LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Campbell Union School District
CDS Code: 43-69393-6046676
School Year: 2026-27
LEA contact information:
Shelly Viramontez
Superintendent
Sviramontez@campbellusd.org
408-364-4200

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

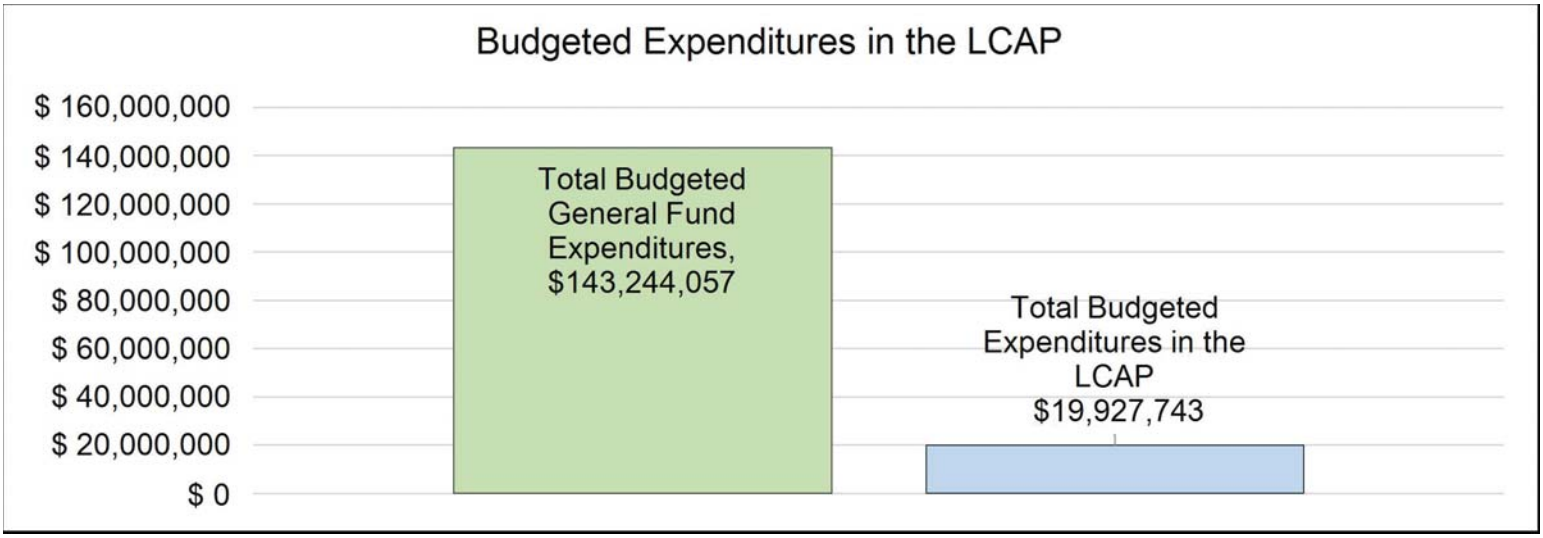

This chart shows the total general purpose revenue Campbell Union School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Campbell Union School District is $144,213,422, of which $109,972,286 is Local Control Funding Formula (LCFF), $21,672,652 is other state funds, $9,541,499 is local funds, and $3,026,985 is federal funds. Of the $109,972,286 in LCFF Funds, $10,763,569 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Campbell Union School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Campbell Union School District plans to spend $143,244,057 for the 2026-27 school year. Of that amount, $19,927,743 is tied to actions/services in the LCAP and $123,316,314 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

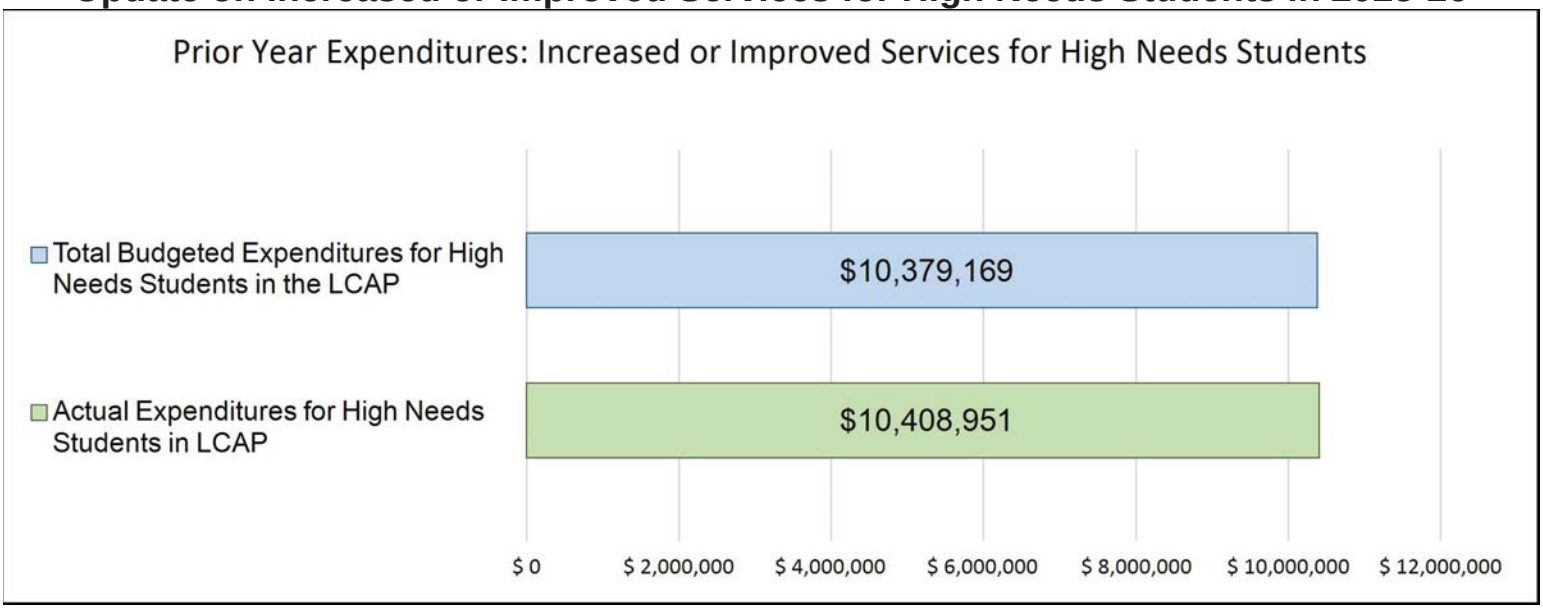

Campbell Union School district comprise of 12 schools that serve more than 6,300 students from pre-school to grade 8 who come from Campbell, San Jose, Santa Clara, Los Gatos, Monte Sereno, and Saratoga. CUSD consists of one district and 11 charter schools. Each of the 11 charter schools develop their own local control accountability plan. Those plans can be viewed separately by school name on our district website: www.campbellusd.org. The funds allocated in this plan support the three overarching educational goals that are shared by each of our 12 schools. The General Fund expenditures include the regular classroom instruction, operational, other ancillary and administrative costs that are not included in the LCAP.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Campbell Union School District is projecting it will receive $10,763,569 based on the enrollment of foster youth, English learner, and low-income students. Campbell Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Campbell Union School District plans to spend $10,911,677 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Campbell Union School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Campbell Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Campbell Union School District's LCAP budgeted $10,379,169 for planned actions to increase or improve services for high needs students. Campbell Union School District actually spent $10,408,951 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

District Vision and Mission
The Campbell Union School District (CUSD) is committed to educating every student to their highest potential. We serve as a model for innovative programs that engage, empower, and inspire students within a safe and thriving environment. Our educational blueprint is guided by our Profile of a Graduate (POG), developed in partnership with our community to instill five core competencies:
Self-Directed
Innovative
Critical Thinker
Collaborative
Empathetic

Continuous Classroom Improvement (CCI) Framework
In the 2025–26 school year, CUSD deepened the systemwide implementation of our Continuous Improvement Framework. Launched in 2024–25 after extensive pilot testing with educators, this framework centers on high-quality first instruction and shared ownership of learning. Key components of our PDSA (Plan-Do-Study-Act) cycles include:
Classroom Mission Statements: Establish a shared purpose as a learning community.
Essential Standards and Learning Targets: Clarifies learning targets for student understanding with models of proficiency.
Data Transparency: Charts and analyzes results with student input to set improvement goals.

Our Students and Schools
CUSD operates 12 schools—including eight TK–5 elementary schools, one TK–8 Dual Language (Spanish/English) school, one TK–8 Design Thinking school, and two 6–8 middle schools, serving 6051 students across several municipalities, including: Campbell, San Jose, Santa Clara, Los Gatos, Monte Sereno and Saratoga. As of January 2026, our student body reflects a rich diversity that informs our resource allocation: 47.7% Hispanic/Latino, 20.2% White, 17.4% Asian, 3.6% Black/African American and the remaining 11.1% represents students not reported, two or more races and other race and ethnicities.

Of the total enrollment in the 2025.2026, 29.0% are English Learners, 45.7% Socio-Economically Disadvantaged and 12.2% are Students with Disabilities (data from CalPads).
The ratio of students to teachers in our classrooms is as follows:
Transitional Kindergarten: 1:12
Kindergarten-3rd Grade: 1:24
4th-8th grade: 1:30

CUSD prioritizes the "Whole Child" by providing a continuum of care from age three through 8th grade. To meet the needs of our community, we offer both state-subsidized and tuition-based preschools at six campuses, featuring robust inclusion opportunities for Special Education students. We have successfully scaled our Transitional Kindergarten (TK) access to meet state mandates:
2023-24: 5 years old from September 2-April 2nd
2024-25: 5 years old from September 2-June 2nd
2025-26: 5 years old who turn 4 by September 1st of that school year

Since the 2012–13 school year, Campbell has provided a seamless, full-day Transitional Kindergarten program fully integrated into our LCAP goal planning and metric identification. In alignment with California's Universal Pre-Kindergarten (UPK) expansion, we added seven TK classrooms in the 2025–26 school year—bringing our total to 22—to ensure broader access for our youngest learners.To maintain high-quality instruction during this expansion, we provided comprehensive onboarding and ongoing professional development for all TK teachers and instructional assistants. This training focused on three core pillars:
Assessment: Mastery of the Desired Results Developmental Profile (DRDP) to track individual student growth.
Curriculum: Implementation of Teaching Strategies (adopted in 2023) to ensure age-appropriate, rigorous instruction.
Whole-Child Support: Social-Emotional Competence training through the Center on the Social and Emotional Foundations for Early Learning (CSEFEL).

Recognizing that student success is rooted in family support, our Expanded Learning programs include TK students during after-school and summer sessions. Developed through meaningful consultation with our educational partners, these programs reflect our commitment to the "whole child" and provide the flexibility necessary to meet the diverse needs of the families we serve.

Teaching, Learning, and Strategic Staff Support
In Campbell, our commitment to student success begins with recruiting high-caliber educators and empowering them through Professional Learning Communities (PLCs). In order to achieve our vision of educating every child to their highest potential, we implement an instructional

model built on High-Quality First Instruction, a research-based approach designed to meet the needs of our most vulnerable learners—including English Learners, students with disabilities, foster youth, and low-income students. We utilize job-embedded professional development to ensure all teaching staff can evaluate multiple data points to inform collaborative planning and instruction. By centering our planning on California Common Core Standards and "Essential Standards," we create a rigorous, standards-based environment where students take ownership of their learning targets.

The Whole-Child Approach: Academics and Wellness
We provide a well-rounded educational experience that integrates technology, the arts, science (including environmental literacy), and physical education. This academic rigor is balanced by an equal emphasis on Social-Emotional Learning (SEL) and the Profile of a Graduate (POG) competencies. To remove barriers to success, CUSD maintains robust partnerships with community-based agencies such as Project Cornerstone (YMCA), Uplift, First 5, Catholic Charities, City of San Jose, and Alum Rock Counseling Center. Through a School Linked Services grant and the Santa Clara County Behavioral Health Services Department, our families access a comprehensive support network, including:
Counseling & Behavioral Health: Partnerships with Uplift and Alum Rock Counseling Center.
Family Resources: Parent education and resource management through First 5, Catholic Charities, and the City of San Jose.
Health Services: Integrated nursing support and community referrals.

Enrollment, Attendance, and Responsive Systems
Since our return to in-person learning in 2021, CUSD has seen a steady improvement in attendance and a significant decrease in chronic absenteeism, now approaching pre-pandemic levels. While the region faces shifting demographics, our expanded Transitional Kindergarten (TK) enrollment has offset broader declining enrollment trends, helping to stabilize our district's footprint. In the 2024–25 and 2025–26 school years, our system pivoted to address two specific trends:
Newcomer Multilingual Learners: Deploying targeted resources to support students arriving from diverse global backgrounds.
Increased Economic Need: Coordinating added supports for the growing number of students qualifying for free and/or reduced-price meals.

By transparently aligning our LCAP goals and metrics with these real-time challenges, we ensure that our actions and services have a measurable impact. We remain committed to knowing our impact—celebrating successes while remaining agile enough to evolve with the needs of our educational partners.

Village School is a dependent charter school operating under a parent participation model within the Campbell Union School District, located in the city of Campbell. As an open-enrollment school, we currently serve 201 students in transitional kindergarten through 5th grade, drawing families from the surrounding communities of Campbell, Los Gatos, and San Jose. Our diverse student body reflects a rich tapestry of cultural and linguistic backgrounds, with over 20 languages spoken among our families. The demographic breakdown of our student population is as follows: 17% Hispanic/Latino, 42% White, 20% Asian, and 21% identifying as either Two or More Races or Not Reported. Additionally, 16% of our students are English language learners, 7% receive special education services, and 14% are classified as socio-economically disadvantaged. (Data from CalPads as of January 2026).

We believe that education is not a one-size-fits-all endeavor. Our holistic approach nurtures the academic, social, and emotional growth of each student. Our mission is clear: "Village School, a family-centered nurturing community, inspires children to discover their fullest potential

on the road to lifelong learning." Parental and community involvement is central to our model. Volunteers play a critical role in the classroom, providing additional support that enables more hands-on learning experiences and targeted small group instruction. This collaborative environment strengthens the bond between school and home, fostering a sense of shared responsibility for student success.

The arts are deeply integrated into our curriculum. All students participate in weekly music and art classes, and multi-age classrooms, cross-age activities, and frequent field trips enrich the learning experience while aligning with the California Common Core Standards.

Our dedicated staff work tirelessly to cultivate a nurturing and inclusive school climate. We implement a Positive Discipline model alongside the Social Thinking curriculum and the No Bully program to support the social-emotional well-being of our students. These programs contribute to a respectful, safe environment where every child can thrive.

Our Local Control and Accountability Plan (LCAP) reflects our commitment to continuous improvement. The goals, metrics, and planned actions and services outlined in the LCAP address the ongoing needs of our students and school community.

We will continue to work closely with stakeholders, including parents and community members, to ensure that our strategies and services result in meaningful, measurable gains in student learning and well-being.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

A review of the 2025 California School Dashboard shows Village indicators for the school as a whole in the Green, with Science in Blue.

We have continued to focus our work on Chronic Absenteeism and have seen a steady increase overall in regular attendance. As of March 30, 2026, our year to date positive attendance rate is 96.21%. Two subgroups (English Learners and Socioeconomically Disadvantaged Students) moved from the Orange to the Yellow category. During the current school year we have implemented the following actions to support improved attendance for all students -

- Encouraging direct communication between teachers and students/families who are identified as chronically absent to let them know that their attendance is important and that they are missed by their classmates and teacher when they are not at school
- Using our district Community Liaison to support all families with an increased focus on English Learners and Socioeconomically Disadvantaged families
- 1:1 outreach to families before they are identified as chronically absent
- Providing information about attendance at English Learner Advisory Committee (ELAC), School Site Council (SSC), Parent Teacher Association (PTA) Community Meetings and Coffee with the Principal.

In the area of Suspension, White students are in the Orange on the 2025 Dashboard.

Village had no areas overall or for any student group in the Red on the 2023 California School Dashboard.

Campbell Union School District has unexpended Learning Recovery and Emergency Block Grant (LREBG) funds for the 2026-27 school year. The LREBG funded action for Village, in the amount of $99,144, may be found in Goal 2.3. See the action descriptions for an explanation of the rationale for choosing the selected actions.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Village was not identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
School Site Council (SSC)	Village School held five School Site Council meetings during the 2025-2026 school year where parents were given the opportunity to provide input on action items in the LCAP.
District English Language Acquisition Group (DELAC)	The district holds four DELAC meetings annually where parents are given the opportunity to provide input on action items in the LCAP that support emerging bilingual students. Surveys are given as part of the formal meetings to ensure parents have access and support to complete the survey. Community Liaisons regularly engage with this committee as well as parents who are not part of the committee to actively gather feedback on actions that will support newcomer and second language families. The Village DELAC representative is able to provide feedback to the Village ELAC at the local school level.
Students	The Superintendent meets five times a year with the Student advisory group made up of students from all 12 of our schools. The group is diverse and represents the ethnic groups we serve. Students are asked about issues at their schools that are going well and those that are in need of improvement. Students are actively engaged at the school levels as well with focus groups and school related surveys. Village School has two representatives who regularly attend these meetings. At the school site, student leaders in the Student Council offer input and feedback on implementation of the Village. Values (PBIS).

Educational Partner(s)	Process for Engagement
	Students in 3rd-5th Grade participate in the annual experience survey. The data from this survey is used to identify areas of strength as well as areas that require additional support.
Teachers	Teachers are engaged through school leadership teams which meet monthly, staff meetings, experience surveys and a process called Leader Rounding where teachers are asked a series of questions to understand their experience with different district/school services and processes. Teachers also have the opportunity to communicate questions/concerns/input to the Superintendent through Faculty Senate meetings held 6 times per year. Teacher feedback is also solicited after each professional development session and through the process of negotiations with the district annually.
Special Education	CUSD staff meets with the SELPA Director from the Santa Clara County office of Education annually to get input on CUSD's LCAP. Campbell's Special Education team leverages the Compliance Improvement Process (CIM) to further address ongoing supports for students with disabilities with review and input from CDE consultant. CIM surveys are sent annually to all families of students with disabilities for feedback on district involvement and feedback with IEPs. As a result of our CIM work, in 2023.2024 Campbell developed and launched a guide for supporting English Learners within the Multi-Tiered System of Support (MTSS) framework, aligning to our goal of high quality first instruction for students. Special Education Director attends SELPA Community Advisory Committee meetings. A special education parent is part of the district Superintendent's Parent Advisory Committee (SPAC) and part of school site council teams at the school level.
Principals/Administrators	School site Principals and District Administrators are engaged with the LCAP process regularly through Cabinet and District Leadership team monthly meetings. Data is regularly discussed and aligned to the actions as funded in the LCAP so that we can determine the impact of actions.
Classified Staff members	Classified staff participate in the annual employee experience survey. They are also asked for feedback through the process of Leader Rounding by their supervisors. They provide feedback after meetings and training through the Plus/Delta process.

Educational Partner(s)	Process for Engagement
Parents/Guardians	Village School uses the following methods to engage and inform parents/guardians at the school level: Coffee with the Principal meetings, School Site Council (SSC) meetings, Parent Teacher Association (PTA) meetings, and English Language Acquisition Committee (ELAC) meetings. These meetings include parents of students with an IEP. Slides prepared by the Teaching and Learning Department present LCAP information in small pieces all throughout the year. Topics included in the presentations are: data sharing of LCAP metrics, budget updates, dashboard data discussions, parent surveys and local indicators. At the end of each parent meeting we use a Plus/Delta process to gather input from parents. School data is also shared at PTA meetings and in School Board meetings. The process for district surveys is to send out notification that a survey is coming, we send postcards to families with instructions for how to take the survey (offered in Spanish and English), we communicate weekly during the survey window using Parent Square. The results are shared back with parents in a message from the Superintendent as well as individual school results shared with community partners in school based meetings.
English Learner Advisory Committee (ELAC)	Village School holds four ELAC meetings annually where parents are given the opportunity to provide input on action items in the LCAP that support emerging bilingual students. Surveys are given as part of the formal meetings. School administration and staff regularly engage with this committee, as well as parents who are not part of the committee, to actively gather feedback on actions that will support newcomer and second language families. The Village DELAC representative provides feedback, from the district DELAC meetings, to the Village ELAC at the local school level.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Village School Site Council and the English Learner Advisory Committee (ELAC) reviewed the LCAP. The School Site Council and ELAC are key partners in the LCAP process, providing local insight, data review, goal-setting support, and feedback to ensure that the needs of all students—especially high-needs students like English Learners and socioeconomically disadvantaged students—are reflected in the LCAP. During the meetings throughout the year, there were discussions and updates on local metrics and the budget.

Our ELAC looked intentionally at the progress of our English Learners. Our metrics show that we are closing the academic equity gap with our English Learners but our rate of reclassification is low. Our ELAC recommended keeping funding for hourly intervention for the coming school year but focusing that intervention on ensuring students are prepared in all areas necessary to meet the reclassification criteria.
Our School Site Council continues to be supportive of the work we are doing to improve academic and social emotional outcomes for all of our students. Their perspective has helped us to understand the priorities of our community and ways in which we can improve our practice.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Provide high quality academic first instruction for all students.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

CUSD is a data informed system. We use data to determine areas of strength and weakness and it helps us respond to instruction in professional learning communities. Current SBAC and local iReady academic data reports indicate that we have a disproportionate amount of students performing in tiers two and three, indicating that additional supports for students and teacher training are needed in tier 1. Data also demonstrates that there is an achievement gap between "all students" and our identified student-groups. (low socio-economic, English Learners, Foster Youth and students with disabilities) We examine academic data from both a growth and overall proficiency standpoint. SBAC data indicates that there is trend of students not maintaining proficiency as they move from one grade level to the next in math. Because of this concerning data trend we have developed this goal to ensure that we are examining the quality of instruction that ALL students receive in tier 1. Improving our first instruction through our professional learning community work and the actions associated in this LCAP plan will lead to greater teacher efficacy and student growth and achievement levels. As part of our anti-racism work, we have aligned a goal in this area that is to increase the racial literacy of our system. In order to provide high quality first instruction we must allow staff to learn and lean into discomfort to uncover bias. We will develop along a continuum in our pursuit to better serve all students.

		for teachers and administrators, supporting more meaningful reflection and planning from these results.				

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

In the 2025-2026 school year, in support of Village's goal to provide high quality academic first instruction for all students all actions with the exception of Action 1.1, were fully implemented.

This year we implemented a new Response to Intervention (RtI) schedule and routine that aimed to use school staff and instructional time in a more efficient and targeted manner in order to meet the instructional needs of all students during the school day. We were able to leverage our Multi-Tier Systems of Support (MTSS) IAs, resource staff as well as parent volunteers to support targeted small group instruction in all grade levels. Due to this change in our instructional supports during the school day, we did not implement hourly intervention before or after school this year (Action 1.1).

As a school, we have implemented multi-age classes for all kindergarten through fifth grade students and we welcomed new students in both kindergarten and 1st grade. We shifted our Kinder Round Up to a more inclusive event and to provide a welcoming environment for all new kindergarten and 1st graders. We had a total of 21 new students attend our New Student Meet and Greet before school started in August of 2025.

During the 2025-2026 school year, our Reading Intervention Specialist served 28 students. We increased the average number of sessions per week from 2 to 3, with many students receiving reading intervention 3-4 days each week. Of those students who received service from our Reading Intervention Specialist, 67% met or exceeded their iReady or DIBELS growth goal in the area of English Language Arts.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2025-2026, the following differences occurred:

Action 1.1 - Hourly Intervention: $3000 was budgeted to pay teachers or instructional aides to provide before or after school intervention to students. Due to increased RtI (Response to Intervention) support during the school day, we did not provide after school enrichment or intervention classes. $1000 was shifted to Action 1.3 to pay for additional curriculum materials. $2000 will be carried over into next year's budget to support intervention and enrichment classes. Based on feedback from the English Learner Advisory Committee (ELAC) and School Site Council (SSC) we will prioritize support for English Leaners.

Action 1.2 - Kinder Round Up: $750.00 was budgeted to pay teachers for their time planning and running this event. Teachers spent less time than anticipated so we only spent $600.00 on this item. The excess money was shifted to Action 1.3 to purchase additional curriculum resources. For the coming year, we anticipate an increase in budget due to an additional teacher participating in this event.

Action 1.3 - Curriculum Materials: $2308.00 was budgeted to purchase curriculum materials. We spent $2898.00 because, as a staff, we decided to purchase the Struggly math application for the entire school as a supplemental curriculum support that tool. Staff and students reported a positive experience with this application and we have decided to include it in our budget for the 2026-2027.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

A review of the metrics shows that all actions as categorized below have demonstrated or are approaching effectiveness in making progress toward Village's goal of providing high quality academic first instruction for all students. This year we saw that our scores showed improvement or stayed steady compared last year in almost all metrics (1.1, 1.2, 1.3, 1.4, 1.7, 1.8, 1.9, 1.10, 1.11, 1.12).

Action 1.1 Although we did not pay for before or after school hourly intervention this year, we provided additional targeted small group instruction to students during the school day. We believe that this directly affected the positive growth we saw for our English Learners. 2025 Winter i-Ready reading and math (Metrics 1.6 and 1.7) scores show significant growth for English Learners (ELs) compared to the 2024 Winter i-Ready data. In the area of reading, 26% of ELs were scoring at or above grade level in January 2025, compared to 6% in January 2024 (Metric 1.6). In the area of math, 41% of ELs were scoring at or above grade level in January 2025, compared to 23% in January 2024 (Metric 1.7).

Action 1.2 21 new kinder and first grade students attended our New Student Meet and Greet (Formerly Kinder Round Up) in the summer of 2025. This event allowed teachers and students to get to know one another and aided teachers in creating balanced classrooms for our K/1 classes.

Action 1.3 Curriculum materials purchased included the Struggly App, and Mystery Writing to support student growth in these identified areas. Winter iReady scores (Metrics 1.6 & 1.7) show an overall increase as well as increases in all subgroups except math scores for students with disabilities, which stayed the same. SBAC scores (Metric 1.1) in the area of English Language Arts increased from last year, with 69% of students meeting or exceeding standard. While this is a decrease from our baseline, it is an increase from last year. SBAC scores (Metric 1.2) in the area of Math increased from last year, with 67% of students meeting or exceeding standard. This is an increase from both last year and our baseline. We will continue to monitor SBAC and CAST scores (Metrics 1.1, 1.2 and 1.3) to evaluate effectiveness of this action.

Action 1.4 This year we requested that our part time Reading Intervention teacher be increased from .4 FTE to .5 FTE and that she be scheduled at our school four mornings a week instead of two full days. These changes allowed her to work with students three to four days a week instead of just two days a week. As a result of more frequent and targeted support for our lower grade students, we saw an overall increase on our K-2 DIBELS assessment (Metric 1.8) scores this year as compared to last year's scores. During the 2024-2025 school year, 65% of students were meeting benchmark goals during the winter assessment period. During the 2025-2026 school year, that number increased to 73% overall meeting benchmark goals. In addition, all subgroups improved their scores with notable growth for English Learners who went from 38% meeting benchmark last year to 64% meeting benchmark this year. We saw a drop in SBAC English Language Arts scores during the 2023-2024 school year but and increase in SBAC scores during the 2024-2025 school year. We will continue to monitor this data and we will focus on consistent progress monitoring and small group instruction to continue to meet the needs of students who are scoring below or far below on this assessment.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes to the planned goal or actions for 2026.2027.

For 2025.2026, the following metric has been adjusted:
Metric 1.10: The metric has been adjusted to show the percent of students with access to standards aligned instructional materials for each subject area. This change allows for increased insight into curricular availability and increases alignment between School Accountability Report Cards (SARCs) and the LCAP metric. As a result of this shift, the target for this Metric has been updated, baseline results are now noted in Year Two of the Metric, and the Current Difference from Baseline is not applicable for this reporting year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Hourly Intervention	Hourly Certificated or Classified employees will provide Tier 2 intervention to to students identified as needing additional support.	$2,000.00	No
1.2	K-1 New Student Meet and Greet (Kinder Round Up)	Kindergarten and TK teachers will attend one day prior to first day of school to assess students	$900.00	No

Action #	Title	Description	Total Funds	Contributing
1.3	Curriculum Materials	Supplemental curriculum materials will be purchased to support high quality lesson design and hands on learning opportunities.	$4,375.00	No
1.4	Reading Intervention	.5 FTE Reading support for students scoring below benchmark goals	$91,657.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Provide high quality social emotional learning for all students.	Broad Goal

State Priorities addressed by this goal.

Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

CUSD is a data informed system. We use data to determine areas of strength and weakness and it helps us respond to instruction in professional learning communities. This goal was created to help the district establish a clear and articulated multi-tiered system of support. District data in this area indicates that we have a higher percentage of suspensions and absences for specific student-groups. Actions in this area will be designed to improve outcomes for all students, with targeted intervention for sub-groups where data indicates need. This goal is also important to help us reach our goals associated with becoming an anti-racist organization. As part of this work we aligned a goal to normalize conversations about race. This supports the healthy social emotional development of all students in our system. We must transparently identify and deconstruct issues of race and bias that are negatively impacting our system.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

In the 2025-2026 school year, all actions for Village's goal of providing high quality social emotional learning for all students were fully implemented.

Positive Discipline and No Bully Training: We did not have any new staff requiring training in the Positive Discipline and No Bully. We continued to provide these trainings to our parent volunteers through our Parent Teacher Association (PTA) Parent Education program.

PBIS/SEL (Positive Behavioral Interventions and Supports/Social and Emotional Learning) Program development: Last year we purchased the basic Social Thinking curriculum for all classrooms. During the 2025-2026 school year we provided training to all staff on implementing the Social Thinking curriculum. We are in the early stages of implementing a student recess helper (Junior Coaches) program to support more consistent enforcement of school PBIS expectations. An hourly staff member was hired to support this implementation and this year she trained 32 students in the Junior Coaches program. In addition, all yard duty employees and volunteers and all Junior coaches were trained in using the Peace Path to support conflict resolution. We developed standardized language for problem solving and conflict resolution. We trained all yard duty volunteers in this language and provided them with resource cards to help them support students during recess and lunch time. Local Control Funding Formula (LCFF) funds were used to purchase posters and signs supporting our school-wide behavior expectations.

MTSS Aide: This year we continued to employ two Multi-Tiered System of Supports (MTSS) Instructional Aides (IAs) to support student academic and social emotional growth. The MTSS IAs did both push in and pull out support for students needing Tier 2 and Tier 3 support. They also supported our Positive Behavioral Interventions and Supports (PBIS) implementation by supervising students during recess and lunch periods. The MTSS IAs were instrumental in supporting the implementation of our RtI schedule. They were assigned to support grade level teams during their RtI protected time which allowed us to provide flexible small group intervention to students where did not meet academic goals as measured by Common Formative Assessments.

Library Media Specialist: Our school Library/Media Specialist supported social emotional development through weekly read alouds focused on Social and Emotional Learning (SEL) and diversity. In addition, they curated a diverse collection of books that represent student identity and experience. This year, we were able to open our library during recess and lunch time three days a week to provide alternate activities for students who chose to come to the library during that time.

In addition to these actions, through our school-district focus on continual improvement modules, teachers have been implementing strategies to encourage more student voice and student engagement in goal setting and data analysis.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditure and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

A review of the metrics shows that all actions as categorized below have demonstrated effectiveness in making progress toward Village's goal of providing high quality social emotional learning for all students.

Action 2.1 Positive Discipline & No Bully Training - We did not provide additional staff training in Positive Discipline or No Bully during the 2025-2026 school year because during the 2024-2025 school year 11 certificated staff members attended a 2 hour staff training on the No Bully "TALK" protocol on August 15, 2024. During this training, staff was introduced to a conflict resolution protocol which was then shared with students and volunteers. In addition, 15 staff members, including both certificated and classified staff, attended a 2 hour Positive Discipline training on November 13, 2024. This year, the percentage of students selecting favorable responses to questions related to "Sense of Belonging" on the Panorama Survey increased from 60% to 69% from 2024.2025 to 2025.2026 (Metric 2.6). While we did not see this growth last year, we are happy that this work has translated into an improved student experience this year.

During the 2024-2025 school year, Social Thinking curriculum materials were purchased for 10 classrooms, including our Intervention classroom to help support student social and emotional learning. All teachers participated in Social Thinking training in the fall of 2025. As mentioned above, favorable responses to questions related to "Sense of Belonging" on the Panorama Survey increased from 60% to 69% (Metric 2.6).

Action 2.2 - PBIS/SEL Program Development: SEL and PBIS resources, aligned with Positive Discipline, were developed to support a positive school climate, specifically during recess times. Training was be provided to staff, students and volunteers to ensure school wide expectations were clear and enforced. We are in the early phases of implementing a Junior Coach program that will create leadership opportunities for upper grade students during recess and lunch. Favorable responses to questions related to students feeling safe at school on the Annual Student Engagement Survey increased from 4.01 to 4.16 (Metric 2.7) from 2024.2025 to 2025.2026. In addition, our largest gains on the Annual Student Survey were in response to the statement, "Rules are consistently enforced." Last year this was one of our lowest scores but we increased from 3.47 last year to 4.0 this year.

Action 2.3 - Preliminary attendance data suggests that we are on track to showing a significantly lower rate of chronic absenteeism this year. As of March, 2026, our year to date positive attendance rate is (Metric 2.1) is 96.21% - a gain of 0.20% from this time last year. Chronic absenteeism has been steadily declining since 2022. In the 2022-2023 school year, our chronic absenteeism rate was 13%. As of the end of the 2024-2025 school year, that number (Metric 2. 2) had decreased to only 5.4%, meeting the district goal of less than 6% of students being identified as chronically absent. This may in part be due to the increased support offered by our two MTTS Instructional Aides, as well as more targeted support from our family liaison. Having additional caring adults who build relationships through regular check ins with chronically absent students has helped those students stay engaged in school. In addition, consistent support in the classroom and during recess and lunch has helped our students feel safe at school. Student responses from the 2025-2026 Annual Student Engagement Survey to the statement "I feel safe at school" (Metric 2.7) show a consistently high rate of 4.16.

Action 2.4 - Our Library/Media Specialist is an integral part of the Village community. All students visit the library on a weekly basis. During library time, our Library/media Specialist selects and reads books which support our social emotional curriculum. Allowing students to visit the library during recess and lunch time provided students with alternatives to playground and field activities and may have contributed to our increases in responses to survey questions in the areas of Sense of Belonging on both the Panorama Survey and the Annual Student Engagement Survey.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes to the goal, metrics, targeted outcomes, or actions for 2026.2027.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Positive Discipline & No Bully Training	New staff will receive basic training in both Positive Discipline and No Bully. Training materials have already been purchased and new staff will attend training provided by volunteer trainers.	$500.00	No
2.2	PBIS/SEL Program Development	SEL and PBIS resources, aligned with Positive Discipline, will be developed to support a positive school climate. Training will be provided to staff, students and volunteers to ensure school wide expectations are clear and enforced. We will create leadership opportunities for upper grade students during recess and lunch.	$3,000.00	No
2.3	MTSS Aide	LREBG funded action as identified by the needs assessment: 1.5 FTE MTSS Instructional Associates support students within California's Multi Tiered Systems of Support framework, integrating evidence-based intervention practices with local systems and initiatives to effectively respond to students' academic, social-emotional, and behavioral needs (Allowable Use of Funds - Criteria C). LREBG Funds: $99,144 Metrics 1.6,1.7,1.8,1.4	$99,144.00	No
2.4	Library/Media Specialist	The library/media specialist supports Social Emotional development through weekly read alouds focused on SEL and diversity. In addition, they curate a collection of books that represent student identity and experience.	$16,135.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Fully engage parents/guardians, and the community in support of student well-being.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

In Campbell, we realize that partnering with families is essential to help reach our goal of educating each child to their highest potential. We understand the research that says that students who have parents or guardians who are actively engaged in the educational process of children leads to better social emotional and academic results. This became even more apparent to us during the pandemic as we depended on a mutually beneficial partnership to ensure student success. Internal data in Campbell demonstrates that we have active parent leadership groups at each school; however, there is a need to more actively engage families who are representative of the community we serve. In order to meet our goals of becoming an Anti-Racist District we realize that we need more diverse perspectives when engaging families in support of our students. We have created an anti-racism goal that aligns to this LCAP goal and that is to tap the untapped voices in our system. To fully understand student needs we must directly connect with families to find out what supports and services will be most beneficial in helping children meet goals.

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

In the 2025-2026 school year, all actions for Village's goal of fully engaging parents/guardians, and the community in support of student well-being were fully implemented.

Action 3.1 Communication tools for ELs & Parents: Two iPads were purchased during the 2024-2025 school year. These iPads were used to support communication between school and parents, although this was not such a big need this year. We also used our iPads to provide parents access to wifi and school applications such as Paren Square and Konstella.

Action 3.2 Materials and Food for ELAC Meetings: Food was provided at all English Learner Advisory Committee (ELAC) meetings.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditure and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

A review of the metrics shows that all actions as categorized below have demonstrated mixed efficacy in making progress toward Village's goal of fully engaging parents/guardians, and the community in support of student well-being.

Action 3.1 - Communication tools for ELs & Parents: Feedback from the School Site Council (SSC) and English Learner Advisory Committee (ELAC) showed and increase from a 3 (Initial Implementation) to a 4 (Full Implementation) in Metric 3.4, "LEA's/school's providing families with information and resources to support student learning and development in the home." We will continue implementation in the coming year and measure effectiveness by looking at parent survey responses and meeting attendance. (Contributing Action 3.1)

Action 3.2 - Materials and Food for ELAC Meetings: Although we did see an increase in attendance in our 1st and 4th English Learner Advisory Committee (ELAC) meetings, it is not clear that purchasing food was the driving force in this improvement. In addition to providing food at ELAC meetings, we adjusted our meeting times, based on feedback from our needs assessment, to meet the needs of our parents of English Learners and we sent paper reminders and called each family before ELAC meetings. Families reported that the phone calls and paper reminders influenced their attendance more than providing food. (Contributing Action 3.1)

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes to the planned goal, metrics, targeted outcomes or actions for 2026-2027 school year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Communication tools for ELs & Parents	Purchased 2 iPads and applications in 24.25 to be used as communication tools for newcomers and families of English Learners. Action is ongoing without new expenditures for 25.26.	$0.00	Yes
3.2	Materials and Food for ELAC Meetings	Purchase educational materials and/or food to increase engagement in ELAC meetings	$200.00	Yes

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

	0.000%	$0.00	

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
3.1	**Action:** Communication tools for ELs & Parents **Need:** With over 20 languages spoken in our community, we do not have interpreters available to support all languages. Parents and teachers report difficulty communicating during community meetings and conferences. **Scope:** Limited to Unduplicated Student Group(s)	The iPads will have translation applications to be used by families and newcomer students to facilitate communication.	Parent and Family engagement metrics 3.4 and 3.5
3.2	**Action:** Materials and Food for ELAC Meetings **Need:** Our ELAC committee meetings were only attended by a few community members this year. **Scope:** Limited to Unduplicated Student Group(s)	We would like to increase engagement by providing more active parent education opportunities as well as light snacks during meetings.	Parent and Family engagement metrics 3.4 and 3.5

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Village Elementary School is required to demonstrate increased and improved actions or services for emerging bilingual, foster youth, and low-income students by 6.17%. This increased percentage is met by actions and services included in the Local Control Accountability Plan. The planned actions, informed by stakeholder engagement, are outlined in the table above.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

No additional concentration grant add-on funding received.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	Not Applicable	Not Applicable
Staff-to-student ratio of certificated staff providing direct services to students	Not Applicable	Not Applicable

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and

- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

- The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
    - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and

- Professional development for teachers.
- If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).
  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
    - Identify the action as an LREBG action;
    - Include an explanation of how research supports the selected action;
    - Identify the metric(s) being used to monitor the impact of the action; and
    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would

divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater

than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
    - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
    - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
    - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
    - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
    - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
    - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
    - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

      The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
    - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
