5), were implemented to support continued academic growth beyond the traditional school day and school year. These programs provided additional opportunities for students to strengthen academic skills and maintain learning continuity.

Substitute staffing (Action 2.6) continued to support continuity of instruction and intervention services throughout the year by minimizing disruptions to student learning when classroom teachers or support staff were absent.

Additional supports for Students with Disabilities (Action 2.7) remained a significant area of focus under Goal 2. Scholarship Prep continued implementation of evidence-based interventions, focused professional development, coaching, tutoring, stakeholder engagement practices, and formative assessment systems designed to improve growth outcomes for Students with Disabilities. In Orange County, special education teachers and support staff participated in targeted professional development provided by the Orange County Department of Education focused on culturally and linguistically relevant practices, co-teaching foundations, and high leverage practices for supporting Students with Disabilities. Additionally, a new psychologist position was staffed to provide increased support for students with disabilities and strengthen service delivery systems.

Educational software and digital curriculum tools (Action 2.8) continued to support student access to instructional content, intervention resources, and differentiated learning opportunities aligned to individual student needs.

Finally, support staffing (Action 2.9) and ongoing training were provided to strengthen intervention and tutoring programs across the organization. These supports helped ensure students received additional academic assistance and targeted instructional interventions aligned to identified learning needs.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences between Budgeted Expenditures and Estimated Actual Expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions associated with Goal 2 have demonstrated overall effectiveness in supporting academic growth and improving student outcomes at Scholarship Prep Orange County. The strongest area of effectiveness was in English Language Arts, where the school demonstrated significant improvement for All Students and multiple student groups. Mathematics and English Learner Progress Indicator (ELPI) outcomes also demonstrated positive movement, although growth in these areas was more modest and indicates continued opportunities for improvement.

Dashboard data reflects strong progress in English Language Arts, with All Students increasing 14.2 points from the prior year and achieving a Yellow performance level. The school also achieved an “Accelerated” growth level in ELA, with 76.2% of students improving their scores from the prior year. Significant student group growth was also evident, including English Learners increasing 25.2 points, Long-Term English Learners increasing 32.6 points, Students with Disabilities increasing 21.8 points, Hispanic students increasing 16.1 points, Homeless students increasing 10.4 points, and Socioeconomically Disadvantaged students increasing 12.7 points. These outcomes indicate that actions related to teacher coaching, intervention and tutoring, extended learning opportunities, instructional data analysis, and targeted supports for student groups have positively impacted literacy achievement.

Mathematics outcomes demonstrated smaller but still positive gains overall. All Students increased 0.9 points from the prior year, while English Learners increased 8.1 points and Students with Disabilities increased 6.1 points. Mathematics Growth was identified as “Average,” with 65.9% of students improving their scores from the prior year. While these results reflect some effectiveness of the instructional systems and supports in place, mathematics remains an area for continued focus and acceleration, particularly for student groups performing in the Orange (Hispanic, Homeless, Socioeconomically Disadvantaged, and Students with Disabilities) and Red performance (Long-Term English Learners) levels.

The English Learner Progress Indicator (ELPI) also demonstrated slight improvement, with the percentage of English Learners making progress toward English language proficiency increasing by 1.7%. While the school remained in the Orange performance level for ELPI, the increase indicates that designated and integrated ELD supports are beginning to positively impact language acquisition outcomes. However,

continued focus will be needed to accelerate progress for English Learners and Long-Term English Learners, particularly as Long-Term English Learners declined 18.2 points in Mathematics and remained Orange in ELPI performance.

Overall, the data demonstrates that the actions implemented under Goal 2 have been effective in driving strong growth in English Language Arts and maintaining positive movement in Mathematics and English Learner Progress. Continued implementation of teacher coaching, intervention supports, extended learning opportunities, targeted special education supports, and instructional data protocols will remain important as the school continues working to accelerate outcomes for all student groups and strengthen performance in Mathematics and English language acquisition.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on implementation outcomes, Dashboard data, and educational partner feedback gathered through the LCAP engagement process, no major changes will be made to Goal 2, its metrics, target outcomes, or actions for the 2026–27 school year. As Scholarship Prep enters the final year of its three-year LCAP cycle, the school will continue implementation of the current actions and strategies that have contributed to positive academic growth trends.

Reflection on prior practice demonstrated that the school's focus on teacher coaching, data analysis protocols, intervention and tutoring supports, extended learning opportunities, and targeted special education supports has contributed to improved student outcomes and academic growth. As a result, the school will continue prioritizing these actions in order to further strengthen instructional effectiveness, accelerate student achievement, and improve outcomes for student groups requiring additional support.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Teacher Coaching	Provide individualized coaching to all teachers to support in meeting the needs of all students, including targeted pupils such as students in special education, students learning English, and students in the foster care system.	$60,159.00	Yes
2.2	Electives	Hire and train electives instructors to provide arts and athletics instruction for all students including targeted pupils such as students in special	$243,048.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Belonging for All: Scholarship Prep will increase parental involvement, including efforts to seek family input for making decisions for the school and how the school will promote family participation. Scholarship Prep will maintain a positive, safe school climate to ensure high levels of student engagement.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Purpose
To ensure that all students are successful and close the opportunity gap, Scholarship Prep will increase parental involvement, and maintain a positive, safe school climate to ensure high levels of student engagement.

Related Metrics and Expected Outcomes
To monitor progress and evaluate success in this goal, we aim to:

- Maintain or increase participation rate on stakeholder survey
- Maintain or increase the average rating on belonging questions on the stakeholder survey
- Increase participation rate in informational meetings
- Maintain or decrease the percentage of students with office referrals
- Maintain the suspension rate
- Maintain the expulsion rate
- Maintain or increase the attendance rate
- Decrease the chronic absenteeism rate Actions and Expenditures

To ensure success for all students, Scholarship Prep will:

- Schedule family meetings regularly throughout the school year
- Continue to conduct an annual stakeholder survey
- Establish common communication platforms for families
- Provide professional development to teachers and staff to support in meeting the needs of all students
- Hire and train administrative support members
- Implement procedures for regular attendance tracking and reporting to ensure early identification of barriers
- Hire and train social emotional support staff

- Provide transportation for foster/homeless youth
- Provide resources for homeless youth and families

Teachers and administrators indicated that they would like more PD opportunities on trauma-informed practices and equity and inclusion, and we have made our focus on PD to support safe and inclusive learning environments for all students.

Teacher and staff feedback was consistent in asking for more consistent communication around discipline decisions, clarity on the office referral process, and additional management training for classified staff. Stakeholders expressed an appreciation for the ease of use of a common communication platform so that they could easily stay in touch and up to date with the school and their teachers.

Scholarship Prep will continue to utilize common communication platforms in alignment with this feedback. Finally, our families and students appreciated the increased support provided to meet basic needs and services. Scholarship Prep will continue to strengthen our Foster/Homeless Youth supports, and systems/protocols for effectively identifying and responding to student/family needs.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions associated with Goal 3 were implemented as planned during the 2025–26 school year, with no substantive differences between planned actions and actual implementation. Scholarship Prep continued to prioritize family engagement, positive school culture, student belonging, attendance improvement, and social-emotional supports to ensure students and families remained connected, supported, and engaged in the school community.

Family engagement remained a key area of implementation throughout the year. Schools regularly scheduled family meetings, events, and engagement opportunities to provide parents and guardians with information regarding school programs, student progress, and opportunities for input and participation. Communication systems and platforms continued to support consistent outreach to families in multiple languages to improve accessibility and strengthen school-home partnerships for all student groups, including English Learners, Students with Disabilities, foster youth, and homeless youth.

Annual stakeholder surveys were successfully conducted to gather feedback from students, families, and staff regarding school climate, engagement, communication, and overall satisfaction. Outreach efforts were implemented to encourage participation across student groups and ensure educational partner voice informed school improvement efforts and LCAP development.

Professional development for teachers and staff was implemented to strengthen staff capacity in supporting students with diverse academic, social-emotional, and behavioral needs. Training topics included culturally responsive practices, trauma-informed approaches, social-emotional supports, and strategies for supporting English Learners, Students with Disabilities, foster youth, and homeless youth.

Attendance and engagement systems were implemented consistently throughout the school year to support early identification of attendance concerns and reduce chronic absenteeism. Schools maintained procedures for attendance tracking, data analysis, family outreach, individualized support plans, and intervention strategies designed to improve student engagement and remove barriers to attendance. Implementation of these systems contributed to strong attendance outcomes and reductions in chronic absenteeism across multiple student groups.

Social-emotional and mental health supports also remained an important area of focus during implementation. Counselors, psychologists, and support staff provided services to students needing social-emotional, behavioral, and mental health support, while foster and homeless youth support staff continued to assist with student identification, case management, family outreach, and coordination of services. Transportation and additional resources, including school supplies, clothing, and pantry items, were also provided to support foster and homeless students and families and help reduce barriers to school participation.

An important success experienced throughout implementation was the continued strengthening of positive school culture and student engagement systems across Scholarship Prep schools. Through ongoing communication, family engagement opportunities, attendance supports, intervention systems, and social-emotional services, schools continued to foster welcoming, inclusive, and supportive environments for students and families. Additionally, support staffing and training for tutoring and intervention services helped ensure students received additional academic and behavioral supports aligned to their individual needs.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences between Budgeted Expenditures and Estimated Actual Expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions associated with Goal 3 have demonstrated strong effectiveness in supporting a positive school climate, increasing student engagement, strengthening family partnerships, and improving attendance outcomes at Scholarship Prep Orange County. Our Goal 3 metrics reflect significant success in the implementation of attendance, engagement, social-emotional support, and school culture systems, as demonstrated by Blue performance levels in both Chronic Absenteeism and Suspension Rate indicators.

Chronic absenteeism outcomes demonstrated particularly strong effectiveness, with the school achieving a Blue performance level and reducing chronic absenteeism to 3.5%, representing a significant decline of 20.4 percentage points from the prior year. Multiple student groups also demonstrated strong outcomes, including English Learners, Hispanic students, and Socioeconomically Disadvantaged students all achieving Blue performance levels, while Homeless students and Students with Disabilities achieved Green performance levels. These

outcomes indicate that attendance tracking systems (Action 3.5), family outreach efforts (Action 3.1), individualized support plans (Action 3.6), engagement strategies, and attendance interventions were highly effective in improving student attendance and reducing barriers to school participation.

Suspension data similarly reflects strong effectiveness of the school's actions related to positive school culture, restorative practices, social-emotional supports, and student engagement systems. Scholarship Prep Orange County achieved a Blue performance level for Suspension Rate, with only 0.8% of students suspended at least one day, representing a decline of 3.4 percentage points from the prior year. Several student groups, including English Learners, Hispanic students, Long-Term English Learners, and Socioeconomically Disadvantaged students, achieved Blue performance levels, while Homeless students and Students with Disabilities achieved Green performance levels. These outcomes demonstrate the effectiveness of the school's efforts (Action 3.4 and 3.6) to create safe, inclusive, and supportive learning environments for students.

Additional indicators further demonstrate the effectiveness of Goal 3 actions. During the 2025–26 school year, the school maintained a 0% expulsion rate and a 0% middle school dropout rate, indicating that students remained engaged, connected, and supported throughout the school year.

Family engagement remains a clear strength. Participation rates in the LCAP survey held steady at 92% for families, and 100% for students, with 97% of staff also completing the survey. Agreement with "belonging" questions remained exceptionally high: 98% of families, 94% of staff, and 100% of students indicated a strong sense of connection and care on campus.
Our consistent family communication through multi-language platforms (Action 3), regular family meetings (Action 1), and culturally relevant outreach contributed to these outcomes. Additionally, participation in informational meetings increased across nearly all student groups.
The percentage of students receiving office referrals also decreased or remained stable across most student groups, contributing to a stronger schoolwide culture of behavior and belonging.
Attendance rates also improved slightly overall, moving from 94% to 97%. These improvements align with the effectiveness of targeted wraparound supports delivered by our social-emotional and family engagement teams.

Overall, the data demonstrates that the actions implemented under Goal 3 have been highly effective in improving school climate, strengthening family engagement, increasing student connectedness, and reducing barriers to student attendance and engagement. Continued implementation of attendance systems, family engagement practices, social-emotional supports, and student support services will remain a priority as the school works to sustain positive outcomes and ensure all students continue to feel safe, supported, and connected to the school community.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on implementation outcomes, Dashboard data, and educational partner feedback, no substantive changes were made to Goal 3, its metrics, target outcomes, or actions for the 2026–27 school year. The significant improvements demonstrated in Chronic Absenteeism and Suspension Rate outcomes indicate that the current systems, strategies, and supports implemented under Goal 3 have been effective in promoting student engagement, strengthening school climate, and increasing student connectedness.

As Scholarship Prep enters the third and final year of the current LCAP cycle, the school will continue implementation of the existing Goal 3 actions, including family engagement opportunities, attendance monitoring systems, social-emotional supports, professional development, foster and homeless youth supports, and communication systems. Reflection on prior practice demonstrated that these actions have contributed to positive student outcomes and strong school climate indicators across multiple student groups.

The school will continue focusing on sustaining and refining these systems in order to maintain low chronic absenteeism and suspension rates, strengthen family partnerships, and ensure all students continue to feel safe, supported, and engaged in the school community.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Family Meetings	Schedule family meetings regularly throughout the school year to give all parents, including families students in special education, students learning English, and students in the foster care system an opportunity to stay informed, give input, and get involved.		No
3.2	Stakeholder Survey	Conduct an annual stakeholder survey and provide outreach to target subgroups to encourage participation.	$82,500.00	No
3.3	Communication	Establish common communication platforms that provide opportunities for regular communication in multiple languages for families.	$41,000.00	Yes
3.4	Professional Development	Provide professional development to teachers and staff to support in meeting the needs of all students including targeted pupils such as students in special education, students learning English, and students in the foster care system. Provide training and professional development to teachers and staff regarding needs of students, including culturally diverse students and students who have experienced trauma.	$135,966.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.5	Attendance and Engagement Support	Implement procedures for regular attendance tracking and reporting to ensure early identification of barriers and decrease chronic absenteeism. Addressing chronic absenteeism requires a multifaceted approach involving evidence-based interventions and systematic monitoring. Implement procedures for regular attendance tracking and reporting to ensure early identification of barriers and decrease chronic absenteeism. Data Analysis and identification, Early Intervention Strategies, Family and Community Engagement, Positive School Culture, individualized support plans, and Health and Wellness Initiatives.	$933,388.00	Yes
3.6	Social Emotional Support	Hire and train social emotional support staff (counselor, school psychologist) to support with the social-emotional and mental health of students, including students in special education, students learning English, and students in the foster care system.	$227,209.00	
3.7	Foster/Homeless Support Staff	Hire and train foster/homeless youth support staff to support with the identification and support of foster/homeless students and families.	$126,248.00	Yes
3.8	Transportation for Foster/Homeless	Provide transportation for foster/homeless youth for to and from school and school functions.	$52,200.00	No Yes
3.9	Resource for Foster/Homeless	Provide resources for homeless youth and families, including but not limited to school supplies, clothing, and pantry items.	$37,100.00	Yes
3.10	Support Staffing and Training	Support Staffing and Training for tutoring and intervention.	$400,325.00	Yes

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		Prep offers arts and athletics options for students built into the regular school day. Students have the opportunity to participate in basketball, soccer, dance, and studio art. These non-academic programs promotes the healthy growth and development of children through study and practice of new skills, and fosters development of motor skills, brain functions, study habits, self-esteem, and teamwork – all at a time when they are enduring trauma at higher rates than their peers. In general, the achievement gap has negatively impacted low-income students, English Learners, and foster youth, and is something that has been exacerbated by the pandemic. While Scholarship Prep provides high quality teachers and curriculum to support effective first teaching, for some students extended, targeted supports are necessary. Scholarship Prep has been strategic in building intervention into the daily schedule to ensure the most high needs students are receiving additional support. The placement of Instructional Aides and other instruction-related staff members in classrooms with substantial academic needs and high concentrations of unduplicated pupils ensures that the supports are individualized and targeted. The enhanced instruction that their contributions unlock helps accelerate learning for low-income students, English Learners, foster youth, and others who are struggling. In addition to intervention during the school day, some students may need extended learning opportunities beyond the school day to accelerate academic progress, especially after the challenges	meeting or exceeding their growth goals in iReady math • Increase percent of EL students making at least one step of progress toward EL proficiency on ELPAC • Increase percent of EL students who reclassify • Increase percent of teachers scoring 3.0 or higher on evaluation rubric

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		of the pandemic. To do this, Scholarship Prep will provide support to students in after school tutoring. This support addresses the needs of unduplicated pupils in several ways. First, highly trained teachers who are skilled in research-based instructional practices and programs can help reteach ELA and math content in different ways, accounting for the experiences of low-income students, English Learners, and foster youth. They also often utilize materials that are particularly effective in engaging and supporting unduplicated pupils. Historically, an achievement gap has existed between unduplicated pupils and their peers, and school closures have placed low-income students, English Learners, and foster youth at greater risk of learning loss. For example, EL students may have had fewer opportunities to practice communication skills in an academic setting, which can lead them to fall further behind. Similar challenges exist for other high-need students. The summer program is specifically designed for at-promise students and English learners, engaging students through standards based math and literature utilizing adaptive software to meet the needs of students at their current levels and push them academically. Additionally, students in the summer program will engage in social-emotional learning, enrichment activities, as well as elective programming.	
2.10	**Action:** Math Dean **Need:**	Scholarship Prep works to ensure student progress is closely monitored so that teachers and staff can provide inventions, resources, and supports aligned to student need—academically,	To monitor progress and evaluate success in this goal, we aim to:

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

NA

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Scholarship Prep utilizes the additional concentration grant add-on funding to increase and retain staff to support students. We target both certificated and classified staff with these additional funds. We identify, hire, and train additional staff to support students with disabilities as well as the current staff who support them (Goal 1, Action 7). We provide individualized coaching to our teachers, thereby increasing their effectiveness as well as retention rates as they are satisfied with their professional development (Goal 2, Action 1). We identify, hire, and train classified staff to serve as electives instructors (Goal 2, Action 2) and provide extended learning opportunities for students after school and during the summer (Goal 2, Action 5). We also hire additional administrators and office personnel to provide direct support to students (Goal 3, Actions 5-8).

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	NA single school LEA	NA single school LEA
Staff-to-student ratio of certificated staff providing direct services to students	NA single school LEA	NA single school LEA

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        NOTE: As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:

      The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and

      An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:

      - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
      - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
          - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
      - Actions may be grouped together for purposes of these explanations.
      - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.

    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

  Identify the action as an LREBG action;

  Include an explanation of how research supports the selected action;

  Identify the metric(s) being used to monitor the impact of the action; and

  Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
